

**illimity Bank S.p.A.**

*(incorporated as a joint stock company (società per azioni) in the Republic of Italy)*

**€3,000,000,000**

**Euro Medium Term Note Programme**

This base prospectus (the "**Base Prospectus**") constitutes a base prospectus for the purposes of Article 8(1) of Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"). Under this €3,000,000,000 Euro Medium Term Note Programme (the "**Programme**"), illimity Bank S.p.A. (the "**Issuer**" or the "**Bank**" or "**illimity**" or "**us**" or "**we**") may from time to time issue (i) notes in physical form governed by Italian law (the "**Italian Law Notes in Physical Form**") and (ii) notes in dematerialised form (the "**Dematerialised Notes**" and, together with the Italian Law Notes in Physical Form, the "**Notes**"), denominated in any currency agreed between the Issuer and the Dealers (as defined below).

The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed €3,000,000,000 (or its equivalent in other currencies calculated as described in the Dealer Agreement described herein), subject to increase as described herein. In the event of such increase, a supplement to this Base Prospectus will be prepared by the Issuer, which shall be approved by the CSSF (as defined below) in accordance with Article 23 of the Prospectus Regulation.

The Notes may be issued on a continuing basis to the Dealer specified under "*General Description of the Programme*" below and any additional Dealer appointed under the Programme from time to time by the Issuer (each a "**Dealer**" and together the "**Dealers**"), which appointment may be for a specific issue or on an ongoing basis. References in this Base Prospectus to the "**relevant Dealer**" shall, in the case of an issue of Notes being subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

Interest and/or other amounts payable under the Notes may be calculated by reference to benchmarks including EURIBOR or CMS, or such other reference rate as specified in the relevant Final Terms or Drawdown Prospectus (as defined below) as the case may be. As at the date of this Base Prospectus, the European Money Markets Institute ("**EMMI**", as administrator of EURIBOR) is included in the European Securities and Markets Authority's ("**ESMA**") register of administrators under Article 36 of the Regulation (EU) No. 2016/1011 (the "**EU Benchmarks Regulation**"). As at the date of this Base Prospectus, ICE Benchmark Administration (as administrator of CMS) does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation. As far as the Issuer is aware, the transitional provisions in Article 51 of the EU Benchmarks Regulation apply, such that ICE Benchmark Administration is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

**An investment in Notes issued under the Programme involves certain risks.** The principal risk factors that may affect the ability of the Issuer to fulfil its obligations under the Notes are discussed under "*Risk Factors*" below.

The Base Prospectus has been approved as a base prospectus by the Luxembourg *Commission de Surveillance du Secteur Financier* (the "**CSSF**"), as competent authority under the Prospectus Regulation. The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the CSSF should not be considered as an endorsement of the Issuer or of the quality of the Notes. Investors should make their own assessment as to the suitability of investing in the Notes.

By approving the Base Prospectus, the CSSF gives no undertaking as to the economic or financial soundness of the transaction or the quality and solvency of the Issuer in line with the provisions of Article 6(4) of the *loi du 16 juillet 2019 relative aux prospectus pour valeurs mobilières* dated 16 July 2019 (the "**Luxembourg Prospectus Law**"). This Base Prospectus is valid for admission to trading of Notes on a regulated market for the purposes of Directive 2014/65/EU (as amended, "**MiFID II**") for a period of twelve months from the date of approval ending on 24 November 2024, *provided that* it is completed by any supplement, pursuant to Article 23 of the Prospectus Regulation, following the occurrence of a significant new factor, a material mistake or a material inaccuracy relating to the information included (including incorporated by reference) in this Base Prospectus which may affect the assessment of the Notes. For the avoidance of doubt, the Issuer shall have no obligation to supplement this Base Prospectus after the end of its 12-month validity period. Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to trading on the regulated market of the Luxembourg Stock Exchange and to be listed on the Official List of the Luxembourg Stock Exchange. References in this Base Prospectus to Notes being listed (and all related references) shall mean that such Notes have been admitted to trading on the regulated market of the Luxembourg Stock Exchange (*Bourse de Luxembourg*) and have been "listed" on the Official List of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange's regulated market is a regulated market for the purposes of MiFID II.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche (as defined herein) of Notes will be set out in the Final Terms (as defined below) which, with respect to Notes to be listed, will be filed with the CSSF. Copies of Final Terms in relation to Notes to be listed on the Luxembourg Stock Exchange will also be published on the website of the Luxembourg Stock Exchange ([www.luxse.com](http://www.luxse.com)).

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchange(s) or markets as may be agreed between the Issuer and the relevant Dealer. The Issuer may also issue unlisted Notes and/or Notes not admitted to trading on any market. The CSSF has neither approved nor reviewed information contained in this Base Prospectus in connection with unlisted Notes and/or Notes not admitted to trading on any market.

Each Tranche (as defined herein) of Notes will be issued on the terms set out herein under "*Terms and Conditions of the Italian Law Notes in Physical Form*" (the "**Terms and Conditions of the Italian Law Notes in Physical Form**") or "*Terms and Conditions of the Dematerialised Notes*" (the "**Terms and Conditions of the Dematerialised Notes**" and, together with Terms and Conditions of the Italian Law Notes in Physical Form, the "**Conditions**") as completed by a document specific to such Tranche called final terms (the "**Final Terms**") or in a separate prospectus specific to such Tranche (a "**Drawdown Prospectus**") as described under "*Final Terms and Drawdown Prospectuses*" below.

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended, (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, and notes in bearer form are subject to U.S. tax law requirements. The Notes may not be offered, sold or (in the case of Notes in bearer form) delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) except in certain transactions exempt from the registration requirements of the Securities Act.

The language of the Base Prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

**MiFID II product governance / target market** – The Final Terms or Drawdown Prospectus, as the case may be, in respect of any Notes will include a legend entitled "*MiFID II Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID II Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID II Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules.

**UK MiFIR product governance / target market** - The Final Terms or Drawdown Prospectus, as the case may be, in respect of any Notes will include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to the UK MiFIR product governance rules set out in the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

**IMPORTANT – EEA RETAIL INVESTORS** - *If the Final Terms or Drawdown Prospectus, as the case may be, in respect of any Notes include a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended or superseded, the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No. 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.*

**IMPORTANT – UK RETAIL INVESTORS** - *If the Final Terms or Drawdown Prospectus, as the case may be, in respect of any Notes include a legend entitled "Prohibition of Sales to UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018; or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act, 2000 (the "FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.*

Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of the Issuer, any of the Dealers or the Fiscal Agent or the Paying Agents to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Base Prospectus nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers and the Fiscal Agent and the Paying Agents expressly do not undertake to review the financial condition or affairs of the Issuer during the life of the Programme or to advise any investor in the Notes of any information coming to their attention. The Issuer, the Dealers and the Fiscal Agent and the Paying Agents do not represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Dealers or the Fiscal Agent or the Paying Agents which would permit a public offering of any Notes outside the EEA or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Notes in the United States, the United Kingdom, the EEA (including France and the Republic of Italy) and Japan. See "*Subscription and Sale*" below.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of

borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk based capital or similar rules.

This Base Prospectus includes forward-looking statements. These include statements relating to, among other things, the future financial performance of the Issuer, plans and expectations regarding developments in the business, growth and profitability of the Issuer and general industry and business conditions applicable to the Issuer. The Issuer has based these forward-looking statements on its current expectations, assumptions, estimates and projections about future events. These forward-looking statements are subject to a number of risks, uncertainties and assumptions that may cause the actual results, performance or achievements of the Issuer or those of its industry to be materially different from or worse than these forward-looking statements. The Issuer does not assume any obligation to update such forward-looking statements and to adapt them to future events or developments except to the extent required by law.

ESG ratings may vary amongst ESG ratings agencies as the methodologies used to determine ESG ratings may differ. The Issuer's ESG ratings are not necessarily indicative of its current or future operating or financial performance, or any future ability to service the Notes and are only current as of the dates on which they were initially issued. Prospective investors must determine for themselves the relevance of any such ESG ratings information contained in this Base Prospectus or elsewhere in making an investment decision. Furthermore, ESG ratings shall not be deemed to be a recommendation by the Dealers or any other person to buy, sell or hold the Notes. Currently, the providers of such ESG ratings are not subject to any regulatory or other similar oversight in respect of their determination and award of ESG ratings. For more information regarding the evaluation methodologies used to determine ESG ratings, please refer to the relevant ratings agency's website (which website does not form a part of, nor is incorporated by reference in, this Base Prospectus).

#### **Public Offers of Notes in the European Economic Area**

Certain Tranches of Notes (other than the Senior Non-Preferred Notes which shall have a denomination of at least €150,000 and the Subordinated Notes which shall have a denomination of at least €200,000, or such other minimum denomination provided by applicable law from time to time) with a denomination of less than €100,000 (or its equivalent in any other currency) may, subject as provided below, be offered in any Member State of the European Economic Area in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to in this Base Prospectus as a "**Public Offer**". This Base Prospectus has been prepared on a basis that permits Public Offers of Notes in Italy (the "**Public Offer Jurisdiction**"). Any person making or intending to make a Public Offer of Notes in the Public Offer Jurisdiction on the basis of this Base Prospectus must do so only with the consent of the Issuer – see "*Consent given in accordance with Article 5(1) of the Prospectus Regulation (Retail Cascades)*" below.

If after the date of this Base Prospectus the Issuer intends to add one or more Member States to the list of Public Offer Jurisdictions for any purpose, it will prepare a supplement to this Base Prospectus specifying such Member State(s) and any relevant additional information required by the Prospectus Regulation. Such supplement will also set out provisions relating to the consent of the Issuer to the use of this Base Prospectus in connection with any Public Offer in any such additional Public Offer Jurisdiction.

In the context of any Public Offer of Notes, the Issuer accepts responsibility in that Public Offer Jurisdiction, for the content of this Base Prospectus in relation to any person (an "**Investor**") who purchases any Notes made by a Dealer or an Authorised Offeror (as defined below), where that offer is made during the Offer Period (as defined below).

Except in the circumstances described below, the Issuer has not authorised the making of any offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any offer of the Notes in any jurisdiction.

## **Consent given in accordance with Article 5(1) of the Prospectus Regulation (Retail Cascades)**

Any offer made without the consent of the Issuer is unauthorised and the Issuer, nor, for the avoidance of doubt, any of the Dealers accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.

If, in the context of a Public Offer, an Investor is offered Notes by a person which is not an Authorised Offeror, the Investor should check with such person whether anyone is responsible for this Base Prospectus for the purpose of the relevant Public Offer and, if so, who that person is.

If an Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents, the Investor should take legal advice.

### **Consent to the use of this Base Prospectus**

#### ***Common conditions to Consent***

The conditions to the consent of the Issuer are (in addition to the conditions described in either sub-Paragraph (a) (*Specific Consent*) or sub-Paragraph (b) (*General Consent*) under "*Specific Consent and General Consent*" below) that such consent:

- (i) is only valid in respect of the relevant Tranche of Notes;
- (ii) is only valid during the Offer Period specified in the applicable Final Terms; and
- (iii) only extends to the use of this Base Prospectus to make Public Offers of the relevant Tranche of Notes.

The consent referred to above relates to Public Offers occurring within twelve months from the date of this Base Prospectus.

#### ***Specific Consent and General Consent***

Subject to the conditions set out above under "*Common Conditions to Consent*", the Issuer consents to the use of this Base Prospectus in connection with a Public Offer of Notes by:

(a) ***Specific Consent:***

- (i) the Dealers specified in the relevant Final Terms;
- (ii) any financial intermediaries specified in the applicable Final Terms; and
- (iii) any financial intermediary appointed after the date of the applicable Final Terms and whose name is published on the website of the Issuer and identified as an Authorised Offeror in respect of the relevant Public Offer; and

(b) ***General Consent:***

if General Consent is specified in the relevant Final Terms as applicable, any other financial intermediary which:

- (i) is authorised to make such offers under MiFID II; and
- (ii) accepts such offer by publishing on its website the following statement (with the information in square brackets duly completed with the relevant information) (the "**Acceptance Statement**"):

*"We, [insert legal name of financial intermediary], refer to the [insert title of relevant Notes] (the "Notes") described in the Final Terms dated [insert date] (the "Final Terms") published by [insert name of Issuer] (the "Issuer").*

*In consideration of the Issuer offering to grant their consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the offer of the Notes in Italy during the Offer Period in accordance with the Authorised Offeror Terms (as specified in the Base Prospectus), we accept the offer by the Issuer. We confirm that we are authorised under MiFID II to make, and are using the Base Prospectus in connection with, the Public Offer accordingly.*

*Terms used herein and otherwise not defined shall have the same meaning as given to such terms in the Base Prospectus."*

Any financial intermediary falling within this sub-Paragraph (b) who wishes to use this Base Prospectus in connection with a Public Offer is required, for the duration of the relevant Offer Period specified in the applicable Final Terms, to publish a duly completed Acceptance Statement on its website.

#### *Authorised Offerors*

The financial intermediaries referred to in sub-Paragraphs (a)(ii) and (a)(iii) and sub-Paragraph (b), above, are together referred to herein as the "**Authorised Offerors**".

#### **Arrangements between an Investor and the Authorised Offeror who will distribute the Notes**

Neither the Issuer (nor, for the avoidance of doubt, any of the Dealers) has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY NOTES IN A PUBLIC OFFER FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH NOTES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH ANY TERMS AND OTHER ARRANGEMENTS IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING AS TO PRICE, ALLOCATIONS, EXPENSES AND SETTLEMENT ARRANGEMENTS. THE ISSUER WILL NOT BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS IN CONNECTION WITH THE PUBLIC OFFER OR SALE OF THE NOTES CONCERNED AND, ACCORDINGLY, THIS BASE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE INVESTOR MUST LOOK TO THE RELEVANT AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER FOR THE PROVISION OF SUCH INFORMATION AND THE AUTHORISED OFFEROR WILL BE RESPONSIBLE FOR SUCH INFORMATION. NONE OF THE ISSUER AND THE DEALERS HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF SUCH INFORMATION.

In the event of an offer being made by a financial intermediary, such financial intermediary will provide information to investors on the terms and conditions of the offer at the time the offer is made.

If the Final Terms state that the consent to use the Base Prospectus is given to all Dealers or financial intermediaries (general consent), any Dealer or financial intermediary using the Base Prospectus is required to state on its website that it uses the Base Prospectus in accordance with the consent and the conditions attached thereto.

If the Final Terms state that the consent to use the prospectus is given to one or more specified Dealers or financial intermediaries (individual consent), any new information with respect to Dealers or financial intermediaries unknown at the time of the approval of the Base Prospectus or the filing of the Final Terms will be published on the website <https://illimity.com/en>.

#### **Public Offers: Issue Price and Offer Price**

Notes to be offered pursuant to a Public Offer will be issued by the Issuer at the Issue Price specified in the applicable Final Terms. The Issue Price will be determined by the Issuer in consultation with the relevant Dealer(s) at the time of the relevant Public Offer and will depend, amongst other things, on the interest rate applicable to the Notes and prevailing market conditions at that time. The offer price of such Notes will be the Issue Price or such other price as may be agreed between an Investor and the Authorised Offeror making the offer of the Notes to such Investor. The Issuer will not be party to arrangements between an Investor and an Authorised Offeror, and

the Investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Notes to such Investor.

### **Suitability of the Notes as an investment**

Each potential investor in the Notes must determine the suitability of that investment in the light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the currency in which such investor's financial activities are principally denominated;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as standalone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

### **STABILISATION**

In connection with the issue of any Tranche of Notes, the Dealer (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Final Terms or, as the case may be, Drawdown Prospectus may over allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Such stabilising shall be conducted in accordance with all applicable laws and rules. Any loss or profit sustained as a consequence of any such over-allotment or stabilising shall, as against the Issuer, be for the account of the Stabilisation Manager(s) and the Lead Manager(s).

### **MARKET STATISTICS**

Information and statistics presented in this Base Prospectus regarding business trends, market trends, market volumes and market share of illimity are either derived from, or are based on, internal data. No information has been sourced from third parties.

The terms and conditions applicable to any particular Tranche of Notes which is the subject of such relevant Final Terms are the Conditions as completed by such Final Terms.

In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

#### **Issuance in Series:**

Notes will be issued in series (each, a "**Series**"). Each Series may comprise one or more tranches ("**Tranches**" and, each, a "**Tranche**") issued on different issue dates. The Notes of each Series will be subject to identical terms, except that the issue date and the amount of the first payment of interest may be different in respect of different Tranches. The Notes of each Tranche will be subject to identical terms in all respects save that a Tranche may comprise Notes of different denominations.

#### **Form of Italian Law Notes in Physical Form:**

The Italian Law Notes in Physical Form will be in bearer form and will on issue be represented by either a Temporary Global Note or a Permanent Global Note as specified in the relevant Final Terms. Temporary Global Notes will be exchangeable for either (i) interests in a Permanent Global Note or (ii) definitive Notes, as indicated in the relevant Final Terms. Permanent Global Notes will be exchangeable for definitive Notes upon either (i) not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions

of any holder of an interest in such Permanent Global Note) to the Agent as described therein or (ii) only upon the occurrence of the events described under "*Form of the Notes*".

**Form of the Dematerialised Notes:**

The Dematerialised Notes will be in bearer form and will be held in dematerialised form on behalf of the beneficial owners, until redemption or cancellation thereof, by Monte Titoli for the account of the relevant Monte Titoli Account Holders as of their respective date of issue. The expression "Monte Titoli Account Holders" means any authorised financial intermediary institution entitled to hold accounts on behalf of their customers with Monte Titoli and includes any depository banks appointed by Euroclear and Clearstream, Luxembourg. The Dematerialised Notes have been accepted for clearance by Monte Titoli. The Dematerialised Notes will at all times be held in book entry form and title to the Dematerialised Notes will be evidenced by book entries pursuant to the relevant provisions of the Financial Services Act and in accordance with the CONSOB and Bank of Italy Joint Regulation. The Noteholders may not require physical delivery of Dematerialised Notes. However, the Noteholders may ask the relevant intermediaries for certification of their holding pursuant to Article 83-*quinquies* and 83-*sexies* of the Financial Services Act.

**Interest:**

Notes may be interest-bearing or non-interest bearing. Interest (if any) may accrue at a fixed rate or a floating rate or a variable rate or be index-linked and the method of calculating interest may vary between the issue date and the maturity date of the relevant Series. Reset Notes will, in respect of an initial period, bear interest at the initial fixed rate of interest specified in the relevant Final Terms. Thereafter, the fixed rate of interest will be reset on one or more date(s) specified in the relevant Final Terms by reference to a mid-market swap rate, as adjusted for any applicable margin, in each case, as may be specified in the relevant Final Terms.

**Other provisions in relation to Floating Rate Notes:**

Floating Rate Notes may also have a maximum interest rate, a minimum interest rate or both.

Interest on Floating Rate Notes in respect of each Interest Period, as agreed prior to issue by the Issuer and the relevant Dealer, will be payable on such Interest Payment Dates, and will be calculated on the basis of such Day Count Fraction, as may be agreed between the Issuer and the relevant Dealer.

**Benchmark replacement:**

Condition 6(f) (*Benchmark Replacement*) provides for certain fallback arrangements in the event that a Benchmark Event (as described in the Conditions) occurs in relation to an Original Reference Rate at any time when the Conditions provide for any remaining Rate of Interest (or any component part(s) thereof) to be determined by reference to such Original Reference Rate. In such event, the Issuer shall use its reasonable endeavours to determine a Successor Rate and an Adjustment Spread (if any) or if the Issuer cannot determine a Successor Rate and an Adjustment Spread (if any), it shall use its reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Benchmark Rate and, in either case, an Adjustment Spread, if any, as well as any Benchmark Amendments. See Condition 6(f) (*Benchmark Replacement*) for further information.

**Zero Coupon Notes:**

Zero Coupon Notes will be offered and sold at a discount to their nominal amount and will not bear interest.

**Redemption:**

Notes may be redeemed at par or at such other Redemption Amount (detailed in a formula, index or otherwise) as may be specified in the relevant Final Terms. Notes may also be redeemable in two or more instalments on such dates and in such manner as may be specified in the relevant Final Terms

The redemption of Senior Notes and Senior Non-Preferred Notes shall be subject to compliance by the Issuer with any conditions to such redemption or repurchase prescribed by (i) the MREL Requirements at the relevant time (including any requirements applicable to such redemption or repurchase due to the qualification of such Senior Notes or Senior Non-Preferred Notes at such time as eligible liabilities available to meet the MREL Requirements) and (ii) in case of Senior Non-Preferred Notes only, Article 12-*bis* and Article 91, section 1-*bis*, letter *c-bis* of the Consolidated Banking Act, and any relevant implementing regulation which may be enacted for such purposes by any Relevant Authority at the relevant time.

Under Regulation (EU) No. 575 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the "CRR"), the early redemption of the Subordinated Notes is subject to the prior written approval of the Relevant Authority. The Relevant Authority would approve an early redemption of the Subordinated Notes if either of the following conditions are met: (i) on or before such early redemption of the Subordinated Notes, the Issuer replaces the Subordinated Notes with own funds instruments of an equal or higher quality on terms that are sustainable for the income capacity of the Issuer; or (ii) the Issuer has demonstrated to the satisfaction of the Relevant Authority that its own funds would, following such redemption, exceed the own funds requirements and combined buffer requirements under Directive 2013/36/EU of 26 June 2013 (the "CRD IV" and together with the CRR, the "CRD IV Package") by a margin that the Relevant Authority may consider necessary on the basis set out in CRD IV.

Notes having a maturity of less than one year may be subject to restrictions on their denomination and distribution, see "*Maturities*" above.

**Redemption for Indexation Reasons:**

Inflation linked interest notes may be redeemed before their stated maturity at the option of the Issuer, if the Calculation Agent determines that there is no appropriate alternative index in relation to Inflation Linked Notes, on giving notice to Noteholders, the Issuer shall redeem or cancel, as applicable all but not some only of the Inflation Linked Notes, each Inflation Linked Note being redeemed or cancelled, as applicable by payment of the relevant Early Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders. Any such redemption shall be subject to the prior consent of the Relevant Authority and, in the case of any Notes, to the circumstances described in "*Redemption*" above.

**Optional Redemption:**

Notes may be redeemed before their stated maturity at the option of the Noteholders or, as the case may be, the Issuer (either in whole or in part) to the extent (if at all) specified in the relevant Final Terms. Any such redemption shall be subject to the prior consent of the Relevant Authority and, in the case of any Notes, to the circumstances described in "*Redemption*" above.

**Clean-up Redemption Option:**

Notes may be redeemed, in whole but not in part and to the extent (if at all) specified in the relevant Final Terms, if 75 per cent. or any higher percentage specified in the relevant Final Terms of the initial aggregate

nominal amount of the Notes of the same Series (which for the avoidance of doubt includes, any additional Notes issued subsequently and forming a single series with the first Tranche of a particular Series of Notes) have been redeemed or purchased by, or on behalf of, the Issuer and cancelled. Any such redemption shall be subject to the prior consent of the Relevant Authority.

**Regulatory Call:**

If specified as applicable in the relevant Final Terms, Subordinated Notes may be redeemed before their stated maturity at the option of the Issuer if any change in Italian Law or Applicable Banking Regulations or any change in the official application or interpretation thereof, such Subordinated Notes are excluded in whole or, to the extent permitted by the Applicable Banking Regulations, in part from regulatory treatment as Tier 2 Capital. Such optional redemption may only be at the option of the Issuer and is subject to any necessary prior consent thereto having been obtained from the Relevant Authority.

**MREL Disqualification Event:**

If the applicable Final Terms specify that the Issuer Call due to MREL Disqualification Event applies, the Senior Notes or the Senior Non-Preferred Notes or the Subordinated Notes may be redeemed before their stated maturity at the option of the Issuer if the Issuer determines that a MREL Disqualification Event has occurred and is continuing. Any such redemption shall be subject to the circumstances described in "*Redemption*" above.

**Tax Redemption:**

Except as described in "*Optional Redemption*" and "*Regulatory Call*" above, early redemption will only be permitted for tax reasons as described in Condition 10(b) (*Redemption and Purchase – Redemption for tax reasons*). Any such redemption shall be subject to the prior consent of the Relevant Authority and, in the case of any Notes, to the circumstances described in "*Redemption*" above.

**Denomination of Notes:**

Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer save that the minimum denomination of each Note will be such amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency and save that the minimum denomination of each Note admitted to trading on a regulated market within the European Economic Area or offered to the public in a member state of the European Economic Area in circumstances which would otherwise require the publication of a prospectus under the Prospectus Regulation will be €100,000 (or, if the Notes are denominated in a currency other than Euro, the equivalent amount in such currency).

Senior Non-Preferred Notes will have a denomination of at least €150,000 or such other minimum denomination provided by applicable law from time to time (or, where the Senior Non-Preferred Notes are denominated in a Specified Currency other than Euro, the equivalent amount in such other Specified Currency).

Subordinated Notes will have a denomination of at least €200,000 or such other minimum denomination provided by applicable law from time to time (or, where the Subordinated Notes are denominated in a Specified Currency other than Euro, the equivalent amount in such other Specified Currency).

Senior Notes must have a minimum denomination of at least €1,000 (or the equivalent amount in such other Specified Currency).

<b>Taxation:</b>	<p>All payments of principal and interest in respect of Notes by the Issuer, in case of payments under the Notes will be made free and clear of deduction or withholding taxes in the jurisdiction of incorporation of the Issuer, unless the withholding or deduction is required by law. In that event, the Issuer will (subject as provided in Condition 12 (<i>Taxation</i>)) pay such additional amounts as will result in the Noteholders receiving such amounts as they would have received in respect of such Notes had no such withholding been required.</p> <p>However, as more fully set out in Condition 12 (<i>Taxation</i>), the Issuer shall not be liable in certain circumstances to pay any additional amounts to holders of the Notes with respect to any payment, withholding or deduction pursuant to Italian Legislative Decree No. 239 of 1 April 1996 on account of substitute tax (<i>imposta sostitutiva</i>, as defined therein) in relation to interest payable in respect of any Notes.</p> <p>In addition, Notes are subject to a withholding tax at the rate of 26 per cent. per annum in respect of interest and premium (if any) on Notes that qualify as of typical securities (pursuant to Law Decree No. 512 of 30 September 1983, as amended and supplemented from time to time). The Issuer will not be liable to pay any additional amounts to Noteholders in relation to any such withholding, as more fully specified in Condition 12 (<i>Taxation</i>).</p>
<b>Negative Pledge:</b>	None
<b>Status of Notes:</b>	<p>Notes may be issued either on a senior basis ("<b>Senior Notes</b>") or on a senior non-preferred basis ("<b>Senior Non-Preferred Notes</b>") or on a subordinated basis ("<b>Subordinated Notes</b>") as described herein.</p> <p>The status of the Senior Notes is described in Condition 4(a) (<i>Status - Senior Notes</i>).</p> <p>Notes may be issued as Senior Non-Preferred Notes as described in Condition 4(b) (<i>Status – Senior Non-Preferred Notes</i>).</p> <p>Notes may be issued as Subordinated Notes as described in Condition 4(c) (<i>Status - Subordinated Notes</i>).</p>

## RISK FACTORS

*The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. In particular, an investor might receive less interest than expected or no interest in respect of such Notes and may lose some or all of the principal amount invested by it. Most of these factors are contingencies which may or may not occur. In addition, factors which are material for the purpose of assessing the market risks associated with the Notes are also described below.*

*The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may occur for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate.*

*Prospective investors should also read the detailed information set out elsewhere in and incorporated by reference into this Base Prospectus and consider carefully whether an investment in the Notes is suitable for them in the light of the information in this Base Prospectus and their personal circumstances, based upon their own judgment and upon advice from such financial, legal, tax and other professional advisers as they deem necessary.*

*Words and expressions defined in "Terms and Conditions of the Italian Law Notes in Physical Form" and "Terms and Conditions of the Dematerialised Notes" or elsewhere in this Base Prospectus have the same meaning in this section. Prospective investors should read the whole of this Base Prospectus, including the information incorporated by reference. Unless otherwise specified, the term "Terms and Conditions" shall refer to the Terms and Conditions of the Italian Law Notes in Physical Form and the Terms and Conditions of the Dematerialised Notes and any reference to a "Condition" shall be to a Condition under the Terms and Conditions of the Italian Law Notes in Physical Form and a Condition under the Terms and Conditions of the Dematerialised Notes.*

### RISK FACTORS RELATED TO THE ISSUER

The risks below have been classified into the following categories:

- A. Risks relating to the Issuer's financial position;
- B. Risks relating to the Issuer's business activity and industry;
- C. Risks relating to the legal and regulatory environment of the Issuer; and
- D. Risks relating to environmental, social and governance context of the Issuer.

#### **A. Risks related to the Issuer's financial situation**

##### ***Risks related to the Issuer's results***

The Issuer incurred a net profit of Euro 52.2 million for illimity's Consolidated Financial Statements for the six-month period ended on 30 June 2023. The profits registered in the first six months of 2023 are essentially attributable to a strong expansion in business volumes, which underpinned a significant growth in revenue and more than offset the costs related to business expansion and investments in new initiatives, while loans impairments remained contained supported by the Bank's very robust asset quality.

Key elements of illimity's medium-long term strategy consist of expanding its business by acquiring new customers and sourcing new investment opportunities, implementing new high-tech initiatives and continuing to innovate and strengthen its brand. As such, the Issuer may incur capital expenditure in the future, which may be substantial until the Issuer's operating platform and its staff structure reach the target level and may not be offset in full by income generated for the corresponding periods. Accordingly, illimity cannot assure investors that it will sustain profitability. Moreover, illimity cannot assure investors that it will not cease to be profitable at any specific time in the future. If illimity is ultimately unable to generate sufficient income to meet its financial targets, maintain profitability and have sustainable cash flows, investors could lose their investment or could be impacted by a lower-than-expected profit.

### ***Risks arising from failure to implement the Strategic Plan***

The Issuer's ability to achieve the results and to pursue future plans and objectives set out in its Strategic Plan, to expand and consolidate its activities through four business divisions and its subsidiaries each targeting a distinct subset of customers/products, as well as to attain a sustainable level of profitability, depends on its ability to implement successfully its commercial and financial strategies.

Should the Issuer fail to implement its Strategic Plan and to pursue the initiatives envisaged therein in the manner and/or within the time frames expected, if the new business initiatives fail to generate the revenues forecasted and/or if the business strategies fail to achieve the intended results, the Issuer's businesses and growth prospects would be negatively affected, which could have a negative impact on the Issuer's financial condition, results and cash flow.

The Strategic Plan is based on both general and hypothetical assumptions of a discretionary nature related to the effects of specific operational and organizational actions that the Issuer intends to undertake over the duration of the Strategic Plan. The Issuer's ability to perform these actions and to meet the objectives of the Strategic Plan therefore depends on a combination of hypotheses, estimates and forecasts based on the realisation of future external events and actions to be undertaken by management and by the Issuer's Board of Directors over the 2022 - 2025 period. These include, among others, hypothetical assumptions of various nature relating to future events that are subject to risks and uncertainties characterizing the prevailing macroeconomic and regulatory landscape; actions of illimity's directors and management that may not necessarily occur; other future events which the directors and management cannot, or can only partially, influence. In particular, the assumptions underlying the Strategic Plan may be inaccurate and/or may not occur or may occur only in part or in a different manner; and may moreover change over the duration of the Strategic Plan.

The Issuer's ability to achieve the business volumes envisaged for its Growth Credit Division and its Distressed Credit Division furthermore relies on its ability to compete with other companies currently operating in, or that may in the future enter, these market segments which, in recent years, have seen the entry of specialized, non-banking players from abroad. Intense competition in the distressed credit sector may result in the failure by the Issuer to purchase (or to obtain servicing mandates for) a sufficient volume of non-performing/unlikely-to-pay receivables (single name or portfolios), which would lead to lower than expected revenues from operations for these divisions and could have a negative impact on the Issuer's overall business and outlook. Improvement in Italy's macroeconomic conditions in the future could also result in a decrease in loans classified as non-performing in general, potentially leading to a contraction of the NPL market. The ability of the b-ilty Division to acquire new customers is also exposed to the risk of competition in direct collections from banks and financial intermediaries operating in Italy and, therefore, could affect the viability of illimity's funding plan. Finally, the ability of the Investment Banking Division to correctly assess and leverage financial market trends and effectively define the timing and pricing of business operations, could have an impact on its ability to meet the objective of the Strategic Plan.

Should any of the events or scenarios illustrated above occur, the results of illimity could differ, possibly in a significant manner, from those set out in its Strategic Plan, with potential negative impact on the financial condition and results of the Issuer.

### ***Risks related to the deterioration of credit quality***

As of 30 June 2023, illimity's net loans to customers (excluding bad loans/UTP single name/portfolios and public procurement claims acquired by the Issuer) amounted to Euro 2,846 million, classified respectively as organic bad loans (*sofferenze*) Euro 18 million, unlikely-to-pay exposures Euro 114 million, overdue and/or past due exposures Euro 2 million, and performing loans (*in bonis*) Euro 2,712 million. As of the same date, gross Organic NPE ratio stood at 5.6% and net Organic NPE ratio at 4.7%.

The Issuer sets aside provisions to absorb potential losses from its loans. As of 30 June 2023, coverage ratios were as follows: organic bad loans (*sofferenze*) 49.2%, unlikely-to-pay exposures 6.9 %, overdue and/or past due exposures 11.5%, and performing loans 0.5%. There can, however, be no guarantee that the procedures put in place by the Issuer can assess accurately the risks of its exposure to borrowers, and increased defaults of the borrowers and/or inadequate loans provisioning may negatively impact the Issuer's financial condition and results of operations.

### ***Risks related to capital adequacy***

As a credit institution authorized to carry out banking activities in Italy, the Issuer is subject to Italian and European laws and regulations applicable to the banking industry that are aimed at safeguarding financial stability and solidity, and liquidity and limiting exposure to risks. The rules concerning capital and liquidity adequacy for banks lay down prudential requirements relating to own funds, eligible liabilities and liquidity, and the instruments for risk mitigation.

In particular, illimity is subject to the Pillar 2 requirements for banks, which will be impacted, on an ongoing basis, by the Supervisory Review and Evaluation Process ("**SREP**"). The SREP aims to ensure that institutions have adequate arrangements, strategies, processes, and mechanisms to maintain the amounts, types, and distribution of internal capital commensurate to their risk profile, as well as robust governance and internal control arrangements. The key purpose of the SREP is to ensure that institutions have adequate arrangements as well as capital and liquidity to ensure sound management and coverage of the risks to which they are or might be exposed, including those revealed by stress testing, as well as risks the institution may pose to the financial system.

On 17 March 2022 illimity Bank, following the SREP performed on the illimity banking group (the "**illimity Group**"), received notification from the Bank of Italy of the prudential requirements to be observed at the consolidated level with effect from 31 March 2022. To ensure compliance with the binding requirements even in the event of a deterioration in the economic and financial scenario (Pillar 2 Guidance - P2G), the Bank of Italy also identified the following capital levels, which the illimity Group was invited to maintain on an ongoing basis:

- Common Equity Tier 1 (CET1) ratio of 9.10%;
- Tier 1 ratio of 11.00%;
- Total Capital ratio of 13.50%.

The supervisory authority also indicated a need – without prejudice to the additional supervisory requirements set out in the notification sent – for observance of the commitment to keep the CET1 ratio over 15% on an ongoing basis.

As of 30 June 2023, illimity presented a phased-in CET1 ratio of 15.4% and a phased-in Total Capital ratio of 19.9%.

However, there can be no assurance that the total capital requirements imposed on the Issuer from time to time (also as a result of the introduction of more stringent legislation or other external factors and unpredictable events beyond the Issuer's control) may not be higher than the levels of capital available at such time.

The quantum of any Pillar 2 requirement imposed on a bank, the type of capital which it must apply to meet such capital requirements, and whether the Pillar 2 requirement is "stacked" below the capital buffers (i.e. the bank's capital resources must first be applied to meeting the Pillar 2 requirements in full before capital can be applied to meeting the capital buffers) or "stacked" above the capital buffers (i.e. the bank's capital resources can be applied to meeting the capital buffers in priority to the Pillar 2 requirement) may all impact the Issuer's ability to comply with the combined buffer requirement.

There can be no assurance as to the result of any future SREP and whether this will impose further additional own funds requirements (or guidance) on the Issuer. The strengthening of capital adequacy requirements, restrictions on liquidity and increase in any of the liquidity coverage, net stable funding, leverage, and other ratio requirements could adversely affect the Issuer's financial condition, results of operations, and cash flow.

## **B. Risks related to the Issuer's business activities and industry**

### ***Risks related to the Issuer's dependence on key members of management***

The Issuer's performance and the future success of its operations depend to a significant extent on its ability to attract, retain and motivate qualified staff with relevant experience in the business segments in which the Issuer operates. In particular, the Issuer's operations depend to a large extent on the continued contributions of certain

key members of its management, including the Issuer's Chief Executive Officer, who has significant experience in the banking and Distressed Credit industries and with none of whom the Issuer has entered into non-competition arrangements.

The loss of the services of one or more of these key figures combined with the failure to identify equally qualified/skilled replacement(s) and therefore, the inability to recruit additional resources in certain functions as well as operational personnel fundamental for growth in the specific business areas envisaged in the Issuer's Strategic Plan, may prejudice illimity's competitiveness and ability to achieve its business objectives. These risks, if realized, may have a material adverse effect on the Issuer's operations and financial and economic conditions and, accordingly, on the Issuer's ability to fulfil its obligations under the Notes as well as the market price and value of the Notes.

### ***Risks related to increasing competition in the sectors in which the Issuer operates***

The Issuer's activities are grouped into four business divisions (in addition to the Chief Information Officer for the retail customer management component): Growth Credit Division, Distressed Credit Division, Investment Banking Division and b-ilty Division. There is also the Asset Management Company (illimity "SGR"), which manages the assets of closed-end alternative investment funds, established with own funds and the funds of third-party institutional investors. See further "Description of the Issuer – Business Overview". In each of these business areas, the Issuer faces intense competitive pressures that have been increasing in recent years and will likely further increase as a result of changes in legislation, the actions of competitors, consumer demand, technological changes, consolidations through mergers and acquisitions, the entrance of new competitors and other factors not necessarily under the Issuer's control.

With specific reference to the Distressed Credit Division, there is a growing interest of foreign and domestic specialist players to enter Italy's NPL market. An increasing number of direct banking operators that provide internet banking services in Italy as well as traditional banks that offer online and mobile services alongside traditional channels in recent years have increased competitive pressure on the business areas of b-ilty, driving the need for significant investments to meet customers' demand for new, technologically sophisticated financial services. The business activities of the Growth Credit Division are similarly facing increased competition from the entrance of new market players offering new products with high technological content. The entrance of non-bank players (such as private equity funds or other lenders offering alternative financial solutions that are more accessible and less costly) that are subject to less stringent regulations because they do not qualify as credit institutions, has also resulted in significant changes in the competitive landscape in general. In relation to the Investment Banking Division, competition is increasing due to the growing number of market players whose main services are financial advisory, equity and capital market services and alternative lending solutions.

If illimity is unable to meet these increasing competitive pressures successfully, it may not be able to achieve the objectives set out in its Strategic Plan in the manner or within the time frames envisaged and the Issuer's businesses and prospects could be negatively affected, which could have a negative effect on its financial condition, results and cash flow.

### ***Risks related to the illimity's investments in NPL securitisation transactions and SPV financing***

The operations of the Issuer's Distressed Credit Division consist in investing in NPL securitisation transactions in which Aporti and other SPVs purchase NPL portfolios funded by the issuance of asset backed securities that are subscribed in full by illimity, or in purchasing NPL single name exposure.

In terms of GBV (Gross Book Value) declared by the contracting parties and considering the investments made during 2018, 2019, 2020, 2021, 2022 and 2023, the total volume acquired by the Bank as at 30 June 2023 amounted to Euro 12.5 billion, against a consideration of Euro 1.8 billion.

The Issuer's activities in the Distressed Credit Division also include the financing to third investors that buy NPL portfolios, through a securitization vehicle ex art. 130/1999, by subscribing the senior notes issued by the SPV. In certain instances, illimity acts as the sponsor of the securitisation in accordance with the EU securitisation regulation (Regulation n. 2017/2042) which requires a material net economic interest in the securitisation in accordance with the risk retention requirement set forth in Article 6 of the regulation, subscribing also a limited portion of the junior notes.

Investments in NPLs expose illimity to risk factors affecting the likelihood, timing, and amount of recoveries of the underlying receivables, although SPV financing is less risky than direct investments in NPLs. Accordingly, this line of business activities may generate lower-than-expected levels of revenues or even losses, even though any loss will be limited to the amount of the loans granted or securities subscribed.

#### ***Risks related to sovereign debt***

A worsening of the credit rating of the Italian government, together with a consequent reduction in the value of Italian government bonds, could theoretically lead to a revision of the calculation of the Issuer's risk-weighted assets (RWAs) and have a negative impact on its capital ratio requirements if the regulators decide to revise the treatment of these assets. Downgrading of Italian government bonds could also result in a revision of the haircuts applied by counterparties in refinancing operations such as the ECB's TLTROs, with a consequential increase in collaterals required or a reduction in the liquidity received on the collateral provided in refinancing transactions.

Tensions on the government securities market and volatility of such securities could therefore have negative effects on the Issuer's business and its financial condition, results of operations, cash flow and regulatory capital.

#### ***Risks related to inaccurate projections and appraisals***

When negotiating the NPLs purchase price and/or pricing of the asset-backed securities and making any investment decisions in SPV financing, the Issuer assesses the (underlying) NPLs on the basis of models and analytical tools in order to project cash flow generation from the NPLs, taking into consideration the ability of the borrowers to meet their obligations and enforceability of the mortgages and other guarantees securing the NPLs, besides stress scenario. The Issuer is thus exposed to the risks of incorrect economic valuation of the NPLs and of the related collateral, inaccurate estimation of the recovery timeline owing to the protraction of judicial and extrajudicial procedures as well as the inadequacy of the contractual guarantees and collateral securing the NPLs.

The reliability of the calculations produced by illimity's valuation models depends on the accuracy of the historical data provided by the originators as well as the accuracy and availability of other market data supplied by third-party providers (for example, assessment of borrowers' creditworthiness provided by credit rating agencies). Any flaw in the data underlying these calculations, any termination or suspension of services from the third-party providers, or adverse change in the terms of their services (such as a significant increase in their fees) could affect the Issuer's ability to make proper investment decisions, thereby resulting in a negative impact on the Issuer's financial condition and results of operations. There can furthermore be no assurance that illimity's managers will not make material mistakes or errors in judgment when utilizing these models and analytical tools, resulting in erroneous appraisals of the receivables or of the collateral and other guarantees securing them and in inaccurate cash flow projections, which could negatively impact the solidity of the investment as a whole. Projections and appraisals may prove impossible as a result of the unavailability or insufficiency of data. An incorrect estimation of the time frames for out-of-court settlements or judicial enforcement procedures could also affect the accuracy of projections.

More in general, any miscalculation in illimity's projections could potentially result in the adoption of erroneous recovery strategies by illimity's recovery and servicing teams, thereby negatively impacting the performance of its proprietary NPLs (single name and portfolios) as well as illimity's ability to service third-party NPLs pursuant to servicing mandates.

Should actual recoveries from the underlying receivables (including by way of enforcement) prove to be significantly less than the estimated recoveries, or the enforcement of collateral and other guarantees prove to be more problematic and/or time-consuming than envisaged, the return on the asset-backed securities subscribed by the Issuer and other revenues from this line of business activities would be adversely affected, thereby resulting in a negative impact on the Issuer's financial condition and results of operations.

#### ***Risks related to borrowers' concentration***

The degree of single-name concentration of illimity's loan portfolio shows a constant decreasing trend. Indeed, the concentration levels have been managed applying a set of internal limits set forth by the Issuer's Risk Appetite Framework ("**RAF**") and internal policies. Specifically, the Issuer has been seeking to address loans concentration by setting quantitative limits on big-ticket exposures, implementing syndication operations and broadening the granularity of the credit exposures via NPL portfolios purchases, in the context of an improvement in the quality of its loan portfolio in terms of the borrowers' credit rating. The Issuer's operations will likely be adversely affected

by negative trends of the industry segments (industrial sectors concentration risk) where the Issuer's portfolio to the borrower is concentrated.

illimity carries out nearly all its lending activities in the Italian market, which are therefore sensitive to the conditions of the Italian economy.

Adverse developments in the Italian economy in general, the economic conditions of the northern regions in particular, the specific industry sectors to which illimity's borrowers belong, and the performance of the asset markets of the loans collateral could have negative effects on the Issuer's business and on its financial condition, results, and cash flow.

### ***Interest rate risk: banking book***

The Issuer is exposed to the risk of significant fluctuations in interest rates which could have a material adverse effect on its financial condition and results of operations. This risk concerns assets, liabilities as well as off-balance sheet items whose values are affected by changes in interest rates and also arises from the mismatching in maturities (legal and behavioural through estimation techniques) or pricing (fixed vs indexed rate and repricing frequency) between interest income accrued on assets on the one hand, and interest expense incurred on liabilities on the other hand. In particular and from a theoretical point of view, a rise in interest rates may result in an increase in the cost of funding that is not compensated by increased yields from assets due to mismatches between the maturities of assets and liabilities or mismatches between sensitivities to interest rates of assets and liabilities with similar maturities. Similarly, a fall in interest rates may lead to a decrease in yield from assets that is not fully matched by a reduction in the cost of funding. The type of interest rate risk of the banking book depends on the asset and liability position of the Bank from time to time, and the degree of its risk coverage policy.

Interest rate trends and fluctuations depend on different factors - such as monetary and macroeconomic policies, general trends in the national and international economy and the political conditions of Europe and Italy - that are beyond the Issuer's control. These fluctuations impact: (a) net interest income and, consequently, net profits (i.e. cash flow risk); and (b) the net present value of assets and liabilities and the present value of future cash flows (i.e. fair value risk).

illimity is exposed to the risk that market volatility, liquidity shortages and/or shifts in customers' preferences towards determined product types caused by interest rate fluctuations may have a negative impact on the business, financial condition and/or results of operations of the Issuer.

### ***Risks related to outsourcing services***

The Issuer outsources certain information services of its banking operations to Sella Technology Solutions regarding its Core Banking Services and to Microsoft Cloud Services regarding the IT infrastructure in which illimity has installed all its custom applications, and to other outsourcers in relation to specific IT components or IT services. These services include, *inter alia*, administration of the home-banking system, supply of the virtual server services (including disaster recovery), supply of the ex BIP mobile banking application, documentation storage, provision of online reports and administration of the data transmission network.

illimity is exposed to the risk of any failure or interruptions and errors in the performance of services by the outsourcer. Bankruptcy or similar proceedings affecting the outsourcer could also lead to discontinuity of the relevant services. The occurrence of any of these scenarios could have a material adverse effect on illimity's operations.

### ***Operational risks***

Operational risk is the risk of incurring losses due to the dysfunction or other inadequacies in procedures, human resources or internal systems, or due to external factors. This type of risk includes losses due to fraud, human errors, interruptions in operations, the unavailability of systems, breaches of contract, or natural disasters. It does not include strategic or reputational risk but does include legal risk related to the violation of applicable laws and regulations, to the failure to meet contractual and other obligations, and to other disputes that may arise with counterparties in the course of the Issuer's operations. The main sources of operational risk include (*inter alia*) the following: insufficient reliability of operating processes in terms of efficiency and efficacy; internal and external fraud; operating errors; an information system not suited to the size and complexity of the organization's operations; increasing reliance on automation; outsourcing of company functions; use of a limited number of

suppliers; changes in strategy; incorrect policies for human resources management and training; and social and environmental factors.

The measures adopted by the Issuer to mitigate operational risks and to prevent and/or limit any potentially negative effects may not be sufficient to handle all types of risk that may arise, and there can be no assurance that any one or more of these risks may not arise again in the future as a result of unforeseeable events that are wholly or partially beyond the Issuer's control (including fraud or losses caused by employees infidelity and/or violations of control processes). The occurrence of any of the foregoing could have a material adverse effect on the Issuer's financial condition, results of operations, and cash flow.

### ***Risks related to illimity's IT platform***

The maintenance of an efficient and advanced information technology platform subjects the Issuer to costs and risks associated with maintenance, upgrades, adaptations, and replacements of the underlying hardware, software, and applications, to update technologies that are constantly evolving and to introduce new technologies or applications. Inability to anticipate, adopt or manage the necessary technological upgrades, or failure to detect defects and implement corrections promptly, could have a material adverse effect on illimity's operations.

### ***Liquidity risks***

The availability of liquidity and access to long-term financing markets are essential for the Issuer to carry out its banking and other core activities and to achieve its strategic objectives. Liquidity risk refers to a bank's inability to meet its payment obligations that are either known or foreseen with a reasonable degree of certainty. This may occur because of internal causes (an idiosyncratic emergency) or external factors (macroeconomic conditions) resulting in unexpected liquidity shortfalls or an increase in funding requirements. There are two main types of liquidity risk as follows:

- market liquidity risk refers to the possibility that a bank is unable to liquidate an asset without incurring a capital loss or within a suitable time frame due to limited liquidity or market conditions; and
- funding liquidity risk refers to the risk that a bank is unable to meet its scheduled or unscheduled payment obligations in a cost-effective manner without compromising its core business or its financial condition.

illimity monitors its liquidity profile with the use of gap analysis techniques and with the aim to measure the Liquidity Coverage Ratio, Net Stable Funding Ratio, Survival Period and Liquid Asset Sensitivity (CR01). Furthermore, additional liquidity monitoring metrics (ALMMs) - covering concentration of funding by counterparty and product type, pricing details for funding of different durations, roll-over of funding, concentration of counterbalancing capacity, and maturity ladder - are reported to the supervisory authorities on a quarterly basis, in order to identify potential difficulties indicated by downward trends and/or anomalous levels in these metrics. illimity also makes use of early warning indicators, based on internal variables or market indicators.

On the reporting date, the Group does not present a high risk profile in terms of liquidity requirements; the liquidity profile of the Group is adequate in the medium/long term, reflecting the coherence between the process to construct assets and the adoption of relative funding policies, while complying with internal and regulatory risk limits. At the reporting date, the Group had a level of Liquidity Coverage Ratio ("**LCR**") of Net Stable Funding Ratio ("**NSFR**") in line with the internal limits defined in the RAF.

However, a liquidity crisis due to uncertainties inherent in the prevailing macroeconomic landscape, current market trends and, more generally, other events beyond the Issuer's control could have an impact on its liquidity profile and require the adoption of measures that could have a negative effect on the Issuer's financial condition, results of operations and/or cash flow.

### ***Risks related to macroeconomic scenario and political uncertainty***

As a bank, the Issuer's performance is significantly influenced by the macroeconomic conditions and trends in the financial markets in general as well as by the economic condition in Italy in particular. Since Italy is the only country in which illimity currently operates as a financing entity, the Issuer's business is particularly sensitive to

investor perception of the country's reliability and solidity of its financial condition as well as prospects for its economic growth.

With regard to the European macroeconomic context inflation continues to decline but is still expected to remain high for an extended period of time. The ECB Governing Council is determined to ensure that inflation returns to its 2% medium-term target in a timely manner. In order to reinforce progress towards its target, the Governing Council decided to raise the three key ECB interest rates by 25 basis points. The September 2023 macroeconomic projections shows that the Governing Council's past interest rate increases continue to be transmitted forcefully. Financing conditions have tightened further and are increasingly dampening demand, which is an important factor in bringing inflation back to target. With the increasing impact of this tightening on domestic demand and the weakening international trade environment, ECB staff have lowered their economic growth projections significantly.

According to the Bank of Italy's last projections in July 2023, which have been adjusted downwards for 2024-2025 compared with June 2023 forecasts, gross domestic product ("**GDP**") is set to slightly grow in next three years. Economic activity, which was buoyed by all the key components of domestic demand and especially by consumption in the first quarter, appears to have decelerated in the spring. This slowdown mainly reflects weaker private investment, a trend illimitity expects to pick up in the second half of 2023 and in 2024 on the back of rising interest rates and tighter access to credit. The impact on GDP should be partly offset by the effects of lower inflationary pressures and higher public investment under the NRRP.

The scenario assumes that the tensions arising from the conflict in Ukraine will not lead to further disruptions in energy supplies; in line with this, energy commodity prices are expected to remain broadly stable over the three-year forecasting period, at much lower levels than in 2022. The scenario includes also a significant slowdown in global trade this year, with a slight upturn in 2024 and 2025.

Harmonized consumer price inflation (HICP) is projected to a downtrend that mainly reflects a sharp drop in import prices, largely driven by falling energy commodity prices. Inflation excluding food and energy is set to remain high in 2023 before slowing down in 2024 - 2025. Investment is projected to decelerate over the next two years, held back by higher funding costs and tighter conditions for access to credit in the private sector.

GDP growth has been revised upwards for 2023 and downwards for 2024 - 2025. The revisions for the current year reflect better-than-expected developments in the first quarter, while the downward revisions are largely explained by the effects of a greater deterioration in credit conditions. Consumer price inflation has been adjusted downwards for this year and the next, mainly on account of a steeper decline in energy prices, while the projections for 2025 remain unchanged.

In Italy, where the Issuer operates, GDP could also be held back by further tightening in credit supply conditions. On the other hand, inflation risks are balanced. In addition to renewed tensions in energy markets, upward pressures may come from a slower and only partial pass-through of the recent decline in energy prices to the prices of other goods and services, compared with historical trends. Downside risks are associated with a more marked and lasting deterioration in aggregate demand than in our scenario.

Overall, the projections are subject to high uncertainty, with risks to growth largely skewed to the downside. The evolution of the conflict in Ukraine, with its potential impact on commodity prices and on household and business confidence, remains a major threat. Another important risk stems from the global business cycle, which may be further affected by ongoing monetary tightening in most of the advanced economies.

If adverse economic conditions continue to persist, or should there be further turbulence in the global financial markets or resurgence of sovereign debt tensions, or if political instability in Italy negatively affect the country's economic recovery, the resulting market disruptions could impact the Issuer's ability to access capital and liquidity on acceptable terms, lead to slowdown of its operations and/or result in potential losses, with possible negative effects on the Issuer's financial condition, results and/or cash flow.

### ***Risks related to trends of the real estate industry***

The Issuer is exposed to risks of the real estate industry as a direct result of its lending to borrowers belonging to the real estate and construction sector whose cash flows are generated mainly from the leasing and sale of commercial real estates. The real estate industry has witnessed over recent years an increase in funding costs and difficulties in accessing credit as well as falls in volumes and operating margins. There has also been a decline in

investment in both residential and non-residential constructions alongside a parallel reduction in property sales triggered by uncertainties of the economy, the difficult outlook of the jobs market, a fall in disposable income, and an increased tax burden on various types of properties. All these factors have had a negative impact on the profitability of companies operating in the real estate industry, adversely affecting their ability to repay loans they have obtained from banks (including the Issuer).

The Issuer is exposed to risks of the real estate industry also as an indirect result of granting loans to individuals or corporate customers that are secured by real estate assets.

The activities of the Issuer's Distressed Credit Division, insofar as they concern investing in NPLs backed by real estate assets, are also exposed to trends in the real estate market. The value of the real estate collateral securing the customer loans and underlying the NPLs may be affected by, among other things, a decline in property values, which could translate into a reduction in the realization value of the collateral upon enforcement. Property values may in turn be affected by changes in the general and regional economic conditions as well as the strength (or weakness) of the Italian national economy, the local economy where the properties are situated, and the real estate market in general. No assurance can be given that the values of the relevant real estate assets have remained (or will remain) at the levels at which they were on the origination dates of the related loans, or at the levels envisaged by the Issuer when pricing its NPL investment.

Furthermore, the worsening of the real estate market could potentially require the Issuer to make (additional) adjustments to the value of loans granted to borrowers operating in the real estate industry or of its mortgage loans.

The occurrence of any of the above scenarios could have significantly negative effects on the Issuer's financial condition, results and cash flow.

#### ***Risks connected to credit ratings***

On 3 November 2022, Fitch Ratings ("**Fitch**") published illimity's Long-Term Issuer Default Rating (IDR) of "BB-" and its Viability Rating (VR) of "bb-", with Stable Outlook. At the same time, Fitch Ratings improved its rating of the debts issued by the Bank, assigning its preferred senior bond a rating of "BB-" (up two notches from B), and its class 2 subordinated debt a "B" rating (up from B-). Credit ratings represent an important component of the Issuer's liquidity profile and affect the cost and other terms according to which the Issuer is able to obtain funding. Any downgrading of illimity's ratings may adversely affect its access to funding and could increase its funding costs, potentially affecting its financial performance. Unsolicited credit ratings of the Issuer may impact investor's assessments and could affect illimity's cost of borrowing and have negative effects on the Issuer's financial conditions, results, and cash flow.

Furthermore, any future downgrade of the sovereign credit rating of Italy or any relevant State or the perception that such a downgrade may occur may adversely affect the market's perception of the Issuer's creditworthiness and have a negative impact on the ratings of illimity.

#### ***Risks related to alternative performance measures***

In order to facilitate interpretation of the Issuer's financial performance and standing, management has defined a number of Alternative Performance Measures ("**APMs**"). These indicators provide investors with supplemental information that facilitate interpretation of the Issuer's financial performance and standing, while also enabling the Issuer to identify trends in operations, to make investment and operating decisions, and to allocate resources.

These APMs are not replacements for the indicators required by the International Accounting Standards ("**IASs**") and International Financial Reporting Standards ("**IFRSs**"), so they may not be comparable to the alternative indicators of other issuers, and there may be the risk of differences in the definition of these indicators.

With regard to interpretation of these alternative performance measures, it should be noted that:

- the indicators are calculated based on historical data on the Issuer and are not indicative of future trends;
- the APMs are not required by international standards (IAS/IFRS), so they are not subject to audit, although they are based on the separate and consolidated financial statements;

- the APMs are not to be considered as replacements for the measures envisaged by IFRSs;
- the APMs are to be interpreted in conjunction with the financial information found in illimity's Consolidated Financial Statements for the six-months period ended 30 June 2023 and for the year ended 31 December 2022;
- the APMs used by the Issuer have been calculated and presented in a similar manner for all periods for which financial information has been provided in the Base Prospectus.

For further information on the APMs, reference should be made to Chapter "Description of the Issuer", paragraph "Alternative performance measures" of the Base Prospectus.

#### ***Risks related to market volatility and the performance of financial instruments***

Market risk is the risk caused by losses in the value of the financial instruments held by the Issuer due to fluctuations in market variables (by way of example, but not limited to, interest rates, share prices, exchange rates, commodity prices, volatility, and their correlation effects) or due to other factors (that affect the issuer's credit spreads), which could result in a deterioration of its financial condition.

These fluctuations could be caused by (*inter alia*) a change in the general performance of the Italian and international economy, trends in investment and divestment by (qualified) investors, changes in monetary and fiscal policies, global market liquidity, the availability and cost of capital, actions taken by ratings agencies, local and international political events and conflicts or terrorist attacks.

#### ***Risks related to competition and operations in the banking and financial services industry***

The banking and financial services industry in which illimity operates is highly competitive.

Competition in the Italian banking industry has increased in recent years and may likely intensify further as a result of consolidation in the industry, regulatory changes, the conduct of competitors, consumer demand, changes in technology, the entrance of new competitors, innovations introduced by financial-technology companies, and other factors not necessarily within the control of the Issuer. The worsening of the macroeconomic conditions could add to the competitive pressure through, for example, increased pressure on lending margins, increases in the cost of funding, or lower business volumes.

Should the Issuer be unable to respond to these increasing competitive pressures by, for example, offering innovative, profitable products and services able to meet the needs of the customer, the Issuer may be unable to achieve the strategic objectives of its Strategic Plan, and this could have negative effects on the Issuer's business, financial condition, results of operations and cash flow.

### **C. Risks relating to the legal and regulatory environment of the Issuer**

#### ***Risks related to the bail-in***

Directive 2014/59/EU of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms (the "**BRRD**") is designed to provide competent authorities with a set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions while minimizing the impact of an institution's failure on the economy and the financial system.

If the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest, the relevant resolution authority may use the following resolution tools and powers alone or in combination without the consent of the institution's creditors:

- sale of business: which enables resolution authorities to direct the sale of the institution or the whole or part of its business on commercial terms;

- bridge institution, which enables resolution authorities to transfer all or part of the business of the institution to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control);
- asset separation, which enables resolution authorities to transfer impaired or problematic assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximizing their value through, eventually, their sale or orderly wind-down (this can be used together with another resolution tool only); and
- bail-in relating to eligible liabilities, which gives resolution authorities the power to write down or convert to equity all or part of certain claims of unsecured creditors (including the Noteholders) and to write down or convert to equity certain unsecured debt claims (including the Notes issued under the Programme) into shares or other instruments of ownership (i.e. shares, other instruments that cover ownership, instruments that are convertible into or give the right to acquire shares or other instruments of ownership, and instruments representing interests in shares or other instruments of ownership (the "general bail-in tool")), which equity could also be subject to any future application of the general bail-in tool.

The BRRD also provides for a Member State as a last resort, after having assessed and made use of the above resolution tools (including the general bail-in tool) to the maximum extent practicable whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilization tools. These consist of public entity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

An institution or, under certain conditions, a group will be considered as failing or likely to fail when: (i) it is, or is likely in the near future to be, in breach of its requirements for continuing authorization; (ii) its assets are, or are likely in the near future to be, less than its liabilities; (iii) it is, or is likely in the near future to be, unable to pay its debts as they fall due; or (iv) it requires extraordinary public financial support (except in limited circumstances).

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further statutory power to permanently write down (or convert into equity) tier 1 and tier 2 capital instruments (such as Subordinated Notes issued under the Programme) at the point of non-viability and before any other resolution action is taken ("non-viability loss absorption"). Any shares issued to holders of such capital instruments upon any such statutory conversion into equity may also be subject to subsequent application of the general bail-in tool, which may result in cancellation or dilution of the shareholding. For the purposes of the application of any non-viability loss absorption measure, the point of non-viability under the BRRD is the point at which the relevant authority determines that the institution or, under certain conditions, the group meets the conditions for resolution (but no resolution action has yet been taken) or that the institution or, under certain conditions, the group will no longer be viable unless the relevant capital instruments are written down or converted or extraordinary public support is to be provided and the appropriate authority determines that without such support the institution or, under certain conditions, the group would no longer be viable.

Any application of the general bail-in tool and non-viability loss absorption under the BRRD shall be in accordance with the hierarchy of claims in normal insolvency proceedings. Accordingly, the impact of such application on the Noteholders will depend on their ranking in accordance with such hierarchy, including any priority given to other creditors such as depositors. Therefore, also in a non-bankruptcy scenario, the Senior Notes, Senior Non-Preferred Notes and the Subordinated Notes issued under the Programme might be written down to zero, or converted to equity, without the prior consent of the relevant Noteholders.

The BRRD has been implemented in Italy through the adoption of two Legislative Decrees by the Italian Government. In particular, Legislative Decrees Nos. 180/2015 and 181/2015 implementing the BRRD in Italy (the "**BRRD Implementing Decrees**") were published in the Italian Official Gazette (*Gazzetta Ufficiale*) on 16 November 2015. Legislative Decree No. 180/2015 is a stand-alone law, which implements the BRRD in Italy, while Legislative Decree No. 181/2015 amends the Legislative Decree No. 385 of 1 September 1993 and deals principally with recovery plans, early intervention and changes to the creditor hierarchy. The BRRD Implementing Decrees entered into force on 16 November 2015, save for: (i) the bail-in tool, which applied from 1 January 2016; and (ii) the "depositor preference" to deposits other than those protected by the deposit guarantee scheme and those of individuals and small and medium enterprises, which applied from 1 January 2019.

In the context of these resolution tools, the resolution authorities have the power to amend or alter the maturity of debt instruments and other eligible liabilities issued by an institution under resolution or amend the amount of interest payable under such instruments and other eligible liabilities, or the date on which the interest becomes payable, including by suspending payment for a temporary period, except for those secured liabilities which are subject to Article 44(2) of the BRRD.

In addition, because (i) Article 44(2) of the BRRD excludes certain liabilities from the application of the general bail-in tool and (ii) the BRRD provides, at Article 44(3), that the resolution authority may partially or fully exclude certain further liabilities from the application of the general bail-in tool, the BRRD specifically contemplates that *pari passu* ranking liabilities may be treated unequally. Accordingly, holders of a Series of Notes issued under the Programme may be subject to write-down/conversion upon an application of the general bail-in tool while other Series of *pari passu* ranking Notes (or, in each case, other *pari passu* ranking liabilities) are partially or fully excluded from such application of the general bail-in tool. Further, although the BRRD provides a safeguard in respect of shareholders and creditors upon application of resolution tools, Article 75 of the BRRD sets out that such protection is limited to the incurrence by shareholders or, as appropriate, creditors, of greater losses as a result of the application of the relevant tool than they would have incurred in a winding up under normal insolvency proceedings. It is, therefore, possible not only that, in circumstances in which Notes issued under the Programme have been partially or fully written down/converted into equity capital instruments on an application of the general bail-in tool, the claims of other holders of junior or *pari passu* liabilities may have been excluded from the application of the general bail-in tool and therefore the holders of such claims may receive a treatment which is more favourable than that received by holders of the relevant Notes, but also that the safeguard referred to above does not apply to ensure equal (or better) treatment compared to the holders of such fully or partially excluded claims because the safeguard is not intended to address such possible unequal treatment but rather to ensure that shareholders or creditors do not incur greater losses in a bail-in (or other application of a resolution tool) than they would have received in a winding up under normal insolvency proceedings.

Also, Article 108 of the BRRD requires that Member States modify their national insolvency regimes such that deposits of natural persons and micro, small and medium sized enterprises in excess of the coverage level contemplated by deposit guarantee schemes created pursuant to Directive 2014/49/EU have a ranking in normal insolvency proceedings which is higher than the ranking which applies to claims of ordinary, unsecured, non-preferred creditors. In addition, the BRRD does not prevent Member States, including Italy, from amending national insolvency regimes to provide other types of creditors, with rankings in insolvency higher than ordinary, unsecured, non-preferred creditors. Legislative Decree No. 181/2015 has amended the creditor hierarchy in the case of admission of Italian banks and investment firms to liquidation proceedings (and therefore the hierarchy which will apply in order to assess claims pursuant to the safeguard provided for in Article 75 of the BRRD as described above), by providing that, as from 1 January 2019, all deposits other than those protected by the deposit guarantee scheme and excess deposits of individuals and small and medium-sized enterprises benefit from priority over senior unsecured liabilities, though with a ranking which is lower than that provided for deposits of individuals and small and medium-sized enterprises exceeding the coverage limit of the deposit guarantee scheme. This means that, as from 1 January 2019, significant amounts of liabilities in the form of large corporate and interbank deposits which under the national insolvency regime in force prior to such date in Italy ranked *pari passu* with Senior Notes, rank higher than Senior Notes in normal insolvency proceedings and therefore that, on the application of the general bail-in tool, such creditors will be written-down/converted into equity capital instruments only after Senior Notes. On 28 December 2017, Directive (EU) 2017/2399, amending the BRRD as regards the ranking of unsecured debt instruments in insolvency hierarchy (the "**BRRD Amending Directive**") entered into force. The BRRD Amending Directive requires Member States to create a new class of the so-called "senior non-preferred" debt instruments which would rank just below the most senior debt and other senior liabilities for the purposes of liquidation, while still being part of the senior unsecured debt category (only as a lower tier of senior debt) and that will be eligible to meet MREL and TLAC requirements. The new creditor hierarchy will not have a retroactive effect and will only apply to new issuances of bank debts. In this regard, the Italian Law No. 205/2017, approved by the Italian Parliament on 27 December 2017, contains the implementing provisions pertaining to "non-preferred" senior debt instruments.

Legislative Decree No. 181/2015 has also introduced strict limitations on the exercise of the statutory rights of set-off normally available under insolvency laws, in effect prohibiting set-off by any creditor in the absence of an express agreement to the contrary. Since each holder of Subordinated Notes, Senior Non-Preferred Notes, and the Senior Notes will have expressly waived any rights of set-off, counterclaim, abatement or other similar remedies which it might otherwise have, under the laws of any jurisdiction, it is clear that the statutory right of set-off available under Italian insolvency laws will likewise not apply in respect of such Notes.

The powers set out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. Holders of Senior Notes, Senior Non-Preferred Notes, and Subordinated Notes issued by the Issuer under the Programme may be subject to write-down/conversion into equity capital instruments on any application of the general bail-in tool and, in the case of Tier 2 Instruments, non-viability loss absorption, which may result in such holders losing some or all of their investment. The determination that all or a part of the principal amount of Notes issued the Programme will be subject to bail-in is likely to be inherently unpredictable and may depend on a number of factors which are outside of the Issuer's control. The exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of Noteholders, the price or value of their investment in the relevant Notes and/or the ability of the Issuer to satisfy its obligations under the relevant Notes.

### ***Risks related to oversight by the Bank of Italy***

The Issuer is subject to a complex set of regulations that affect its business and services as well as to the oversight of a number of competent authorities, including the Bank of Italy. In particular, the Bank of Italy performs audits and inspections on credit institutions, including the Issuer, that concern (*inter alia*) an institution's organisation and operating processes, including those that govern the management, recognition, and measurement of an institution's assets and liabilities, as well as the annual Supervisory Review and Evaluation Process (SREP) that determines a credit institution's regulatory capital requirements.

Following discussions with the Bank of Italy, in the last years the Issuer has put in place measures to address these observations, including the hiring of a head of Compliance, reinforcing the Internal Audit function, updating the policies for loans administration and provisioning, implementing actions in order to improve its credit origination and monitoring processes and its credit risk management controls and improvements to the operating platform that manages the banking book.

The Issuer has furthermore implemented the internal procedures to prepare and submit to the Bank of Italy quarterly reports on its operations, as requested by the Bank of Italy in its letter authorizing the repurchase of treasury shares in the context of the Merger. In view of the expanded business operations envisaged in illimity's post-Merger Business Plan, the Bank of Italy stressed the importance for the corporate bodies to be promptly informed of the results of the activities conducted by the internal control functions and any dysfunctions identified and requested that the competent internal control functions prepare quarterly reports on the results of their assessments and analyses for the Board of Directors and the Board of Statutory Auditors. These reports – which are then to be submitted to the Bank of Italy after having been reviewed by the Board of Directors and Board of Statutory Auditors – are to cover the following areas:

- analyses conducted by risk management concerning: the degree of exposure to the various types of risk (e.g. credit, operational, ICT, liquidity, market, interest rate, concentration, etc.); trends in asset quality; compliance with the limits set by the risk appetite framework; and current and future capital and liquidity adequacy, taking into account of first and second pillar risks assumed and the planned increase in operating volumes;
- audits conducted by the Compliance & AML and Internal Audit functions, including indications of any weaknesses identified and their severity, any corrective action taken or to be taken, the persons responsible, and the time frame, for implementing such actions.

There can be no assurance that the measures to manage the risks assumed and the procedures to address Bank of Italy's requests and observations will be effective at all times, or that future audits or inspections by the competent authorities will not impose additional requirements on the Issuer that may have an adverse effect on its operations and financial condition.

### ***Risks related to the collection, storage and processing of personal data***

In the ordinary course of its operations, the Issuer collects, stores and uses data that is protected by data protection laws, as set out in the EU General Data Protection Regulation (EU 2016/679, "**GDPR**"). The GDPR applies to all processing of personal data, being any operation performed upon identifiable information of an individual (data subject) within the EU. Therefore, the Issuer undertakes to act in compliance with the GDPR in relation to any processing of personal data related to clients, employees and stakeholders. Security measures are implemented by the ICT Security Function of the Issuer in order to mitigate the risk of data breach as well as the risk of unauthorized use, access and modification of personal data and the risk of data loss. Breaches of the GDPR could

result in administrative fines of up to Euro 20 million or 4% of an undertaking's worldwide annual turnover of the financial year preceding the breach, whichever is the higher. Any destruction, damage, loss, unauthorized use or dissemination of customer data by the Issuer in breach of the GDPR requirements, and any violation of data protection laws by the Issuer's suppliers resulting in losses for which the Issuer is not fully indemnified against, may result in fines and reputational harm and could have a material adverse effect on the Issuer's business, financial condition and results of operations.

### ***Risks related to the applicability of new accounting***

The Issuer prepares its financial reports in accordance with the IFRS issued by the International Accounting Standards Board and adopted by the European Union as applicable at the time of preparation. The Issuer is therefore exposed (similarly to other parties operating in the banking sector) to the effects of the entry into force and subsequent application of new accounting principles or standards and regulations and/or changes to them. In particular, the Issuer could, in the future, need to revise the treatment of certain assets, liabilities, income or expenses for accounting and/or regulatory purposes, and this could have potentially significant negative effects on its financial reporting.

### ***Risks related to the administrative liability of legal persons***

The Issuer has established, since 26 July 2018, an Organisation, Management and Control Model (the "**Model**"), in accordance with Legislative Decree 231/2001 to implement a system of rules aimed at preventing the commission of crimes by senior management and the other relevant individuals that come within the scope of application of such legislation.

In accordance with the relevant legislation, a Board of Statutory Auditors has been appointed by the Board of Directors to act as the supervisory body (*Organismo di Vigilanza*) envisaged by Legislative Decree 231/2001 and in such capacity, has the task to ensure the correct functioning of, and compliance with, the Model as well as to update the Model. The *Organismo di Vigilanza* is entrusted with the necessary powers to take action autonomously in accordance with its supervisory purposes. For further reference see: "Description of Issuer – Board of Statutory Auditors".

Despite adoption of the Model and supervision by the *Organismo di Vigilanza*, the Issuer may not be exonerated from potential liability under Legislative Decree 231/2001 for illegal acts committed by persons within the company. In particular, illimity may be held responsible in determined circumstances and may be required to pay pecuniary fines imposed pursuant to Legislative Decree 231/2000.

### ***Risks related to changes in fiscal law***

The Issuer is subject to risks associated with changes in tax law or in the interpretation of tax law, changes in tax rates and consequences arising from non-compliance with procedures required by tax authorities. More in particular, the Issuer is required to pay Italian corporate income taxes (IRES) pursuant to Title II of Italian Presidential Decree no. 917 of 22 December 1986 (i.e. the Consolidated Income Tax Law, or "**TUIR**") and the Italian regional business tax (IRAP) pursuant to Legislative Decree no. 446 of 15 December 1997, and the amount of taxes due and payable by the Issuer may be affected by tax benefits from time to time available.

The Issuer currently benefits from the stimulus provisions introduced by way of article 1 of Italian Law Decree no. 201 of 6 December 2011, as amended and converted into Law no. 214 of 22 December 2011, concerning "economic-growth allowances" (*aiuto alla crescita economica*, or "**ACE**"). The ACE rules allow for a deduction from net income for the purposes of IRES of an amount computed by applying a notional yield (being 1.3% from 2019 onwards) to the increase in net equity (the "**ACE base**"). The ACE base is, for the first year of application of ACE (i.e. 2011), the amount of equity existing at close of that year less the amount of equity as of 31 December 2010 (excluding profits earned in 2010) and, for subsequent years, the base carried forward from the previous year as adjusted (increased and reduced) to reflect components affecting equity.

In accordance with article 3 of the Italian Ministerial Decree of 3 August 2017 revising the implementing provisions of the ACE legislation, if the amount of the notional yield (i.e. the ACE deduction) exceeds net income declared for a given tax year (the "**Excess ACE**"), such excess (i) may increase the amount deductible from income in subsequent tax years, or (ii) may be converted into a tax credit calculated by applying the IRES tax rate to the Excess ACE amount and then utilised in five annual instalments of equal amount as an offset to IRAP up to the amount of tax due for the period.

From time to time, the Italian budget law may also include provisions that affect the deductibility of particular items that could result in an increase in the taxable income of the Issuer for IRES and/or IRAP purposes, either in general or for specific tax period(s), for example the measures introduced by the 2019 budget law as regards the treatment of loss on loans to customers recognised on first application of IFRS 9.

Any legislative changes affecting the calculation of taxes could therefore have an impact on the Issuer's financial condition, results of operations and cash flow.

Moreover, Law No. 111 of 9 August 2023, recently approved by the Italian Parliament, has delegated the Italian Government to enact, within the next twenty-four months, one or more legislative decrees envisaging the reform of the Italian tax system (the "**Tax Reform**").

According to the aforementioned Law, the Tax Reform could significantly change the taxation of financial income and capital gains and introduce various amendments in the Italian tax system at different levels. The precise nature, extent, and impact of these amendments cannot be quantified or foreseen with certainty at this stage.

Therefore, the information provided in this Prospectus may not reflect the future tax framework.

In addition, it should be noted that the Italian Government, with Article 26 of Law Decree No. 104 of 10 August 2023 ("**Decree 104**"), converted with amendments into Law No. 136 of 9 October 2023, introduced for the 2023 fiscal year a lump sum tax on banks' extraordinary profits ("**Windfall Tax**"). The Windfall Tax purports to target the increased profits of banks licensed to operate in Italy resulting from high interest rates. The Windfall Tax is imposed at a 40% rate on the interest margin - as accounted under item 30 of the profit and loss account prepared according to the standards approved by the Bank of Italy - for the fiscal year preceding that in progress on 1 January 2024, that exceeds by at least 10% the interest margin relating to the fiscal year preceding that in progress on 1 January 2022.

It should be noted that Decree 104 provides a cap for the Windfall Tax equal to 0.26% of the bank's overall amount of risk exposure on an individual basis, determined in accordance with Article 92(3) and (4) of CRR, with reference to the closing date of the fiscal year preceding the one in progress on 1 January 2023.

As an alternative to paying the Windfall Tax, when approving the financial statements for the fiscal year preceding the year in progress on 1 January 2024, a bank may choose to allocate to an extraordinary non-distributable capital reserve an amount not lower than two and a half times the Windfall Tax otherwise due based on the calculation criteria explained above. If the reserve is subsequently used for dividend distribution purposes, the Windfall Tax - with a surcharge calculated at the annual interest rate on European Central Bank deposits - is payable within 30 days from the day on which the resolution approving the distribution is adopted.

The Windfall Tax, even though it is calculated on the basis of the net interest margin, is not deductible from the income taxes applicable to banks (IRES and IRAP).

Payment of the Windfall Tax is due:

1. ordinarily: within six months from the conclusion of the fiscal year preceding the one in progress on 1 January 2024; or
2. for banks approving their financial statements after the end of the fourth month following the end of the relevant fiscal year: within the end of the month following the one in which the financial statement is approved; or
3. for banks having a fiscal year not aligned with the calendar year, where the payment deadline identified according to point 1 and 2 falls within calendar year 2023: in 2024, but no later than 31 January 2024,

unless the bank opts to allocate the amount payable to the non-distributable capital reserve.

### ***Risks related to outstanding disputes and the adequacy of provisions***

The Issuer operates in a legal and regulatory context that exposes it to a wide range of potential disputes related, for example, to the terms and conditions applied to customers, the nature and characteristics of the financial products and services provided, administrative irregularities, claw back actions and labour/employment lawsuits.

Accordingly, the Issuer is party to a number of administrative, civil and tax proceedings as well as judicial and regulatory investigations relating to its activities as part of the ordinary course of business, the outcome of which cannot be predicted. See further "Description of the Issuer – Litigation".

To control the economic risks arising from legal proceedings against the Group, a provision is made in the financial statements, which is consistent with international accounting standards. The amount of the provision is estimated on the basis of multiple factors, which mainly concern the predicted outcome of the dispute, and in particular the likelihood of losing the proceedings and an order being made against the Group, and the amount to be paid to the adverse party.

It cannot be excluded that the occurrence of new developments that, as of the date of the Base Prospectus, are not predictable may result in such provisions being inadequate. Given the risks inherent in court rulings, there can be no guarantee that the Issuer will succeed in obtaining judgments or settlements favourable to it. To the extent the Issuer is not successful in any one or more of these proceedings and/or investigations that are pending or that may be initiated in the future, its reputation, financial position and results may be adversely affected.

### ***Risks related to changes in regulations of the banking industry and other laws and regulations that concern the Issuer***

As a bank, the Issuer operates in a highly regulated industry, and the laws and regulations applicable to the Issuer are subject to constant changes.

More specifically, the Issuer is subject to a wide range of regulations and oversight by the Bank of Italy, by the ECB, and by the European System of Central Banks. These laws and regulations govern the activities that banks may perform and seek to preserve the stability and solidity of banks and limit their exposure to risk. The Issuer must also comply with laws and regulations regarding financial services, such as those that govern the marketing, distribution and sales of financial products and services.

The competent supervisory authorities regulate and supervise various aspects of the Issuer's business activities, including (*inter alia*) liquidity levels and capital adequacy, the minimum requirement for own funds and eligible liabilities, the prevention of money laundering, terrorism financing, financial sanctions violation and data protection while ensuring transparency and proper conduct in relations with customers and compliance with records keeping and reporting obligations.

To enable it to operate in compliance with industry laws and regulations, the Issuer has put in place specific internal policies and procedures. Despite the existence of these policies and procedures, the Issuer may nonetheless (a) inadvertently violate specific provisions of applicable laws and regulations, including those concerning money laundering, terrorism financing, financial sanctions violation and customer relations, or (b) fail to adapt to supervisory interpretations of laws and regulations in a timely manner, all of which could have a negative impact on the Issuer's business and on its financial condition, results and cash flow.

At the date of the Base Prospectus, certain laws and regulations concerning the business sectors in which the Issuer operates have been amended in 2019 with adoption of the so-called reformed 'Banking Package' consisting of:

- Directive (EU) 2019/878 of the European Parliament and of the Council of 20 May 2019 amending the CRD IV as regards exempt entities, financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures (the "**CRD V**"); and
- Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 amending the CRR as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and Regulation (EU) No 648/2012 (the "**CRR II**");
- Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the Bank Recovery and Resolution Directive as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and Directive 98/26/EC (the "**BRD II**"); and

- Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending Regulation (EU) No. 806/2014 as regards the loss absorbing and recapitalisation capacity of credit institutions and investment firms (the "SRMR II").

With reference to BRRD, on 23 November 2016, the European Commission published a proposal to amend certain provisions of the BRRD. The proposal included an amendment to Article 108 of the BRRD aimed at further harmonizing the creditor hierarchy as regards the priority ranking of holders of bank senior unsecured debt in resolution and insolvency. A new class of so-called "senior non-preferred debt" was proposed to be added that would have been eligible to meet TLAC and MREL requirements, being senior to all subordinated debt, but junior to ordinary unsecured senior claims. These changes to Article 108 were taken out of the general revision of the BRRD and were separately enacted on 12 December 2017 by (EU) Directive 2017/2399, requiring Member States to implement them in the national legislation by 29 December 2018.

On 26 January 2021, the European Commission launched a targeted public consultation on technical aspects of a new review of BRRD ("**BRRD III**"), the SRM Regulation ("**SRM III**"), and Directive 2014/49/EU of the European Parliament and of the Council of 16 April 2014 on deposit guarantee schemes ("**DGSD II**"). This public consultation was open until 20 April 2021 and split into two main sections: a section covering the general objectives of the review, and a section seeking technical feedback on stakeholders' experience with the current Covid-19 crisis and framework and the need for changes in the future framework, notably regarding (i) resolution, liquidation and other available measures to handle banking crises, (ii) level of harmonization of creditor hierarchy in the EU and impact on the 'no creditor worse off' principle, and (iii) depositor insurance. Legislative proposals for BRRD III, SRM III and DGSD II are to be tabled during the fourth quarter of 2021. The European Commission launched a general public consultation on 25 February 2021, which was open until 20 May 2021.

Regulation (EU) 2019/630 of the European Parliament and of the Council of 17 April 2019 amending Regulation (EU) No. 575/2013 as regards minimum loss coverage for non-performing exposures has also been recently adopted and introduces a "statutory prudential backstop" to prevent the risk of under-provisioning of future NPLs. These recently introduced banking reforms as well as other laws and regulations that may be adopted in the future could adversely affect the Issuer's business, financial condition, results of operations and cash flow.

illimity's continuous implementation of these measures may have a considerable impact on its capital and on its assets and liabilities management as new regulations may restrict or limit the type or volume of transactions in which illimity participates. Further introduction of new regulation may require illimity to comply with new legal requirements and standards that are not predictable by the Issuer at this time. Moreover, such adaptation may lead to the Issuer incurring additional costs deriving from potential change, adaptation, or renovation of the characteristics of its services and products, internal and external control structures, and/or distribution mechanisms or facilities to comply with new potential regulations. The occurrence of these events may have a negative impact on illimity's business, performance and/or financial condition.

### ***Risks related to changes in laws and regulations applicable to the NPL industry segment***

Through its Distressed Credit Division, illimity is engaged in the acquisition as well as the management and servicing of NPLs through its in-house servicing structure.

The NPL regulatory framework is under an ongoing evolution, started at the end of 2016, which is placing the financial industry players under pressure aimed at the reduction of their Non Performing Loans.

As part of the comprehensive package of measures adopted by the European Commission in March 2018 to reduce NPLs in Europe, Regulation (EU) 2019/630 of the European Parliament and of the Council of 17 April 2019 was adopted to introduce a 'statutory prudential backstop' in order to prevent the risk of under provisioning of future NPLs. This regulation requires banks to have sufficient loan loss coverage (i.e. common minimum coverage levels) for newly originated loans if these become non-performing exposures. In case a bank does not meet the applicable minimum coverage level, it has to deduct the shortfall from its own funds. The measures adopted by the European Commission to tackle NPLs also include a proposal for a directive on credit servicers, credit purchasers and the recovery of collateral.

Moreover, starting from 2020, calendar provisioning is applied to the stock of banks' NPLs, gradually bringing it to a run off indicatively until 2026.

In addition, in March 2019, the EU Council adopted a directive that defines rules for how non-credit institutions can buy credit agreements from banks. The proposed directive removes obstacles to the transfer of NPLs from banks to non-credit institutions and tries to simplify the authorization requirements for credit services across the EU.

Also at national level, the Italian Government has acted to introduce two reforms that might have an impact on the forthcoming NPLs market. In particular:

- the reform of the Italian Bankruptcy Law, published on February 2019, introduced new requirements for business in order to timely identify and prevent financial crisis, with a specific timeline;
- the Decree for Growth (*Decreto Crescita*), published on April 2019, introduced new measures that could be easily applicable to still active borrowers (often classified as UTP), such as public guarantees on lending to SMEs, public aid on new financing and new securitization rules.

These recent changes to the legislative framework and other measures that may be introduced in the future could affect the NPL market by altering the methods and time frames for debt recoveries and enforcement proceedings in Italy and introducing new operating and capital requirements. While some of these changes will likely improve efficiency of the NPL market, others (such as the statutory prudential backstop) may impose more stringent requirements on NPL operators.

#### **D. Risks relating to environmental, social and governance context of the Issuer**

##### ***Risks related to the risk management process***

The Issuer is exposed to risks related to the improper design or functioning of its Risk Management processes and the inadequacy of its internal control system. The Issuer has an organisational structure and has put in place procedures for different levels of controls to be performed by dedicated functions and personnel, in order to detect, monitor, control, and manage the different relevant risks (namely, credit and counterparty risk, liquidity risk, market risk, interest rate risk, concentration risk, operational risk, technology risk and strategic and business risks, climate change risks and, more generally, ESG risks) that the Issuer is exposed to in its activities. The methodologies utilized by the Issuer to monitor and manage risks involve the observation of historical data, the use of external representative data and advanced statistical models (including those developed with the application of artificial intelligence/machine learning techniques), and escalation procedures and corrective actions have been formalized that will apply if risks exceed predetermined levels set by the Issuer's Board of Directors in compliance with parameters defined by the Bank of Italy. See further "Description of the Issuer – Internal Control System and Risk Management".

Therefore, any inadequacy of illimity's organisational structure, failure or weakness of the Risk Management process, inability of the system in place to identify promptly and quantify accurately the relevant risks, inaccuracy of the assumptions, historical and external data and advanced statistical models underlying internal policies, inadequacy of the procedures developed to manage risks, and the occurrence of certain unforeseeable events that are wholly or partly out of the Issuer's control resulting in (or intensifying) specific risks, could adversely affect illimity's performance and financial condition and its results of operations.

##### ***Risks related to the management reporting and control system***

The Issuer has in place a system to report to management the financial performance of the different areas of its operations as well as control mechanisms to monitor progress and verify the objectives set forth in its annual budget. In particular, the Administration, Accounting & Control function prepares periodic reports to senior management and the Board of Directors on the Issuer's financial condition and results of operations as well as - with the involvement of the risk control function - the position as to risks and capital/liquidity. The Issuer's management reporting and control system is also reliant on the proper functioning of its information systems, some processes of which have been migrated in 2019 from the previous outsourcer Consorzio Servizi Bancari to the new "Core Banking" outsourcer Sella Technology Solutions and other new ones that are based on the new Microsoft Cloud "ecosystem".

There can be no assurance that the system will be capable of detecting relevant risks in all instances, or that it can be revised and adapted in a timely manner to adequately cover an expanded scope of illimity's activities in the

future as envisaged in its Strategic Plan. The occurrence of any of the foregoing events could hamper management decisions and/or its ability to take corrective action promptly and may negatively affect the Issuer's operations.

## **RISK FACTORS RELATED TO THE NOTES**

The risks below have been classified into the following categories:

- A. There is no active trading market for the Notes;
- B. Risks related to the structure of a particular issue of Notes;
- C. Risks related to Notes generally;
- D. Risks related to the market generally.

### **A. There is no active trading market for the Notes**

Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Although applications have been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to the Official List of the Luxembourg Stock Exchange and trading on its regulated market, there is no assurance that such applications will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes.

### **B. Risks related to the structure of a particular issue of Notes**

#### ***Notes have limited Events of Default and remedies***

The Events of Default in respect of Notes, being events upon which the Noteholders may declare the Notes to be immediately due and repayable, are limited to circumstances in which the Issuer becomes subject to compulsory winding-up (*liquidazione coatta amministrativa*) pursuant to Articles 80 and following of the Consolidated Banking Act or voluntary winding-up (*liquidazione volontaria*) in accordance with Article 96-*quinquies* of the Consolidated Banking Act (as amended from time to time) as set out in Condition 13 (*Events of Default*). Accordingly, other than following the occurrence of an Event of Default, even if the Issuer fails to meet any of its obligations under the Notes, including the payment of any interest, the Noteholders will not have the right of acceleration of principal and the sole remedy available to Noteholders for recovery of amounts owing in respect of any of the Notes will be the institution of proceedings to enforce such payment. Notwithstanding the foregoing, the Issuer will not, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it. Furthermore, investors should consider that the terms and conditions of the Notes do not provide for negative pledge provisions.

#### ***Bail-in Powers and contractual recognition of the BRRD***

Under the BRRD framework the Relevant Authorities have the power to apply "resolution" tools if the Issuer is failing or likely to fail, as an alternative to compulsory liquidation proceedings. Specifically, these tools are: (1) the sale of business assets or shares of the Issuer; (2) the establishment of a bridging organization; (3) the separation of the unimpaired assets of the Issuer from those which are deteriorated or impaired; and (4) a bail-in, through write-down/conversion into equity of regulatory capital instruments (including the Subordinated Notes) as well as other liabilities of the Issuer (including the Senior Notes) if the relevant conditions are satisfied and in accordance with the creditors' hierarchy provided under the relevant provisions of Italian law.

Furthermore, Article 33a of BRRD II introduces a new pre-resolution moratorium tool as a temporary measure in an early stage and new suspension powers, which the resolution authority can use within the resolution period. Any suspension of activities can, as stated above, result in the partial or complete suspension of the performance of agreements (including any payment or delivery obligation) entered into by the respective credit institution. The exercise of any such power or any suggestion of such exercise could materially adversely affect the rights of the

holders of securities issued by the Issuer, the price or value of their investment in any such security and/or the ability of the credit institution to satisfy its obligations under any such security.

In particular, by its acquisition of a Note (whether on issuance or in the secondary market), each holder of the Notes acknowledges, accepts, agrees to be bound by and consents to the exercise of any Bail-in Power by a Relevant Authority that may result in the cancellation of all, or a portion, of the principal amount of, or interest on, the Notes and/or the conversion of all, or a portion, of the principal amount of, or interest on, the Notes into equity or other securities or other obligations of the Issuer or another person, including by means of a variation to the terms of the Notes, in each case to give effect to the exercise by a Relevant Authority of such Bail-in Power. Each holder of the Notes acknowledges, accepts and agrees that its rights as a holder of the Notes are subject to, and will be varied, if necessary, so as to give effect to, the exercise of any such power by any Relevant Authority.

The exercise of any Bail-in Power, which could result in the Notes being written down or converted into equity pursuant to such statutory measures, or any suggestion of such exercise could, therefore, materially adversely affect the rights of the Noteholders, the price or value of their investment in the Notes, the ability of the Issuer to satisfy its obligations under the Notes, and may have a negative impact on the market value of the Notes. Please refer to the *risk factor "Risks related to the bail-in"*.

### ***Waiver of set-off***

As specified in Condition 4(a) (*Status - Senior Notes*) with respect to Senior Notes, Condition 4(b) (*Status – Senior Non-Preferred Notes*) with respect to Senior Non-Preferred Notes and Condition 4(c) (*Status - Subordinated Notes*) with respect to Subordinated Notes, each holder of a Note will unconditionally and irrevocably waives any right of set-off, counterclaim, abatement or other similar remedy which it might otherwise have, under the laws of any jurisdiction, in respect of such Note. As a result of the foregoing the Noteholders may not be able to set-off any payment due to the Issuer.

### ***Investors who hold less than the minimum Specified Denominations may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued***

Subject to any minimum denomination applicable to Notes, in relation to any Notes issued in denominations representing the aggregate of (i) a minimum Specified Denomination of €100,000 (or €150,000, or such other minimum denomination provided by applicable law from time to time) in the case of Senior Non-Preferred Notes or €200,000, or such other minimum denomination provided by applicable law from time to time, in the case of Subordinated Notes, plus (ii) integral multiples of another smaller amount, Notes may be traded in amounts which, although greater than €100,000 (or €150,000, or such other minimum denomination provided by applicable law from time to time, in the case of Senior Non-Preferred Notes or €200,000, or such other minimum denomination provided by applicable law from time to time, in the case of Subordinated Notes) (or its equivalent in another currency), are not integral multiples of €100,000 (or €150,000, or such other minimum denomination provided by applicable law from time to time, in the case of Senior Non-Preferred Notes or €200,000, or such other minimum denomination provided by applicable law from time to time, in the case of Subordinated Notes) (or its equivalent in another currency). In such a case, a Noteholder who, as a result of trading such amounts, holds a principal amount of less than €100,000 (or €150,000, or such other minimum denomination provided by applicable law from time to time, in the case of Senior Non-Preferred Notes or €200,000, or such other minimum denomination provided by applicable law from time to time, in the case of Subordinated Notes) would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the relevant minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a Noteholder who, as a result of trading such amounts, holds an amount which is less than the relevant minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

### ***Potential conflicts of interest***

Any Calculation Agent appointed under the Programme is the agent of the Issuer and not the agent of the Noteholders. Potential conflicts of interest may exist between the Calculation Agent (if any) and Noteholders (including where a Dealer acts as a Calculation Agent), including with respect to certain determinations and judgments that such Calculation Agent may make pursuant to the Conditions that may influence amounts receivable by the Noteholders during the term of the Notes and upon their redemption.

*The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to such "benchmarks"*

The Euro Interbank Offered Rate ("**EURIBOR**") and other indices which are deemed to be "benchmarks" are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to such a "benchmark".

Regulation (EU) 2016/1011 (the "**EU Benchmarks Regulation**") applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the EU.

The Benchmark Regulation (EU) No. 2016/1011 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the "**UK Benchmarks Regulation**") applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by Financial Conduct Authority (the "**FCA**") or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed). The EU Benchmarks Regulation or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to EURIBOR or another benchmark rate or index, in particular, if (i) the benchmark could no longer be used as such, if its administrator does not obtain authorisation/registration and the notes have to be de-listed, adjusted, redeemed prior to maturity or otherwise impacted or (ii) the methodology or other terms of the "benchmark" are changed in order to comply with the requirements of the EU Benchmarks Regulation or the UK Benchmarks Regulation, and such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the "benchmark".

More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

The euro risk free-rate working group for the euro area has published a set of guiding principles and high level recommendations for fallback provisions in, amongst other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, amongst other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates.

For example, the terms and conditions provide for certain fallback arrangements in the event that a Benchmark Event occurs, including if a published benchmark, such as EURIBOR, and any page on which such benchmark may be published (or any successor service) becomes unavailable, or if the Issuer, the Calculation Agent, any Paying Agent or any other party responsible for the calculation of the Rate of Interest (as specified in the relevant Final Terms) are no longer permitted lawfully to calculate interest on any Notes by reference to such benchmark under the EU Benchmarks Regulation or otherwise. Such fallback arrangements include the possibility that the rate of interest could be set by reference to a successor rate or an alternative rate, with or without an adjustment spread and may include amendments to the Terms and Conditions of the Notes to ensure the proper operation of the successor or replacement benchmark, all as determined by an independent adviser or the Issuer. An adjustment spread, if applied could be positive or negative or zero and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of a benchmark. However, it may not be possible to determine or apply an adjustment spread and even if an adjustment is applied, such adjustment spread may not be effective to reduce or eliminate economic prejudice to investors. If no adjustment spread can be determined, a successor rate or alternative rate may nonetheless be used to determine the rate of interest. The use of a successor rate or alternative rate (including with the application of an adjustment spread) will still result in any Notes linked to or referencing a benchmark performing differently (which may include payment of a lower rate of interest) than they would if the benchmark were to continue to apply in its current form.

If, following the occurrence of a Benchmark Event, the Issuer is unable to appoint an independent adviser or the independent adviser appointed by it fails to determine a successor rate or an alternative rate, or, if specified in the relevant Final Terms, if this provision would cause the occurrence of a Regulatory Event, the ultimate fallback for the purposes of calculation of the rate of interest for a particular Interest Period or Reset Period may result in the

rate of interest for the last preceding Interest Period or Reset Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes or Reset Notes (as applicable) based on the rate which was last observed on the Relevant Screen Page. In addition, due to the uncertainty concerning the availability of successor rates and alternative rates and the involvement of an independent adviser, there is a risk that the relevant fallback provisions may not operate as intended at the relevant time. Any such consequences could have a material adverse effect on the value of and return on any such Notes. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant reference rate could affect the ability of the Issuer to meet its obligations under the Floating Rate Notes or Reset Notes (as applicable) or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Floating Rate Notes or Reset Notes (as applicable). Investors should consider these matters when making their investment decision with respect to the relevant Floating Rate Notes or Reset Notes (as applicable).

It is not possible to predict with certainty whether, and to what extent, EURIBOR will continue to be supported going forwards. This may cause EURIBOR to perform differently than it has done in the past and may have other consequences which cannot be predicted. Such factors may have (without limitation) the following effects on certain "benchmarks": (i) discouraging market participants from continuing to administer or contribute to a "benchmark"; (ii) triggering changes in the rules or methodologies used in the "benchmarks" and/or (iii) leading to the disappearance of the "benchmark". Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing, or otherwise dependent (in whole or in part) upon, a "benchmark".

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation or any of the international or national and the possible application of the benchmark replacement provisions of the Notes, investigations and licensing issues in making any investment decision with respect to the Notes linked to or referencing such a "benchmark".

***If the Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return.***

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes or is perceived to be able to redeem the Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period. The Issuer may redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

***Inflation-Linked Notes are subject to a number of specific risks due to their link to an underlying index.***

The Issuer may issue Notes with principal and/or interest determined by reference to an index or formula or to changes in the prices of securities or commodities (each a "relevant factor"). In addition, each Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time;
- (iv) they may lose all or a substantial portion of their principal;
- (v) the relevant factors may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;

- (vi) if a relevant factor is applied to the Notes in conjunction with a multiplier greater than one or contains any other leverage factor, the effect of changes in the relevant factor on principal or interest payable is likely to be magnified; and
- (vii) the timing of changes in a relevant factor may affect the actual yield to investors, even if the average level is consistent with their expectations.

The historical experience of an index or other relevant factor should not be viewed as an indication of the future performance of such relevant factor during the term of any Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in any Notes linked to a relevant factor and the suitability of such Notes in light of its particular circumstances.

***If the Issuer has the right to convert the interest rate on any Notes from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned.***

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. That Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since that Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If that Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If that Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

To the extent that Multiplier or Reference Rate Multiplier applies in respect of the determination of the Interest Rate for the Floating Rate Notes, investors should be aware that any fluctuation of the underlying floating rate will be amplified by such multiplier. Where the Multiplier is less than 1, this may adversely affect the return on the Floating Rate Notes.

***The interest rate on Reset Notes will reset on each Reset Date, which can be expected to affect the interest payment on an investment in Reset Notes and could affect the market value of the Reset Notes.***

Reset Notes will initially bear interest at the Initial Rate of Interest from and including the Interest Commencement Date up to but excluding the First Reset Date. On the First Reset Date, the Second Reset Date (if applicable) and each Subsequent Reset Date (if any) thereafter, the interest rate will be reset to the sum of the applicable Mid-Swap Rate and the First Margin or Subsequent Margin (as applicable) as determined by the Calculation Agent on the relevant Reset Determination Date (each such interest rate, a "**Subsequent Reset Rate of Interest**"). The Subsequent Reset Rate of Interest for any Reset Period could be less than the Initial Rate of Interest or the Subsequent Reset Rate of Interest for prior Reset Periods and could affect the market value of an investment in the Reset Notes.

***Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates.***

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

### ***Risks relating to Senior Notes***

*Senior Notes could be subject to redemption following a MREL Disqualification Event*

If so specified in the Final Terms, if at any time a MREL Disqualification Event occurs and is continuing in relation to any Series of Senior Notes, the Issuer may redeem all, but not some only, the Notes of such Series at the Early Redemption Amount set out in the applicable Final Terms, together with any outstanding interest. Senior Notes may only be redeemed by the Issuer subject to compliance by the Issuer with any conditions or restrictions to such redemption or repurchase prescribed by the applicable laws and regulations at the relevant time. See "*Early redemption and purchase of the Senior Preferred Notes may be restricted*", below.

A MREL Disqualification Event shall be deemed to have occurred if, by reason of the introduction of, or a change in, the MREL Requirements, which was not reasonably foreseeable by the Issuer at the Issue Date of the Senior Notes, all or part of the aggregate outstanding nominal amount of such Series of Senior Notes are or will be excluded fully or partially from the liabilities that are eligible to meet the MREL Requirements.

If the Senior Notes are to be so redeemed, there can be no assurance that Noteholders will be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investment in the Senior Notes.

*Early redemption and purchase of the Senior Notes may be restricted*

Any early redemption or purchase of Senior Notes is subject to compliance by the Issuer with any conditions or restrictions to such redemption or repurchase prescribed by the applicable laws and regulations at the relevant time, including any requirements applicable to such redemption or repurchase due to the qualification of such Senior Notes at such time as liabilities eligible to meet the MREL Requirements.

In addition, pursuant to the EU Banking Reform, the early redemption or purchase of Senior Notes is subject to the prior approval of the Relevant Authority.

The EU Banking Reform states that the Relevant Authority would approve an early redemption of the Senior Notes in accordance with Article 78a of the CRR in the event either of the following conditions is met:

- (i) on or before such call, redemption, repayment or repurchase (as applicable), the Issuer replaces the Senior Notes with Own Funds Instruments or Eligible Liabilities Instruments of equal or higher quality at terms that are sustainable for its income capacity; or
- (ii) the Issuer has demonstrated to the satisfaction of the Relevant Authority that its Own Funds and Eligible Liabilities would, following such call, redemption, repayment or repurchase, exceed the requirements for Own Funds and Eligible Liabilities laid down in the Applicable Banking Regulations by a margin that the Relevant Authority considers necessary; or
- (iii) the Issuer has demonstrated to the satisfaction of the Relevant Authority that the partial or full replacement of the Eligible Liabilities with Own Funds Instruments is necessary to ensure compliance with the Own Funds requirements laid down in the Applicable Banking Regulations for continuing authorization,

subject in any event to any different conditions or requirements as may be provided from time to time under the Applicable Banking Regulations.

*Senior Notes may be subject to modification without the Noteholder consent*

If at any time a MREL Disqualification Event or an Alignment Event occurs and is continuing in relation to any Senior Notes and/or in order to ensure the effectiveness and enforceability of Condition 23 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Italian Law Notes in Physical Form and Condition 22 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Dematerialised Notes with respect to Senior Notes, then the Issuer may, subject to giving any notice required to be given to, and receiving consent from the Relevant Authority (without any requirement for the consent or approval of the holders of the Senior Notes of that Series), at any time in the case of Italian Law Notes in Physical Form and Dematerialised Notes, vary the terms of such Senior Notes, so that they remain or, as appropriate, become, Qualifying Senior Notes (as defined below), *provided that* such variation does not itself give rise to any right of the Issuer to redeem the varied securities.

Qualifying Senior Notes are securities issued by the Issuer that have terms not materially less favourable to the Noteholders, as reasonably determined by the Issuer, than the terms of the relevant Senior Notes. However, no assurance can be given as to whether any of these changes will negatively affect any particular Noteholder. However, in respect of the effectiveness and enforceability of Condition 23 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Italian Law Notes in Physical Form and Condition 22 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Dematerialised Notes with respect to Senior Notes, the Qualifying Senior Notes may have terms materially less favourable to a holder of the Senior Notes, including but not limited to a change in governing law and/or to the jurisdiction and service of process provisions. Additionally,

there may be material tax consequences for holders of Senior Notes as a result of such modification, and holders should consult their own tax advisors regarding such potential consequences.

### ***Risks relating to Senior Non-Preferred Notes***

*Italian law applicable to the Senior Non-Preferred Notes was recently enacted*

On 1 January 2018, the Italian law No. 205 of 27 December 2017 (the "**2018 Budget Law**") came into force introducing certain amendments to the Legislative Decree No. 385 of 1 September 1993 (the "**Consolidated Banking Act**"), including the possibility for banks and companies belonging to banking groups to issue senior non-preferred securities (the so-called "*strumenti di debito chirografario di secondo livello*").

In particular, the 2018 Budget Law set forth certain requirements for notes to qualify as senior non-preferred securities:

- (i) the original maturity period is at least equal to twelve months;
- (ii) are not derivative securities or linked to derivative securities, nor include any feature of such derivative securities;
- (iii) the minimum denomination is at least equal to €150,000 (or such other minimum denomination provided by applicable law from time to time); and
- (iv) the prospectus and the agreements regulating the issuance of senior non-preferred securities expressly provide that payment of interests and reimbursement of principal due in respect thereof are subject to the provisions set forth in of Article 91, section 1-*bis*, letter c-*bis* of the Consolidated Banking Act.

According to Article 91, section 1-*bis*, letter c-*bis* of the Consolidated Banking Act, in case an issuer of senior non-preferred securities is subject to compulsory liquidation (*liquidazione coatta amministrativa*) or voluntary liquidation (*liquidazione volontaria*), the relevant payment obligations in respect thereof will rank in right of payment (A) after unsubordinated creditors (including depositors) including claims arising from the excluded liabilities within the meaning of Article 72a(2) of the CRR, (B) at least *pari passu* with all other present and future unsubordinated and non-preferred obligations which do not rank or are not expressed by their terms to rank junior or senior to such senior non-preferred securities and (C) in priority to any present or future claims ranking junior to such senior non-preferred securities and the claims of the shareholders.

Furthermore, Article 12-*bis* of the Consolidated Banking Act also provides that:

- (i) the provisions set forth in Article 91, paragraph 1-*bis*, letter c-*bis* of the Consolidated Banking Act shall apply to such senior non-preferred securities only to the extent that the requirements described in paragraphs (i), (ii) and (iv) above have been complied with; any contractual provision which does not comply with any of the above requirements is invalid but such invalidity does not imply the invalidity of the entire agreement;
- (ii) the senior non-preferred securities, once issued, may not be amended in a manner that the requirements described in paragraphs (i), (ii) and (iv) above are not complied with and that any different contractual provision is null and void; and
- (iii) the Bank of Italy may enact further regulation providing for additional requirements in respect of the issuance and the characteristics of senior non-preferred securities.

Any prospective investor in the Senior Non-Preferred Notes should be aware that the provisions of Articles 12-*bis* and 91, section 1-*bis*, letter c-*bis* of the Consolidated Banking Act was recently enacted and that, as of the date of this Base Prospectus, no interpretation of the application of such provisions has been issued by any Italian court or governmental or regulatory authority and no regulation has been issued by the Bank of Italy in respect thereof. Consequently, it is possible that any regulation or official interpretation relating to the above will be issued in the future by the Bank of Italy or any different authority, the impact of which cannot be predicted by the Issuer as of the date of this Base Prospectus.

*The Senior Non-Preferred Notes are senior non-preferred obligations and are junior to certain obligations*

In order to be eligible to meet the requirements and conditions of Articles 12-bis and 91, section 1-bis, letter c-bis of the Consolidated Banking Act and any relevant implementing regulation which may be enacted for such purposes by any Relevant Authority and also qualify as eligible liabilities available to meet the MREL Requirements (as defined in the Conditions), Senior Non-Preferred Notes will rank junior to Senior Notes and any other unsecured and unsubordinated obligations of the Issuer which rank, or are expressed to rank by their terms, senior to the Senior Non-Preferred Notes. As a result, the default risk on the Senior Non-Preferred Notes will be higher than the risk associated with preferred senior debt (such as Senior Notes) and other senior liabilities (such as wholesale deposits).

Although Senior Non-Preferred Notes may pay a higher rate of interest than comparable Senior Notes which are not issued on a senior non-preferred basis, there is a greater risk that an investor in Senior Non-Preferred Notes will lose all or some of its investment should the Issuer become insolvent.

*Senior Non-Preferred Notes are new types of instruments*

Market participants, including credit rating agencies, are in the initial stages of evaluating the risks associated with senior non-preferred obligations. The credit ratings assigned to senior non-preferred securities such as the Senior Non-Preferred Notes may change as the rating agencies refine their approaches, and the value of such securities may be particularly volatile as the market becomes more familiar with them. It is possible that, over time, the credit ratings and value of senior non-preferred securities such as the Senior Non-Preferred Notes will be lower than those expected by investors at the time of issuance of the Senior Non-Preferred Notes. If so, investors may incur losses in respect of their investments in the Senior Non-Preferred Notes.

*Qualification of Senior Non-Preferred Notes as "strumenti di debito chirografario di secondo livello"*

The intention of the Issuer is for Senior Non-Preferred Notes to qualify on issue as "strumenti di debito chirografario di secondo livello" as defined under, and for the purposes of, Articles 12-bis and 91, section 1-bis, letter c-bis of the Consolidated Banking Act and any relevant implementing regulation which may be enacted for such purposes by any Relevant Authority and also qualify as eligible liabilities available to meet the MREL Requirements (as defined in the Conditions). Current regulatory practice by the Bank of Italy (acting as lead regulator) does not require (or customarily provide) a confirmation prior to the issuance of the Senior Non-Preferred Notes that the Senior Non-Preferred Notes will comply with such provisions.

Although it is Issuer's expectation that the Senior Non-Preferred Notes qualify as "strumenti di debito chirografario di secondo livello" as defined under, and for the purposes of, Articles 12-bis and 91, section 1-bis, letter c-bis of the Consolidated Banking Act and any relevant implementing regulation which may be enacted for such purposes by any Relevant Authority and also qualify as eligible liabilities available to meet the MREL Requirements (as defined in the Conditions) there can be no representation that this is or will remain the case during the life of the Senior Non-Preferred Notes.

*Senior Non-Preferred Notes could be subject to redemption following a MREL Disqualification Event*

If so specified in the Final Terms, if at any time a MREL Disqualification Event occurs and is continuing in relation to any Series of Senior Non-Preferred Notes, the Issuer may redeem all, but not some only, the Notes of such Series at the Early Redemption Amount set out in the applicable Final Terms, together with any outstanding interest. Senior Non-Preferred Notes may only be redeemed by the Issuer subject to compliance by the Issuer with any conditions or restrictions to such redemption or repurchase prescribed by the applicable laws and regulations at the relevant time. See "*Early redemption and purchase of the Senior Non-Preferred Notes may be restricted*", below.

A MREL Disqualification Event shall be deemed to have occurred if, by reason of the introduction of, or a change in, the MREL Requirements, which was not reasonably foreseeable by the Issuer at the Issue Date of the Senior Non-Preferred Notes, all or part of the aggregate outstanding nominal amount of such Series of Senior Non-Preferred Notes are or will be excluded fully or partially from the liabilities that are eligible to meet the MREL Requirements.

If the Senior Non-Preferred Notes are to be so redeemed, there can be no assurance that Noteholders will be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investment in the Senior Non-Preferred Notes.

*Early redemption and purchase of the Senior Non-Preferred Notes may be restricted*

Any early redemption or purchase of Senior Non-Preferred Notes is subject to compliance by the Issuer with any conditions or restrictions to such redemption or repurchase prescribed by the applicable laws and regulations at the relevant time, including any requirements applicable to such redemption or repurchase due to the qualification of such Senior Non-Preferred Notes at such time as liabilities eligible to meet the MREL Requirements.

In addition, pursuant to the EU Banking Reform, the early redemption or purchase of Senior Non-Preferred Notes is subject to the prior approval of the Relevant Authority.

The EU Banking Reform states that the Relevant Authority would approve an early redemption of the Senior Non-Preferred Notes in accordance with Article 78a of the CRR in the event either of the following conditions is met:

- (i) on or before such call, redemption, repayment or repurchase (as applicable), the Issuer replaces the Senior Non-Preferred Notes with Own Funds Instruments or Eligible Liabilities Instruments of equal or higher quality at terms that are sustainable for its income capacity; or
- (ii) the Issuer has demonstrated to the satisfaction of the Relevant Authority that its Own Funds and Eligible Liabilities would, following such call, redemption, repayment or repurchase, exceed the requirements for Own Funds and Eligible Liabilities laid down in the Applicable Banking Regulations by a margin that the Relevant Authority considers necessary; or
- (iii) the Issuer has demonstrated to the satisfaction of the Relevant Authority that the partial or full replacement of the Eligible Liabilities with Own Funds Instruments is necessary to ensure compliance with the Own Funds requirements laid down in the Applicable Banking Regulations for continuing authorization,

subject in any event to any different conditions or requirements as may be provided from time to time under the Applicable Banking Regulations.

*Senior Non-Preferred Notes may be subject to modification without the Noteholder consent*

If at any time a MREL Disqualification Event or an Alignment Event occurs and is continuing in relation to any Senior Non-Preferred Notes and/or in order to ensure the effectiveness and enforceability of Condition 23 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Italian Law Notes in Physical Form and Condition 22 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Dematerialised Notes, then the Issuer may, subject to giving any notice required to be given to, and receiving consent from the Relevant Authority (without any requirement for the consent or approval of the holders of the Senior Non-Preferred Notes of that Series), at any time in the case of Italian Law Notes in Physical Form and Dematerialised Notes, vary the terms of such Senior Non-Preferred Notes, so that they remain or, as appropriate, become, Qualifying Senior Non-Preferred Notes (as defined below), *provided that* such variation does not itself give rise to any right of the Issuer to redeem the varied securities.

Qualifying Senior Non-Preferred Notes are securities issued by the Issuer that have terms not materially less favourable to the Noteholders, as reasonably determined by the Issuer, than the terms of the relevant Senior Non-Preferred Notes. However, no assurance can be given as to whether any of these changes will negatively affect any particular Noteholder. However, in respect of the effectiveness and enforceability of Condition 23 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Italian Law Notes in Physical Form and Condition 22 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Dematerialised Notes, the Qualifying Senior Non-Preferred Notes may have terms materially less favourable to a holder of the Senior Non-Preferred Notes, including but not limited to a change in governing law and/or to the jurisdiction and service of process provisions. Additionally, there may be material tax consequences for holders of Senior Non-Preferred Notes as a result of such modification, and holders should consult their own tax advisors regarding such potential consequences.

## ***Risks related to the Subordinated Notes***

### *Subordinated Notes are subordinated obligations*

If the Issuer is declared insolvent and a winding up is initiated or in the event that the Issuer becomes subject to an order for *Liquidazione Coatta Amministrativa*, as defined in the Consolidated Banking Act, it will be required to pay the holders of senior debt and meet its obligations to all its other creditors (including unsecured creditors) in full before it can make any payments on Subordinated Notes. If this occurs, the Issuer may not have enough assets remaining after these payments to pay amounts due under such Notes.

Furthermore, the BRRD provides for a Member State as a last resort, after having assessed and applied the resolution tools (including the general bail-in tool) to the maximum extent practicable whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the burden sharing requirements of the EU state aid framework and the BRRD. As an exemption from these principles, the BRRD allows for three kinds of extraordinary public support to be provided to a solvent institution without triggering resolution: 1) a State guarantee to back liquidity facilities provided by central banks according to the central banks' conditions; 2) a State guarantee of newly issued liabilities; or 3) an injection of own funds in the form of precautionary recapitalisation. In the case of precautionary recapitalisation EU state aid rules require that shareholders and junior bond holders (such as holders of the Subordinated Notes) contribute to the costs of restructuring.

As a result, Subordinated Notes may be subject to a partial or full write-down or conversion to Common Equity Tier 1 instruments of the Issuer or one of the Group's entities or another institution. Accordingly, trading behaviour may also be affected by the threat that non-viability loss absorption (or the general bail-in tool) may be applied to Subordinated Notes or the burden sharing requirements of the EU state aid framework and the BRRD may be applied and, as a result, Subordinated Notes are not necessarily expected to follow the trading behaviour associated with other types of securities. Noteholders should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if the non-viability loss absorption (or the general bail-in tool) is applied to the Subordinated Notes or the burden sharing requirements of the EU state aid framework and the BRRD are applied or that such Subordinated Notes may be converted into ordinary shares which ordinary shares may be of little value at the time of conversion.

Italian Legislative Decree No. 193 of 8 November 2021 implementing Directive 879/2019/EU ("**BRRD II**") in Italy and published on 30 November 2021 in the Gazzetta Ufficiale has transposed in the Italian legislation Article 48(7) of BRRD II under Article 91, paragraph 1-*bis*, letter *c-ter* of the Consolidated Banking Law. Such provisions state that (i) if an instrument is only partly recognised as an own funds item, the whole instrument shall be treated in insolvency as a claim resulting from an own funds item and shall rank lower than any claim that does not result from an own funds item and (ii) if an instrument is fully disqualified as own funds item, it would cease to be treated as a claim resulting from an own funds item in insolvency and, consequently, would improve their ranking with respect to any claim that results from an own funds item (such as the Subordinated Notes).

In light of this new provision, if the Subordinated Notes were to be disqualified in full as own funds items in the future: (a) their ranking would improve vis-à-vis the rest of the Subordinated Notes; and (b) in the event of a liquidation or bankruptcy of the Issuer, the Issuer would, *inter alia*, be required to pay the holders of the Notes and any other subordinated creditors of the Issuer, whose claims arise from liabilities that are no longer fully recognised as an own funds instrument, in full before it can make any payments on any other Subordinated Notes which are still recognised (at least in part) as own funds instruments.

For a full description of the provisions relating to Subordinated Notes, see Condition 4(c) (*Status – Subordinated Notes*).

### *Regulatory classification of the Notes*

The intention of the Issuer is for Subordinated Notes to qualify on issue as "Tier 2 Capital", for regulatory capital purposes.

Although it is Issuer's expectation that the Notes qualify as "Tier 2 Capital", there can be no representation that this is or will remain the case during the life of the Notes or that the Notes will be grandfathered under the implementation of future EU capital requirement regulations. If the Notes are not grandfathered, or for any other

reason cease to qualify, as "Tier 2 Capital", the Issuer will (if so specified in the applicable Final Terms) have the right to redeem the Notes in accordance with Condition 10(g) (*Redemption of Subordinated Notes for regulatory reasons (Regulatory Call)*), subject to the prior approval of the Relevant Authority. There can be no assurance that holders of such Notes will be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investments in the relevant Notes, as the case may be, see "*Early Redemption of the Subordinated Notes*".

For further information see "*Subordinated Notes may be subject to modification without Noteholder consent*" below.

*Subordinated Notes may be subject to loss absorption on any application of the general bail-in-tool or at the point of non-viability of the Issuer*

Investors should be aware that, in addition to the general bail-in tool, the BRRD contemplates that Subordinated Notes may be subject to a write-down or conversion into common shares at the point of non-viability. The BRRD is intended to enable a range of actions to be taken in relation to credit institutions and investment firms considered to be at risk of failing. The implementation of the BRRD or the taking of any action under it could materially affect the value of any Subordinated Notes. Additionally, there may be material tax consequences for holders of Subordinated Notes as a result of such write-down or conversion, and holders should consult their own tax advisors regarding such potential consequences.

*Subordinated Notes could be subject to redemption following a MREL Disqualification Event or a Regulatory Event*

If so specified in the Final Terms, if at any time a MREL Disqualification Event or a Regulatory Event occurs and is continuing in relation to any Series of Subordinated Notes, the Issuer may redeem all, but not some only, the Notes of such Series at the Early Redemption Amount set out in the applicable Final Terms, together with any outstanding interest. Subordinated Notes may only be redeemed by the Issuer subject to compliance by the Issuer with any conditions or restrictions to such redemption or repurchase prescribed by the applicable laws and regulations at the relevant time. See "*Early redemption of the Subordinated Notes may be restricted*", below.

A MREL Disqualification Event shall be deemed to have occurred if, by reason of the introduction of, or a change in, the MREL Requirements, which was not reasonably foreseeable by the Issuer at the Issue Date of the Subordinated Notes, all or part of the aggregate outstanding nominal amount of such Series of Subordinated Notes are or will be excluded fully or partially from the liabilities that are eligible to meet the MREL Requirements.

A Regulatory Event means any change (or pending change which the Relevant Authority considers to be sufficiently certain) in the regulatory classification of the Subordinated Notes from their classification on the Issue Date that results, or would be likely to result, in their exclusion in full or, to the extent permitted under the Applicable Banking Regulations, in part, from the Tier 2 Capital of the Issuer or, where applicable in accordance with the Applicable Banking Regulations, a reclassification as a lower quality form of Own Funds.

If the Subordinated Notes are to be so redeemed, there can be no assurance that Noteholders will be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investment in the Subordinated Notes.

*Early redemption of the Subordinated Notes may be restricted*

The rules under the CRR prescribe certain conditions for the granting of permission by the Relevant Authority to a request by the Issuer to redeem or repurchase the Subordinated Notes. In this respect, the CRR provides that the Relevant Authority shall grant permission to a redemption or repurchase of the Subordinated Notes in accordance with Article 78 of the CRR *provided that* either of the following conditions is met, as applicable to the Notes:

- (i) on or before such call, redemption, repayment or repurchase (as applicable), the Issuer replaces the Notes with Own Funds instruments of equal or higher quality at terms that are sustainable for its income capacity; or
- (ii) the Issuer has demonstrated to the satisfaction of the Relevant Authority that its Own Funds would, following such call, redemption, repayment or repurchase, exceed the capital requirements laid down in the Applicable Banking Regulations by a margin that the Relevant Authority considers necessary.

In addition, the rules under the CRR provide that the Relevant Authority may only permit the Issuer to redeem the Subordinated Notes before five years after the Issue Date of the Notes if and to the extent required under Article 78(4) of the CRR or the related implementing regulations, policies and guidelines:

- (i) the conditions listed in paragraphs (i) or (ii) above are met; and
- (ii) in the case of redemption pursuant to Condition 10(b) (*Redemption for tax reasons*), the Issuer has demonstrated to the satisfaction of the Relevant Authority that the change in the applicable tax treatment of the Notes is material and was not reasonably foreseeable as of the Issue Date; or
- (iii) in case of redemption pursuant to Condition 10(g) (*Redemption of Subordinated Notes for regulatory reasons*), the Issuer has demonstrated to the satisfaction of the Relevant Authority that the change in the regulatory classification of the Notes was not reasonably foreseeable as of the Issue Date; or
- (iv) on or before the relevant call, redemption, repayment or repurchase, the Issuer replaces the Notes with Own Funds instruments of equal or higher quality at terms that are sustainable for its income capacity and the Relevant Authority has permitted that action on the basis of the determination that it would be beneficial from a prudential point of view and justified by exceptional circumstances; or
- (v) the Subordinated Notes are repurchased for market making purposes,

subject in any event to any different conditions or requirements as may be provided from time to time under the Applicable Banking Regulations

*Subordinated Notes may be subject to modification without Noteholder consent*

If at any time a Tax Event, an Alignment Event, a MREL Disqualification Event or a Regulatory Event occurs and/or in order to ensure the effectiveness and enforceability of Condition 23 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Italian Law Notes in Physical Form and Condition 22 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Dematerialised Notes, then the Issuer may, subject to giving any notice required to, and receiving consent from the Relevant Authority (without any requirement for the consent or approval of the holders of Subordinated Notes of that Series), in the case of Italian Law Notes in Physical Form and Dematerialised Notes, vary the terms of such Subordinated Notes, so that they become or remain Qualifying Subordinated Securities *provided that* such variation does not itself give rise to any right of the Issuer to redeem the varied securities. The Relevant Authority has discretion as to whether or not it will approve any variation of the Subordinated Notes. Any such variation which is considered by the Relevant Authority to be material shall be treated by it as the issuance of a new instrument. Therefore, the Subordinated Notes, as so varied, must be eligible as Tier 2 Capital in accordance with then prevailing Applicable Banking Regulations, which may include a requirement that (save in certain prescribed circumstances) the Subordinated Notes may not be redeemed or repurchased prior to five years after the effective date of such variation.

Qualifying Subordinated Securities are securities issued directly by the Issuer that have terms not materially less favourable to the Noteholders, as reasonably determined by the Issuer, than the terms of the relevant Subordinated Notes. However, no assurance can be given as to whether any of these changes will negatively affect any particular Noteholder. However, in respect of the effectiveness and enforceability of Condition 23 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Italian Law Notes in Physical Form and Condition 22 (*Acknowledgement of Bail-in Power*) of the Terms and Conditions of the Dematerialised Notes, the Qualifying Subordinated Securities (as defined below) may have terms materially less favourable to a holder of the Subordinated Notes, including but not limited to a change in governing law and/or to the jurisdiction and service of process provisions. Additionally, there may be material tax consequences for holders of Subordinated Notes as a result of such modification, and holders should consult their own tax advisors regarding such potential consequences.

***No physical document of title issued in respect of the Notes issued in dematerialised form***

Notes issued under the Programme may be issued in dematerialised form and evidenced at any time through book entries pursuant to the relevant provisions of the Financial Services Act and in accordance with the CONSOB and Bank of Italy Jointed Regulation (as defined in the Terms and Conditions of the Dematerialised Notes). In no circumstance would physical documents of title be issued in respect of the Notes issued in dematerialised form. While the Notes are represented by book entries, investors will be able to trade their beneficial interests only

through Monte Titoli and the authorised financial intermediaries holding accounts on behalf of their customers with Monte Titoli. As the Notes are held in dematerialised form with Monte Titoli, investors will have to rely on the procedures of Monte Titoli and the financial intermediaries authorised to hold accounts therewith, for transfer, payment and communication with the Issuer.

### **C. Risks related to Notes generally**

#### ***Delisting of the Notes***

Application has been made for Notes issued under the Programme to be listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the regulated market of Luxembourg Stock Exchange and Notes issued under the Programme may also be admitted to trading, listing and/or quotation by any other listing authority, stock exchange or quotation system (each, a "listing"), as specified in the relevant Final Terms. Such Notes may subsequently be delisted despite the best efforts of the Issuer to maintain such listing and, although no assurance is made as to the liquidity of the Notes as a result of listing, any delisting of the Notes may have a material effect on a Noteholder's ability to resell the Notes on the secondary market.

#### ***Decisions at Noteholders' meetings bind all Noteholders***

Provisions for calling meetings of Noteholders are contained in the Agency Agreement for the Italian Law Notes in Physical Form and the Agency Agreement for the Dematerialised Notes as applicable, and summarised in Condition 17 (*Meetings of Noteholders; Modification and Waiver*) of the Terms and Conditions of the Italian Law Notes in Physical Form and in Condition 16 (*Meetings of Noteholders; Modification and Waiver*) of the Terms and Conditions of the Dematerialised Notes. Noteholders' meetings may be called to consider matters affecting Noteholders' interests generally, including modifications to the terms and conditions relating to the Notes. These provisions permit defined majorities to bind all Noteholders, including those who did not attend and vote at the relevant meeting or who voted against the majority. Possible modifications to the Notes include, without limitation, reducing the amount of principal and interest payable on the Notes, changing the time and manner of payment, changing provisions relating to redemption, limiting remedies on the Notes and changing the amendment provisions. Any such modification may have an adverse impact on Noteholders' rights and on the market value of the Notes.

The Conditions also provide that the Notes, the Coupons of the Italian Law Notes in Physical Form and the Conditions may be amended without the consent of the Noteholders or the Couponholders of the Italian Law Notes in Physical Form to correct a manifest error.

#### ***Risks relating to change of law or administrative practices***

The Terms and Conditions of the Italian Law Notes in Physical Form and the Terms and Conditions of the Dematerialised Notes are based on Italian law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to Italian law or administrative practice after the date of this Base Prospectus and any such change could materially adversely impact the value of any Notes affected by it.

#### ***Risk relating to the governing law of the Italian Law Notes in Physical Form***

The Terms and Conditions of the Italian Law Notes in Physical Form are governed by Italian law and Condition 22 (*Governing Law and Jurisdiction*) of the Terms and Conditions of the Italian Law Notes in Physical Form provides that contractual and non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, Italian Law. The Global Notes representing the Italian Law Notes in Physical Form provide that all contractual and non-contractual obligations arising out of or in connection with the Global Notes representing the Italian Law Notes in Physical Form are governed by Italian law, save for the form and transferability of the Global Notes which are governed by English law. Furthermore, Temporary Global Notes or the Permanent Global Notes, whether issued in CGN or NGN form, as the case may be, representing the Italian Law Notes in Physical Form are signed by the Issuer in the United Kingdom and, thereafter, delivered to BNP PARIBAS, Luxembourg Branch as initial Fiscal Agent, being the entity in charge for, *inter alia*, completing, authenticating and delivering the Temporary Global Notes and Permanent Global Notes and (if required) authenticating and delivering Definitive Notes, hence the Italian Law Notes in Physical Form would be deemed to be issued in England according to Italian law. Article 59 of Law No. 218 of 31 May 1995 (regarding the Italian

international private law rules) provides that "other debt securities (*titoli di credito*) are governed by the law of the State in which the security was issued".

In light of the above, the Issuer cannot foresee the effect of any potential misalignment between the laws applicable to the Terms and Conditions of the Italian Law Notes in Physical Form and the Global Notes and the laws applicable to their transfer and circulation for any prospective investors in the Italian Law Notes and any disputes which may arise in relation to, *inter alia*, the transfer of ownership in the Italian Law Notes in Physical Form.

***Because the Global Notes in respect of Italian Law Notes in Physical Form are held by or on behalf of Euroclear and/or Clearstream, Luxembourg, investors who hold Notes through interests in the Global Notes will have to rely on their procedures for transfer, payment and communication with the Issuer***

Italian Law Notes in Physical Form issued under the Programme may be represented by one or more Global Notes. Such Global Notes will be deposited with a common depositary or common safekeeper for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Italian Law Notes in Physical Form are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

While the Italian Law Notes in Physical Form are represented by one or more Global Notes the Issuer will discharge its payment obligations under the Notes once the paying agent has paid Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the relevant Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Italian Law Notes in Physical Form. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies. Similarly, holders of beneficial interests in the Global Notes will not have a direct right under the Global Notes to take enforcement action against the Issuer unless the Notes have become due and repayable and definitive notes are not being issued in exchange for Global Notes.

### ***ESG Ratings***

ESG ratings may vary amongst ESG ratings agencies as the methodologies used to determine ESG ratings may differ. The Issuer's ESG ratings are not necessarily indicative of its current or future operating or financial performance, or any future ability to service the Notes and are only current as of the dates on which they were initially issued. ESG ratings shall not be deemed to be a recommendation to buy, sell or hold the Notes. Currently, the providers of such ESG ratings are not subject to any regulatory or other similar oversight in respect of their determination and award of ESG ratings. Prospective investors must determine for themselves the relevance of any such ESG rating information contained in this Base Prospectus or elsewhere in making an investment decision.

### **D. Risks related to the market generally**

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

#### ***The secondary market generally***

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes. In addition, Notes issued under the Programme might not be listed on a stock exchange or regulated market and, in these circumstances, pricing information may be more difficult to obtain and the liquidity and

market prices of such Notes may be adversely affected. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons. In addition, liquidity may be limited if the Issuer makes large allocations to a limited number of investors.

#### ***Exchange rate risks and exchange controls***

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

#### ***Interest rate risks***

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

#### ***Credit ratings may not reflect all risks***

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under the EU CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the EU CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the EU CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). Certain information with respect to the credit rating agencies and ratings will be disclosed in the Final Terms.

#### ***Legal investment considerations may restrict certain investments***

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case

it will continue to bear interest in accordance with this Condition 5 (*Fixed Rate Note Provisions*) (both before and after judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment). As specified in the relevant Final Terms, interest from such Notes may accrue on a different basis from that set out in this Condition 5 (*Fixed Rate Note Provisions*).

For this purpose a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency. Where the Specified Denomination of a Fixed Rate Note is the multiple of the Calculation Amount, the Amount of interest payable in respect of such Fixed Rate Note shall be the multiple of the product of the amounts (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

## 6. Floating Rate Note and Benchmark Replacement

- (a) *Application*: This Condition 6 (*Floating Rate Note and Benchmark Replacement*) is applicable to the Notes only if (a) the Floating Rate Note Provisions, CMS Linked Interest Notes or the Inflation Linked Note Provisions are specified in the relevant Final Terms as being applicable; and (b) if the Fixed-Floating Rate Note Provisions or the Floating-Fixed Rate Note Provisions are specified in the relevant Final Terms as being applicable, in respect of those Interest Periods for which the Floating Rate Note Provisions are stated to apply. Condition 6(f) (*Benchmark Replacement*) is applicable also if the Reset Note Provisions are specified in the relevant Final Terms as being applicable. The applicable Final Terms contain provisions applicable to the determination of the interest and must be read in conjunction with this Condition 6 (*Floating Rate Note and Benchmark Replacement*) for full information on the manner in which interest is calculated.
- (b) *Accrual of interest*: The Notes bear interest from, and including, the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 11 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6(b) (both before and after judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment). As specified in the relevant Final Terms, interest from such Notes may accrue on a different basis from that set out in this Condition 6 (*Floating Rate Note and Benchmark Replacement*).
- (c) *Screen Rate Determination (other than CMS Linked Interest Notes)*: If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:
  - (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
  - (ii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable,:
  - (A) the Issuer or an agent appointed by the Issuer will request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time and the Issuer or an agent appointed by it shall notify the Calculation Agent of all quotations received by it; and
  - (B) the Calculation Agent will determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Issuer) quoted to the Issuer (or an agent appointed by the Issuer) upon request (and notified to the Calculation Agent by the Issuer or an agent appointed by the Issuer) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Issuer or an agent appointed by the Issuer, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for deposits in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be:

- (i) if "Multiplier" is specified in the relevant Final Terms as not being applicable, the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined (the "**Determined Rate**");
- (ii) if "**Multiplier**" is specified in the relevant Final Terms as being applicable the sum of (i) the Margin and (ii) the relevant Determined Rate multiplied by the Multiplier;
- (iii) if "**Reference Rate Multiplier**" is specified in the relevant Final Terms as being applicable, the sum of (i) the Margin, and (ii) the relevant Determined Rate multiplied by the Reference Rate Multiplier,

*provided, however, that* if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or, as the case may be, the arithmetic mean last determined in relation to the Notes in respect of the immediately preceding Interest Period for which such rate or arithmetic mean was determined.

- (d) *Floating Rate Notes which are CMS Linked Interest Notes:* Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be calculated as it follows, subject to letter (g) below:

- (w) where "**CMS Reference Rate**" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

CMS Rate + Margin

- (x) where "**Leveraged CMS Reference Rate**" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

Either:

- (a)  $L \times \text{CMS Rate} + M$

(b)  $\text{Min} [\max (L \times \text{CMS Rate} + M; F); C]$

(y) where "**Steepener CMS Reference Rate**" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

Either:

(a) where "**Steepener CMS Reference Rate: Unleveraged**" is specified in the applicable Final Terms:

$$\text{Min} \{[\max (\text{CMS Rate 1} - \text{CMS Rate 2}) + M; F]; C\}$$

or:

(b) where "**Steepener CMS Reference Rate: Leveraged**" is specified in the applicable Final Terms:

$$\text{Min} \{[\max [L \times (\text{CMS Rate 1} - \text{CMS Rate 2}) + M; F]; C\}$$

where:

C = Cap (if applicable)

F = Floor

L = Leverage

M = Margin

For the purposes of sub-paragraph (y):

"**CMS Rate**" shall mean the applicable swap rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page as of the specified time on the Interest Determination Date in question, all as determined by the Calculation Agent; and

"**Cap**", "**CMS Rate 1**", "**CMS Rate 2**", "**Floor**", "**Leverage**" and "**Margin**" shall have the meanings given to those terms in the applicable Final Terms.

(e) *ISDA Determination*: If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be:

- (i) if "**Multiplier**" is specified in the relevant Final Terms as not being applicable, the sum of the Margin and the relevant ISDA Rate;
- (ii) if "**Multiplier**" is specified in the relevant Final Terms as being applicable the sum of (i) the Margin and (ii) the relevant ISDA Rate multiplied by the Multiplier;
- (iii) if "**Reference Rate Multiplier**" is specified in the relevant Final Terms as being applicable, the sum of (i) the Margin, and (ii) the relevant ISDA Rate multiplied by the Reference Rate Multiplier,

where "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions, *provided that* in any circumstances where under the ISDA Definitions the Calculation Agent would be required to exercise any discretion, including the selection of any reference banks and seeking quotations from reference banks, when calculating the relevant ISDA Rate, the relevant determination(s) which require the

Calculation Agent to exercise its discretion shall instead be made by the Issuer or its designee and under which:

- (i) if the Final Terms specify either "2006 ISDA Definitions" or "2021 ISDA Definitions" as the applicable ISDA Definitions:
  - (A) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
  - (B) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and
  - (C) the relevant Reset Date (as defined in the ISDA Definitions) unless otherwise specified in the relevant final terms, has the meaning given to it in the ISDA Definitions.
- (ii) references in the ISDA Definitions to:
  - (A) "Confirmation" shall be references to the relevant Final Terms;
  - (B) "Calculation Period" shall be references to the relevant Interest Period;
  - (C) "Termination Date" shall be references to the Maturity Date;
  - (D) "Effective Date" shall be references to the Interest Commencement Date; and
- (iii) if the Final Terms specify "2021 ISDA Definitions" as being applicable:
  - (A) "Benchmark Event" shall be disapplied; and
  - (B) if the Temporary Non-Publication Fallback in respect of any specified Floating Rate Option is specified to be "Temporary Non-Publication Fallback – Alternative Rate" in the Floating Rate Matrix of the 2021 ISDA Definitions the reference to "Calculation Agent Alternative Rate Determination" in the definition of "Temporary Non-Publication Fallback – Alternative Rate" shall be replaced by "Temporary Non-Publication Fallback – Previous Day's Rate",

*provided that*, for the avoidance of doubt, if such sum results in a negative amount, such amount shall be deemed to be zero.

- (f) *Benchmark Replacement*: Notwithstanding the provisions above in this Condition 6 (*Floating Rate Note and Benchmark Replacement*) and in Condition 7 (*Reset Note Provisions*), if a Benchmark Event occurs in relation to an Original Reference Rate at any time when these Conditions provide for any remaining Rate of Interest (or any component part(s) thereof) to be determined by reference to such Original Reference Rate, then the following provisions shall apply.

- (i) *Independent Adviser*: The Issuer shall use its reasonable endeavours: (A) to appoint and consult with an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Benchmark Rate and (B) to determine a Successor Rate or an Alternative Benchmark Rate if (i) the Issuer is unable to appoint an Independent Adviser or (ii) the Independent Adviser fails to determine a Successor Rate or an Alternative Benchmark Rate and an Adjustment Spread (if any) (in accordance with Condition 6(f)(ii) (*Successor Rate or Alternative Benchmark Rate*)) and, in either case, an Adjustment Spread if any (in accordance with Condition 6(f)(iii) (*Adjustment Spread*)) and any Benchmark Amendments (in accordance with Condition 6(f)(iv) (*Benchmark Amendments*)).

An Independent Adviser appointed pursuant to this Condition 6(f) (*Benchmark Replacement*) shall act in good faith and in a commercially reasonable manner as an expert and in consultation with the Issuer and (in the absence of bad faith, fraud or gross negligence) shall have no liability whatsoever to the Issuer, the Paying Agents, the Calculation Agent, any other party specified in

the relevant Final Terms as being responsible for calculating the Rate of Interest or the Noteholders for any determination made by it or for any advice given to the Issuer in connection with to the operation of this Condition 6(f) (*Benchmark Replacement*).

- (ii) *Successor Rate or Alternative Benchmark Rate*: If the Issuer or the Independent Adviser (as applicable) determines that:
  - (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 6(f)(iii)) subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 6(f) (*Benchmark Replacement*)); or
  - (B) there is no Successor Rate but that there is an Alternative Benchmark Rate, then such Alternative Benchmark Rate shall (subject to adjustment as provided in Condition 6(f)(iii) (*Adjustment Spread*)) subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 6(f) (*Benchmark Replacement*)).
- (iii) *Adjustment Spread*: If the Issuer or the Independent Adviser (as applicable) determines (i) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Benchmark Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Benchmark Rate (as the case may be) for each subsequent determination of a relevant Rate of Interest (or a relevant component part thereof) by reference to such Successor Rate or Alternative Benchmark Rate (as applicable).
- (iv) *Benchmark Amendments*: If any Successor Rate, Alternative Benchmark Rate or Adjustment Spread is determined in accordance with this Condition 6(f) (*Benchmark Replacement*) and the Independent Adviser or the Issuer (as applicable) determines (i) that amendments to these Conditions (including without limitation, amendments to the definitions of Day Count Fraction, Business Day, Relevant Screen Page, Interest Determination Date, Reset Determination Date, Relevant Time, Relevant Financial Centre, Reference Banks, Mid-Swap Floating Leg Benchmark Rate, Principal Financial Centre, Business Day Convention or Additional Business Centre) are necessary to ensure the proper operation of such Successor Rate, Alternative Benchmark Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, and subject to the Issuer giving notice thereof in accordance with Condition 6(f)(v) (*Notices, etc.*), without any requirement for the consent or approval of Noteholders, vary these Conditions to give effect to such Benchmark Amendments with effect from the date specified in such notice.

In connection with any such variation in accordance with this Condition 6(f)(iv) (*Benchmark Amendments*), the Issuer shall comply with the rules of any stock exchange or other relevant authority on which the Notes are for the time being listed or by which they have been admitted to trading.

- (v) *Notices, etc.*: The Issuer shall notify the Paying Agents and the Calculation Agent or any other party specified in the relevant Final Terms as being responsible for calculating the Rate of Interest no later than 10 days prior to the relevant Interest Determination Date and, in accordance with Condition 19 (*Notices*), the Noteholders promptly of any Successor Rate, Alternative Benchmark Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 6(f) (*Benchmark Replacement*). Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

Where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period shall be substituted in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period.

The Successor Rate or Alternative Benchmark Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such notice will (in the absence of manifest error or bad faith in the determination of the Successor Rate or Alternative Benchmark Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any)) be binding on the Issuer, the Paying Agents, the Calculation Agent, any other party specified in the relevant Final Terms as being responsible for calculating the Rate of Interest, the Noteholders.

- (vi) *Survival of Original Reference Rate:* Without prejudice to the obligations of the Issuer under the provisions of this Condition 6(f) (*Benchmark Replacement*), the Original Reference Rate and the fallback provisions provided for in Condition 6 (*Floating Rate Note and Benchmark Replacement*) and in Condition 7 (*Reset Note Provisions*) will continue to apply unless and until a Benchmark Event has occurred and only then once the Paying Agents and Calculation Agent or such other party specified in the relevant Final Terms, as applicable, have been notified of the Successor Rate or Alternative Benchmark Rate (as the case may be) and any Adjustment Spread (if applicable) and Benchmark Amendments (if applicable) in accordance with Condition 6(f)(v) (*Notices, etc.*).
- (vii) *Fallbacks:* If, following the occurrence of a Benchmark Event and in relation to the determination of the Rate of Interest on the relevant Interest Determination Date or Reset Determination Date, in accordance with paragraph (i) above, the Issuer or the Independent Adviser (as applicable) fails to determine a Successor Rate or Alternative Benchmark Rate (as applicable) pursuant to this Condition 6(f) (*Benchmark Replacement*) by such Interest Determination Date or Reset Determination Date, or, if the provisions relating to the occurrence of a Regulatory Event in case of a Benchmark Event is specified as applicable in the relevant Final Terms, the provisions under paragraphs from (i) to (vi) above would case the occurrence of a Regulatory Even (A) in the case of Floating Rate Notes, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period) or (B) in the case of Reset Notes, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) shall be determined to be the sum of (as applicable) the First Margin (in the case of the First Reset Rate of Interest) or the Subsequent Margin (in the case of the Subsequent Reset Rate of Interest) and the relevant Mid-Swap Rate as of the last preceding Reset Date or, in the case of the first Reset Determination Date, the First Reset Rate of Interest shall be the Initial Rate of Interest.

For the avoidance of doubt, this Condition 6(f) (*Benchmark Replacement*) shall apply to the determination of the Rate of Interest on the relevant Interest Determination Date or Reset Determination Date only, and the Rate of Interest applicable to any subsequent Interest Period(s) or Reset Period(s) (as applicable) is subject to the subsequent operation of, and to adjustment as provided in, this Condition 6(f) (*Benchmark Replacement*).

- (g) *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (h) *Change of Interest Basis.* If Change of Interest Basis is specified as applicable in the applicable Final Terms, the interest payable in respect of the Notes will be calculated in accordance with Condition 5 (*Fixed Rate Note Provisions*) or Condition 6 (*Floating Rate Note and Benchmark Replacement*), each applicable only for the relevant periods specified in the applicable Final Terms.

If Change of Interest Basis is specified as applicable in the applicable Final Terms, and Issuer's Switch Option is also specified as applicable in the applicable Final Terms, the Issuer may, on one or more occasions, as specified in the applicable Final Terms, at its option (any such option, a "**Switch Option**"), having given notice to the Noteholders in accordance with Condition 19 (*Notices*) on or prior to the relevant Switch Option Expiry Date, change the Interest Basis of the Notes from Fixed Rate to Floating Rate or Floating Rate to Fixed Rate or as otherwise specified in the applicable Final Terms with effect from (and including) the Switch Option Effective Date specified in the applicable Final Terms to (but

excluding) the Maturity Date (or, where more than one Switch Option Effective Date is specified in the applicable Final Terms, up to and excluding the next following Switch Option Effective Date), *provided that* (A) the Switch Option may be exercised only in respect of all the outstanding Notes, (B) upon exercise of a Switch Option, the Interest Basis change will be effective from (and including) the relevant Switch Option Effective Date until the Maturity Date (or, where more than one Switch Option Effective Date is specified as applicable in the applicable Final Terms, up to and excluding the next following Switch Option Effective Date to the extent the related Switch Option is exercised), and (C) where a Switch Option has not been exercised prior to the relevant Switch Option Expiry Date, the Issuer shall no longer be entitled to exercise such Switch Option and the Interest Basis shall not change.

"**Switch Option Expiry Date**" and "**Switch Option Effective Date**" shall mean any date specified as such in the applicable Final Terms *provided that* any date specified in the applicable Final Terms as a Switch Option Effective Date shall be deemed as such subject to the exercise of the relevant Switch Option having been notified to the Issuer pursuant to this Condition and in accordance with Condition 19 (*Notices*) prior to the relevant Switch Option Expiry Date.

- (i) *Calculation of Interest Amount:* The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount of such Note during such Interest Period and multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit rounded upwards). For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent. Where the Specified Denomination of a Floating Rate Note or an Inflation Linked Interest Note is the multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amounts (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.
- (j) *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.
- (k) *Publication:* The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Issuer, the Fiscal Agent and each stock exchange (if any) on which the Notes are then listed as soon as practicable after such determination. But (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders in accordance with Condition 19 (*Notices*). The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period.
- (l) *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Fiscal Agent, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

## 7. **Reset Note Provisions**

## 8. **Inflation Linked Note**

This Condition 8 (*Inflation Linked Note*) is applicable to the Notes only if the Inflation Linked Notes Provisions are specified in the relevant Final Terms as being applicable.

### (a) **Inflation Linked Note Provisions**

#### (i) *Rate of Interest – Inflation Linked Notes*

*The Notes may provide for the payment of one or more Rates of Interest which will consist of an amount determined on the basis of the performance of the underlying Inflation Index and calculated according to the formula described below. The amount of the Rate of Interest is linked to the performance of the Inflation Index so that if the value of the Inflation Index increases compared to the preceding calendar year, then this will positively affect the amount of Rate of Interest, whereas if the value of the Inflation Index decreases compared to the preceding calendar year, then this will negatively affect the amount of Rate of Interest.*

The Rate of Interest payable from time to time in respect of [YoY] Inflation Linked Notes, for each Interest Period, shall be determined by the Calculation Agent, or other party specified in the Final Terms, on the relevant Determination Date in accordance with the following formula:

$$\text{Rate of Interest} = [[\text{Index Factor}] * [\text{YoY} \text{ Inflation}]] + \text{Margin}$$

subject to the Minimum Rate of Interest or the Maximum Rate of Interest if, in either case, designated as applicable in the applicable Final Terms in which case the provisions of paragraph 6(g) above shall apply as appropriate.

Where:

"**Index Factor**" has the meaning given to it in the applicable Final Terms, *provided that* if Index Factor is specified as "**Not Applicable**", the Index Factor shall be deemed to be equal to one;

"**Inflation Index**" has the meaning given to it in the applicable Final Terms;

"**[YoY] Inflation**" means in respect of the Specified Interest Payment Date falling in month (t), the value calculated in accordance with the following formula:

$$[- - 1]$$

"**Inflation Index (t)**" means the value of the Inflation Index for the Reference Month in the calendar year in which the relevant Specified Interest Payment Date and/or the Maturity Date falls;

"**Inflation Index (t-1)**" means the value of the Inflation Index for the Reference Month in the calendar year preceding the calendar year in which the relevant Specified Interest Payment Date falls;

"**Margin**" has the meaning given to it in the applicable Final Terms;

"**Reference Month**" has the meaning given to it in the applicable Final Terms; and

The Rate of Interest shall be rounded (if necessary) to the fifth decimal place, with 0.000005 being rounded upwards.

(ii) *Redemption Amount – [YoY] Inflation Linked Notes*

*The Notes may provide for the payment on the Maturity Date of a Final Redemption Amount which will consist of (as specified in the applicable Final Terms): i) an amount equal to 100% of the Aggregate Nominal Amount of the Notes or ii) an amount determined on the basis of the performance of the underlying Inflation Index and calculated according to the formula described below. In the latter case, if the value of the Inflation Index for the Reference Month in the calendar year in which the Maturity Date falls is higher than the value of the Inflation Index for the Reference Month in the calendar year in which the Issue Date falls, then the Noteholders will receive a Final Redemption Amount higher than 100% of the Aggregate Nominal Amount and linked to the performance of the Inflation Index. If the value of the Inflation Index for the Reference Month in the calendar year in which the Maturity Date falls is lower than the value of the Inflation Index for the Reference Month in the calendar year in which the Issue Date falls, then the Noteholders will receive a Final Redemption Amount equal to 100% of the Aggregate Nominal Amount and no amount linked to the Inflation Index will be received by the investor. Under no circumstances the Final Redemption Amount shall be less than the Aggregate Nominal Amount of the Notes.*

The Final Redemption Amount payable on the Maturity Date in respect of [YoY] Inflation Linked Notes may be i) 100% of the Aggregate Nominal Amount of the Notes or ii) (if so specified in the applicable Final Terms) a [YoY] Indexed Redemption Amount to be calculated on the [Maturity Date/relevant Determination Date] on the basis of the following formula:

$$[[\text{YoY}] \text{ Indexed Redemption Amount} = \text{Aggregate Nominal Amount} \times (\text{Inflation Index (t)}/\text{Inflation Index (0)})]$$

Where:

"**Inflation Index (t)**" means the value of the Inflation Index for the Reference Month in the calendar year in which the relevant Specified Interest Payment Date and/or the Maturity Date falls; and

"**Inflation Index (0)**" means the value of the Inflation Index for the Reference Month in the calendar year in which the relevant Issue Date falls.

The [YoY] Indexed Redemption Amount may be subject to a minimum or a maximum amount (if so specified in the applicable Final Terms) *provided that* under no circumstances shall the Final Redemption Amount be less than the Aggregate Nominal Amount of the Notes.

(iii) *Inflation Linked Note Provisions*

Unless previously redeemed or purchased and cancelled in accordance with this Condition 8 (*Inflation Linked Notes*) or as specified in the applicable Final Terms and subject to this Condition 8 (*Inflation Linked Notes*), each Inflation Linked Note will bear interest in the manner specified in the applicable Final Terms and the Conditions.

The following provisions apply to Inflation Linked Notes:

**"Additional Disruption Event"** means any of Change of Law, Hedging Disruption and/or Increased Cost of Hedging, in each case if specified in the applicable Final Terms, and such other events (if any) specified as an Additional Disruption Event in the applicable Final Terms.

**"Change of Law"** means that, on or after the Trade Date (as specified in the applicable Final Terms):

- (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or
- (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority),

the Calculation Agent determines in its discretion that (i) it has become illegal to hold, acquire or dispose of any relevant hedging arrangements in respect of the Inflation Index, or (ii) any Hedging Party will incur a materially increased cost in performing its obligations in relation to the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer, any of its affiliates or any other Hedging Party).

**"Cut-Off Date"** means, in respect of a Determination Date, five (5) Business Days prior to any due date for payment under the Notes for which valuation on the relevant Determination Date is relevant, unless otherwise stated in the applicable Final Terms.

**"Delayed Index Level Event"** means, in respect of any Determination Date and an Inflation Index, that the relevant Inflation Index Sponsor fails to publish or announce the level of such Inflation Index (the Relevant Level) in respect of any Reference Month which is to be utilised in any calculation or determination to be made by the Issuer in respect of such Determination Date, at any time on or prior to the Cut-Off Date.

**"Determination Date"** means each date specified as such in the applicable Final Terms.

**"End Date"** means each date specified as such in the applicable Final Terms.

**"Fallback Bond"** means, in respect of an Inflation Index, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the relevant Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a maturity date which falls on (a) the End Date specified in the applicable Final Terms, (b) the next longest maturity after the End Date if there is no such bond maturing on the End Date, or (c) the next shortest maturity before the End Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the relevant Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent will select a new Fallback Bond on the same basis, but notwithstanding the immediately prior sentence, selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

**"Hedging Disruption"** means that any Hedging Party is unable, after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the relevant price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s), as determined by the Calculation Agent.

"**Hedging Party**" means at any relevant time, the Issuer, or any of its affiliates or any other party providing the Issuer directly or indirectly with hedging arrangements in relation to the Notes as the Issuer may select at such time.

"**Increased Cost of Hedging**" means that any Hedging Party would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, price risk, foreign exchange risk and interest rate risk) of the Issuer issuing and performing its obligations with respect to the Notes, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), *provided that* any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its affiliates shall not be deemed an Increased Cost of Hedging.

"**Inflation Index**" means each inflation index specified in the applicable Final Terms and related expressions shall be construed accordingly.

"**Inflation Index Sponsor**" means, in relation to an Inflation Index, the entity that publishes or announces (directly or through an agent) the level of such Inflation Index which, as of the Issue Date, is the Inflation Index Sponsor specified in the applicable Final Terms.

"**Reference Month**" means the calendar month for which the level of the Inflation Index is reported as specified in the applicable Final Terms, regardless of when this information is published or announced, except that if the period for which the Relevant Level was reported is a period other than a month, the Reference Month shall be the period for which the Relevant Level is reported.

"**Related Bond**" means, in respect of an Inflation Index, the bond specified as such in the applicable Final Terms. If the Related Bond specified in the applicable Final Terms is "Fallback Bond", then, for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If no bond is specified in the applicable Final Terms as the Related Bond and "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, there will be no Related Bond. If a bond is specified as the Related Bond in the applicable Final Terms and that bond redeems or matures before the End Date (i) unless "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination and (ii) if "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, there will be no Related Bond.

"**Relevant Level**" has the meaning set out in the definition of "Delayed Index Level Event" above.

(iv) *Inflation Index Delay and Disruption Provisions*

*In case of the cessation of the publication of the Inflation Index or the occurrence of an Additional Disruption Event, the Notes may be early redeemed at the Early Redemption Amount specified in the applicable Final Terms*

(A) **Delay in Publication**

If the Calculation Agent determines that a Delayed Index Level Event in respect of an Inflation Index has occurred with respect to any Determination Date, then the Relevant Level for such Inflation Index with respect to the relevant Reference Month subject to such Delayed Index Level Event (the "**Substitute Index Level**") shall be determined by the Calculation Agent as follows:

- (1) if "Related Bond" is specified as applicable for such Inflation Index in the relevant Final Terms, the Calculation Agent shall determine the Substitute Index Level by reference to the corresponding index level determined under the terms and conditions of the relevant Related Bond;

- (2) if (I) "Related Bond" is not specified as applicable for such Inflation Index in the relevant Final Terms, or (II) the Calculation Agent is not able to determine a Substitute Index Level under (i) above, the Calculation Agent shall determine the Substitute Index Level by reference to the following formula:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level}/\text{Reference Level});$$

or

- (3) otherwise in accordance with any formula specified in the relevant Final Terms,

in each case as of such Determination Date,

where:

**"Base Level"** means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

**"Latest Level"** means, in respect of an Inflation Index, the latest level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor prior to the month in respect of which the Substitute Index Level is being determined.

**"Reference Level"** means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Issuer shall give notice to Noteholders, in accordance with Condition 19 (*Notices*) of any Substitute Index Level calculated pursuant to Condition 8(a)(iv)(A) (*Delay in Publication*).

If the Relevant Level (as defined above) is published or announced at any time on or after the relevant Cut-off Date, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this Condition 8 (*Inflation Linked Notes*) will be the definitive level for that Reference Month.

(B) **Cessation of Publication**

If the Calculation Agent determines that the level for the Inflation Index has not been published or announced for two (2) consecutive months, the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index or the Inflation Index Sponsor otherwise cancels the Inflation Index, then the Calculation Agent shall determine a successor inflation index (the "**Successor Inflation Index**") (in lieu of any previously applicable Inflation Index) for the purposes of the Inflation Linked Notes by using the following methodology:

- (1) if at any time (other than after an early redemption or cancellation event has been designated by the Calculation Agent pursuant to Condition 8(a)(iv)(B)(5) below), a successor inflation index has been designated by the calculation agent (or equivalent) pursuant to the terms and conditions of the Related Bond, such successor inflation index shall be designated a "Successor Inflation Index" notwithstanding that any other Successor Inflation Index may previously have been determined under Conditions 8(a)(iv)(B)(2), 8(a)(iv)(B)(3) or 8(a)(iv)(B)(4) below;

- (2) if a Successor Inflation Index has not been determined pursuant to Condition 8(a)(iv)(B)(1) above, and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement Inflation Index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Inflation Linked Notes from the date that such replacement Inflation Index comes into effect;
- (3) if a Successor Inflation Index has not been determined pursuant to Conditions 8(a)(iv)(B)(1) or 8(a)(iv)(B)(2) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If four or five responses are received and, of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the "**Successor Inflation Index**". If three responses are received and two or more leading independent dealers state the same index, this index will be deemed the "Successor Inflation Index". If fewer than three responses are received or no Successor Inflation Index is determined pursuant to this Condition 8(a)(iv)(B)(3), the Calculation Agent will proceed to Condition 8(a)(iv)(B)(4) below;
- (4) if no replacement index or Successor Inflation Index has been determined under Conditions 8(a)(iv)(B)(1), 8(a)(iv)(B)(2), 8(a)(iv)(B)(3) above by the next occurring Cut-Off Date, the Calculation Agent, subject as provided below, will determine an appropriate alternative index from such Cut-Off Date, and such index will be deemed a "Successor Inflation Index"; or
- (5) if the Calculation Agent determines that there is no appropriate alternative index in relation to Inflation Linked Notes, on giving notice to Noteholders in accordance with Condition 19 (*Notices*), the Issuer shall redeem or cancel, as applicable all but not some only of the Inflation Linked Notes, each Inflation Linked Note being redeemed or cancelled, as applicable by payment of the relevant Early Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Condition 19 (*Notices*).

(C) **Rebasing of the Inflation Index**

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the level of the Inflation Index from the date of such rebasing; *provided, however, that* the Calculation Agent shall make adjustments as are made by the calculation agent (or equivalent) pursuant to the terms and conditions of the Related Bond, if "Related Bond" is specified as applicable in the applicable Final Terms, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased, or, if "Related Bond" is not specified as applicable in the applicable Final Terms, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased.

(D) **Material Modification Prior to Last Occurring Cut-Off**

If, on or prior to the last occurring Cut-Off Date, the Inflation Index Sponsor announces that it will make a material change to the Inflation Index then the Calculation Agent shall make any such adjustments, if "Related Bond" is specified as applicable in the applicable Final Terms, consistent with adjustments made to the Related Bond, or, if "Related Bond" is not specified as applicable in the applicable Final Terms, only those adjustments to the Inflation Index necessary for the modified Inflation Index to continue as the Inflation Index.

(E) **Manifest Error in Publication**

With the exception of any corrections published after the day which is three (3) Business Days prior to the relevant Maturity Date, if, within thirty (30) calendar days of publication, the Calculation Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent may, in its discretion, make such adjustments to the terms of the Inflation Linked Notes as it determines appropriate to account for the correction and will notify the Noteholders of any such adjustments in accordance with Condition 19 (*Notices*).

(F) **Consequences of an Additional Disruption Event**

If the Calculation Agent determines that an Additional Disruption Event has occurred, the Issuer may at its option:

- (1) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any terms of the Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
- (2) redeem or cancel, as applicable, all but not some of the Inflation Linked Notes on the date notified by the Calculation Agent to Noteholders in accordance with Condition 19 (*Notices*) by payment of the relevant Early Redemption Amount, as of the date of redemption or cancellation, as applicable, taking into account the relevant Additional Disruption Event. The redemption or cancellation referred to in this Condition 8(a)(iv) (*Inflation Index Delay and Disruption Provisions*) shall be subject to (i) in case of Senior Notes and Senior Non-Preferred Notes, Condition 10(o) (*Regulatory conditions for call, redemption, repayment or repurchase of Senior Notes and Senior Non-Preferred Notes*) and (ii) in case of Subordinated Notes, Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

(G) **Inflation Index Disclaimer**

The Notes are not sponsored, endorsed, sold or promoted by the Inflation Index or the Inflation Index Sponsor and the Inflation Index Sponsor does not make any representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the Inflation Index and/or the levels at which the Inflation Index stands at any particular time on any particular date or otherwise. Neither the Inflation Index nor the Inflation Index Sponsor shall be liable (whether in negligence or otherwise) to any person for any error in the Inflation Index and the Inflation Index Sponsor is under no obligation to advise any person of any error therein. The Inflation Index Sponsor is not making any representation whatsoever, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with the Notes. The Issuer shall have liability to the Noteholders for any act or failure to act by the Inflation Index Sponsor in connection with the calculation, adjustment or maintenance of the Inflation Index. Neither the Issuer nor its affiliates has any affiliation with or control over the Inflation Index or the Inflation Index Sponsor or any control over the computation, composition or dissemination of the Inflation Index. Although the Calculation Agent will obtain information concerning the Inflation Index from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty or undertaking (express or implied) is made and no responsibility is accepted by the Issuer, its affiliates or the Calculation Agent as to the accuracy, completeness and timeliness of information concerning the Inflation Index.

9. **Zero Coupon Note Provisions**

- (a) *Application:* This Condition 9 (*Zero Coupon Note Provisions*) is applicable to the Notes only if the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Late payment on Zero Coupon Notes:* If the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:
- (i) the Reference Price; and
  - (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

10. **Redemption and Purchase**

- (a) *Scheduled redemption:* Unless previously redeemed, or purchased and cancelled, the Notes will be redeemed at their Final Redemption Amount on the Maturity Date, subject as provided in Condition 11 (*Payments*).

Pursuant to Article 12-*bis*, paragraph 1, letter *a*), of the Consolidated Banking Act, the Maturity Date of the Senior Non-Preferred Notes shall not fall earlier than twelve months after their Issue Date.

The Maturity Date of Subordinated Notes shall not fall earlier than five years after their Issue Date, as provided under the Applicable Banking Regulations.

In the case of Subordinated Notes, the redemption referred to in this Condition 10(a) shall be subject to Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

In the case of Senior Notes and Senior Non-Preferred Notes, the redemption referred to in this Condition 10(a) shall be subject to Condition 10(o) (*Regulatory conditions for call, redemption, repayment or repurchase of Senior Notes and Senior Non-Preferred Notes*).

- (b) *Redemption for tax reasons:* The Notes may be redeemed at the option of the Issuer in whole, but not in part:
- (i) at any time (if neither the Floating Rate Note Provisions or the Inflation Linked Note Provisions are specified in the relevant Final Terms as being applicable); or
  - (ii) on any Interest Payment Date (if the Floating Rate Note Provisions or the Inflation Linked Note Provisions are specified in the relevant Final Terms as being applicable),

on giving not less than 30 nor more than 60 days' notice to the Noteholders (which notice shall be irrevocable), at their Early Redemption Amount (Tax), together with interest accrued (if any) to the date fixed for redemption, if the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 12 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of the Republic of Italy or any political subdivision or any authority or agency thereof or therein, or any change in the application or interpretation or administration of such laws or regulations, which change or amendment becomes effective on or after the date of issue of the first Tranche of the Notes; and such obligation cannot be avoided by the Issuer taking reasonable measures available to it (any such event, a "**Tax Event**").

At least 15 days prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Fiscal Agent a certificate signed by two duly authorised officers of the Issuer stating

that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred (and such evidence shall be sufficient, conclusive and binding on the Noteholders). Upon the expiry of any such notice as is referred to in this Condition 10(b), the Issuer shall be bound to redeem the Notes in accordance with this Condition 10(b).

In the case of Subordinated Notes, the redemption referred to in this Condition 10(b) shall be subject to Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

In the case of Senior Notes and Senior Non-Preferred Notes, the redemption referred to in this Condition 10(b) shall be subject to Condition 10(o) (*Regulatory conditions for call, redemption, repayment or repurchase of Senior Notes and Senior Non-Preferred Notes*).

- (c) *Redemption at the option of the Issuer*: If the Call Option is specified in the relevant Final Terms as being applicable, the Notes may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call) on the Issuer giving not less than 15 nor more than 30 days' notice to the Noteholders, or such other period(s) as may be specified in the relevant Final Terms (which notice shall be irrevocable and shall oblige the Issuer to redeem the Notes or, as the case may be, the Notes specified in such notice on the relevant Optional Redemption Date (Call) at the Optional Redemption Amount (Call) plus accrued interest (if any) to such date).

In the case of Subordinated Notes, no Call Option in accordance with this Condition 10(c) (*Redemption at the option of the Issuer*) may be exercised by the Issuer to redeem, in whole or in part, such Notes prior to the fifth anniversary of their Issue Date. After the fifth anniversary of such Issue Date, the redemption referred to in this Condition 10(c) (*Redemption at the option of the Issuer*) shall be subject to Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

In the case of Senior Notes and Senior Non-Preferred Notes, the redemption referred to in this Condition 10(c) (*Redemption at the option of the Issuer*) shall be subject to Condition 10(o) (*Regulatory conditions for call, redemption, repayment or repurchase of Senior Notes and Senior Non-Preferred Notes*).

- (d) *Partial redemption*: If Notes are to be redeemed in part only on any date in accordance with Condition 10(c) (*Redemption at the option of the Issuer*), the Notes to be redeemed shall be selected by the drawing of lots in such place as the Fiscal Agent approves and in such manner as the Fiscal Agent considers appropriate, subject to compliance with applicable law and the rules of each stock exchange on which the Notes are then listed, and the notice to Noteholders referred to in Condition 10(c) (*Redemption at the option of the Issuer*) shall specify the serial numbers of the Notes so to be redeemed. If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Optional Redemption Amount (Call) shall in no event be greater than the maximum or be less than the minimum so specified.

- (e) *Clean-up redemption at the option of the Issuer*: If a clean-up redemption option (the "**Clean-Up Redemption Option**") is specified as applicable in the Final Terms, and if 75 per cent. or any higher percentage specified in the relevant Final Terms (the "**Clean-Up Percentage**") of the initial aggregate nominal amount of the Notes of the same Series (which for the avoidance of doubt includes, any additional Notes issued subsequently and forming a single series with the first Tranche of a particular Series of Notes) have been redeemed or purchased by, or on behalf of, the Issuer and cancelled, the Issuer may at any time, at its option, and having given to the Noteholders not less than 5 nor more than 30 calendar days' notice (the "**Clean-Up Redemption Notice**"), in accordance with Condition 19 (*Notices*) (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem such outstanding Notes, in whole but not in part, at their clean-up redemption amount ("**Clean-Up Redemption Amount**") together, if appropriate, with accrued interest to (but excluding) the date of redemption, on the date fixed for redemption identified in the Clean-Up Redemption Notice.

In the case of Subordinated Notes, the redemption referred to in this Condition 10(e) shall be subject to Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

In the case of Senior Notes and Senior Non-Preferred Notes, the redemption referred to in this Condition 10(e) shall be subject to Condition 10(o) (*Regulatory conditions for call, redemption, repayment or repurchase of Senior Notes and Senior Non-Preferred Notes*).

(f) *Redemption at the option of Noteholders:*

*This provision is not applicable to Senior Non-Preferred Notes and Subordinated Notes.*

If the Put Option is specified in the relevant Final Terms as being applicable, the Issuer shall, at the option of the Holder of any Note, redeem such Note on the Optional Redemption Date (Put) specified in the relevant Put Option Notice at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date. The applicable Final Terms contains provisions applicable to any Put Option and must be read in conjunction with this Condition 10(f) for full information on any Put Option. In particular, the applicable Final Terms will identify the Optional Redemption Date (Put), the Optional Redemption Amount (Put) and the applicable notice periods.

If the Put Option is specified as being applicable in the applicable Final Terms, the Holder of any Note must, in accordance with Condition 19 (Notices), not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms, deposit with the Fiscal Agent such Note together with all unmatured Coupons relating thereto and a duly completed Put Option Notice in the form obtainable from the Fiscal Agent. The Fiscal Agent, with which a Note is so deposited, shall immediately notify the Issuer and shall deliver a duly completed Put Option Receipt to the depositing Holder. No Note, once deposited with a duly completed Put Option Notice in accordance with this Condition 10(f) (Redemption at the option of Noteholders), may be withdrawn; provided, however, that if, prior to the relevant Optional Redemption Date (Put), any such Note becomes immediately due and payable or, upon due presentation of any such Note on the relevant Optional Redemption Date (Put), payment of the redemption moneys is improperly withheld or refused, the Fiscal Agent shall mail notification thereof to the depositing Noteholder at such address as may have been given by such Noteholder in the relevant Put Option Notice and shall hold such Note at its Specified Office for collection by the depositing Noteholder against surrender of the relevant Put Option Receipt. For so long as any outstanding Note is held by the Fiscal Agent in accordance with this Condition 10(f) (Redemption at the option of Noteholders), the depositor of such Note and not the Fiscal Agent shall be deemed to be the holder of Note for all purposes.

(g) *Redemption of Subordinated Notes for regulatory reasons (Regulatory Call):* If a Regulatory Call is specified in the applicable Final Terms and if the Issuer notifies the Noteholders of the occurrence of a Regulatory Event, the Issuer may redeem such Subordinated Notes, in whole but not in part, at the Early Redemption Amount specified in the applicable Final Terms, together with any accrued but unpaid interest to the date fixed for redemption, *provided that* (to the extent required by applicable law or regulation):

- (A) the Issuer has given not less than the minimum period nor more than the maximum period of notice indicated in the relevant Final Terms to the Fiscal Agent and the Noteholders of such Subordinated Notes (such notice being irrevocable) specifying the date fixed for such redemption; and
- (B) the circumstance that entitles the Issuer to exercise this right of redemption of the relevant Subordinated Notes was not reasonably foreseeable at the relevant Issue Date.

Upon the expiry of such notice period, the Issuer shall be bound to redeem the Subordinated Notes accordingly.

The redemption referred to in this Condition 10(g) (*Redemption of Subordinated Notes for regulatory reasons (Regulatory Call)*) shall be subject to Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

(h) *Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event:* If redemption at the option of the Issuer due to a MREL Disqualification Event is specified as being applicable in the applicable Final Terms, the Issuer may, having given not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms to the Noteholders in accordance

with Condition 19 (*Notices*) (which notice shall specify the date fixed for redemption) and the Fiscal Agent, redeem the Notes, in whole but not in part, then outstanding at any time (if the Note is not a Floating Rate Note or an Inflation-Linked Note) or on any Interest Payment Date (if this Note is a Floating Rate Note or an Inflation-Linked Note) at the Early Redemption Amount specified in the applicable Final Terms, together with any accrued but unpaid interest to the date fixed for redemption, if the Issuer determines that a MREL Disqualification Event has occurred and is continuing. Upon the expiry of any such notice as is referred to in this Condition 10(h) (*Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event*), the Issuer shall redeem the Notes in accordance with this Condition 10(h) (*Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event*).

The redemption of Senior Notes or Senior Non-Preferred Notes referred to in this Condition 10(h) (*Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event*) shall be subject to Condition 10(o) (*Regulatory conditions for call, redemption, repayment or repurchase of Senior Notes and Senior Non-Preferred Notes*).

The redemption of Subordinated Notes referred to in this Condition 10(h) (*Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event*) shall be subject to Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

- (i) *No other redemption*: The Issuer shall not be entitled to redeem the Notes otherwise than as provided in paragraphs (a) to (f) above.
- (j) *Early redemption of Zero Coupon Notes*: Unless otherwise specified in the relevant Final Terms, the Redemption Amount payable on redemption of a Zero Coupon Note at any time before the Maturity Date shall be an amount equal to the sum of:
  - (i) the Reference Price; and
  - (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Note becomes due and payable.

No Events of Default for the Notes shall occur other than in the context of an insolvency proceeding (including, without limitation, *liquidazione coatta amministrativa*) in respect of the Issuer (and, for the avoidance of doubt, resolution proceeding(s) or moratoria imposed by a resolution authority in respect of the Issuer shall not constitute an Event of Default for the Notes for any purpose).

Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

**16. Paying Agents**

In acting under the Agency Agreement and in connection with the Notes and the Coupons, the Paying Agents act solely as agents of the Issuer and do not assume any obligations towards or relationship of agency or trust for or with any of the Noteholders, Couponholders or any other Person.

The initial Paying Agents and their initial Specified Offices are listed below. The initial Calculation Agent (if any) is specified in the relevant Final Terms. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders and Couponholders, whether present or not.

- (b) *Modification:* The Notes, these Conditions and the Deed of Covenant may be amended without the consent of the Noteholders or the Couponholders to correct a manifest error. In addition, the parties to the Agency Agreement may agree to modify any provision thereof, but the Issuer shall not agree, without the consent of the Noteholders, to any such modification unless it is of a formal, minor or technical nature, it is made to correct a manifest error or it is, in the opinion of such parties, not materially prejudicial to the interests of the Noteholders or the Couponholders.
- (c) This Condition 17(c) applies to Subordinated Notes. If at any time a Tax Event, an Alignment Event, a MREL Disqualification Event or a Regulatory Event occurs and/or in order to ensure the effectiveness and enforceability of Condition 23 (*Acknowledgment of Bail-in Power*) with respect to Senior Notes or Senior Non-Preferred Notes, then the Issuer may, subject to giving any notice required to, and receiving consent from, the Relevant Authority (without any requirement for the consent or approval of the holders of Subordinated Notes of that Series) and having given not less than 30 (thirty) nor more than 60 (sixty) days' notice to the Fiscal Agent and the Holders of Subordinated Notes of that Series (which notice shall be irrevocable), at any time vary the terms of such Subordinated Notes so that they remain or, as appropriate, become, Qualifying Subordinated Securities, *provided that* such variation does not itself give rise to any right of the Issuer to redeem the varied securities that would otherwise provide the Issuer with a right of redemption pursuant to the provisions of Subordinated Notes.

For the avoidance of doubt, no consent of the Noteholders shall be required for a variation of the Notes in accordance with this Condition 17(c) and the Fiscal Agent shall be obliged to effect such matters.

- (d) This Condition 17(d) applies to Senior Notes and Senior Non-Preferred Notes. If at any time a MREL Disqualification Event or an Alignment Event occurs and/or in order to ensure the effectiveness and enforceability of Condition 23 (*Acknowledgment of Bail-in Power*) with respect to Senior Notes or Senior Non-Preferred Notes then the Issuer may, subject to giving any notice required to be given to, and receiving consent from, the Relevant Authority (without any requirement for the consent or approval of the holders of the Senior Notes or Senior Non-Preferred Notes of that Series) and having given not less than 30 (thirty) nor more than 60 (sixty) days' notice to the Fiscal Agent and the Holders of the Senior Notes or Senior Non-Preferred Notes of that Series, which notice shall be irrevocable, at any time vary the terms of such Senior Notes or Senior Non-Preferred Notes so that they remain or, as appropriate, become Qualifying Senior Notes or Qualifying Senior Non-Preferred Notes, *provided that* such variation does not itself give rise to any right of the Issuer to redeem the varied securities.

For the avoidance of doubt, no consent of the Noteholders shall be required for a variation of the Notes in accordance with this Condition 17(d) and the Fiscal Agent shall be obliged to effect such matters.

- (e) Any variation of the Conditions to give effect to the Benchmark Amendments in accordance with Condition 6(f) (*Benchmark Replacement*) shall not require the consent or approval of Noteholders.

## 18. Further Issues

The Issuer may from time to time, without the consent of the Noteholders or the Couponholders, create and issue further notes having the same terms and conditions as the Notes in all respects (or in all respects other than the Issue Date, Issue Price and/or Interest Commencement Date and/or the first payment of interest) so as to form a single series with the Notes.

Nothing contained in this Condition 22(b) (*Jurisdiction*) shall limit any right to take Proceedings against the Issuer in any other court of competent jurisdiction, nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction, whether concurrently or not.
- (c) *Appropriate forum:* In the Agency Agreement the Issuer has irrevocably waived any objection which it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any Proceedings and to settle any Disputes, and has agreed not to claim that any such court is not a convenient or appropriate forum.

- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Issuer) quoted to the Issuer (or an agent appointed by the Issuer) upon request (and notified to the Calculation Agent by the Issuer or an agent appointed by the Issuer) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Issuer or an agent appointed by the Issuer, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for deposits in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be:

- (i) if "Multiplier" is specified in the relevant Final Terms as not being applicable, the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined (the "**Determined Rate**");
- (ii) if "**Multiplier**" is specified in the relevant Final Terms as being applicable the sum of (i) the Margin and (ii) the relevant Determined Rate multiplied by the Multiplier;
- (iii) if "**Reference Rate Multiplier**" is specified in the relevant Final Terms as being applicable, the sum of (i) the Margin, and (ii) the relevant Determined Rate multiplied by the Reference Rate Multiplier,

*provided, however, that if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or, as the case may be, the arithmetic mean last determined in relation to the Notes in respect of the immediately preceding Interest Period for which such rate or arithmetic mean was determined.*

- (d) *Floating Rate Notes which are CMS Linked Interest Notes:* Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be calculated as it follows, subject to letter (g) below:

- (w) where "**CMS Reference Rate**" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

$$\text{CMS Rate} + \text{Margin}$$

- (x) where "**Leveraged CMS Reference Rate**" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

Either:

- (a)  $L \times \text{CMS Rate} + M$
- (b)  $\text{Min} [\max (L \times \text{CMS Rate} + M; F); C]$

- (y) where "**Steepener CMS Reference Rate**" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

Either:

- (a) where "**Steeper CMS Reference Rate: Unleveraged**" is specified in the applicable Final Terms:

$$\text{Min } \{[\max (\text{CMS Rate 1} - \text{CMS Rate 2}) + M; F]; C\}$$

or:

- (b) where "**Steeper CMS Reference Rate: Leveraged**" is specified in the applicable Final Terms:

$$\text{Min } \{[\max [L \times (\text{CMS Rate 1} - \text{CMS Rate 2}) + M; F]; C\}$$

where:

C = Cap (if applicable)

F = Floor

L = Leverage

M= Margin

For the purposes of sub-paragraph (y):

"**CMS Rate**" shall mean the applicable swap rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page as of the specified time on the Interest Determination Date in question, all as determined by the Calculation Agent; and

"**Cap**", "**CMS Rate 1**", "**CMS Rate 2**", "**Floor**", "**Leverage**" and "**Margin**" shall have the meanings given to those terms in the applicable Final Terms.

- (e) *ISDA Determination*: If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be:

- (i) if "**Multiplier**" is specified in the relevant Final Terms as not being applicable, the sum of the Margin and the relevant ISDA Rate;
- (ii) if "**Multiplier**" is specified in the relevant Final Terms as being applicable the sum of (i) the Margin and (ii) the relevant ISDA Rate multiplied by the Multiplier;
- (iii) if "**Reference Rate Multiplier**" is specified in the relevant Final Terms as being applicable, the sum of (i) the Margin, and (ii) the relevant ISDA Rate multiplied by the Reference Rate Multiplier,

where "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions, *provided that* in any circumstances where under the ISDA Definitions the Calculation Agent would be required to exercise any discretion, including the selection of any reference banks and seeking quotations from reference banks, when calculating the relevant ISDA Rate, the relevant determination(s) which require the Calculation Agent to exercise its discretion shall instead be made by the Issuer or its designee and under which:

- (i) if the Final Terms specify either "2006 ISDA Definitions" or "2021 ISDA Definitions" as the applicable ISDA Definitions:

- (A) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
  - (B) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and
  - (C) the relevant Reset Date (as defined in the ISDA Definitions) unless otherwise specified in the relevant final terms, has the meaning given to it in the ISDA Definitions.
- (ii) references in the ISDA Definitions to:
- (A) "Confirmation" shall be references to the relevant Final Terms;
  - (B) "Calculation Period" shall be references to the relevant Interest Period;
  - (C) "Termination Date" shall be references to the Maturity Date;
  - (D) "Effective Date" shall be references to the Interest Commencement Date; and
- (iii) if the Final Terms specify "2021 ISDA Definitions" as being applicable:
- (A) "Benchmark Event" shall be disapplied; and
  - (B) if the Temporary Non-Publication Fallback in respect of any specified Floating Rate Option is specified to be "Temporary Non-Publication Fallback – Alternative Rate" in the Floating Rate Matrix of the 2021 ISDA Definitions the reference to "Calculation Agent Alternative Rate Determination" in the definition of "Temporary Non-Publication Fallback – Alternative Rate" shall be replaced by "Temporary Non-Publication Fallback – Previous Day's Rate",

*provided that*, for the avoidance of doubt, if such sum results in a negative amount, such amount shall be deemed to be zero.

- (f) *Benchmark Replacement*: Notwithstanding the provisions above in this Condition 6 (*Floating Rate Note and Benchmark Replacement*) and in Condition 7 (*Reset Note Provisions*), if a Benchmark Event occurs in relation to an Original Reference Rate at any time when these Conditions provide for any remaining Rate of Interest (or any component part(s) thereof) to be determined by reference to such Original Reference Rate, then the following provisions shall apply.

- (i) *Independent Adviser*: The Issuer shall use its reasonable endeavours: (A) to appoint and consult with an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Benchmark Rate and (B) to determine a Successor Rate or an Alternative Benchmark Rate if (i) the Issuer is unable to appoint an Independent Adviser or (ii) the Independent Adviser fails to determine a Successor Rate or an Alternative Benchmark Rate and an Adjustment Spread (if any) (in accordance with Condition 6(f)(ii) (*Successor Rate or Alternative Benchmark Rate*)) and, in either case, an Adjustment Spread if any (in accordance with Condition 6(f)(iii) (*Adjustment Spread*)) and any Benchmark Amendments (in accordance with Condition 6(f)(iv) (*Benchmark Amendments*)).

An Independent Adviser appointed pursuant to this Condition 6(f) (*Benchmark Replacement*) shall act in good faith and in a commercially reasonable manner as an expert and in consultation with the Issuer and (in the absence of bad faith, fraud or gross negligence) shall have no liability whatsoever to the Issuer, the Paying Agents, the Calculation Agent, any other party specified in the relevant Final Terms as being responsible for calculating the Rate of Interest or the Noteholders for any determination made by it or for any advice given to the Issuer in connection with to the operation of this Condition 6(f) (*Benchmark Replacement*).

- (ii) *Successor Rate or Alternative Benchmark Rate*: If the Issuer or the Independent Adviser (as applicable) determines that:

- (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 6(f)(iii)) subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 6(f) (*Benchmark Replacement*)); or
- (B) there is no Successor Rate but that there is an Alternative Benchmark Rate, then such Alternative Benchmark Rate shall (subject to adjustment as provided in Condition 6(f)(iii) (*Adjustment Spread*)) subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 6(f) (*Benchmark Replacement*)).
- (iii) *Adjustment Spread*: If the Issuer or the Independent Adviser (as applicable) determines (i) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Benchmark Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Benchmark Rate (as the case may be) for each subsequent determination of a relevant Rate of Interest (or a relevant component part thereof) by reference to such Successor Rate or Alternative Benchmark Rate (as applicable).
- (iv) *Benchmark Amendments*: If any Successor Rate, Alternative Benchmark Rate or Adjustment Spread is determined in accordance with this Condition 6(f) (*Benchmark Replacement*) and the Independent Adviser or the Issuer (as applicable) determines (i) that amendments to these Conditions (including without limitation, amendments to the definitions of Day Count Fraction, Business Day, Relevant Screen Page, Interest Determination Date, Reset Determination Date, Relevant Time, Relevant Financial Centre, Reference Banks, Mid-Swap Floating Leg Benchmark Rate, Principal Financial Centre, Business Day Convention or Additional Business Centre) are necessary to ensure the proper operation of such Successor Rate, Alternative Benchmark Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, and subject to the Issuer giving notice thereof in accordance with Condition 6(f)(v) (*Notices, etc.*), without any requirement for the consent or approval of Noteholders, vary these Conditions to give effect to such Benchmark Amendments with effect from the date specified in such notice.

In connection with any such variation in accordance with this Condition 6(f)(iv) (*Benchmark Amendments*), the Issuer shall comply with the rules of any stock exchange or other relevant authority on which the Notes are for the time being listed or by which they have been admitted to trading.

- (v) *Notices, etc.*: The Issuer shall notify the Paying Agents and the Calculation Agent or any other party specified in the relevant Final Terms as being responsible for calculating the Rate of Interest no later than 10 days prior to the relevant Interest Determination Date and, in accordance with Condition 18 (*Notices*), the Noteholders promptly of any Successor Rate, Alternative Benchmark Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 6(f) (*Benchmark Replacement*). Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

Where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period shall be substituted in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period.

The Successor Rate or Alternative Benchmark Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such notice will (in the absence of manifest error or bad faith in the determination of the Successor Rate or Alternative Benchmark Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any)) be binding on the Issuer, the Paying Agents, the Calculation Agent, any other party specified in the relevant Final Terms as being responsible for calculating the Rate of Interest, the Noteholders.

- (vi) *Survival of Original Reference Rate:* Without prejudice to the obligations of the Issuer under the provisions of this Condition 6(f) (*Benchmark Replacement*), the Original Reference Rate and the fallback provisions provided for in Condition 6 (*Floating Rate Note and Benchmark Replacement*) and in Condition 7 (*Reset Note Provisions*) will continue to apply unless and until a Benchmark Event has occurred and only then once the Paying Agents and Calculation Agent or such other party specified in the relevant Final Terms, as applicable, have been notified of the Successor Rate or Alternative Benchmark Rate (as the case may be) and any Adjustment Spread (if applicable) and Benchmark Amendments (if applicable) in accordance with Condition 6(f)(v) (*Notices, etc.*).
- (vii) *Fallbacks:* If, following the occurrence of a Benchmark Event and in relation to the determination of the Rate of Interest on the relevant Interest Determination Date or Reset Determination Date, in accordance with paragraph (i) above, the Issuer or the Independent Adviser (as applicable) fails to determine a Successor Rate or Alternative Benchmark Rate (as applicable) pursuant to this Condition 6(f) (*Benchmark Replacement*) by such Interest Determination Date or Reset Determination Date, or, if the provisions relating to the occurrence of a Regulatory Event in case of a Benchmark Event is specified as applicable in the relevant Final Terms, the provisions under paragraphs from (i) to (vi) above would case the occurrence of a Regulatory Even (A) in the case of Floating Rate Notes, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period) or (B) in the case of Reset Notes, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) shall be determined to be the sum of (as applicable) the First Margin (in the case of the First Reset Rate of Interest) or the Subsequent Margin (in the case of the Subsequent Reset Rate of Interest) and the relevant Mid-Swap Rate as of the last preceding Reset Date or, in the case of the first Reset Determination Date, the First Reset Rate of Interest shall be the Initial Rate of Interest.

For the avoidance of doubt, this Condition 6(f) (*Benchmark Replacement*) shall apply to the determination of the Rate of Interest on the relevant Interest Determination Date or Reset Determination Date only, and the Rate of Interest applicable to any subsequent Interest Period(s) or Reset Period(s) (as applicable) is subject to the subsequent operation of, and to adjustment as provided in, this Condition 6(f) (*Benchmark Replacement*).

- (g) *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (h) *Change of Interest Basis.* If Change of Interest Basis is specified as applicable in the applicable Final Terms, the interest payable in respect of the Notes will be calculated in accordance with Condition 5 (*Fixed Rate Note Provisions*) or Condition 6 (*Floating Rate Note and Benchmark Replacement*), each applicable only for the relevant periods specified in the applicable Final Terms.

If Change of Interest Basis is specified as applicable in the applicable Final Terms, and Issuer's Switch Option is also specified as applicable in the applicable Final Terms, the Issuer may, on one or more occasions, as specified in the applicable Final Terms, at its option (any such option, a "**Switch Option**"), having given notice to the Noteholders in accordance with Condition 18 (*Notices*) on or prior to the relevant Switch Option Expiry Date, change the Interest Basis of the Notes from Fixed Rate to Floating Rate or Floating Rate to Fixed Rate or as otherwise specified in the applicable Final Terms with effect from (and including) the Switch Option Effective Date specified in the applicable Final Terms to (but excluding) the Maturity Date (or, where more than one Switch Option Effective Date is specified in the applicable Final Terms, up to and excluding the next following Switch Option Effective Date), *provided that* (A) the Switch Option may be exercised only in respect of all the outstanding Notes, (B) upon exercise of a Switch Option, the Interest Basis change will be effective from (and including) the relevant Switch Option Effective Date until the Maturity Date (or, where more than one Switch Option Effective Date is specified as applicable in the applicable Final Terms, up to and excluding the next following Switch Option Effective Date to the extent the related Switch Option is exercised), and (C) where a

Switch Option has not been exercised prior to the relevant Switch Option Expiry Date, the Issuer shall no longer be entitled to exercise such Switch Option and the Interest Basis shall not change.

"**Switch Option Expiry Date**" and "**Switch Option Effective Date**" shall mean any date specified as such in the applicable Final Terms *provided that* any date specified in the applicable Final Terms as a Switch Option Effective Date shall be deemed as such subject to the exercise of the relevant Switch Option having been notified to the Issuer pursuant to this Condition and in accordance with Condition 18 (*Notices*) prior to the relevant Switch Option Expiry Date.

- (i) *Calculation of Interest Amount:* The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount of such Note during such Interest Period and multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit rounded upwards). For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent. Where the Specified Denomination of a Floating Rate Note or an Inflation Linked Interest Note is the multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amounts (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.
- (j) *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.
- (k) *Publication:* The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Issuer, the Paying Agent, Monte Titoli and each stock exchange (if any) on which the Notes are then listed as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders in accordance with Condition 18 (*Notices*). The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period.
- (l) *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agent, Monte Titoli, and the Noteholders and (subject as aforesaid) no liability to any such person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

## 8. Inflation Linked Note

This Condition 8 (*Inflation Linked Note*) is applicable to the Notes only if the Inflation Linked Notes Provisions are specified in the relevant Final Terms as being applicable.

### (a) Inflation Linked Note Provisions

#### (i) Rate of Interest – Inflation Linked Notes

*The Notes may provide for the payment of one or more Rates of Interest which will consist of an amount determined on the basis of the performance of the underlying Inflation Index and calculated according to the formula described below. The amount of the Rate of Interest is linked to the performance of the Inflation Index so that if the value of the Inflation Index increases compared to the preceding calendar year, then this will positively affect the amount of Rate of Interest, whereas if the value of the Inflation Index decreases compared to the preceding calendar year, then this will negatively affect the amount of Rate of Interest.*

The Rate of Interest payable from time to time in respect of [YoY] Inflation Linked Notes, for each Interest Period, shall be determined by the Calculation Agent, or other party specified in the Final Terms, on the relevant Determination Date in accordance with the following formula:

$$\text{Rate of Interest} = [[\text{Index Factor}] * [\text{YoY} \text{ Inflation}] + \text{Margin}]$$

subject to the Minimum Rate of Interest or the Maximum Rate of Interest if, in either case, designated as applicable in the applicable Final Terms in which case the provisions of paragraph 6(g) above shall apply as appropriate.

Where:

"**Index Factor**" has the meaning given to it in the applicable Final Terms, *provided that* if Index Factor is specified as "**Not Applicable**", the Index Factor shall be deemed to be equal to one;

"**Inflation Index**" has the meaning given to it in the applicable Final Terms;

"**[YoY] Inflation**" means in respect of the Specified Interest Payment Date falling in month (t), the value calculated in accordance with the following formula:

$$\left[ \frac{\text{InflationIndex}(t)}{\text{InflationIndex}(t - 1)} - 1 \right]$$

"**Inflation Index (t)**" means the value of the Inflation Index for the Reference Month in the calendar year in which the relevant Specified Interest Payment Date and/or the Maturity Date falls;

"**Inflation Index (t-1)**" means the value of the Inflation Index for the Reference Month in the calendar year preceding the calendar year in which the relevant Specified Interest Payment Date falls;

"**Margin**" has the meaning given to it in the applicable Final Terms;

"**Reference Month**" has the meaning given to it in the applicable Final Terms; and

The Rate of Interest shall be rounded (if necessary) to the fifth decimal place, with 0.000005 being rounded upwards.

(ii) *Redemption Amount – [YoY] Inflation Linked Notes*

*The Notes may provide for the payment on the Maturity Date of a Final Redemption Amount which will consist of (as specified in the applicable Final Terms): i) an amount equal to 100% of the Aggregate Nominal Amount of the Notes or ii) an amount determined on the basis of the performance of the underlying Inflation Index and calculated according to the formula described below. In the latter case, if the value of the Inflation Index for the Reference Month in the calendar year in which the Maturity Date falls is higher than the value of the Inflation Index for the Reference Month in the calendar year in which the Issue Date falls, then the Noteholders will receive a Final Redemption Amount higher than 100% of the Aggregate Nominal Amount and linked to the performance of the Inflation Index. If the value of the Inflation Index for the Reference Month in the calendar year in which the Maturity Date falls is lower than the value of the Inflation Index for the Reference Month in the calendar year in which the Issue Date falls, then the Noteholders will receive a Final Redemption Amount equal to 100% of the Aggregate Nominal Amount and no amount linked to the Inflation Index will be received by the investor. Under no circumstances the Final Redemption Amount shall be less than the Aggregate Nominal Amount of the Notes.*

The Final Redemption Amount payable on the Maturity Date in respect of [YoY] Inflation Linked Notes may be i) 100% of the Aggregate Nominal Amount of the Notes or ii) (if so specified in the applicable Final Terms) a [YoY] Indexed Redemption Amount to be calculated on the [Maturity Date/relevant Determination Date] on the basis of the following formula:

$$[[\text{YoY}] \text{ Indexed Redemption Amount} = \text{Aggregate Nominal Amount} \times (\text{Inflation Index (t)}/\text{Inflation Index (0)})]$$

Where:

"**Inflation Index (t)**" means the value of the Inflation Index for the Reference Month in the calendar year in which the relevant Specified Interest Payment Date and/or the Maturity Date falls; and

"**Inflation Index (0)**" means the value of the Inflation Index for the Reference Month in the calendar year in which the relevant Issue Date falls.

The [YoY] Indexed Redemption Amount may be subject to a minimum or a maximum amount (if so specified in the applicable Final Terms) *provided that* under no circumstances shall the Final Redemption Amount be less than the Aggregate Nominal Amount of the Notes.

(iii) *Inflation Linked Note Provisions*

Unless previously redeemed or purchased and cancelled in accordance with this Condition 8 (*Inflation Linked Notes*) or as specified in the applicable Final Terms and subject to this Condition 8 (*Inflation Linked Notes*), each Inflation Linked Note will bear interest in the manner specified in the applicable Final Terms and the Conditions.

The following provisions apply to Inflation Linked Notes:

"**Additional Disruption Event**" means any of Change of Law, Hedging Disruption and/or Increased Cost of Hedging, in each case if specified in the applicable Final Terms, and such other events (if any) specified as an Additional Disruption Event in the applicable Final Terms.

**"Change of Law"** means that, on or after the Trade Date (as specified in the applicable Final Terms):

- (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or
- (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority),

the Calculation Agent determines in its discretion that (i) it has become illegal to hold, acquire or dispose of any relevant hedging arrangements in respect of the Inflation Index, or (ii) any Hedging Party will incur a materially increased cost in performing its obligations in relation to the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer, any of its affiliates or any other Hedging Party).

**"Cut-Off Date"** means, in respect of a Determination Date, five (5) Business Days prior to any due date for payment under the Notes for which valuation on the relevant Determination Date is relevant, unless otherwise stated in the applicable Final Terms.

**"Delayed Index Level Event"** means, in respect of any Determination Date and an Inflation Index, that the relevant Inflation Index Sponsor fails to publish or announce the level of such Inflation Index (the Relevant Level) in respect of any Reference Month which is to be utilised in any calculation or determination to be made by the Issuer in respect of such Determination Date, at any time on or prior to the Cut-Off Date.

**"Determination Date"** means each date specified as such in the applicable Final Terms.

**"End Date"** means each date specified as such in the applicable Final Terms.

**"Fallback Bond"** means, in respect of an Inflation Index, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the relevant Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a maturity date which falls on (a) the End Date specified in the applicable Final Terms, (b) the next longest maturity after the End Date if there is no such bond maturing on the End Date, or (c) the next shortest maturity before the End Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the relevant Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent will select a new Fallback Bond on the same basis, but notwithstanding the immediately prior sentence, selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

**"Hedging Disruption"** means that any Hedging Party is unable, after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the relevant price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s), as determined by the Calculation Agent.

**"Hedging Party"** means at any relevant time, the Issuer, or any of its affiliates or any other party providing the Issuer directly or indirectly with hedging arrangements in relation to the Notes as the Issuer may select at such time.

**"Increased Cost of Hedging"** means that any Hedging Party would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, price risk, foreign exchange risk and interest rate risk) of the Issuer issuing and performing its obligations with respect to the Notes, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), *provided that* any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its affiliates shall not be deemed an Increased Cost of Hedging.

**"Inflation Index"** means each inflation index specified in the applicable Final Terms and related expressions shall be construed accordingly.

**"Inflation Index Sponsor"** means, in relation to an Inflation Index, the entity that publishes or announces (directly or through an agent) the level of such Inflation Index which, as of the Issue Date, is the Inflation Index Sponsor specified in the applicable Final Terms.

**"Reference Month"** means the calendar month for which the level of the Inflation Index is reported as specified in the applicable Final Terms, regardless of when this information is published or announced, except that if the period for which the Relevant Level was reported is a period other than a month, the Reference Month shall be the period for which the Relevant Level is reported.

**"Related Bond"** means, in respect of an Inflation Index, the bond specified as such in the applicable Final Terms. If the Related Bond specified in the applicable Final Terms is "Fallback Bond", then, for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If no bond is specified in the applicable Final Terms as the Related Bond and "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, there will be no Related Bond. If a bond is specified as the Related Bond in the applicable Final Terms and that bond redeems or matures before the End Date (i) unless "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination and (ii) if "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, there will be no Related Bond.

**"Relevant Level"** has the meaning set out in the definition of "Delayed Index Level Event" above.

(iv) *Inflation Index Delay and Disruption Provisions*

*In case of the cessation of the publication of the Inflation Index or the occurrence of an Additional Disruption Event, the Notes may be early redeemed at the Early Redemption Amount specified in the applicable Final Terms.*

(A) **Delay in Publication**

If the Calculation Agent determines that a Delayed Index Level Event in respect of an Inflation Index has occurred with respect to any Determination Date, then the Relevant Level for such Inflation Index with respect to the relevant Reference Month subject to such Delayed Index Level Event (the "**Substitute Index Level**") shall be determined by the Calculation Agent as follows:

- (1) if "Related Bond" is specified as applicable for such Inflation Index in the relevant Final Terms, the Calculation Agent shall determine the Substitute Index Level by reference to the corresponding index level determined under the terms and conditions of the relevant Related Bond;
- (2) if (I) "Related Bond" is not specified as applicable for such Inflation Index in the relevant Final Terms, or (II) the Calculation Agent is not able to determine

a Substitute Index Level under (i) above, the Calculation Agent shall determine the Substitute Index Level by reference to the following formula:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level}/\text{Reference Level});$$

or

- (3) otherwise in accordance with any formula specified in the relevant Final Terms,

in each case as of such Determination Date,

where:

**"Base Level"** means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

**"Latest Level"** means, in respect of an Inflation Index, the latest level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor prior to the month in respect of which the Substitute Index Level is being determined.

**"Reference Level"** means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Issuer shall give notice to Noteholders, in accordance with Condition 18 (*Notices*) of any Substitute Index Level calculated pursuant to Condition 8(iv)(A) (*Delay in Publication*).

If the Relevant Level (as defined above) is published or announced at any time on or after the relevant Cut-off Date, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this Condition 8 (*Inflation Linked Notes*) will be the definitive level for that Reference Month.

(B) **Cessation of Publication**

If the Calculation Agent determines that the level for the Inflation Index has not been published or announced for two (2) consecutive months, the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index or the Inflation Index Sponsor otherwise cancels the Inflation Index, then the Calculation Agent shall determine a successor inflation index (the **"Successor Inflation Index"**) (in lieu of any previously applicable Inflation Index) for the purposes of the Inflation Linked Notes by using the following methodology:

- (1) if at any time (other than after an early redemption or cancellation event has been designated by the Calculation Agent pursuant to Condition 8(a)(iv)(B)(5) below), a successor inflation index has been designated by the calculation agent (or equivalent) pursuant to the terms and conditions of the Related Bond, such successor inflation index shall be designated a "Successor Inflation Index" notwithstanding that any other Successor Inflation Index may previously have been determined under Conditions 8(a)(iv)(B)(2), 8(a)(iv)(B)(3) or 8(a)(iv)(B)(4) below;
- (2) if a Successor Inflation Index has not been determined pursuant to Condition 8(a)(iv)(B)(1) above, and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index

will be superseded by a replacement Inflation Index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Inflation Linked Notes from the date that such replacement Inflation Index comes into effect;

- (3) if a Successor Inflation Index has not been determined pursuant to Conditions 8(a)(iv)(B)(1) or 8(a)(iv)(B)(2) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If four or five responses are received and, of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the "**Successor Inflation Index**". If three responses are received and two or more leading independent dealers state the same index, this index will be deemed the "Successor Inflation Index". If fewer than three responses are received or no Successor Inflation Index is determined pursuant to this Condition 8(a)(iv)(B)(3), the Calculation Agent will proceed to Condition 8(a)(iv)(B)(4) below;
- (4) if no replacement index or Successor Inflation Index has been determined under Conditions 8(a)(iv)(B)(1), 8(a)(iv)(B)(2), 8(a)(iv)(B)(3) above by the next occurring Cut-Off Date, the Calculation Agent, subject as provided below, will determine an appropriate alternative index from such Cut-Off Date, and such index will be deemed a "Successor Inflation Index"; or
- (5) if the Calculation Agent determines that there is no appropriate alternative index in relation to Inflation Linked Notes, on giving notice to Noteholders in accordance with Condition 18 (*Notices*), the Issuer shall redeem or cancel, as applicable all but not some only of the Inflation Linked Notes, each Inflation Linked Note being redeemed or cancelled, as applicable by payment of the relevant Early Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Condition 18 (*Notices*).

(C) **Rebasing of the Inflation Index**

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the level of the Inflation Index from the date of such rebasing; *provided, however, that* the Calculation Agent shall make adjustments as are made by the calculation agent (or equivalent) pursuant to the terms and conditions of the Related Bond, if "Related Bond" is specified as applicable in the applicable Final Terms, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased, or, if "Related Bond" is not specified as applicable in the applicable Final Terms, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased.

(D) **Material Modification Prior to Last Occurring Cut-Off**

If, on or prior to the last occurring Cut-Off Date, the Inflation Index Sponsor announces that it will make a material change to the Inflation Index then the Calculation Agent shall make any such adjustments, if "Related Bond" is specified as applicable in the applicable Final Terms, consistent with adjustments made to the Related Bond, or, if "Related Bond" is not specified as applicable in the applicable Final Terms, only those adjustments to the Inflation Index necessary for the modified Inflation Index to continue as the Inflation Index.

(E) **Manifest Error in Publication**

With the exception of any corrections published after the day which is three (3) Business Days prior to the relevant Maturity Date, if, within thirty (30) calendar days of publication, the Calculation Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent may, in its discretion, make such adjustments to the terms of the Inflation Linked Notes as it determines appropriate to account for the correction and will notify the Noteholders of any such adjustments in accordance with Condition 18 (*Notices*).

(F) **Consequences of an Additional Disruption Event**

If the Calculation Agent determines that an Additional Disruption Event has occurred, the Issuer may at its option:

- (1) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any terms of the Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
- (2) redeem or cancel, as applicable, all but not some of the Inflation Linked Notes on the date notified by the Calculation Agent to Noteholders in accordance with Condition 18 (*Notices*) by payment of the relevant Early Redemption Amount, as of the date of redemption or cancellation, as applicable, taking into account the relevant Additional Disruption Event. The redemption or cancellation referred to in this Condition 8(a)(iv) (*Inflation Index Delay and Disruption Provisions*) shall be subject to (i) in case of Senior Notes and Senior Non-Preferred Notes, Condition 10(o) (*Regulatory conditions for call, redemption, repayment or repurchase of Senior Notes and Senior Non-Preferred Notes*) and (ii) in case of Subordinated Notes, Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

(G) **Inflation Index Disclaimer**

The Notes are not sponsored, endorsed, sold or promoted by the Inflation Index or the Inflation Index Sponsor and the Inflation Index Sponsor does not make any representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the Inflation Index and/or the levels at which the Inflation Index stands at any particular time on any particular date or otherwise. Neither the Inflation Index nor the Inflation Index Sponsor shall be liable (whether in negligence or otherwise) to any person for any error in the Inflation Index and the Inflation Index Sponsor is under no obligation to advise any person of any error therein. The Inflation Index Sponsor is not making any representation whatsoever, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with the Notes. The Issuer shall have liability to the Noteholders for any act or failure to act by the Inflation Index Sponsor in connection with the calculation, adjustment or maintenance of the Inflation Index. Neither the Issuer nor its affiliates has any affiliation with or control over the Inflation Index or the Inflation Index Sponsor or any control over the computation, composition or dissemination of the Inflation Index. Although the Calculation Agent will obtain information concerning the Inflation Index from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty or undertaking (express or implied) is made and no responsibility is accepted by the Issuer, its affiliates or the Calculation Agent as to the accuracy, completeness and timeliness of information concerning the Inflation Index.

9. **Zero Coupon Note Provisions**

- (a) *Application:* This Condition 9 (*Zero Coupon Note Provisions*) is applicable to the Notes only if the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Late payment on Zero Coupon Notes:* If the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:
- (i) the Reference Price; and
  - (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Paying Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

10. **Redemption and Purchase**

- (a) *Scheduled redemption:* Unless previously redeemed, or purchased and cancelled, the Notes will be redeemed at their Final Redemption Amount on the Maturity Date, subject as provided in Condition 11 (*Payments*).

Pursuant to Article 12-*bis*, paragraph 1, letter *a*), of the Consolidated Banking Act, the Maturity Date of the Senior Non-Preferred Notes shall not fall earlier than twelve months after their Issue Date.

The Maturity Date of Subordinated Notes shall not fall earlier than five years after their Issue Date, as provided under the Applicable Banking Regulations.

- (b) *Redemption for tax reasons:* The Notes may be redeemed at the option of the Issuer in whole, but not in part:
- (i) at any time (if neither the Floating Rate Note Provisions or the Inflation Linked Note Provisions are specified in the relevant Final Terms as being applicable); or
  - (ii) on any Interest Payment Date (if the Floating Rate Note Provisions or the Inflation Linked Note Provisions are specified in the relevant Final Terms as being applicable),

on giving not less than 30 nor more than 60 days' notice to the Noteholders (which notice shall be irrevocable), at their Early Redemption Amount (Tax), together with interest accrued (if any) to the date fixed for redemption, if the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 12 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of the Republic of Italy or any political subdivision or any authority or agency thereof or therein, or any change in the application or interpretation or administration of such laws or regulations, which change or amendment becomes effective on or after the date of issue of the first Tranche of the Notes; and such obligation cannot be avoided by the Issuer taking reasonable measures available to it (any such event, a "**Tax Event**").

A certificate signed by two duly authorised officers of the Issuer will be made available, upon request, to the relevant Noteholder, stating that the Issuer is entitled to effect such redemption and setting forth a

statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred (and such evidence shall be sufficient, conclusive and binding on the Noteholders). Upon the expiry of any such notice as is referred to in this Condition 10(b), the Issuer shall be bound to redeem the Notes in accordance with this Condition 10(b).

- (c) *Redemption at the option of the Issuer*: If the Call Option is specified in the relevant Final Terms as being applicable, the Notes may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call) on the Issuer giving not less than 15 nor more than 30 days' notice to the Paying Agent, Monte Titoli and the Noteholders, or such other period(s) as may be specified in the relevant Final Terms (which notice shall be irrevocable and shall oblige the Issuer to redeem the Notes or, as the case may be, the Notes specified in such notice on the relevant Optional Redemption Date (Call) at the Optional Redemption Amount (Call) plus accrued interest (if any) to such date).

In the case of Subordinated Notes, no Call Option in accordance with this Condition 10(c) (*Redemption at the option of the Issuer*) may be exercised by the Issuer to redeem, in whole or in part, such Notes prior to the fifth anniversary of their Issue Date. After the fifth anniversary of such Issue Date, the redemption referred to in this Condition 10(c) (*Redemption at the option of the Issuer*) shall be subject to Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

- (e) *Clean-up redemption at the option of the Issuer*: If a clean-up redemption option (the "**Clean-Up Redemption Option**") is specified as applicable in the Final Terms, and if 75 per cent. or any higher percentage specified in the relevant Final Terms (the "**Clean-Up Percentage**") of the initial aggregate nominal amount of the Notes of the same Series (which for the avoidance of doubt includes, any additional Notes issued subsequently and forming a single series with the first Tranche of a particular Series of Notes) have been redeemed or purchased by, or on behalf of, the Issuer and cancelled, the Issuer may at any time, at its option, and having given to the Paying Agent, the Noteholders and Monte Titoli not less than 5 nor more than 30 calendar days' notice (the "**Clean-Up Redemption Notice**"), in accordance with Condition 18 (*Notices*) (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem such outstanding Notes, in whole but not in part, at their clean-up redemption amount ("**Clean-Up Redemption Amount**") together, if appropriate, with accrued interest to (but excluding) the date of redemption, on the date fixed for redemption identified in the Clean-Up Redemption Notice.

The applicable Final Terms contains provisions applicable to any Put Option and must be read in conjunction with this Condition 10(f) for full information on any Put Option. In particular, the applicable Final Terms will identify the Optional Redemption Date (Put), the Optional Redemption Amount (Put) and the applicable notice periods.

If the Put Option is specified as being applicable in the applicable Final Terms, the Holder of any Note must, in accordance with Condition 18 (Notices), deliver to the Paying Agent a duly completed Put Option Notice in the form obtainable from the Paying Agent. The Paying Agent to which a Put Option Notice is so delivered, shall immediately notify the Issuer and shall deliver a duly completed Put Option Receipt to the relevant Holder. Upon delivery of a Put Option Notice and up to and including the Optional Redemption Date (Put), no transfer of title to the Note for which the Put Option Notice has been delivered will be allowed. At least 5 Business Days prior to the Optional Redemption Date (Put), the Issuer and the Paying Agent shall notify Monte Titoli of the amount of Notes to be redeemed on the Optional Redemption Date (Put) and the aggregate Optional Redemption Amount (Put).

(g) *Redemption of Subordinated Notes for regulatory reasons (Regulatory Call):* If a Regulatory Call is specified in the applicable Final Terms and if the Issuer notifies the Noteholders of the occurrence of a Regulatory Event, the Issuer may redeem such Subordinated Notes, in whole but not in part, at the Early Redemption Amount specified in the applicable Final Terms, together with any accrued but unpaid interest to the date fixed for redemption, *provided that* (to the extent required by applicable law or regulation):

- (A) the Issuer has given not less than the minimum period nor more than the maximum period of notice indicated in the relevant Final Terms to the Paying Agent, Monte Titoli and the Noteholders of such Subordinated Notes (such notice being irrevocable) specifying the date fixed for such redemption; and
- (B) the circumstance that entitles the Issuer to exercise this right of redemption of the relevant Subordinated Notes was not reasonably foreseeable at the relevant Issue Date.

Upon the expiry of such notice period, the Issuer shall be bound to redeem the Subordinated Notes accordingly.

The redemption referred to in this Condition 10(g) (*Redemption of Subordinated Notes for regulatory reasons (Regulatory Call)*) shall be subject to Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

(h) *Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event:* If redemption at the option of the Issuer due to a MREL Disqualification Event is specified as being applicable in the applicable Final Terms, the Issuer may, having given not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms to the Noteholders in accordance with Condition 18 (*Notices*) (which notice shall specify the date fixed for redemption), the Paying Agent and Monte Titoli, redeem the Notes, in whole but not in part, then outstanding at any time (if the Note is not a Floating Rate Note or an Inflation-Linked Note) or on any Interest Payment Date (if this Note is a Floating Rate Note or an Inflation-Linked Note) at the Early Redemption Amount specified in the applicable Final Terms, together with any accrued but unpaid interest to the date fixed for redemption, if the Issuer determines that a MREL Disqualification Event has occurred and is continuing. Upon the expiry of any such notice as is referred to in this Condition 10(h) (*Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event*), the Issuer shall redeem the Notes in accordance with

this Condition 10(h) (*Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event*).

The redemption of Subordinated Notes referred to in this Condition 10(h) (*Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event*) shall be subject to Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*).

- (i) *No other redemption*: The Issuer shall not be entitled to redeem the Notes otherwise than as provided in paragraphs (a) to (f) above.
- (j) *Early redemption of Zero Coupon Notes*: Unless otherwise specified in the relevant Final Terms, the Redemption Amount payable on redemption of a Zero Coupon Note at any time before the Maturity Date shall be an amount equal to the sum of:
  - (i) the Reference Price; and
  - (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Final Terms for the purposes of this Condition 10(j) (*Early redemption of Zero Coupon Notes*) or, if none is so specified, a Day Count Fraction of Actual/Actual (or 30/360 if such request is made to and accepted by the respective Issuer).

- (k) *Purchase*: The Issuer may at any time purchase Notes in the open market or otherwise and at any price, including for market purposes. Such Notes may be held, resold or, at the option of the purchaser, surrendered to any Paying Agent for cancellation. Also the repurchases referred to in this Condition 10(k) (*Purchase*) shall be subject to Condition 10(n) (*Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*) and Condition 10(o) (*Regulatory conditions for call, redemption, repayment or repurchase of Senior Notes and Senior Non-Preferred Notes*).
- (l) *Cancellation*: All Notes so redeemed by the Issuer shall be cancelled and may not be reissued or resold.
- (m) *Redemption Amount*: For the avoidance of doubt, in no event will the Redemption Amount of any Notes issued by the Issuer be lower than the principal amount of the Notes.
- (n) *Regulatory conditions for call, redemption, repayment or repurchase of Subordinated Notes*: In the case of Subordinated Notes, any call, redemption, repayment or repurchase of such Notes in accordance with Condition 8(a)(iv) (*Inflation Index Delay And Disruption Provisions*), Condition 10(b) (*Redemption for tax reasons*), Condition 10(c) (*Redemption at the option of the Issuer*), Condition 10(g) (*Redemption of Subordinated Notes for regulatory purposes (Regulatory Call)*), Condition 10(h) (*Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event*) or Condition 10(k) (*Purchase*) is subject to compliance with the then Applicable Banking Regulations, including:
  - (i) the Issuer has obtained the prior permission of the Relevant Authority in accordance with Articles 77 and 78 of the CRR, where either:
    - (A) on or before such call, redemption, repayment or repurchase (as applicable), the Issuer replaces the Subordinated Notes with Own Funds instruments of equal or higher quality at terms that are sustainable for its income capacity; or
    - (B) the Issuer has demonstrated to the satisfaction of the Relevant Authority that its Own Funds would, following such call, redemption, repayment or repurchase, exceed the

capital requirements laid down in the Applicable Banking Regulations by a margin that the Relevant Authority considers necessary; and

- (ii) in respect of a call, redemption repayment or repurchase prior to the fifth anniversary of the Issue Date of the relevant Subordinated Notes, if and to the extent required under Article 78(4) of the CRR or the Capital Instruments Regulation:
  - (A) in the case of redemption pursuant to Condition 10(b) (*Redemption for tax reasons*), the Issuer has demonstrated to the satisfaction of the Relevant Authority that the change in the applicable tax treatment of the Notes is material and was not reasonably foreseeable as of the Issue Date; or
  - (B) in case of redemption pursuant to Condition 10(g) (*Redemption of Subordinated Notes for regulatory reasons (Regulatory Call)*), the Issuer has demonstrated to the satisfaction of the Relevant Authority that the change in the regulatory classification of the Notes was not reasonably foreseeable as of the Issue Date; or
  - (C) on or before the relevant call, redemption, repayment or repurchase, the Issuer replaces the Notes with Own Funds instruments of equal or higher quality at terms that are sustainable for its income capacity and the Relevant Authority has permitted that action on the basis of the determination that it would be beneficial from a prudential point of view and justified by exceptional circumstances; or
  - (D) the Subordinated Notes are repurchased for market making purposes,

subject in any event to any different conditions or requirements as may be provided from time to time under the Applicable Banking Regulations

(or any other threshold as may be requested or required by the Relevant Authority from time to time) of the aggregate nominal amount of the relevant Subordinated Notes and (ii) 3 per cent. (or any other threshold as may be requested or required by the Relevant Authority from time to time) of the outstanding aggregate nominal amount of the Tier 2 Instruments of the Issuer at the relevant time, subject to criteria that ensure that any such redemption or purchase will be in accordance with the conditions set out at letters (A) and (B) of sub-paragraph (i) of the preceding paragraph.

For the avoidance of doubt, any refusal of the Relevant Authority to grant its permission in accordance with Article 78 of the CRR shall not constitute a default of the Issuer for any purposes.

- (o) Regulatory conditions for call, redemption, repayment or repurchase of Senior Notes and Senior Non-Preferred Notes: Any call, redemption, repayment or repurchase in accordance with Condition 8(a)(iv) (*Inflation Index Delay And Disruption Provisions*), Condition 10(b) (*Redemption for tax reasons*), Condition 10(c) (*Redemption at the option of the Issuer*), Condition 10(k) (*Purchase*), or Condition 10(h) (*Redemption at the option of the Issuer of Notes due to a MREL Disqualification Event*) of Senior Notes or Senior Non-Preferred Notes is subject, to the extent such Senior Notes or Senior Non-Preferred Notes qualify at such time as liabilities that are eligible to meet the MREL Requirements or, in case of a redemption pursuant to Condition 10(h) (*Redemption at the option of the Issuer of Senior Notes and Senior Non-Preferred Notes due to a MREL Disqualification Event*), qualified as liabilities that are eligible to meet the MREL Requirements before the occurrence of the MREL Disqualification Event, to compliance with the then Applicable Banking Regulations, including the condition that the Issuer has obtained the prior permission of the Relevant Authority in accordance with article 78a of the CRR, where one of the following conditions is met:

- (ii) the Issuer has demonstrated to the satisfaction of the Relevant Authority that its Own Funds and Eligible Liabilities would, following such call, redemption, repayment or repurchase, exceed the requirements for Own Funds and Eligible Liabilities laid down in the Applicable Banking Regulations by a margin that the Relevant Authority considers necessary; or
- (iii) the Issuer has demonstrated to the satisfaction of the Relevant Authority that the partial or full replacement of the relevant Notes with Own Funds Instruments is necessary to ensure compliance with the Own Funds requirements laid down in the Applicable Banking Regulations for continuing authorization,

subject in any event to any different conditions or requirements as may be provided from time to time under the Applicable Banking Regulations.

The Relevant Authority may grant a general prior permission, for a specified period which shall not exceed one year, to redeem or purchase (including for market making purposes) Senior Notes or Senior Non-Preferred Notes, in the limit of a predetermined amount subject to criteria that ensure that any such redemption or purchase will be in accordance with the conditions set out in subparagraphs (i) and (ii) of the preceding paragraph.

For the avoidance of doubt, any refusal of the Relevant Authority to grant its permission in accordance with Article 78a of the CRR shall not constitute a default of the Issuer for any purposes.

## 11. **Payments**

- (a) *Principal and interest:* Payment of principal and interest in respect of the Notes will be credited, according to the instructions of Monte Titoli, by the Paying Agent to the accounts of the Monte Titoli Account Holders whose accounts with Monte Titoli are credited with those Notes and thereafter credited by such Monte Titoli Account Holders to the accounts of the beneficial owners of those Notes or through Euroclear and Clearstream, Luxembourg to the accounts with Euroclear and Clearstream, Luxembourg of the beneficial owners of those Notes, in accordance with the rules and procedures of Monte Titoli, Euroclear or Clearstream, Luxembourg, as the case may be.

No commissions or expenses shall be charged to the Noteholders in respect of such payments.

## 12. **Taxation**

- (a) *Gross up:* All payments of principal (if applicable) and interest in respect of the Notes (if any) by the Issuer shall be made free and clear of, and without withholding or deduction for, or on account of, any Taxes, unless such withholding or deduction is required by law. In that event, the Issuer shall pay such additional amounts as shall be necessary in order that the net amounts received by the Noteholders (if relevant) after such withholding or deduction shall be equal to the amounts of principal, in case of Senior Notes and Senior Non-Preferred Notes not qualifying at such time as liabilities that are eligible to meet the MREL Requirements only, and interest, in case of any Notes, and which would otherwise have been receivable by them if no such withholding or deduction had been required, except that no such additional amounts shall be payable in respect of any payment of any interest or principal either:
  - (i) for or on account of *Imposta Sostitutiva* (at the then applicable rate of tax) pursuant to Italian Legislative Decree No. 239 of 1 April 1996, as amended (the "**Legislative Decree No. 239**") or, for the avoidance of doubt, Italian Legislative Decree No. 461 of 21 November 1997 (as

amended by Italian Legislative Decree No. 201 of 16 June 1998) (as any of the same may be amended or supplemented) or any related implementing regulations, except where the procedures set forth in Legislative Decree No. 239 in order to benefit from a tax exemption have not been met or complied with due to the actions or omissions of the Issuer or its agents; or

  - (A) in the Republic of Italy; or
  - (B) by or on behalf of a holder who is liable for such taxes or duties in respect of such Note by reason of his having some connection with the Republic of Italy other than the mere holding of such Note; or
  - (C) by or on behalf of a holder who is entitled to avoid such withholding or deduction in respect of such Note by making, or procuring, a declaration of non-residence or other similar claim for exemption but has failed to do so; or
  - (D) more than 30 days after the Relevant Date except to the extent that the relevant holder would have been entitled to an additional amount on presenting such Note for payment on such thirtieth day assuming that day to have been a Business Day; or
  - (E) in the event of payment to a non-Italian resident legal entity or a non-Italian resident individual, to the extent that interest or other amounts is paid to a non-Italian resident legal entity or a non-Italian resident individual which is resident in a country which does not allow for a satisfactory exchange of information for the purposes of Article 6 of Legislative Decree No. 239 of 1 April, 1996; or
  - (F) in respect of Notes classified as of atypical securities where such withholding or deduction is required under Law Decree No. 512 of 30 September 1983, as amended and supplemented from time to time.

Notwithstanding any other provision in these Conditions, the Issuer shall be permitted to withhold or deduct any amounts required by the rules of Sections 1471 through 1474 of the Code, any regulation or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto ("**FATCA Withholding**") as a result of a holder, beneficial owner or an intermediary that is not an agent of the Issuer not being entitled to receive payments free of FATCA Withholding. The Issuer will have no obligation to pay additional amounts or otherwise indemnify an investor for any such FATCA Withholding deducted or withheld by the Issuer, the paying agent or any other party.

- (b) *Taxing jurisdiction*: If payments made by the Issuer becomes subject to withholding tax as a result of the Issuer becoming resident, whether for tax purposes or otherwise, in any taxing jurisdiction other than the Republic of Italy, references in these Conditions to the Republic of Italy shall be construed as references to such other jurisdiction instead of the Republic of Italy.

### 13. **Events of Default**

In the event of compulsory winding-up (*liquidazione coatta amministrativa*) of the Issuer pursuant to Articles 80 and following of the Consolidated Banking Act or voluntary winding-up (*liquidazione volontaria*) in accordance with Article 96-*quinquies* of the Consolidated Banking Act, then any Note may, by written notice addressed by the holder thereof to the Issuer and delivered to the Issuer or to the Specified Office of the Paying Agent, be declared immediately due and payable, whereupon it shall become immediately due and payable at its outstanding principal amount together with accrued interest (if any) without further action or formality.

No remedy against the Issuer (including any remedy under the Italian Civil Code) other than as specifically provided by this Condition 13 (*Events of Default*) shall be available to the holders of the Notes, whether for the recovery of amounts owing in respect of the Notes or in respect of any breach by the Issuer of any of its obligations under the Notes or otherwise.

For the avoidance of doubt, the non-payment by the Issuer of any amount due and payable under these Notes, or the taking of any crisis prevention measure or crisis management measure in relation to the Issuer in accordance with the BRRD, is not an event of default.

No Events of Default for the Notes shall occur other than in the context of an insolvency proceeding (including, without limitation, *liquidazione coatta amministrativa*) in respect of the Issuer (and, for the avoidance of doubt, resolution proceeding(s) or moratoria imposed by a resolution authority in respect of the Issuer shall not constitute an Event of Default for the Notes for any purpose).

**14. Prescription**

Claims against the Issuer for payment of principal and interest in respect of the Notes will be prescribed and become void unless made, in the case of principal, within ten years or, in the case of interest, five years after the Relevant Date.

**15. Paying Agents**

In acting under the Agency Agreement and in connection with the Notes, the Paying Agents act solely as agents of the Issuer and do not assume any obligations towards or relationship of agency or trust for or with any of the Noteholders or any other Person.

The initial Paying Agents and their initial Specified Offices are listed below. The initial Calculation Agent (if any) is specified in the relevant Final Terms. The Issuer reserves the right at any time to vary or terminate the appointment of any Paying Agent and to appoint a successor fiscal agent or Calculation Agent and additional or successor paying agents; *provided, however, that:*

- (a) the Issuer shall at all times maintain a Paying Agent;
- (b) if a Calculation Agent is specified in the relevant Final Terms, the Issuer shall at all times maintain a Calculation Agent;
- (c) if and for so long as the Notes are admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent in any particular place, the Issuer shall maintain a Paying Agent having its Specified Office in the place required by such competent authority, stock exchange and/or quotation system; and

Notice of any change in the Paying Agents or in their Specified Offices shall promptly be given to the Noteholders in accordance with Condition 18 (*Notices*).

**16. Meetings of Noteholders; Modification and Waiver**

- (a) *Meetings of Noteholders:* The Conditions may not be amended without the prior approval of the Relevant Authority (if applicable). The Agency Agreement contains provisions for convening meetings of Noteholders to consider matters relating to the Notes, including the modification of any provision of these Conditions. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer and shall be convened by them upon the request in writing of Noteholders holding not less than one-tenth of the aggregate principal amount of the outstanding Notes. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more Persons holding or representing one more than half of the aggregate principal amount of the outstanding Notes or, at any adjourned meeting, two or more Persons being or representing Noteholders whatever the principal amount of the Notes held or represented; provided, however, that Reserved Matters may only be sanctioned by an Extraordinary Resolution passed at a meeting of Noteholders at which two or more Persons holding or representing not less than three-quarters or, at any adjourned meeting, one quarter of the aggregate principal amount of the outstanding Notes form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders, whether present or not.
- (b) *Modification:* The Notes, these Conditions and the Deed of Covenant may be amended without the consent of the Noteholders to correct a manifest error. In addition, the parties to the Agency Agreement may agree to modify any provision thereof, but the Issuer shall not agree, without the consent of the

Noteholders, any modification unless it is of a formal, minor or technical nature, it is made to correct a manifest error or it is, in the opinion of such parties, not materially prejudicial to the interests of the Noteholders.

- (c) This Condition 17(c) applies to Subordinated Notes. If at any time a Tax Event, an Alignment Event, a MREL Disqualification Event or a Regulatory Event occurs and/or in order to ensure the effectiveness and enforceability of Condition 22 (*Acknowledgment of Bail-in Power*) with respect to Senior Notes or Senior Non-Preferred Notes, then the Issuer may, subject to giving any notice required to, and receiving consent from, the Relevant Authority (without any requirement for the consent or approval of the holders of Subordinated Notes of that Series) and having given not less than 30 (thirty) nor more than 60 (sixty) days' notice to the Paying Agent and the Holders of Subordinated Notes of that Series (which notice shall be irrevocable), at any time vary the terms of such Subordinated Notes so that they remain or, as appropriate, become, Qualifying Subordinated Securities, *provided that* such variation does not itself give rise to any right of the Issuer to redeem the varied securities that would otherwise provide the Issuer with a right of redemption pursuant to the provisions of Subordinated Notes.

For the avoidance of doubt, no consent of the Noteholders shall be required for a variation of the Notes in accordance with this Condition 17(c) and the Paying Agent shall be obliged to effect such matters.

- (d) This Condition 17(d) applies to Senior Notes and Senior Non-Preferred Notes. If at any time a MREL Disqualification Event or an Alignment Event occurs and/or in order to ensure the effectiveness and enforceability of Condition 22 (*Acknowledgment of Bail-in Power*) with respect to Senior Notes or Senior Non-Preferred Notes then the Issuer may, subject to giving any notice required to be given to, and receiving consent from, the Relevant Authority (without any requirement for the consent or approval of the holders of the Senior Notes or Senior Non-Preferred Notes of that Series) and having given not less than 30 (thirty) nor more than 60 (sixty) days' notice to the Paying Agent and the Holders of the Senior Notes or Senior Non-Preferred Notes of that Series, which notice shall be irrevocable, at any time vary the terms of such Senior Notes or Senior Non-Preferred Notes so that they remain or, as appropriate, become Qualifying Senior Notes or Qualifying Senior Non-Preferred Notes, *provided that* such variation does not itself give rise to any right of the Issuer to redeem the varied securities.

For the avoidance of doubt, no consent of the Noteholders shall be required for a variation of the Notes in accordance with this Condition 17(d) and the Paying Agent shall be obliged to effect such matters.

- (e) Any variation of the Conditions to give effect to the Benchmark Amendments in accordance with Condition 6(f) (*Benchmark Replacement*) shall not require the consent or approval of Noteholders.

## 17. Further Issues

The Issuer may from time to time, without the consent of the Noteholders, create and issue further notes having the same terms and conditions as the Notes in all respects (or in all respects other than the Issue Date, Issue Price and/or Interest Commencement Date and/or the first payment of interest) so as to form a single series with the Notes.

## 18. Notices

### *To holders of Notes*

Notices to the holders of Notes shall be valid if published (i) in a leading English language daily newspaper published in London (which is expected to be the *Financial Times*), (ii) if and for so long as the Notes are admitted to trading on, and listed on the to the Official List of the Luxembourg Stock Exchange and/or admitted to trading on the regulated market of the Luxembourg Stock Exchange, if published in a leading English language daily newspaper of general circulation in Luxembourg and approved by the Luxembourg Stock Exchange (which is expected to be the *Luxemburger Wort*) and/or the Luxembourg Stock Exchange's website ([www.luxse.com](http://www.luxse.com)). Any such notice shall be deemed to have been given on the date of first publication (or if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers).

*To Holders of Notes held in a clearing system*

For so long as the Notes are held through Monte Titoli, notices to Noteholders may (to the extent permitted by the rules of the Luxembourg Stock Exchange or any other exchange on which the Notes are then listed or admitted to trading) be given by delivery of the relevant notice to Monte Titoli. Any such notices shall be deemed to have been given to the Noteholders on the date of delivery to Monte Titoli.

19. **Currency Indemnity**

If any sum due from the Issuer in respect of the Notes or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under these Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Paying Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

20. **Rounding**

For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the relevant Final Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (b) all United States dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded up), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded upwards.

21. **Governing Law and Jurisdiction**

- (a) *Governing law:* The Agency Agreement and rights and obligations in respect of the Notes, and any non-contractual obligations arising out of or in connection with the Notes, are governed by, and shall be construed in accordance with, Italian law.
- (b) *Jurisdiction:* In the Agency Agreement the Issuer has irrevocably agreed, for the benefit of the Noteholders, that the courts of Milan are to have exclusive jurisdiction to hear and determine any suit, action or proceedings and to settle any disputes which may arise out of or in connection with the Notes (including any non contractual obligations arising out of or in connection with the Notes) (respectively "**Proceedings**" and "**Disputes**") and accordingly submits to the exclusive jurisdiction of such courts. Nothing contained in this Condition 21(b) (*Jurisdiction*) shall limit any right to take Proceedings against the Issuer in any other court of competent jurisdiction, nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction, whether concurrently or not.
- (c) *Appropriate forum:* In the Agency Agreement the Issuer irrevocably waives any objection which it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any Proceedings and to settle any Disputes, and has agreed not to claim that any such court is not a convenient or appropriate forum.
- (d) *Consent to enforcement etc:* In the Agency Agreement the Issuer consents generally in respect of any Proceedings to the giving of any relief or the issue of any process in connection with such Proceedings including (without limitation) the making, enforcement or execution against any property whatsoever

(irrespective of its use or intended use) of any order or judgment which may be made or given in such Proceedings.

**22. Acknowledgement of Bail-in Power**

Notwithstanding any provision of these Conditions or any other agreements, arrangements, or understandings between the Issuer and any holder of the Notes and without prejudice to Article 55(1) of the BRRD, each Noteholder (which, for the purposes of this Condition 22, includes each holder of a beneficial interest in the Notes), by virtue of its acquisition of the Notes (whether on issuance or in the secondary market), and the Paying Agent acknowledges and accepts the existence of, agrees to be bound by and consents to:

- (a) the effects of the exercise of the Bail-In Power by the Relevant Authority, which exercise may include and result in any of the following, or some combination thereof:
  - (i) the reduction of all, or a portion, of the principal amount in respect of the Notes together with any accrued but unpaid interest due thereon and any additional amounts (if any) due in relation thereto;
  - (ii) the conversion of all, or a portion, of the principal amount in respect of the Notes together with any accrued but unpaid interest due thereon and any additional amounts (if any) due in relation thereto, into ordinary shares, other securities or other obligations of the Issuer or another person (and the issue to or conferral on the holder of such shares, securities or obligations), including by means of an amendment, modification or variation of these Conditions;
  - (iii) the cancellation of the Notes or the principal amount in respect of the Notes together with any accrued but unpaid interest due thereon and any additional amounts (if any) due in relation thereto; and
  - (iv) the amendment or alteration of the maturity of the Notes or amendment of the amount of interest payable on the Notes, or the date on which the interest become payable, including by suspending payment for a temporary period; and
- (b) the variation of these Conditions, as deemed necessary by the Relevant Authority, to give effect to the exercise of the Bail-In Power by the Relevant Authority.

Each Noteholder further agrees that the rights of the Noteholders are subject to, and will be varied if necessary so as to give effect to, the exercise of any Bail-In Power by the Relevant Authority.

Upon the Issuer becoming aware of the exercise of the Bail-In Power by the Relevant Authority with respect to the Notes, the Issuer shall provide a notice to the holders of the Notes in accordance with Condition 18 (*Notices*) as soon as reasonably practicable. The Issuer shall also deliver a copy of such notice to the Paying Agent for information purposes. Any delay or failure by the Issuer to give notice shall not affect the validity and enforceability of the Bail-In Power nor the effects on the Notes described in this Condition 22 (*Acknowledgement of Bail-in Power*).

The exercise of the Bail-In Power by the Relevant Authority with respect to the Notes shall not constitute an Event of Default and the terms and conditions of the Notes shall continue to apply to the outstanding principal amount of the Notes subject to any modification of the amount of interest payments to reflect the reduction of the outstanding principal amount, and any further modification of the terms that the Relevant Authority may decide in accordance with applicable laws and regulations, including in particular the BRRD and the SRM Regulation, and any other relevant provisions under the Applicable Banking Regulations.

Each Noteholder also acknowledges and agrees that this provision is exhaustive on the matters described herein to the exclusion of any other agreements, arrangements or understandings relating to the application of the Bail-In Power to the Notes.

## FORM OF THE NOTES

### Italian Law Notes in Physical Form

Each Tranche of Notes will initially be in the form of either a temporary global note (a "**Temporary Global Note**"), without Coupons (as defined herein), or a permanent global note (a "**Permanent Global Note**"), without Coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a "**Global Note**") which is not intended to be issued in a new global note form (a "**Classic Global Note**" or "**CGN**"), as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depository or a common depository for Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking S.A. ("**Clearstream, Luxembourg**") and/or any other relevant clearing system and each Global Note which is intended to be issued in new global note form (a "**New Global Note**" or "**NGN**"), as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

In June 2006, the European Central Bank (the "**ECB**") announced that Notes in NGN form are in compliance with the "Standards for the use of EU securities settlement systems in ESCB credit operations" of the central banking system for the Euro (the "**Eurosystem**"), *provided that* certain other criteria are fulfilled. At the same time, the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The relevant Final Terms will indicate whether such bearer notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the bearer notes are to be so held does not necessarily mean that the bearer notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria.

The relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**") are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

### *Temporary Global Note exchangeable for Permanent Global Note*

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for a Permanent Global Note", then the Notes will initially be in the form of a Temporary Global Note without Coupons, interests in which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without Coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to, or to the order of, the Fiscal Agent; and
- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership,
- (iii) within 7 days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; provided, however, that in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Notes in definitive form ("**Definitive Notes**"):

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note", then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) an Event of Default as defined in Condition 13 (*Events of Default*) of the Terms and Conditions of the Italian Law Notes in Physical Form occurs and the Notes become due and payable.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to, or to the order of, the Fiscal Agent within 30 days of the bearer requesting such exchange.

Where interests in the Permanent Global Note are to be exchanged for Definitive Notes in the circumstances described in (i) and (ii) above, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form. As an exception to the above rule, where the Permanent Global Note may only be exchanged in the limited circumstances described in (iii) above, Notes may be issued in denominations which represent the aggregate of (A) in case of Senior Notes, (1) a minimum denomination of €100,000 plus (2) integral multiples of €1,000, *provided that* such denominations are not less than €100,000 nor more than €199,000; (B) in case of Senior Non-Preferred Notes, (1) a minimum denomination of €150,000, plus (2) integral multiples of €1,000, *provided that* such denominations are not less than €150,000 nor more than €299,000; (C) in case of Subordinated Notes, (1) a minimum denomination of €200,000, plus (2) integral multiples of €1,000, *provided that* such denominations are not less than €200,000 nor more than €399,000, or such other minimum denomination provided by applicable law from time to time. For the avoidance of doubt, each holder of Notes of such denominations will, upon exchange for Definitive Notes, receive Definitive Notes in an amount equal to its entitlement to the principal amount represented by the Permanent Global Note. However, a Noteholder who holds a principal amount of less than the minimum denomination may not receive a Definitive Note and would need to purchase a principal amount of Notes such that its holding is an integral multiple of the minimum denomination.

#### ***Temporary Global Note exchangeable for Definitive Notes***

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules nor the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note without Coupons, interests in which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note without Coupons, interests in which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons (as defined herein) attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to, or to the order of, the Fiscal Agent within 30 days of the bearer requesting such exchange.

Where the Temporary Global Note is to be exchanged for Definitive Notes, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form.

#### ***Permanent Global Note exchangeable for Definitive Notes***

If the relevant Final Terms specifies the form of Notes as being "Permanent Global Note exchangeable for Definitive Notes", then the Notes will initially be in the form of a Permanent Global Note without Coupons, interests in which will be exchangeable in whole, but not in part, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note", then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) an Event of Default as defined in Condition 13 (*Events of Default*) of the Terms and Conditions of the Italian Law Notes in Physical Form occurs and the Notes become due and payable.

Where interests in the Permanent Global Note are to be exchanged for Definitive Notes in the circumstances described in (i) or (ii) above, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form. As an exception to the above rule, where the Permanent Global Note may only be exchanged in the limited circumstances described in (iii) above, Notes may be issued in denominations which represent the aggregate of (A) in case of Senior Notes, (1) a minimum denomination of €100,000 plus (2) integral multiples of €1,000, *provided that* such denominations are not less than €100,000 nor more than €199,000; (B) in case of Senior Non-Preferred Notes, (1) a minimum denomination of €150,000, plus (2) integral multiples of €1,000, *provided that* such denominations are not less than €150,000 nor more than €299,000; (C) in case of Subordinated Notes, (1) a minimum denomination of €200,000, plus (2) integral multiples of €1,000, *provided that* such denominations are not less than €200,000 nor more than €399,000, or such other minimum denomination provided by applicable law from time to time. For the avoidance of doubt, each holder of Notes of such denominations will, upon exchange for Definitive Notes, receive Definitive Notes in an amount equal to its entitlement to the principal amount represented by the Permanent Global Note. However, a Noteholder who holds a principal amount of less than the minimum denomination may not receive a Definitive Note and would need to purchase a principal amount of Notes such that its holding is an integral multiple of the minimum denomination.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange. Where the Notes are listed on the Luxembourg Stock Exchange and its rules so require, the Issuer will give notice of the exchange of the Permanent Global Note for Definitive Notes pursuant to Condition 18 (*Notices*).

#### ***Rights under Deed of Covenant***

Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note or a Permanent Global Note which becomes void will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note or Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

### ***Terms and Conditions applicable to the Notes***

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under "*Terms and Conditions of the Italian Law Notes in Physical Form*" above and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "*Form of the Notes - Italian Law Notes in Physical Form*" below.

### ***Legend concerning United States persons***

In the case of any Tranche of Notes having a maturity of more than 365 days, the Notes in global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

The sections referred to in such legend provide that a United States person who holds a Note, Coupon or Talon will generally not be allowed to deduct any loss realised on the sale, exchange or redemption of such Note, Coupon or Talon and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.

### ***Dematerialised Notes***

Dematerialised Notes will be held in dematerialised form on behalf of the beneficial owners, until redemption or cancellation thereof, by Monte Titoli, for the account of the relevant Monte Titoli Account Holders. The expression "Monte Titoli Account Holders" means any authorised financial intermediary institution entitled to hold accounts on behalf of their customers with Monte Titoli and includes any depository banks appointed by Euroclear Bank SA/NV as operator of the Euroclear and Clearstream, Luxembourg.

The Notes will at all times be held in book entry form and title to the Notes will be evidenced by book entries pursuant to the relevant provisions of the Financial Services Act and in accordance with the CONSOB and Bank of Italy Regulation. The Noteholders may not require physical delivery of the Notes. However, the Noteholders may ask the relevant intermediaries for certification pursuant to Article 83-*quinquies* and 83-*sexies* of the Financial Services Act.

## DESCRIPTION OF THE ISSUER

### Introduction and history

illimity Bank S.p.A. ("**illimity**", the "**Bank**" or the "**Issuer**" and prior to the Merger described below, Banca Interprovinciale S.p.A. ("**BIP**")) is a joint stock company (*società per azioni*) incorporated under Italian law. Its registered office is at Via Soperga 9, 20127 Milan, Italy and its telephone number is +390282849000. illimity is registered with the register of companies of Milan under number 03192350365 and with the register of banks held by the Bank of Italy under number 5710. The VAT number of the illimity Group is 12020720962 and its LEI code is 815600A029117B20DD63.

Starting from 24 June 2019 illimity is the parent company of the illimity Group, registered with the register of banking groups held by the Bank of Italy under number 245, and with ABI code 3395.

The website of the Issuer is <https://illimity.com/en>. The information on the website of the issuer does not form part of this Base Prospectus, unless expressly incorporated by reference into this Base Prospectus.

illimity was born by the reverse merger of SPAXS S.p.A. ("**SPAXS**") by incorporation into BIP with legal effect from 5 March 2019 and with tax and accounting effect from 1 January 2019.

BIP was incorporated in March 2008 and began its operations in July 2009. In July 2016, BIP acquired 54.50% of the share capital of Banca Emilveneta S.p.A. that was subsequently merged by incorporation into BIP with legal effect from 1 October 2017.

SPAXS was incorporated on 20 December 2017 as a special purpose acquisition company (SPAC) to pursue an investment project aimed at creating a new player in the Italian banking sector. In February 2018, SPAXS raised Euro 600 million in a placement of its ordinary shares to institutional investors. SPAXS commenced trading on the AIM (Alternative Investment Market) organized and managed by Borsa Italiana on 1 February 2018.

The corporate purpose of SPAXS was to realize a business combination with an unlisted medium-sized Italian company authorised to operate in the Italian banking and/or financial services market. SPAXS identified BIP as the target company and entered into an agreement for the acquisition of the majority share capital of BIP on 12 April 2018 (the "**Business Combination**"). The Business Combination was approved on 3 August 2018 by the European Central Bank and, on 8 August 2018, by the shareholders' meeting of SPAXS, with a large majority accounting for 72% of SPAXS share capital.

On 20 September 2018, the process for the Business Combination was completed with SPAXS acquiring 99.2% of BIP's share capital, settled in cash for Euro 44.7 million (equivalent to 79.9% of BIP's share capital) and, for the remainder, through a contribution of BIP's shares to a reserved share capital increase of SPAXS for Euro 10.8 million (equivalent to 19.3% of BIP's share capital).

On 15 February 2019, BIP and SPAXS entered into a merger deed (following approval by the Bank of Italy on 11 December 2018 and by their respective shareholders on 18 January 2019) for the reverse merger of SPAXS with, and its incorporation into, BIP in accordance with Article 2501-*ter* of the Italian Civil Code (the "**Merger**"). On 25 February 2019, illimity was admitted to trading on the MTA (*Mercato Telematico Azionario*) by Borsa Italiana. On 28 February 2019, CONSOB authorised the publication of the Prospectus filed with CONSOB on 1 March 2019.

Due to the Merger and the resulting dissolution of SPAXS, SPAXS and BIP are fully integrated and the funds raised by SPAXS in its initial private placement are thus available to the Issuer to fund its business objectives. The Merger took legal effect as of 5 March 2019 ("**Merger Effective Date**") and accounting and fiscal effects as of 1 January 2019. On the Merger Effective Date, BIP changed its legal name to illimity Bank S.p.A. and adopted new By-Laws. Pursuant to Article 3 of its By-Laws, the Issuer's duration will expire on 31 December 2100. Since the Merger Effective Date the Bank is listed on the MTA (*Mercato Telematico Azionario*) by Borsa Italiana. On 3 September 2020 illimity announced that by order of Borsa Italiana no. 8688 of 2 September 2020 it had been granted admission of its ordinary shares to trading on the STAR Segment (High Requirements Securities Segment) of the MTA (*Mercato Telematico Azionario*) of Borsa Italiana. illimity ordinary shares – which had been admitted to trading on Borsa Italiana's MTA since 5 March 2019 – began to trade on the STAR Segment of Borsa Italiana's MTA, dedicated to companies meeting requirements of excellence in terms of transparency, communication, liquidity and corporate governance, on 10 September 2020.

Finally, on 5 January 2023, illimity announced that it could no longer be classified as a small or medium-sized enterprise ("SME") under article 1, paragraph 1, lett. w-*quarter*.1) of the legislative decree no. 58 of 24 February 1998 (the "**Consolidated Law on Finance**"), due to the growth of its market capitalisation above the relevant threshold of Euro 500 million for three consecutive years (2020-2021-2022).

## **The banking group**

On 17 July 2019 illimity received a communication by the Bank of Italy concerning the "*Enrollment in the Register of Banking Groups and amendments to the articles of association*". The Bank of Italy informed that it has registered in the Register of Banking Groups with no. 245, with effect from 24 June 2019, the illimity Group composed by the Issuer (which is the parent company) and its subsidiaries at the time: Soperga RE, Friuli LeaseCo, River LeaseCo and Doria LeaseCo. The Bank of Italy also stated that there were no impediments to the acquisition of neprix and to the related outsourcing. As of 30 September 2023, the illimity Group is composed by the Issuer (which is the parent company) and its subsidiaries Arec neprix S.p.A., illimity SGR S.p.A., Aporti, Friuli SPV, Doria SPV, River SPV S, Pitti SPV, Kenobi SPV, Dagobah SPV, Sileno SPV, Soperga RE, Friuli LeaseCo, Doria LeaseCo, River LeaseCo, Pitti LeaseCo, Dagobah LeaseCo, River Immobiliare, Mida RE and SpicyCo 2 (as defined below). On 25 February 2020 the Supervisory Authority authorised illimity SGR (as defined below), a wholly owned subsidiary of illimity, to provide collective asset management services pursuant to article 34 of the Consolidated Law on Finance. This provision confirms the effective start of operations by illimity SGR. The first fund managed by illimity SGR, whose first closing became effective on 1 April 2021, at the date of this Base Prospectus, is dedicated to unlikely-to-pay (UTP) loans with restructuring prospects and opportunities to return to performing status, through contributions made by the banks and financial operators originating these loans and/or acquisitions made by the fund itself, and, where functional to the restructuring strategy and returning to performing status, will also invest in the capital of companies involved in turnaround projects. Consistent with the implementation of illimity's strategic plan, this initiative enables the Bank to complement its direct investment activities in distressed loans with asset management activities carried out on behalf of third parties, thereby achieving a diversification of its revenues towards a commission-based revenue stream and generating further business opportunities. illimity SGR, during 2022 and 2023, has launched two new investment funds: (a) in August 2022, the "illimity Real Estate Credit", focusing on NPE with underlying real estate and (b) in April 2023, the "illimity Selective Credit", a private debt alternative investment fund that acts as a medium-long term strategic partner for unlisted performing Italian SMEs with turnover up to Euro 300 million, with a focus on ESG issues throughout the investment process.

## **illimity's operational areas**

The illimity Group operates through an organisational structure comprising six operating segments: Growth Credit Division, Investment Banking Division, b-ilty Division, Distressed Credit Division, Digital Competence Line and Asset Management Company (illimity SGR). In addition to these, the Group also has HYPE (as defined below), a fintech company that illimity co-owns as a joint venture with the Sella Group, and the Corporate Center, which oversees the steering, coordination and control of the entire Group. In the context of the reorganisation of the operating sectors, the former Direct Banking Division has been subdivided into three different structures: b-ilty (which is now an autonomous operating sector), HYPE (consolidated using the equity method) and illimitybank.com (Digital Competence Line).

The illimity Group is engaged in the provision and management of credit through the Growth Credit, Distressed Credit, b-ilty and Investment Banking Divisions. Specifically, illimity provides credit to high-potential SMEs, purchases distressed corporate credit, manages it through its own platform – Arec neprix S.p.A. – and offers direct digital banking services through illimitybank.com.

Following the merger with IT Auction S.r.l., Mado S.r.l. and Core S.r.l. (the company acquired by the Group in 2020) into neprix S.r.l. with legal effect from 1 February 2021, the neprix Sales Area was created. Such area, along with a portion of Neprix Tech, was then demerged from neprix S.r.l. through a partial proportionate spin-off, resulting in the contribution of those areas to Abilio S.p.A., a company incorporated and wholly owned by the Bank, operational since 1 April 2022. The new company manages and sells property and capital goods originating from insolvency proceedings and foreclosure, through its own network of platforms/online auctions and a network of professionals operating nationwide.

Starting on 30 June 2022, AREC S.p.A. entered the Group (and subsequently merged by incorporation into neprix S.r.l., which took effect for legal, accounting and tax purposes on 1 January 2023, resulting in the establishment of the company Arec neprix S.p.A.), a company through which illimity aims to strengthen its positioning and innovative approach to servicing distressed corporate loans. illimity Bank's business also makes use of the

operations of the other Group companies. The scope of the Group includes the LeaseCos, which support the bank in the management of lease operations, the ReoCos, which are active in the management of the properties linked to the acquired portfolios, and Special Purpose Vehicles (SPVs) established to undertake securitisation operations.

To carry out its operations concerning distressed credit, illimity works with the vehicles Aporti, Friuli SPV, Doria SPV, River SPV, Pitti SPV, Maui SPE, Kenobi SPV, Dagobah SPV, Spicy Green SPV, Costantino SPV, Sileno SPV e Ortensia SPV and with the companies Soperga RE, Friuli LeaseCo, Doria LeaseCo, River LeaseCo, Pitti LeaseCo, Dagobah LeaseCo, River Immobiliare, Mida RE, SpicyCo and SpicyCo 2 (as defined below).

In order to conduct its Investment Banking business, illimity also works with the vehicle Piedmont SPV.

## Business Overview

Illimity was born with the purpose to serve the most attractive segments of Italian SMEs through an innovative business model which combines the most advanced technologies with strong banking expertise.

Illimity focuses on two sectors: (i) SMEs lending and services and (ii) SMEs distressed corporate credit. These are vast, growing markets with attractive return prospects and ever-changing. Illimity's core businesses are already successful in terms of market positioning, business volumes, operational scale and profitability.

The Bank operates through an organisational structure comprising six operating segments:

1. **Growth Credit Division:** provides lending to SME businesses with high potential but with a non-optimal financial structure and/or with a low or no rating, including the segment of non-performing SME loans classified as UTP that require a specialist approach to aid business development and in some cases relaunch industrial activities. It also provides financing of the supply chain of the operators of Italian chains and industrial districts through the activity of recourse and non-recourse purchasing of customers' trade receivables, via a dedicated digital channel.
2. **Investment Banking Division:** defines and executes capital markets operations (both in the equity segment and the debt segment for corporate customers), for derivatives trading on its own behalf and for third parties, and also arranges structured finance transactions for funding and capital optimisation purposes to support the other units of the bank.

3. Distressed Credit Division: active in the purchase and servicing of secured and unsecured corporate distressed credit, provision of financing solutions to other distressed credit investors as well as management of corporate distressed credit portfolios and underlying assets using specialised servicing platforms.
4. b-ilty Division: the first digital offering which is 100% dedicated to small and medium-sized enterprises. In particular, a complete range of digital financial services that are easy to use with transparent terms and conditions are provided, namely: a current account, debit and credit cards, but also payment collection tools, credit to fund working capital and investments, insurance cover products, and the services of the best partners on the market to support entrepreneurs in developing their business.
5. Digital Competence Line: responsible for managing the Bank's ICT services (Information and Communication Technologies) and setting the development strategy for its IT systems, as well as continually identifying the most innovative technologies to propose technologically advanced solutions to the competent business units. This segment also coordinates the demand management process with the relevant units and is in charge of managing and optimising the efficiency of the funding platform, examples of which are the app and web channel for retail customers. The Digital Competence Line is also responsible for digital customer operations and holds the role of business continuity and crisis management.
6. Asset Management Company (illimity SGR): manages the assets of closed-end alternative investment funds, established with own funds and the funds of third-party institutional investors.

In addition to its core businesses, illimity has developed and invested in new tech-led initiatives in activities synergistic or complementary to its core markets:

1. in April 2022, illimity launched its prop-tech initiative "Quimmo": a digital platform for real estate brokerage;
2. illimity also entered a JV with another Italian bank to run "HYPE", which is the leading fintech platform in Italy with over 1.8 million customers.

## Strategy

illimity is a new paradigm bank designed specifically for the Italian SME market; credit skills and technological innovation are the two main enablers of its strategy. Since its launch, in just over two years illimity has laid solid foundations which now form part of a structured business that is ramping up.

The key pillars of its strategy are the following:

1. **Markets**: illimity only focuses on a few, large, attractive and underserved segments of the Italian SME market where it holds a significant market position thanks to sustainable competitive advantages.
2. **People**: since its launch, illimity has employed over 850 "illimiters" who come from 300 different organizations, more than 20 sectors of which nearly 70% are different from banking;
3. **Technology**: illimity is also a fully digital bank and its innovative business model relies on a unique IT architecture that is fully digital, fully modular and fully on-cloud.
4. **Sustainability**: illimity is a sustainable native company who acts responsibly. ESG principles are natively integrated into its business model and all its activities; the Bank has defined a 2023-2025 Sustainability Plan, identifying ambitious targets for each business sector in line with stakeholder and regulatory expectations on sustainable finance and climate-related and environmental risk management.

Grounded on the above solid foundations, on 22 June 2021 the Board of Directors of illimity approved the Group's 2021-25 Strategic Plan (the "**Strategic Plan**"), which replaces the former 2018-2023 business plan approved on 30 November 2018. The Strategic Plan envisages a net profit of approximately Euro 140 million in 2023 and of over Euro 240 million in 2025, corresponding to an average annual increase of 51% in the period 2020-25, leading to a forecasted ROAE of 15% in 2023 and 20% in 2025.

In the first half of 2023 the net profit targets of the Strategic Plan have been revised to above Euro 100 million in 2023 and to approximately Euro 200 million in 2025. In this regard, please refer to press releases issued on: 10 February 2023 (approval of FY22 results), on 9 March 2023 (approval of draft 2022 annual report) and on 12 May 2023 (approval of the results of the first quarter of 2023).

In particular, the Strategic Plan assigns to the "Growth Credit Division" the following objectives: (i) to achieve further growth in lending to support corporates Turnaround, (ii) to develop the Cross-Over and Acquisition Finance lending activities to companies with potential by leveraging the ability to provide complex financing solutions, (iii) to develop factoring activities by strengthening the sales team and focusing on reverse factoring transactions capable of providing a strong boost to the increase in customer base.

The "Distressed Credit Division" (previously named "**DCIS Division**") will continue (i) to develop its investment activity by purchasing NPL and UTP loans, (ii) to develop its senior financing activity by granting new loans to other NPE investors with a focus on high margin medium-sized transactions, (iii) to develop its servicing activity through a gradual increase in managed assets and third-party mandates and by strengthening its competitive positioning on the judicial market and gradually entering the free market.

In this context, the acquisition of AREC, one of the leading players in corporate UTP credit management with a focus on the real estate segment, enabled the bank to strengthen its position in the UTP and NPL sectors.

The Strategic Plan has assigned to the "Direct Banking Division" the following strategic priorities: (i) to launch by the end of the year 2021 the first direct bank for small corporates (called "**B-ILTY**"), (ii) to contribute to the further consolidation of HYPE, the joint venture with Sella Group, current leader in the sector of digital platforms for retail financial services, (iii) to ensure, through *illimitybank.com* and the HYPE and Raisin channels, direct funding by retail customers as support for the rise in the Group's lending, with a simultaneous reduction in the cost. In this context, it is worth highlighting that the Bank has reorganized the operating sectors and that the former Direct Banking Division has been subdivided into three different structures: *b-ilty* (which is now an autonomous operating sector), HYPE (also now an autonomous operating sector) and *illimitybank.com* (Digital Competence Line). In particular, during the first quarter of 2022, the bank launched, together with HYPE, two tech initiatives: *b-ilty*, the first Digital Business Store for smaller businesses, and *Quimmo*, the digital platform in digital real estate brokerage that marks the bank's entry into the free real estate market as well.

Lastly, *illimity SGR* aims at completing the range of *illimity's* operations in the corporate loan segment and will enhance its ability to generate business beyond the Bank's direct investment opportunities. *illimity SGR* has launched two new investment funds: (a) in August 2022, the "*illimity Real Estate Credit*" fund, focusing on NPE with underlying real estate. The fund is managed by *illimity SGR* with *Arec neprix* in the role of special servicer; (b) in April 2023, the "*illimity Selective Credit*", Italy's first credit fund bank dedicated to performing, unlisted SMEs with turnover up to Euro 300 million. The fund has carried out its first financing operation to support *Omnia Technologies Group*, a worldwide leader in the sector of the automation and bottling technologies. Finally, the Strategic Plan sets the goal of creating a new third fund.

Finally, the Bank confirms the prominence of technology in the context of the implementation of the Strategic Plan with a strategic alliance with the Engineering Group, concerning the *illimity IT* platform, its commercialization to third parties and its future development. Thanks to this alliance, the Bank will be able to fully exploit and further enhance the market potential of its IT assets, and be supported by the new partner in the future developments of its platform.

With the presentation of the 2021-2025 Strategic Plan, in June 2021, *illimity Group* also communicated to the market its own results and commitments in terms of environmental, social and governance (ESG) sustainability. Specifically, the following ESG strategic objectives of the Group have been established, within the 2025 Plan: (i) *Environmental Topics*: the integration of ESG factors into credit assessment and the Risk Appetite Framework (RAF); the maintenance of the Group's carbon neutrality (Scope 1 and Scope 2 emissions) and the measurement and addressing of the so-called "financed emissions" (Scope 3); the reactivation of renewable energy plants, exploiting the Energy Desk (Distressed Credit Division). (ii) *Social Topics*: doubling the number of women in managerial roles; the maintenance of the balance between men and women in the formalised "talent pool" and a range of remuneration between men and women (gender pay gap) with a maximum deviation of 5%; maintaining the Group's employee engagement rate above 70%; the implementation of impact projects in the real estate sector, through *Fondazione illimity*; (iii) *Governance topics*: the improvement of the Bank's ESG ratings and the integration of ESG objectives into incentive plans.

In publishing its 2022 Non-Financial Statement ("**2022 NFS**"), the Bank deemed it necessary to evolve the objectives set out in June 2021 with the 2021-2025 Strategic Plan by integrating new, more extensively detailed qualitative and quantitative targets in order to better align with the best practices of the Italian banking sector, meet the growing needs of the market and ESG rating agencies and implement the feedback received from investors during engagement activities. The new 2023-2025 Sustainability Plan is the result of a detailed analysis within and outside the Bank and the Group's increased expertise in non-financial reporting. It enabled the Bank to start from a solid baseline aimed at defining significant, ambitious targets that integrate with the various aspects of the Bank's business and meet the requests from the various stakeholders, on the one hand, and comply with regulatory expectations regarding sustainable finance and governance of climate-related and environmental risks, on the other.

In particular, the new 2023-2025 Sustainability Plan sets new targets that the Group intends to achieve by 2025: (i) *Environmental Topics*: the achievement of 100% of electric energy produced by renewable sources; maintaining 100% of FSC sheet used across the Group; development of environmental policies on a Group basis; the implementation of the environmental and climatic impacts on the evaluation of the real estate assets; development of the offer of loans and securities linked to sustainable finance; development of services to support and advise small and medium enterprises on the ESG aspects; achievement of 15% of origination aggregated 2023-2025 for sustainable and transition finance; launch of illimity SGR (a fund having ESG characteristics); and reporting aligned to the TCFD (*Task force on Climate related Financial Disclosure*) recommendations; (ii) *Social Topics*: the preservation of the so called "*Certificazione di Parità di Genere*" on gender equality; the development of an anti-harassment policy; the continued training (equal to 42 hours per employee); the guarantee of 3 hours of ESG training per employee; the development of awareness-raising initiatives on sustainable mobility; the achievement of more than 50% of the purchase of goods and services ranked with ESG criteria; (iii) *Governance Topics*: the identification of ESG Ambassadors; the adhesion to the Principles for Responsible Banking and the related reporting; the achievement of Anticorruption (ISO 37001) and Compliance (ISO 37301) certifications; the development of the ESG investment policy and limits through an ESG due diligence.

Since 2021, illimity joined the United Nations Global Compact and has also published the 2022 NFS and main corporate policies with ESG principles, including: diversity, equity and inclusion; sustainable supply Chain; and ethics for artificial intelligence.

Furthermore, on 2 February 2023, illimity SGR signed the Principles for Responsible Investment ("**PRI**" or "**Principles**") supported by the United Nations, confirming its commitment to integrate sustainability into all aspects of its activity and consolidating active dialogue with institutions and peers in the sector on the impacts of sustainable finance. illimity Group's adoption of and commitment to applying and promoting the PRI is part of its wider strategy, having paid close attention to ESG matters from day one.

The main results relating to the ESG strategic objectives are the following: (a) ESG aspects have been further incorporated into the Bank's governance and policies with the Bank's adherence to the Principles for Responsible Banking and related reporting, the development of an ESG policy for investment that considers ESG factors at the stage of selection (ESG due diligence), climate disclosure carried out through reports aligned with the recommendation of the Task Force on Climate Related Financial Disclosure (TCFD); (b) the Group's carbon neutrality (Scope 1 and Scope 2 emissions) has been maintained for 2022 and the activities of reporting of indirect greenhouse gas emissions has been expanded (Scope 3); (c) the Bank has expanded its leading role in supporting the energy and ecological transition of SMEs by implementing the ESG support/advisory services to SMEs; (d) ESG objectives focus on countering the effects of climate change and fostering the transition to climate neutrality and a net-zero economy. Specifically, the set objectives include the development of the supply of sustainable and/or sustainability-linked finance that will bring volumes originated in this area to 15% of the total by 2025 (Sustainability-linked loans, Green Loans/Investments, Taxonomy-eligible); (e) the objective of doubling the number of women among managerial roles by 2025, whose progress in 2022 was positive and in line with expectations; (f) the balance between men and women in the formalised "talent pool" and the range of remuneration between men and women was maintained, with a maximum deviation of less than 5% for 2022; (g) the Group's employee engagement rate was maintained, reaching 80% in 2022; and (h) the assessment and management of real estate assets was carried out considering the relevant environmental and climate impacts; in addition, the Group intends to structure a new fund with ESG characteristics and integrate into the valuation and management of real estate assets metrics of environmental and climate. During 2022, the Bank has also obtained important upgrades in most of the ESG ratings and indices. Moreover, in 2023 illimity has received an upgrade from "A" to "AA" in the ESG rating assigned by MSCI, in this way moving from "Average" to "Leader" in its industry and has also been assigned a "Positive" Outlook by Standard Ethics, compared to its previous "Stable" Outlook, with its "EE-" rating (on a scale from "F" to "EEE") being confirmed.

## ***Growth Credit Division***

The Growth Credit Division focuses on certain specific business lines of the SME market segment that present attractive characteristics in terms of their size and dynamism and have historically been underserved by traditional banking operators:

- *factoring*: financing of the supply chains of the operators of Italian chains and industrial districts through the activity of recourse and nonrecourse purchasing of customers' trade receivables, through a dedicated digital platform, developed in collaboration with a leader supplier in the factoring sector;
- *crossover and acquisition finance*: financing to high-potential businesses with a suboptimal financial structure and/or with a low rating or no rating; the crossover segment also includes financing solutions dedicated to acquisition activities (so-called acquisition finance);
- *turnaround*: the purchase of loans classified as unlikely-to-pay (UTP), with the aim of recovering and restoring them to performing status by identifying optimal financial solutions, which may include granting new loans or the purchase of existing loans or portfolios of loans.

The Growth Credit Division operates according to an innovative business model based on the support provided by 'Tutors', professionals with consolidated experience in specific businesses as well as financial skills and knowledge of the local area who contribute to the analysis of prospective deals based on their knowledge of the sectors and of the companies involved in the various transactions, across all business lines. The network of Tutors is organised in a flexible manner according to the Tutors' specific industrial and geographic competences.

The Growth Credit Division is organised by specialised business areas, on the basis of the segments and products defined above, each of which is responsible for managing activities for its own customers. Each lending area is tasked with analysing the customers and sector within its portfolio to design the optimal financing solution, assessing the risk level of each position, defining product pricing and transaction specifications, interacting with customers to monitor the risk profiles of counterparties and intervening promptly, where necessary, in the event of problems, in coordination with the unit responsible for monitoring loans.

These areas, specialised by Business segment, are flanked by dedicated areas, supporting business activities: the Legal SME area supports the business areas regarding legal and contractual aspects; the Business Operations & Credit Support area manages the annual reporting of the Division, provides support to the Business Areas by defining tools and processes, manages the Modena branch and oversees the portfolio of the former Banca Interprovinciale regarding progressive divestment.

As of 30 June 2023, the net customer loans in the Growth Credit portfolio totalled Euro 2,361 million, broken down as follows: (i) former BIP non-core portfolio, amounting to Euro 67 million; (ii) Turnaround amounting to Euro 833 million; (iii) Crossover and Acquisition Finance<sup>5</sup> amounting to Euro 933 million; and (iv) Factoring amounting to Euro 528 million.

The Growth Credit Division reported a profit before taxes of Euro 36.8 million in the first half of 2023, a net increase compared to the annual profit for 2022, which amounted to Euro 20.3 million. This result benefits from a significant contribution made by factoring fees and commissions and from new lending.

During the first half of 2023 the Turnaround and Crossover & Acquisition Finance businesses generated new volumes respectively amounting to Euro 197 million and to Euro 135 million. A relevant part of the new volumes generated in both segments arose from loans with public guarantees, highly-profitable lending for the Bank due to its low risk profile and limited absorption of capital.

Factoring generated a turnover of Euro 1,178 million in 2021 and Euro 1,847 million in 2022. The positive trend continued in the first half of 2023 leading to a total Turnover of Euro 1,282 million. The GBV as of 30 June 2023 is Euro 532 million. Growth was supported by the continuing increase in the number of customers – clients and debtors – by 257 and 1.000 respectively.

<sup>5</sup> This figure includes part of the net loans to existing customers of Banca Interprovinciale, which due to their features are considered consistent with illimity's Crossover & Acquisition Finance segment

### ***Distressed Credit Division ("DCD")***

illimity is a leading player in the corporate distressed credit sector through three main areas of operations:

- purchase of secured and unsecured distressed credits through participations in competitive tender procedures and off-market purchases both on the primary and secondary markets;
- the servicing of its own corporate distressed credit portfolios and single names and those belonging to third parties, on the basis of specialised skills developed in-house or through business agreements with specialised operators, including remarketing services on real estate and capital goods;
- provision of financing solutions, primarily through senior debt, to non-bank distressed credit investors.

To optimise and streamline activities in the Distressed Credit Division, the division is structured as follows:

The Distressed Credit Division uses a proprietary pricing model to perform analytical price estimates for each distressed credit portfolio, an innovative servicing business model that provides for internalisation of the entire value chain in the management of distressed credits in conjunction with business agreements with external servicers selected on a case-by-case basis in function of the specific characteristics of the relevant assets, as well as a significant investment capacity thanks to the Issuer's robust capital base and low direct funding cost. All the activities of the Distressed Credit Division are supported by advanced data analysis technologies based on big data and artificial intelligence applications.

Total assets of the Distressed Credit Division amounted to Euro 2,025 million as of 30 June 2023 (+8.9% compared to 30 June 2022). Profits before taxes amounted to Euro 39.1 million for the first half of 2023, down on the same period of the previous year due to material transactions finalised in the first half of the previous year.

The main business transactions conducted in 2023 by the Distressed Credit Division are reported below.

- On 1 March 2023, Arec neprix, the illimity Group's special servicer asset management and structuring company, announced that it had entered into an agreement as arranger and special servicer, for a total of Euro 495 million, between a leading Italian banking group and an important real estate company.

### ***Asset Management Company***

illimity SGR is the Asset Management Company ("**SGR**") of the illimity Group which manages the assets of closed-end alternative investment funds, established with own funds and the funds of third-party institutional investors. The SGR was set up with the aim of operating and developing activities in the strategic areas indicated by its parent company illimity and the banking group of which the latter is the parent, and is a professional operator for establishing, administering, managing, organising, promoting and selling alternative investment funds.

To pursue its business objectives in an effective and consistent manner, the SGR has adopted a "traditional" governance model, which has a structure comprising a Board of Directors and a Board of Statutory Auditors. The structure, described below, has been set up for the best management possible of the operational model defined for the Company in line with regulatory principles and guidelines and also with guidance from the Parent Company. In accordance with the characteristics of its own operations, with future planned developments and with the guidelines of the long-term business plan of the SGR and the Group it belongs to, the SGR has the following organisation:

"Business Areas" comprising:

- the UTP & Turnaround Funds Area, with the activities previously managed by the former "Investments Area" of the original organisation. The UTP & Turnaround Funds Area is focused on setting up and managing AIFs with investment strategies and policies centred on the turnaround market and on businesses in financial difficulty with prospects for relaunch;
- the Private Capital Funds Area, with the aim of setting up and managing AIFs with investment strategies and policies targeting asset classes with underlying financial instruments issued by performing companies;
- the NPL Small Medium Tickets Funds Area, focused on setting up and managing AIFs with investment strategies and policies in the granular (typically unsecured) Non-Performing Loans (NPL) market, with both small corporates and retail businesses as potential counterparties and different areas of origination (utilities, consumer, commercial credit, etc.);

A transversal support area named Operations & Administration supports the organisation as a whole in all formal, administrative and operational aspects connected with managing AIFs and the SGR; in this area is also appointed the Sustainability Manager, who manages and coordinates the ESG issues of the SGR and the AIFs. Lastly, the SGR's organisation comprises the establishment of Compliance and Anti-Money Laundering, Risk Management and Internal Audit functions, outsourced to the respective central units of the parent company illimity Bank, in order to have a structured system to monitor internal controls. It also appoints a Supervisory Body pursuant to Italian Legislative Decree 231/01, whose composition, in accordance with the approach adopted by the Group, consists of the Company's Board of Statutory Auditors.

In 2022 and in the first half of 2023, the SGR continuously performed the activities connected with investment and management of the assets of the illimity Credit & Corporate Turnaround Fund ("**iCCT Fund**"), in line with the provisions of the Management Regulation and the Fund's policies and investment strategy.

With effect from 8 August 2022, the SGR completed the first closing of the "illimity Real Estate Credit" alternative investment fund (the "**iREC Fund**"), a contribution fund dedicated to investments in nonperforming loans – mainly UTPs – secured by real estate assets, under the form of both mortgage loans and lease agreements, established on 29 March 2022. The initial portfolio of the iREC Fund includes loans worth a gross total of more than Euro 170 million, almost all of which are secured loans. These loans were sold by banking groups that already held units in the iCCT Fund, as well as by the Parent Company, illimity Bank.

During the fourth quarter of 2022, illimity SGR completed a new closing of the iREC Fund, following which additional receivables were contributed for a gross total of around Euro 94 million, bringing total funding to Euro 264 million. The receivables were contributed by banks that already held units in the Fund and expanded their subscription. The portfolio currently includes loans to approximately 86 companies operating in vastly different sectors (industrial, commercial, residential, hospitality, energy, etc.).

In the first half of 2023, the SGR also began to perform the activities connected with investment and management of the assets of iREC Fund.

With regard to the iCCT Fund, in the first half of 2023 the SGR completed the acquisition of additional receivables, issuing new A Units (in a "stock" transaction), subscribed both by institutes that are unit holders and by new participants, in a closing of the iCCT Fund whose execution was finalised through the months of February, March, April and June. On the outcome of the transaction, additional UTP loans for a total gross value of Euro 45.4 million were transferred to the iCCT Fund. The receivables were contributed by banks that already held units in the iCCT Fund and expanded their subscription. During the period in question, the iCCT Fund purchased cash receivables for a gross total of Euro 6.8 million.

On 17 October 2022, the Company resolved to set up a third closed-end, reserved, securities alternative investment fund for loans, named illimity Selective Credit (the "**iSC Fund**"). The iSC Fund is intended as an alternative investment fund for direct lending that can act as a medium-/long-term strategic partner for non-listed performing Italian SMEs, through the use of a broad spectrum of financial instruments, and therefore will invest primarily in senior debt instruments, whereas the remainder of the iSC Fund's portfolio will be made up of subordinated debt instruments and equity instruments. In December, the SGR also obtained authorisation from Consob, pursuant to Article 43 of the Consolidated Law on Finance, to begin marketing the iSC Fund, thus enabling it to become operational within the first quarter of 2023.

With effect from 29 March 2023, the SGR completed the first closing of the iSC Fund, with an initial subscription amount of Euro 90.9 million. The iSC Fund is an alternative investment fund for direct lending that can act as a medium-/long-term strategic partner for non-listed performing Italian SMEs, through the use of a broad spectrum of financial instruments, and therefore will invest primarily in senior debt instruments, whereas the remainder of the iSC Fund's portfolio will be made up of subordinated debt instruments and equity instruments. The iSC Fund also promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics, *provided that* the companies in which the investments are made follow good governance practice.

In April 2023 the Board of Directors of illimity SGR approved the first investment on behalf of the iSC Fund for a total amount of Euro 9.1 million, which entailed an initial disbursement for an amount of Euro 2.25 million on data 27 April 2023 and a second disbursement on 28 June 2023 for the entire remaining amount.

In June 2023, the SGR carried out additional investments settled through the issue of units of the iREC Fund, in an operation that finalised the purchase of additional receivables for a gross total of approximately Euro 12.0 million. The receivables were sold by banks that already held units in the iREC Fund and expanded their subscription.

On 16 May 2023, the SGR resolved to set up a fourth closed-end, reserved, securities alternative investment fund named illimity Capitale Rilancio (the "**iCR Fund**"). The iCR Fund will mainly invest in equity and equity-like instruments, and in a residual manner in debt instruments. Companies that are target counterparties are companies with registered office in Italy, with turnover of at least Euro 50 million, which are in situations of temporary equity and financial imbalance. The investment will be made through listed and unlisted instruments. The iCR Fund also promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics, *provided that* the companies in which the investments are made follow good governance practice.

Finally, on 22 June 2023, the SGR resolved to set up a fifth closed-end, reserved, securities alternative investment fund named Fondo Granulare NPL (the "**NPL Fund**"). The NPL Fund makes investments in instruments issued by SPVs. The NPL Fund's assets will be invested:

- in instruments directly subscribed by the NPL Fund when they are issued by the SPV (known as primary transactions);
- by purchasing instruments previously issued by SPVs (known as secondary transactions).

In line with the strategies of the SGR and of the specific Group, throughout the year the SGR of illimity will implement the necessary activities to pursue and differentiate business opportunities, in line with its status, having conducted the analyses necessary to ensure compliance with the regulations applicable in each case, and consistently with its organisational structure.

To that end, it is specifically noted that, in accordance with the prospects outlined in its 2021-2025 Business Plan, the SGR has launched a series of project activities aimed at extending its operations:

- in the UTP exposures sector, through the project of a new, flexible (Equity/Debt) AIF for selected Italian SEMs undergoing temporary financial imbalance;
- in the NPL Small Medium Tickets Funds sector, through the setting up of an AIF with investment strategies and policies in the granular Non-Performing Loans (NPL) market, with potential counterparties both small corporates and retail businesses, and different areas of origination (utilities, consumer, commercial credit, etc.)

### **illimity's remuneration policies**

On 20 April 2023, the Ordinary Shareholders' Meeting of the Issuer approved the Report on the 2023 Remuneration Policy and Compensation Paid in 2022, which describes the Group's remuneration and incentive strategy, based on the strategic and sustainability objectives fostered by the 2021-2025 Strategic Plan and in line with the applicable regulatory provisions. The 2023 Remuneration Policy governs bonus schemes for members of bodies with strategic supervision, management and control functions and for the rest of the employees of the Bank and of its subsidiaries.

As to the variable component, the 2023 Remuneration Policy provides - *inter alia* - that this can be serviced by:

- the "Employee Stock Ownership Plan" ("**ESOP**"), approved by the 2019 Shareholders Meeting, which is intended to encourage all staff towards building value, by allowing them to participate in the Issuer's growth throughout the plan's period. The Plan is reserved for all employees of the illimity Group who have an open-ended contract or a fixed-term contract which has been in existence for at least 6 months and which has a residual duration of at least 6 months and provides for the assignment, for each cycle, of a maximum number of shares equal to the value of Euro 2,000 for each non-executive employee and Euro 100 for executive employees. In service of this Plan, the Shareholders' Meeting of 18 January 2019 approved a free capital increase of the share capital, in separable form up to a maximum nominal value of Euro 498,890.45, through the issue of maximum 700,000 new illimity ordinary shares, pursuant to article 2349 of the Italian Civil Code, to be assigned free of charge, through annual assignments, to the employees of illimity and of companies directly and/or indirectly controlled by it. On 15 June 2022, illimity announced the new composition of the share capital following registration in the Companies

Register of Milan of the resolution of the Board of Directors of 15 June 2022 relating to the increase in share capital of Euro 76,865.41 by means of the issuance of 117,946 new ordinary shares. On 30 May 2023, the Board of Directors of illimity approved the new ESOP for a total of Euro 156,724.73, corresponding to 240,486 ordinary shares, in partial execution of the powers contained in Article 5, paragraph 3 of the Articles of Association in force at the time, granted by the Shareholders' Meeting of 18 January 2019;

- the Annual Variable Incentive Plan ("**MBO**") based on an assessment of the individual performance of the Issuer and/or Group compared to the assigned objectives, intended for: (i) the Chief Executive Officer and Top Management and (ii) the other Material Risk Takers of the Issuer and/or of the Group and (iii) the remaining Group Staff. On 30 May 2023, the Board of Directors of illimity resolved to exercise the powers granted by the Shareholders' Meeting of 18 January 2019, in accordance with that set out in Article 5, paragraph 4 of the Articles of Association in force at the time, in favour of employees of the illimity Group who are the beneficiaries of the MBO Plan, and of any compensation paid on early termination of employment, granting a mandate to the Chief Executive Officer for the accurate execution of the capital increase, up to a maximum of 102,168 new ordinary shares.
- the "Long Term Incentive Plan - 2021-2025" approved by the Shareholders' Meeting of 15 December 2021 that replaced the previous Stock Option Plan ("**SOP**") and the 2020-2023 Long-Term Incentive Plan, with the aim of i) ensuring the maintenance of a strict alignment among the interests of the Issuer, the shareholders and the beneficiaries by incentivising the achievement of the objectives of the 2021-2025 Strategic Plan, ii) ensuring alignment with the plan's new timeframe while at the same time providing for three pay-out cycles starting with an analysis of the 2021 results, iii) making it possible to give value to the effective contribution (in terms of organisational relevance and performance quality) made by illimity Group's Management by also including beneficiaries who have enjoyed significant managerial growth, iv) supporting the creation of value for all stakeholders and corporate social responsibility in the long term through a commitment to achieving ESG (Environmental, Social and Governance) objectives in addition to those of economic and financial nature. The LTI Plan is intended for the Chief Executive Officer, the other members of Top Management, the beneficiaries of the previous SOP (around 40 employees) and any additional new beneficiaries identified among the Group's key staff members, year by year, by 31 December of the first year of each performance cycle (namely 31 December 2021 for the 2021-2023 cycle, 31 December 2022 for the 2022-2024 cycle and 31 December 2023 for the 2023-2025 cycle). The Extraordinary Shareholders' Meeting of 15 December 2021 resolved to delegate the Board of Directors, pursuant to article 2443 of the Italian civil code, for a period of up to five years from the effective date of the shareholders' resolution to increase share capital, free of charge and in separate issues, in one or more tranches, by a maximum nominal value of Euro 1,323,663.96, through the issue of up to 2,031,094 new ordinary shares of illimity without nominal value having the same features as the ordinary illimity shares outstanding at the date of issue of such new ordinary shares and regular dividend rights, at an issue price equal to the implicit nominal value of the illimity shares at the date of execution of these delegated powers, through the allocation of an equivalent amount of profits and/or retained earnings or available reserves, pursuant to article 2349 of the Italian civil code, to be awarded free of charge to the beneficiaries of the 2021-2025 Long-Term Incentive Plan approved by the Ordinary Shareholders' Meeting of 15 December 2021.

**The economic scenario created by the consequences of the COVID-19 epidemic and the impacts of the Ukraine crisis on the strategic and operational context of the illimity Group**

As noted by the European Central Bank (ECB) in its macroeconomic projections for the euro area, the global economic context worsened in the fourth quarter of 2022. The world economy's prospects deteriorated in light of growing uncertainty over geopolitical conditions, high and still rising inflation, and difficult financial conditions. As a result of the removal of the policies to contain the pandemic, activity in developed countries slowed, still suffering from the repercussions of the war in Ukraine and high inflation, while China's economy is recovering.

During the COVID-19 pandemic, the effectiveness of illimity's commercial and technological proposal has been a strength in understanding and meeting the increased demand for remote financial services.

The managerial committees and governing boards of the Group carry out assessments at regular intervals, considering, *inter alia*, the impacts of the pandemic on the strategic and operational choices of the various business lines.

Finally, the macro scenarios that also take into account the evolution of the epidemiological context and the responses of the Authorities, markets, companies and consumers were used to guide the prospective capital adequacy (ICAAP) and liquidity (ILAAP) assessments and the preparation of the Recovery Plan, as required by the prudential supervisory regulations, for the update of the Risk Appetite Framework and the sustainability assessment of the new 2021-2025 Strategic Plan.

In addition, the outbreak of the military conflict in Ukraine in the first quarter of 2022 had considerable consequences in terms of political and economic-financial actions by various countries and multilateral organisations, with the tightening of sanctions on Russia and, in general, significant effects in terms of stress on the global financial and money markets (primarily the spike in commodities prices).

In this context, the illimity Group set up managerial and operational actions in line with the measures that characterised its handling of the effects of the pandemic since early March 2020.

At governance level, the specific managerial committee (set up in the first quarter of 2022), that usually meets periodically, continued its work, with the aim of continuously monitoring the situation and updating the Group's governance bodies with regard to the actual and potential impacts, of an economic-financial and operational nature, of the crisis, and in order to render the process of managing risk mitigation actions more efficient.

Furthermore, a group of market indicators has been identified and is continuously monitored and reported to the aforementioned committee, in order to make it aware of the current context.

Specifically, since the start of the conflict, the direct and indirect exposures to Russian counterparties or those who depend on Russian operators and markets for their business (supply, sales, orders, etc.) were quantified and monitored in order to assess the possible impacts in terms of credit and liquidity risk. The initial analyses conducted and direct discussions with businesses show a low level of exposure, though subject to constant monitoring, given that the continuation of the crisis could produce negative impacts also on companies that are demonstrating resilience in this phase, also due to the measures implemented by company management, specifically those regarding supply chain continuity and management of commodities and energy prices.

The Compliance & AFC Competence Line also operated in that context, to ensure, for borrowers, compliance with the provisions of the sanctions imposed by Italy and European and international bodies to Russian parties (natural and legal persons).

Secondly, with a view to mitigating the financial risks associated with the management of the HTCS and HTC financial portfolios, it has been ascertained that the current risk profile of the portfolios is monitored, there is no direct exposure to Russia or Ukraine and that the relevant development activities, as envisaged in the 2022 budget, are being implemented, taking due consideration of the changed context. Furthermore, considering that said portfolios relate to debts, monetary policy decisions, which could be revised given the evolution of the crisis, are continuously monitored.

Lastly, the impacts of the Ukraine-Russia crisis were factored into the (baseline and stressed) macroeconomic scenarios used to support the forward-looking assessments of capital adequacy (ICAAP 2022) and liquidity (ILAAP 2022) and in preparing the Recovery Plan, transmitted to the Supervisory Authorities at the end of April 2022.

Moreover, in the last quarter, the Bank investigated several aspects of the real estate market in order to assess the potential impacts of the emerging trends on its exposures. The main European real estate companies, with few exceptions regarding logistics operators, suggest that the sector will undergo a phase of the negative cycle, mainly due to the general increase in interest rates expected at least until the second half of 2024. That increase could result in write-downs to balance sheet assets, which would drive companies to adopt deleveraging strategies, carrying out forced sales of assets. Economists predict a period of slight recession from mid-2024 that will weigh on several industrial segments. It is not currently possible to make certain medium-term forecasts that could quantify the consequences that the Bank will suffer based on its investments.

The Bank's Real Estate categories of exposure were identified, both in terms of direct risk (repossessed assets) and indirect risk (gone concern assets), to assess the risk factors of those categories and monitor their various levels of risk exposure.

Overall, we can confirm the resilience of illimity's business model, even in a complex and uncertain context like the current one, as a result of both its contained exposure to direct risks and its business mix, in which lines of activity have limited correlation.

### **Internal Control System and Risk Management**

The Issuer's internal control system is structured at different levels. First level controls are performed directly by the operating structures, with controls built into the IT procedures where feasible. Internal regulations set out the list of controls that each office must perform. In addition, operating structures are required to identify, assess, monitor and report risks arising from both ordinary business activities and new products and services and partnerships, in accordance with the 'Risk Management Process' and to comply with operating limits assigned to them consistent with the risk objectives.

Second level controls have the objective of ensuring, *inter alia*, that the risk management process is properly implemented and that business and operations activities and processes are performed in accordance with relevant laws and regulations and with the Group Risk Appetite Framework limits. Third level controls are responsible for detecting breaches of procedures and regulations as well as for carrying out regular assessments of the completeness, adequacy, functionality (in terms of efficiency and effectiveness) and reliability of the internal control system and the IT system with predetermined frequencies based on the nature and intensity of the risks. Second and third level controls are performed by the following functions.

The **Compliance & AFC** Competence Line is responsible for identifying, measuring, controlling, reporting and assessing any non-compliance risks relevant to the Issuer as well as for managing the risk of money-laundering and financing of terrorism and complying with international sanctions. More in detail, the function's tasks are:

- detecting and monitoring of the applicable regulatory frameworks, also assessing the impact on business activities, processes and procedures, also preparing, where necessary, informative/interpretative notes and opinions aimed at supporting the correct addressing of compliance issues;
- providing guidance on non-compliance risks, including issuance of Policies and internal regulations;
- releasing *ex ante* opinions and interpretative notes regarding compliance of innovative products, processes, procedures, contracts, etc.;
- performing compliance risk assessment aimed at measuring the actual exposure to compliance risks of relevant operating/business functions;

- providing the Authority with suspicious activity reports, including suspicious transaction relevant to a possible violation of law or regulation, with regards to the management of the risk of money-laundering and terrorism financing, as well as to comply with international sanctions requirements.

The Compliance & AFC Competence Line mission is to ensure that applicable laws and regulations are correctly applied to pre-empt inadequate procedures or conduct that could result in administrative and/or criminal liabilities. The function furthermore provides consultancy and assistance to relevant operating/business functions, also on issues of an investment nature, to enable financial decisions to be taken on an informed basis with all available information.

The **Risk Competence Line** oversees the process by which risks are identified, measured or estimated, controlled and reported, and strategies for their management/mitigation are developed. This Competence Line performs, *inter alia*, the following main tasks:

- supports the Chief Executive Officer and top management in corporate governance to ensure an integrated approach is taken in the process of identifying, assuming, controlling, reporting and managing risks, consistent with the Issuer's business model, strategy, business plan, budgets and established risk policies, all in compliance with applicable internal and external laws and regulations;
- determines the underlying process and proposes the quantitative and qualitative parameters for the definition of the Risk Appetite Framework, under normal and stressed conditions, ensuring its suitability over time in relation to internal and external changes;

- verifies the adequacy and effectiveness of measures adopted to remedy weaknesses encountered in the Risk Management Process.

The activities of the **Internal Audit** and organizational direction are designed to control operational regularity and to assess the functionality of the internal control system as well as to inform the corporate bodies and top management of any improvements that can be made to the risk management policies, measurement tools and procedures. In particular, through on site and remote procedures, the organizational direction: (i) performs analyses and tests on the functioning of the operating and internal control procedures; (ii) checks the reliability of the IT systems; (iii) verifies the management of the outsourced activities; (iv) verifies the compliance with the delegation limits; (v) verifies the adequacy of the organisation structure and the segregation of duties in relation to the internal process, and (vi) ascertains that anomalies found in operations and the functioning of controls are removed.

The Risk Management Process itself – which is followed by all operating units involved in assuming and managing risks – is characterised by five different phases that underlie the general organisational structure of the framework for the assumption and management of risks by the Issuer. These phases provide for the identification of the risks; the assessment/measurement of the risks identified; risk prevention and attenuation; the monitoring/reporting of risks; and the management/mitigation of risks. The Risk Management Process is put in place by the Issuer through the implementation of internal regulations, policies, procedures, and manuals, and the establishment of the relevant infrastructure (organizational, information technology, and methodologies) to support the execution of the Risk Management Process by the competent internal bodies and functions.

In view of the innovative business model of the Issuer, as envisaged in the Business Plan, and in accordance with the Bank of Italy risk governance recommendations the competent internal control functions prepare quarterly reports on the results of their assessments and analyses for the Board of Directors, which are then to be submitted to the Bank of Italy after having been reviewed by the Board of Directors. See further risk factor headed "Risk factors – Risks related to oversight by the Bank of Italy".

## **Board of Directors**

Pursuant to Article 16 of the By-Laws, the management of the Issuer is entrusted to a Board of Directors consisting of nine to fifteen directors of whom three are members of the Audit and Internal Control Committee, appointed by the shareholders' meeting. From time to time the shareholders' meeting shall determine the number of directors before proceeding with the appointment.

On 10 September 2019, illimity announced that its ordinary and extraordinary meeting of the shareholders adopted a Regulation on the Proceedings of Shareholders' Meetings and also made a number of amendments to the Bank's current bylaws. Moreover, in line with the market best practice, the ordinary shareholders' meeting unanimously approved the adoption of a Shareholders' Meetings Regulation governing the procedures and conduct required to ensure that the proceedings of the Bank's shareholders' meetings are carried out in an orderly, disciplined and functional manner and that such meetings are run in an efficient way, while at the same time safeguarding the right of every shareholder to speak on the items under discussion and, more generally, ensuring that those entitled to vote may exercise their rights. Finally, in extraordinary session, the shareholders' meeting unanimously approved a number of amendments to the Bank's corporate bylaws designed to acknowledge that illimity has assumed the role of parent company of the illimity Group pursuant to article 61, paragraph 4, of Legislative Decree no. 385 of 1993 (the "**Consolidated Banking Law**"), and that as a result it has been granted the powers required to exercise its role as manager and coordinator of the Banking Group in the interest and stability of the Group. The amendments also specify the competence of illimity's Board of Directors concerning the management and coordination of Group companies. In addition to the above, the shareholders' meeting also approved further amendments that envisage changes to the provisions of the bylaws on the composition of the lists for appointing the members of the managing body and the election of such body in line with the orientation recently expressed by Consob and with market best practice, designed to make it easier to submit lists for the appointment of "minority" directors. More specifically, the approved changes will allow shareholders to submit "short" lists, meaning without the obligation to express a minimum number of candidates for the position as director (even one single candidate, in this case without the need to comply with independence and/or gender balance requirements).

On 10 March 2021, the Board of Directors of illimity resolved to amend the Bank's Bylaws in order to align these with the legislative and regulatory changes relating to the change in the criteria for compliance with the gender balance in the composition of the corporate bodies of listed issuers (Law no. 160 of 27 December 2019, Article 1, paragraphs 302 and 303, which amended Articles 147-ter and 148 of the Consolidated Law on Finance).

On 21 February 2022, the Shareholders' Meeting approved the passage from the traditional management and control model (pursuant to articles 2380-bis and following of the Italian civil code) to a one-tier governance model pursuant to articles 2409-sexiesdecies and following of the Italian civil code, with the amendment of articles 6, 9, 10, 11, 13, 14, 15, 16, 17, 18, 19, 20, 21, 23, 24, 27, 28, 29, 30 and 31, with the resulting renumbering of articles 29, 30, 31 and 32, of the by-laws. All the changes introduced by the Shareholders' Meeting of 21 February 2022 became effective with the appointment of the corporate bodies of the Bank by the Shareholders' Meeting of 28 April 2022.

The above-mentioned Shareholders' Meeting of 21 February 2022 also approved an amendment to article 16, paragraph 1 of the Bylaws, in which it is stated that the Board of Directors leads the Company seeking sustainable success for the purpose of creating long-term value for the benefit of shareholders, taking into account the interests of illimity's key stakeholders.

As said, on 28 April 2022, the Ordinary Shareholders' Meeting of illimity was held and, among other things, approved the financial statements as of 31 December 2021 and appointed the new Board of Directors of the Bank.

## **Information Technology infrastructure**

In 2019, illimity has completed the migration of its IT services from Consorzio Servizi Bancari "CSE" to new "Core Banking" outsourcer Sella Technology Solutions fully integrated with full Cloud illimity IT Systems thanks to a global partnership with Microsoft. These strategic achievements confirm the IT architecture completion.

These achievements mean that illimity has a modern technological platform to enable additional and faster business opportunities. Significant investments have been made in order to leverage fully the Cloud capabilities (Infrastructure and State-of-the-art technologies) and to be integrated with 3rd parties solutions (i.e: Fintechs) enabling illimity to deliver new products, such as the new SME banking, and services planned in its business model focusing on user experience and relying on a solid data architecture.

illimity's innovative business model relies on the development of a completely digital IT platform with a modular approach based on a flexible architecture (API and Micro Services) that can be integrated with diverse components – including fintech solutions purchased or in partnership with third parties – tailored to meet the different requirements of each division. This new platform is data-driven and big data native enabling high performance and agility of analysis through advanced tools based on artificial intelligence and machine learning.

On 31 May 2021 illimity evolved its organisational structure and on that occasion the "Information Technology Area" was deleted and Chief Information Officer (as CEO reporting line) was created. The name in 2023 changed to "Digital Division", when the responsibility for the retail bank was assumed and then in "Digital Competence Line" as a result of bank's structure reorganisation.

As of the date of this Base Prospectus no entity is controlling the Issuer.

Italian corporate governance rules are designed to prevent the risk of abusive exercise of control of controlling shareholders.

## **Litigation**

As part of the ordinary course of business, in addition to being the plaintiff to various debt recovery proceedings, illimity and its subsidiaries are parties to litigation, arbitration, administrative, civil and tax proceedings relating to their activities (including proceedings concerning BIP prior to the Merger and in respect of which illimity is the successor-in-title). illimity reviews these proceedings on an ongoing basis and makes what it considers to be appropriate provisions in its financial statements to cover potential liabilities, in accordance with applicable accounting principles. As of 30 June 2023, provisions set aside by illimity at a consolidated level for litigation amount to Euro 1,214 thousand. Notwithstanding the foregoing, it cannot be excluded that the occurrence of new developments that, as of the date of the Base Prospectus, are not predictable may result in such provisions being inadequate.

## **illimity's financial assets**

As of 31 December 2022, illimity's securities portfolio stood at Euro 820 million (Euro 300 million as of 31 December 2021), of which Euro 391 million classified as "hold to collect and sell" (HTCS) and Euro 428 million

### **Alternative performance measures**

The table below sets out certain alternative performance measures ("**APMs**") of illimity, as defined by the European Securities and Markets Authority's Guidelines on Alternative Performance Measures (ESMA/2015/1415) (the "**ESMA Guidelines**"). The following should be noted to ensure a proper interpretation of these APMs:

1. these indicators have been calculated solely for historical data of illimity and are not indicative of the future performance of the bank;
2. the APMs are not envisaged by IFRSs (they are non-GAAP financial measures) and have not been audited;
3. the APMs should not be considered as replacements for the measures envisaged by IFRSs;
4. the APMs should be read together with financial information contained in the illimity 2021 and 2022 Financial Statements and the company presentation incorporated by reference in the Base Prospectus;
5. as they are not envisaged by IFRSs, the definitions of these APMs may not be consistent with those adopted by other companies/groups and may therefore not be comparable;
6. the definition and calculation of the APMs included herein are consistent for the financial periods covered by this Base Prospectus.

The Issuer has selected and represented the APMs set out below as it believes that they are a useful means to obtain a better understanding of the economic and financial performance of illimity, because they facilitate the identification of important operating trends and financial parameters peculiar to the areas of illimity's business activities:

1. the Cost/Income ratio, calculated as the ratio between operating expenses and total revenues extracted from the reclassified income statement, is one of the main indicators of the Issuer's operational efficiency; the lower the ratio, the greater the efficiency;
2. the Organic Cost of Risk, calculated as the ratio between the sum of annualised losses on performing customer loans (net of investments with financial entities and government bonds), organic non-performing loans and HTC securities to net exposures of the same at the end of the period;
3. the Gross Organic NPE Ratio, ratio of gross organic non-performing loans to the gross value of organic loans to customers on the factoring, cross-over, acquisition finance and turnaround segments and receivables acquired in investing in portfolios of distressed loans, which underwent a change in accounting status following the purchase or disbursement (excluding receivables acquired as bad loans), the loan portfolio of the former Banca Interprovinciale and senior financing to non-financial investors in distressed loans;
4. the Liquidity Coverage Ratio (LCR), computed as the ratio between high-quality liquid assets and total net cash flow amount over a 30-day stress period;
5. the Common Equity Tier 1 Ratio (the CET 1 Ratio), calculated as the ratio between Common Equity Tier 1 Capital and total Risk-Weighted Assets;
6. the Total capital ratio, calculated as the ratio between the Total Capital Ratio and Total Risk-Weighted Assets.

	FY 2021	FY 2022	1H 2023
Cost-Income	59%	60%	52%
Organic Cost of Risk (bps) annualized	4bps	30bps	42 bps
Gross Organic NPE ratio	2.3%	2.6%	5.6%
LCR	~180%	~317%	~276%

As a credit institution authorized to carry out banking activities in Italy, the Issuer is subject to Italian and European laws and regulations applicable to the banking industry that are aimed at safeguarding financial stability and solidity, and liquidity and limiting exposure to risks. The rules concerning capital and liquidity adequacy for banks lay down prudential requirements relating to own funds, eligible liabilities and liquidity, and the instruments for risk mitigation.

At a European level, the Basel III rules have been implemented through two separate legislative instruments: Directive 2013/36/EU of 26 June 2013 (the "**CRD IV**") and Regulation (EU) No. 575 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the "**CRR**" and together with the CRD IV, the "**CRD IV Package**").

The CRD IV and CRR have been amended in 2019 following adoption of a comprehensive reform package first announced by the European Commission in November 2016 (the "**Banking Reform Package**") by:

- Directive (EU) 2019/878 of the European Parliament and of the Council of 20 May 2019 amending the CRD IV as regards exempt entities, financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures (the "**CRD V**"); and
- Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 amending the CRR as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and Regulation (EU) No 648/2012 (the "**CRR II**").

Lastly, an additional relevant measure is the Regulation (EU) 873/2020 (the so-called CRR Quick-fix), which brought forward the application of some of the regulatory innovations introduced by CRR II and CRD V as early as 30 June 2020, in response to the economic situation caused by the Covid-19 pandemic. Among the measures included is the 35 per cent. risk weighting of exposures to securitization and the satisfaction of Pillar 2 requirement even with non-primary capital instruments.

In Italy, the Bank of Italy published the supervisory regulations on banks with Circular No. 285, which came into force on 1 January 2014, implementing the CRD IV Package and setting out additional national prudential rules. Circular No. 285 has been subject to continuous review and update, the last of which occurred on 20 July 2021.

The Government implemented the CRD IV with Legislative Decree No. 72 of 12 May 2015 ("**Decree 72/2015**"), which entered into force on 27 June 2015. Decree 72/2015 impacts, *inter alia*, on:

- proposed acquirers of holdings in credit institutions, requirements for shareholders and members of the management body (Articles 23 and 91 of the CRD IV Directive);
- competent authorities' powers to intervene in cases of crisis management (Articles 64, 65, 102 and 104 of the CRD IV Directive);
- reporting of potential or actual breaches of national provisions (so called "whistleblowing", Article 71 of the CRD IV Directive); and
- administrative penalties and measures (Article 65 of the CRD IV Directive).

Circular No. 285 is divided in four parts: (i) Part One is on the implementation of CRD IV in Italy through secondary provisions within the competence of the Bank of Italy; (ii) Part Two contains rules needed to implement the CRR; (iii) Part Three contains prudential provisions on matters and types of risks not directly covered by the CRD IV Package that, though not harmonized at European level, are necessary to align the Italian regulatory system to the best practices and requirements established by international bodies, including the core principles of the Basel Committee; and (iv) Part Four sets forth provisions concerning intermediaries.

Insofar as capital requirements are concerned, banks (including illimity) are required to comply with the following minimum capital requirements: (i) a Common Equity Tier 1 capital ratio of 4.5%; (ii) a Tier 1 capital ratio of 6%; and (iii) a Total Capital Ratio of 8%. In addition, banks are required to retain combined buffers comprised of: a capital conservation buffer equal to 2.5% of risk-weighted assets, a counter-cyclical capital buffer currently set at 0%, while banks that qualify as global systemically important institutions (G-SII) and other systemically important institutions at domestic level (O-SII) are required to meet also additional capital buffers.

In addition, illimity is subject to the Pillar 2 requirements for banks, which will be impacted, on an ongoing basis, by the SREP. The SREP aims to ensure that institutions have adequate arrangements, strategies, processes, and mechanisms to maintain the amounts, types, and distribution of internal capital commensurate to their risk profile, as well as robust governance and internal control arrangements. The key purpose of the SREP is to ensure that institutions have adequate arrangements as well as capital and liquidity to ensure sound management and coverage of the risks to which they are or might be exposed, including those revealed by stress testing, as well as risks the institution may pose to the financial system.

On 17 March 2022, illimity Bank, following the Supervisory Review and Evaluation Process (SREP) performed on the illimity Group, received notification from the Bank of Italy of the prudential requirements to be observed at the consolidated level with effect from 31 March 2022. To ensure compliance with the binding requirements even in the event of a deterioration in the economic and financial scenario (Pillar 2 Guidance - P2G), the Bank of Italy communicated the following capital levels, which the illimity Group was invited to maintain on an ongoing basis:

1. Common Equity Tier 1 (CET1) ratio of 9.10%;
2. Tier 1 ratio of 11.00%;
3. Total Capital ratio of 13.50%.

In that regard, it is noted that the Bank continues to substantially comply with the original voluntary commitment to maintain the CET1 ratio at a level above 15% on an ongoing basis.

As set out in the "Opinion of the European Banking Authority on the interaction of Pillar 1, Pillar 2 and combined buffer requirements and restrictions on distributions" published on 16 December 2015, in the EBA's opinion competent authorities should ensure that the Common Equity Tier 1 Capital to be taken into account in determining the Common Equity Tier 1 Capital available to meet the combined buffer requirement is limited to the amount not used to meet the Pillar 1 and Pillar 2 Own Funds requirements of the institution. In effect, this would mean that Pillar 2 capital requirements would be "stacked" below the capital buffers, and thus a firm's CET1 resources would only be applied to meeting capital buffer requirements after Pillar 1 and Pillar 2 capital requirements have been met in full.

However, the above has been more clearly regulated in the EBA Guidelines on SREP published in July 2018. The EBA guidelines define a distinction between the "Pillar 2 Requirement" (stacked below the capital buffers and

thus directly affecting the application of a Maximum Distributable Amount, as defined below) and "Pillar 2 Guidance" (stacked above the capital buffers). In cases where a "Pillar 2 Guidance" is provided, that guidance will not be included in the calculation of the Maximum Distributable Amount (as defined below), but competent authorities would expect banks to meet that guidance.

Moreover, the CRD Reform Package further clarifies the distinction between "Pillar 2 Requirement" and "Pillar 2 Guidance". In particular, the "Pillar 2 Guidance" refers to the possibility for competent authorities to communicate to an institution their expectations for such institution to hold an amount of capital exceeding its capital requirements (Pillar 1 and Pillar 2) and combined buffer requirements in order to address forward-looking and remote situations. Under the CRD Reform Package (and as described above), only the "Pillar 2 Requirement", and not the "Pillar 2 Guidance", will be relevant in determining whether an institution meets its combined buffer requirement for the purposes of the Maximum Distributable Amount restrictions.

In addition to the above, the Maximum Distributable Amount restrictions are being extended to also encompass the minimum Leverage Ratio Requirement and the MREL requirement.

Within the CRD Reform Package a new Article 141b is included in the CRD IV Directive which introduces restrictions on distributions in the case of failure to meet the Leverage Ratio requirement (including any applicable buffer, i.e. G-SIB buffer), thus introducing a new Leverage Ratio Maximum Distributable Amount (L-MDA). The BRRD Reforms instead contain a new Article 16a that clarifies the stacking order between the combined buffer and the MREL requirement. Pursuant to this new provision the resolution authority shall have the power to prohibit an entity from distributing more than the Maximum Distributable Amount for the Minimum Requirement for Own Funds and Eligible Liabilities "MREL" (calculated in accordance with the proposed Article 16 a (4) of the revised BRRD, the M-MDA) where the combined buffer requirement and the MREL requirement are not met. The Article 16 envisages a potential nine-month grace period during which the resolution authority assesses monthly whether to exercise its powers under the provision, before such resolution authority is compelled to exercise its power under the provisions (subject to certain limited exceptions, to be verified on a monthly basis).

Further, the Basel III agreements provided for the introduction of a LCR, to establish and maintain a liquidity buffer that will permit the bank to survive for 30 days in the event of serious stress. The Commission Delegated Regulation (EU) No. 2015/61, adopted on 10 October 2014 and published in the Official Journal of the European Union in January 2015, specifies the calculation rules of the LCR. The CRD IV Package contains specific mandates for the EBA to develop draft regulatory or implementing technical standards as well as guidelines and reports related to liquidity coverage ratio and leverage ratio to enhance regulatory harmonisation in Europe through the Single Rule Book.

The Banking Reform Package introduces a binding (Pillar 1) leverage ratio of three per cent. of Tier 1 capital which banks must meet in parallel with their own risk-based capital requirements, as well as an additional leverage ratio buffer requirement for institutions identified as G-SIIs; and a NSFR to prevent overreliance by banks on short-term funding raised in wholesale markets to finance their long-term commitments.

The CRR contains a supporting factor for small and medium-sized enterprises (SMEs), which lowers the capital requirements for credit risk on exposures to SMEs of up to Euro 1.5 million by 23.81 percent. The Banking Reform Package extends this reduction of 23.81 percent to exposures of up to Euro 2.5 million and introduces a new SME supporting factor reduction of 15 percent for the part of SME exposures exceeding Euro 2.5 million.

Maximum Distributable Amount means any applicable maximum distributable amount relating to the Issuer and/or the illimity Group, as the case may be, required to be calculated in accordance with the CRD IV Directive and/or any other Relevant Regulation(s) (or any provision of Italian law transposing or implementing the CRD IV Directive and/or, if relevant, any other Relevant Regulation(s)).

The following overview does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.*

*The following description does not discuss the treatment of the Notes that are held in connection with a permanent establishment or fixed base through which a non-Italian resident beneficial owner carries on business or performs professional services in Italy.*

*This overview assumes that the Issuer is resident in the Republic of Italy for tax purposes, is structured and conducts its business in the manner outlined in this Base Prospectus. Changes in the Issuer's organisational structure, tax residence or the manner in which it conducts its business may invalidate this overview. This overview also assumes that each transaction with respect to the Notes is at arm's length.*

*Prospective purchasers of the Notes are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Notes. This summary will not be updated to reflect changes in laws and if such a change occurs the information in this summary could become invalid.*

### TAXATION IN THE REPUBLIC OF ITALY

#### *Tax treatment of the Notes*

Legislative Decree No. 239 of 1 April 1996, as subsequently amended, ("**Decree 239**") provides for the applicable regime with respect to the tax treatment applicable to interest, premium and other income (including the difference between the redemption amount and the issue price) to the extent that the Notes fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*), issued, *inter alia*, by Italian banks.

Pursuant to Article 44 of Decree No. 917 of 22 December 1986, for securities to qualify as *titoli similari alle obbligazioni* (securities similar to bonds), they must (i) incorporate an unconditional obligation to pay at maturity an amount not lower than their nominal value or principal amount ("*valore nominale*") and (ii) attribute to the Noteholders no direct or indirect right to control or participate to the management of the Issuer.

The tax regime set forth by Decree 239 also applies to interest, premium and other income from regulatory capital financial instruments (*strumenti finanziari rilevanti in materia di adeguatezza patrimoniale*) complying with EU and Italian regulatory laws and regulations in effect since the Issue Date, issued by, *inter alia*, Italian banks, other than shares and assimilated instruments, as set out by Article 2, paragraph 22, of Law Decree No. 138 of 13 August 2011, as converted with amendments by Law No. 148 of 14 September 2011, and as further amended and clarified by Law No. 147 of 27 December 2013, and by Article 9 of Law Decree No. 34 of 30 April 2019.

#### *Italian resident Noteholders*

Where an Italian resident beneficial owner of the Notes is (a) an individual not engaged in an entrepreneurial activity to which the Notes are connected; (b) a non-commercial partnership pursuant to article 5 of Decree 917 (with the exception of *società in nome collettivo* or *società in accomandita semplice* and similar entities); (c) a non-commercial private or public entity (other than UCIs as defined below) or a non-commercial trusts (i.e. a trust not carrying out mainly or exclusively commercial activities); or (d) an investor exempt from Italian corporate income taxation (unless the Noteholders have opted for the application of the *risparmio gestito* regime – see "*Capital gains tax*" below), interest, premium and other income relating to the Notes, accrued during the relevant holding period, are subject to a substitute tax, referred to as "*imposta sostitutiva*", levied at the rate of 26 per cent.

In the event that the Noteholders described under (a) and (c) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax and the relevant interest,

premium and other income related to the Notes must be included in their relevant income tax return. As a consequence, such interest, premium and other income will be subject to ordinary income tax and the *imposta sostitutiva* may be deducted from the taxation on income due or be claimed for refund in the relevant tax return.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity to which the Notes are connected or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the *imposta sostitutiva*, on interest relating to the Notes if the Notes are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(88-114) of Law No. 232 of 11 December 2016, as subsequently amended (the "**Finance Act 2017**"), Article 1(210-215) of Law No. 145 of 30 December 2018 (the "**Finance Act 2019**"), Article 13-bis of Law Decree no. 124 of 26 October 2019 and Article 136 of Law Decree No. 34 of 19 May 2020, as amended and supplemented from time to time.

Where an Italian resident Noteholder is a company or similar commercial entity (including limited partnership qualified as *società in nome collettivo* or *società in accomandita semplice* and private or public institutions carrying out commercial activities and holding the Notes in connection with this kind of activities), or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected, and the Notes are deposited in due time, together with the coupons relating to such Notes, with an Intermediary (as defined below), interest, premium and other income from the Notes will not be subject to *imposta sostitutiva* where the Noteholder is the beneficial owner of the payment. However, interest, premium and other income must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian income taxation (IRES) plus, in case of banks and certain financial institutions (other than asset management companies and Italian *società di intermediazione mobiliare*) an IRES surtax of 3.5 per cent and, in certain circumstances, depending on the "status" of the Noteholder, also to the regional tax on productive activities ("**IRAP**"). If the Noteholder is a commercial partnership, interest, premium and other income from the Notes are instead attributed and subject to taxation in the hands of the partners according to the tax transparency principle.

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001 ("**Decree 351**"), and Article 9, par. 1, Legislative Decree No. 44 of 4 March 2014, payments of interest in respect of the Notes made to Italian resident real estate investment funds ("**Real Estate Funds**") established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998 (the "**Financial Services Act**") or pursuant to Article 14-bis of Law No. 86 of 25 January 1994, and Italian real estate investment companies with fixed capital (the "**Real Estate SICAFs**" and, together with the Italian resident real estate investment funds, the "**Real Estate UCIs**") are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of the Real Estate Fund, provided that it is the beneficial owner of the payment and that the Notes, together with the relevant coupons, are timely deposited with an authorised intermediary, but subsequent distributions made in favour of unitholders or shareholders will be subject, in certain circumstances, to a withholding tax of 26 per cent.; subject to certain conditions, depending on the status of the investor and percentage of participation, income of the Real Estate UCIs is subject to taxation in the hands of the unitholder or shareholder regardless of distribution.

If the Noteholder is resident in Italy and is an open-ended or closed-ended investment fund (other than Real Estate Fund), a SICAF (an investment company with fixed capital other than a Real Estate SICAF) or a SICAV (an investment company with variable capital) established in Italy (the "**UCI**") and either (i) the fund, the SICAF or the SICAV or (ii) their manager is subject to the supervision of a regulatory authority, and the relevant Notes are deposited in due time, together with the coupons relating to such Notes, with an Intermediary (as defined below), interest accrued during the holding period on such Notes will not be subject to *imposta sostitutiva* nor to any other income tax in the hands of the UCI, provided that the Fund, the SICAV or the SICAF is the beneficial owner of such payments. However, such interest must be included in the management results of the UCI accrued at the end of each tax period. Moreover, while the UCI will not be subject to IRES, IRAP and *imposta sostitutiva*, a withholding tax of 26 per cent. may apply, in certain circumstances, to distributions made in favour of certain categories of unitholders or shareholders or in case of redemption or sale of the units or shares in the Funds (the "**Collective Investment Fund Withholding Tax**").

Where an Italian resident Noteholder is a pension fund (subject to the regime provided for by Article 17 of Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited in due time, together with the coupons relating to such Notes, with an Intermediary (as defined below), interest relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, provided that the pension fund is the beneficial owner of such payments. However, the interest must be included in the result of the relevant portfolio accrued at the end of the tax period to be subject to a 20 per cent. substitute tax. Subject to certain conditions (including

minimum holding period requirement) and limitations, interest relating to the Notes may be excluded from the taxable base of the 20 per cent. substitute tax if the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (88-114) of Finance Act 2017, in Article 1(210-215) of Finance Act 2019, in Article 13-bis of Law Decree no 124 of 26 October 2019 and in Article 136 of Law Decree No. 34 of 19 May 2020 as amended and supplemented from time to time.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, Italian investment companies (*società di intermediazione mobiliare*) ("**SIMs**"), fiduciary companies, Italian asset management companies (*società di gestione del risparmio*) ("**SGRs**"), stockbrokers and other entities identified by a decree of the Ministry of Finance (each, an "**Intermediary**"), as subsequently amended and integrated.

An Intermediary must (a) be (i) resident in Italy or (ii) a permanent establishment in Italy of a non-Italian resident bank, financial intermediary, or (iii) an entity or company not resident in Italy, acting through a system of centralised administration of notes and directly connected with the Italian Revenue Agency having appointed an Italian representative for the purposes of Decree 239; and (b) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary or deposit account wherewith which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld:

- (a) by any Italian financial intermediary (or permanent establishment in Italy of a non-resident financial intermediary) paying Interest to the Noteholder; or
- (b) by the Issuer.

#### ***Non-Italian resident Noteholders***

Where the Noteholder is a non-Italian resident without a permanent establishment in Italy to which the Notes are connected, an exemption from the *imposta sostitutiva* applies *provided that* the non-Italian resident beneficial owner is either (a) resident, for tax purposes, in a country which allows for a satisfactory exchange of information with Italy in the tax sector as listed in Ministerial Decree of 4 September 1996, as amended and supplemented (the "**White List**"); or (b) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or (c) a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d), subject to certain conditions and to additional documentary filings, an institutional investor, whether or not subject to tax, which is established in a country which allows for a satisfactory exchange of information with Italy, as listed in the White List.

The *imposta sostitutiva* will be applicable at the rate of 26 per cent. (or at the reduced rate provided for by the applicable double tax treaty, if any, subject to timely filing of required documentation provided by Decree of the Director of Italian Revenue Agency No. 2013/84404 of 10 July 2013) to interest, paid to Noteholders who do not qualify for the exemption or do not timely and properly comply with set requirements.

In order to ensure gross payment, non-Italian resident Noteholders without a permanent establishment in Italy to which the Notes are effectively connected must be the beneficial owners of the payments of interest, premium or an institutional investor and:

- (a) deposit in due time, directly or indirectly, the Notes, together with the coupons relating to such Notes, with:
  - (i) an Italian or foreign bank or financial institution (there is no requirement for the bank or financial institution to be EU resident) (the "**First Level Bank**"), acting as intermediary in the deposit of the Notes held, directly or indirectly, by the Noteholder with a Second Level Bank (as defined below); or with
  - (ii) a resident bank or SIM or a permanent establishment in Italy of a non-Italian resident bank or SIM, acting as depositary or sub depositary of the Notes appointed to maintain direct relationships, via telematics link, with the Department of Revenue of the Ministry of Economy and Finance (the "**Second Level Bank**"). Non-Italian resident entities or companies

participating in a central securities depository system which is in contact, via computer, with the Ministry of the Economy and Finance (which includes Euroclear and Clearstream), can qualify as Second Level Banks, *provided that* they appoint an Italian representative for the purposes of the application of Decree 239. In the event that a non-Italian resident Noteholder deposits the Notes directly with a Second Level Bank, the latter shall be treated both as a First Level Bank and a Second Level Bank; and

- (b) file with the relevant depository, in due time, a statement of the relevant Noteholder, which remains valid until withdrawn or revoked, in which the Noteholder declares to be the beneficial owner of any interest on the Notes and to be eligible to benefit from the applicable exemption from *imposta sostitutiva*. Such statement, which is not requested for international bodies or entities set up in accordance with international agreements which have entered into force in Italy nor in case of foreign Central Banks or entities which manage, *inter alia*, the official reserves of a foreign State, must comply with the requirements set forth by Ministerial Decree of 12 December 2001, as subsequently amended. The statement does not need to be submitted if a certificate, declaration or other similar document for the same or equivalent purposes was previously submitted to the same depository.

Specific requirements and documentary filing obligations are provided for institutional investors.

Failure of a non-resident Noteholder to comply in due time with the procedures set forth in Decree 239 and in the relevant implementation rules will result in the application of *imposta sostitutiva* on Interest payments to a non-resident Noteholder.

For non-Italian resident Noteholders, Interest from Notes may be subject to the reduced withholding tax rate provided for by the applicable tax treaty with Italy, subject to the fulfilment of certain procedural requirements.

#### ***Atypical securities***

Notes that, from a tax perspective, are not deemed to fall within neither the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*), nor in the category of shares and assimilated instruments, as described under the caption "Tax treatment of the Notes", would qualify as atypical securities and, as a consequence, such Notes may fall out of the scope of Decree 239; in this case, interest, premium and other income (including the difference between the redemption amount and the issue price) relating to the Notes would be subject to a withholding tax, levied at the rate of 26 per cent pursuant to Law Decree No. 512 of 30 September 1983. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value with or without the payment of periodic interest, and do not give any right to directly or indirectly participate in the management of the issuer or to the business in connection to which the securities were issued, nor to control the same.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 or a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) may be exempt from the withholding tax on interest, premium and other income relating to the Notes not falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) and issued by an Italian resident issuer, if such Notes are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(88-114) of the Finance Act 2017, in Article 1(210-215) of Finance Act 2019 and in Article 13-bis of Law Decree no 124 of 26 October 2019 and in Article 136 of Law Decree No. 34 of 19 May 2020 as amended and supplemented from time to time.

In the case of Notes issued by an Italian resident, where the Noteholder is (a) an Italian individual engaged in an entrepreneurial activity to which the Notes are connected; (b) an Italian company or a similar Italian commercial entity; (c) a permanent establishment in Italy of a foreign entity; (d) an Italian commercial partnership; or (e) an Italian commercial private or public institution, the withholding tax is a provisional withholding tax. In all other cases, including when the Noteholder is a non-Italian resident, the withholding tax is a final withholding tax.

## **Capital gains tax**

Any gain obtained from the sale or redemption of the Notes, both whether they fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) or in the category of atypical securities, would be subject to the taxation regime described below.

Any gain obtained from the sale or redemption of the Notes would be treated as part of the taxable income (and, in certain circumstances, depending on the "status" of the Noteholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected), a commercial partnership or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Where an Italian resident Noteholder is an (i) an individual holding the Notes not in connection with an entrepreneurial activity, (ii) a non-commercial partnership (other than a *società in nome collettivo* or *società in accomandita semplice* or similar partnership), or (iii) a non-commercial private or public institution, any capital gain realised by such Noteholder from the sale or redemption of the Notes would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent. Noteholders may set off losses with gains, subject to certain conditions.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not engaged in an entrepreneurial activity to which the Notes are connected or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from Italian capital gain taxes, including the *imposta sostitutiva*, on capital gains realised upon sale or redemption of the Notes, if the Notes are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(88-114) of Finance Act 2017, in Article 1(210-215) of Finance Act 2019, in Article 13-bis of Law Decree no 124 of 26 October 2019 and Article 136 of Law Decree No. 34 of 19 May 2020, as amended and supplemented from time to time.

In respect of the application of *imposta sostitutiva*, taxpayers may choose one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian Noteholders under (i) to (iii) above, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the investor in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. The relevant Noteholder must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward and offset against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident Noteholders under (i) to (iii) above may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes (the "*risparmio amministrato*" regime). Such separate taxation of capital gains is allowed subject to (a) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries (including permanent establishments in Italy of foreign intermediaries) and (b) an express election for the *risparmio amministrato* regime being timely made in writing by the relevant Noteholder. The depository intermediary is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Noteholder is not required to declare the capital gains in the annual tax return.

Any capital gains realised by Italian resident Noteholders under (i) to (iii) above who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included, together with Interest relating to such Notes, in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a substitute tax at a rate of 26 per cent, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase

in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Noteholder is not required to declare the capital gains realised in the annual tax return.

Any capital gains realised by a Noteholder who is a Real Estate UCI or a Real Estate SICAF will be subject neither to *imposta sostitutiva* nor to any other income tax at the level of the Real Estate UCI or of the Real Estate SICAF, but subsequent distributions made in favour of unitholders or shareholders, as well as redemptions of units/shares, will be subject, in certain circumstances, to a withholding tax of 26 per cent.; subject to certain conditions, depending on the status of the investor and percentage of participation, income of the Real Estate UCI is subject to taxation in the hands of the unitholder or the shareholder regardless of distribution.

Any capital gains realised by a Noteholder which is a UCI will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio accrued at the end of the relevant fiscal year. Such result will not be taxed with the UCI, but subsequent distributions in favour of unitholders or shareholders, redemption or sale of the units/shares may be subject to the Collective Investment Fund Withholding Tax.

Any capital gains realised by a Noteholder who is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, capital gains relating to the Notes issued by an Italian resident or White List resident Issuer may be excluded from the taxable base of the 20 per cent. substitute tax if the Notes are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (88-114) of Finance Act 2017, in Article 1(211-215) of Finance Act 2019, Article 13-*bis* of Law Decree No. 124 of 26 October 2019 and Article 136 of Law Decree No. 34 of 19 May 2020.

Capital gains realised by non-Italian resident Noteholders, not having a permanent establishment in Italy to which the Notes are connected, from the sale or redemption of Notes issued by an Italian resident issuer and traded on regulated markets are neither subject to the *imposta sostitutiva* nor to any other Italian income tax. The application of the exemption may be subject in certain cases to the timely filing by the non-Italian resident Noteholders, with the authorised financial intermediary, of an appropriate statement (*autocertificazione*) providing that the Noteholder is not resident in the Republic of Italy for tax purposes and has no permanent establishment in Italy to which the Notes are effectively connected.

Capital gains realised by non-Italian resident Noteholders, without a permanent establishment in Italy to which the Notes are effectively connected, from the sale or redemption of Notes issued by an Italian resident issuer not traded on regulated markets are not subject to the *imposta sostitutiva*, provided that the noteholder is the beneficial owner of the capital gains and: (a) is resident in a country which allows for a satisfactory exchange of information with Italy in the tax sector, as listed in the White List; or (b) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (c) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) is an institutional investor which is established in a country which allows for a satisfactory exchange of information with Italy, as listed in the White List, even if it does not possess the status of taxpayer therein, to the extent all the requirements and procedures set forth in Decree No. 239 and in the relevant implementation rules, as subsequently amended, are met or complied with in due time.

If none of the conditions above is met, capital gains realised by non-Italian resident Noteholders without a permanent establishment in Italy to which the Notes are connected from the sale or redemption of Notes issued by an Italian resident issuer and not traded on regulated markets, are subject to the *imposta sostitutiva* at the current rate of 26 per cent..

In any event, Noteholders who are eligible to benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of Notes are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale or redemption of Notes issued by an Italian resident issuer.

### **Inheritance and gift taxes**

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, as subsequently amended, the transfers of any valuable asset (including shares, notes or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent on the value of the inheritance or the gift exceeding, for each beneficiary, €1,000,000;
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent inheritance and gift tax on the value of the inheritance or the gift exceeding, for each beneficiary, €100,000; and
- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate mentioned above in paragraphs (a), (b) and (c) on the value exceeding, for each beneficiary, €1,500,000.

Pursuant to article 6 Law no. 112/2016 ("Legge sul Dopo di Noi") as amended by article 89, paragraph 8, Legislative Decree 3 July 2017, no.117, asset or other rights (a) contributed to a trust, or (b) subject to a scope restriction ex article 2645-ter Italian Civil Code, or (c) contributed to a special fund ruled by *contratto di affidamento fiduciario*, in favor of persons with severe disabilities, are exempt from inheritance and gift tax. Upon the death of the person with severe disabilities, inheritance and gift tax will be due by the last beneficiary of the transfer, to be specifically identified within the deed.

The mortis causa transfer of financial instruments included in a long-term savings account (*piano di risparmio a lungo termine*) - that meets the requirements from time to time applicable as set forth by Italian law - is exempt from inheritance tax.

### ***Transfer tax***

Contracts relating to the transfer of securities are subject to the following registration tax: (i) public deeds and notarised deeds are subject to fixed registration tax at a rate of €200.00; (ii) private deeds are subject to registration tax only in case of use, voluntary registration or on occurrence of the so called cross-reference (*enunciazione*).

### ***Italian financial transaction tax (so-called "Tobin Tax")***

Article 1, paragraphs from 491 to 500, of Law No. 228 of 24 December 2012, as implemented by Ministerial Decree 21 February 2013 (the "IFTT Decree"), introduced a tax on financial transactions that applies to (i) the transfer of ownership in shares issued by companies having their registered office ("sede legale") located in Italy (the "**Chargeable Equity**"); and (ii) transactions in derivative financial instruments over Chargeable Equity, and (iii) transactions in transferable securities giving the right to acquire or sell mainly one or more Chargeable Equity, or giving rise to a cash settlement determined mainly by reference to one or more Chargeable Equity, and (iv) high frequency trading transactions, carried out on the Italian financial market, relating to shares, equity instruments, transferable securities sub (ii) (regardless of their issuer) and derivative financial instruments sub (iii) (regardless of their issuer).

Transactions related to financial instruments (other than shares and assimilated instruments pursuant to Article 44 of Decree No. 917), issued by Italian supervised banks, that qualify as bonds or are eligible as Additional Tier 1 Capital at the level of the issuer, under EU and Italian regulatory laws and regulations in effect, since the Issue Date, are excluded from IFTT pursuant to art. 15(1)(b) of the IFTT Decree.

### ***Stamp duty***

Pursuant to Article 13 of the Tariff attached to Presidential Decree No. 642 of 26 October 1972, a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries to their clients for the Notes deposited in Italy. The stamp duty applies at a rate of 0.20 per cent. and cannot exceed €14,000 for taxpayers other than individuals; the taxable base is determined on the basis of the fair market value or, if no market value figure is available, of the nominal value or the redemption amount of such products. In the absence of the aforementioned values, reference is made to the purchase value of the Notes held, as inferable from the intermediary's records.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

### ***Wealth Tax on securities deposited abroad***

Pursuant to Article 19(18) of Decree 201, as amended and supplemented, Italian resident individuals, non-commercial entities and certain partnerships (*società semplici* or similar partnerships) holding the Notes outside the Italian territory are required to pay an additional tax at a rate of 0.20 per cent ("IVAFE"), which is determined in proportion to the period of ownership and cannot exceed €14,000 for taxpayers other than individuals.

This tax is calculated on the market value of the Notes at the end of the relevant year or, if no market value figure is available, the nominal value or the redemption value or in the case the nominal or redemption values cannot be determined, on the purchase price of any financial assets held outside the Italian territory by Italian resident individuals. If the financial products are no longer held on December 31 of the relevant year, reference is made to the value in the period of ownership. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

### ***Tax Monitoring Obligations***

Pursuant to Italian Law Decree No. 167 of 28 June 1990, converted by Italian Law No. 227 of 4 August 1990, as amended by Italian Law No. 97 of 6 August 2013 and subsequently amended by Italian Law No. 50 of 28 March 2014 and Italian Law No. 225 of 1 December 2016, individuals, non-commercial entities and certain partnerships (*società semplici* or similar partnerships) resident in Italy who hold investments abroad or have financial activities abroad must, in certain circumstances, disclose the aforesaid and related transactions to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return) regardless of the value of such assets (save for deposits or bank accounts having an aggregate value not exceeding a € 15,000 threshold throughout the year, which *per se* do not require such disclosure). This requirement applies even if the taxpayer during the tax period has totally divested such assets. The requirement applies also where the persons above, being not the direct holder of the financial instruments, are the actual owner of the instrument under the Italian money-laundering law.

Furthermore, the above reporting requirement is not to be complied with in relation to Notes deposited for management or administration with qualified Italian financial intermediaries, or with respect to contracts entered into through their intervention, upon condition that the cash flows and the items of income derived from the Notes have been made subject to tax by the same intermediaries.

### ***EU directive on administrative cooperation and OECD common reporting standards in Italy***

The EU Savings Directive adopted on 3 June 2003, by the EU Council of Economic and Finance Ministers (as subsequently amended) on taxation of savings income in the form of interest payments has been repealed from 1 January 2016 to prevent overlap between the Savings Directive and the new automatic exchange of information regime implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU).

Drawing extensively on the intergovernmental approach to implementing the United States Foreign Account Tax Compliance Act, the OECD developed the Common Reporting Standard ("CRS") to address the issue of offshore tax evasion on a global basis. Aimed at maximizing efficiency and reducing cost for financial institutions, the CRS provides a common standard for due diligence, reporting and exchange of financial account information. Pursuant to the CRS, participating jurisdictions will obtain from reporting financial institutions, and automatically exchange with exchange partners on an annual basis, financial information with respect to all reportable accounts identified by financial institutions on the basis of common due diligence and reporting procedures.

Italy has enacted Italian Law No. 95 of 18 June 2015 ("**Law 95/2015**") and the Italian Ministerial Decree dated 28 December 2015 implementing the CRS (and the amended EU Directive on Administrative Cooperation), which has entered into force on 1 January 2016, implemented Law 95/2015 and provides for the exchange of information in relation to the calendar year 2016 and later.

In the event that the Noteholder holds the Notes through an Italian financial institution (as meant in the Italian Ministerial Decree of 28 December 2015 implementing Law 95/2015), they may be required to provide additional information to such financial institution to enable it to satisfy its obligations under the Italian implementation of the CRS.

Finally, on 25 May 2018 the EU Council Directive 2018/822 (the "**DAC 6**") has been adopted. Under the DAC 6 intermediaries and/or taxpayers which meet certain criteria are required to disclose to the relevant Tax Authorities certain information concerning cross-border arrangements, which contain one or more of a prescribed list of hallmarks, performed from 25 June 2018 onwards. Information with regard to reported arrangements will be automatically exchanged by the competent authority of each EU jurisdiction every 3 months.

illimity or its intermediaries involved may be legally obliged to notify to tax authorities of certain types of cross-border arrangements and of proposals of implement such arrangements.

### ***The Proposed Financial Transactions Tax ("FTT")***

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has later ceased to participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is established or deemed to be established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States and the scope of any such tax is uncertain. It may therefore be altered prior to any implementation. Additional EU Member States may decide to participate.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

### ***Foreign Account Tax Compliance Act ("FATCA")***

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" ("**FFI**") may be required to withhold on certain payments it makes ("foreign pass-through payments") to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes.

A number of jurisdictions, including the Republic of Italy, have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. In particular, with the Law 18 June 2015 No. 95, the Republic of Italy ratified and enacted the IGA with the United States of America signed on 10 January 2014. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change.

Noteholders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes.

## SUBSCRIPTION AND SALE

The original Dealer has, in an amended and restated dealer agreement dated 24 November 2023 (the "**Dealer Agreement**"), agreed with the Issuer a basis upon which it or any other Dealer may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under "*Form of the Notes*", "*Terms and Conditions of the Italian Law Notes in Physical Form*" and "*Terms and Conditions of the Dematerialised Notes*" above. In the Dealer Agreement, the Issuer has agreed to reimburse the relevant Dealer for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the relevant Dealer against certain liabilities incurred by them in connection therewith. The Dealer Agreement makes provision for the resignation or termination of appointment of the existing Dealer and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes. For the purposes of this section, references in this section to "Dealer" and "Dealers" also refers to any Dealer or Dealers appointed subsequently. The Dealers are entitled in certain circumstances to be released and discharged from their obligations under the Subscription Agreement prior to the closing of the issue of the Notes.

### **United States**

The Notes have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Each Dealer has represented warranted and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that, except as permitted by the Dealer Agreement, it has not offered, sold or delivered and will not offer, sell or deliver the Notes of any identifiable Tranche, (a) as part of their distribution at any time or (b) otherwise until 40 days after completion of the distribution of such Tranche as determined and certified to the Issuer by the relevant Dealer or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act, if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

## **Interests of natural and legal persons involved in the issue/offer**

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in financing, in investment banking and/or commercial banking transactions and may perform services for the Issuer and its affiliates in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions, which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. The relevant Final Terms will specify any other interests of natural and legal persons involved in each issue/offer of Notes under the Programme. For the avoidance of doubt, for the purpose of this paragraph the term "**affiliates**" also includes a parent company.

## ANNEX 1 FURTHER INFORMATION RELATED TO INFLATION-LINKED NOTES

The Issuer can issue Notes which are linked to an Inflation index pursuant to the Programme, where the underlying index is either (i) the CPI (the "**CPI Linked Notes**"), (ii) the U.K. Retail Price Index (RPI) (all items) published by the Office of National Statistics ("**RPI Linked Notes**") or (iii) the Non-revised index of Consumer Prices excluding tobacco, measuring the rate of inflation in the European Monetary Union excluding tobacco published by Eurostat (HICP) ("**HICP Linked Notes**"). The following information provides an explanation to prospective investors about how the value of the Inflation-Linked Notes is affected by the value of the underlying index.

### **"CPI" or "ITL" – Inflation for Blue Collar Workers and Employees – Excluding Tobacco**

"**Consumer Price Index Unrevised**" means, subject to the Conditions, the "*Indice dei prezzi al consumo per famiglie di operai e impiegati (FOI), senza tabacchi*" as calculated on a monthly basis by the ISTAT – Istituto Nazionale di Statistica (the Italian National Institute of Statistics) (the "**Index Sponsor**") which appears on Bloomberg Page ITCPIUNR (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor, for the purpose of displaying the level of such index), *provided that* for the purposes of the calculation of the Rate of Interest and the Final Redemption Amount, the first publication or announcement of a level of the Index (excluding estimates) by the Index Sponsor for a given month shall be final and conclusive and later revisions of the level for such month will not be used in any calculations.

### **UK Retail Price Index**

The U.K. Retail Prices Index (the "**RPI**") is the most familiar general purpose domestic measure of inflation in the UK. The RPI has been used as a measure of inflation since 1947 and measures the average change from month to month in the prices of goods and services purchased by most households in the UK. The spending pattern on which the RPI is based is revised each year, mainly using information from official expenditure and food surveys.

RPI is compiled by the UK Office of National Statistics (the "**ONS**") using a large and representative selection of approximately 650 separate goods and services for which price movements are regularly measured in approximately 150 areas throughout the UK. Approximately 120,000 separate price quotations are used each month in compiling the RPI. The UK Government uses the RPI for its own existing inflation-linked Notes. If prices rise compared to the previous month, the RPI goes up and if prices fall compared to the previous month, the RPI goes down. It takes a couple of weeks for the ONS to compile the index, so they publish each month's RPI figure during the following month, i.e. the figure relating to February will be published in March. The RPI figures used in the calculation of interest payments on the RPI Linked Notes and the amount due to be repaid on the RPI Linked Notes at redemption are numerical representations of where prices on a list of items bought by an average family stand at a point in time, in relation to their past values.

More information on the RPI, including past and current levels, can be found at [www.statistics.gov.uk](http://www.statistics.gov.uk).

### **Eurostat Eurozone Harmonised Indices of Consumer Prices excluding Tobacco Unrevised Series Non Seasonal Adjusted**

The Eurozone Harmonised Index of Consumer Prices excluding Tobacco (HICP), as calculated and published by EUROSTAT and the national statistical institutes in accordance with harmonised statistical methods (the "**HICP**") is an economic indicator constructed to measure the changes over time in the prices of consumer goods and services acquired by households in the Eurozone. Following the Maastricht Treaty, the HICPs have been used as convergence criteria and the main measure for monitoring price stability by the European Central Bank in the Euro area, as well as for use on international comparison.

HICP is the aggregate of the Member States' individual harmonised index of consumer prices excluding tobacco ("**Individual HICP**"). Each country first publishes its Individual HICP in conjunction with its consumer price index. Thereafter, Eurostat aggregates the Individual HICPs and publishes an HICP for the Eurozone, as well as a breakdown by item and by country. In any specific year, each country's weight in the HICP for the Eurozone equals the share that such country's final household consumption constitutes within that of the Eurozone as a whole for the year that is prior to that specified year. These weights are re-estimated every year in the January publication of the HICP.

HICP is said to be harmonised because the methodology and nomenclatures for the index of prices are the same for all of the countries in the Eurozone and the European Union. This makes it possible to compare inflation among different Member States of the European Union. Emphasis is placed on the quality and comparability of the various countries' indices.

HICP is calculated as an annual chain-index, which makes it possible to change the weights every year. This also makes it possible to integrate new entrants, as in the case of Greece in January 2001. If a new entrant is integrated in a specific year, it is included in the Eurozone HICP starting from January of that year. The new Member State's weight is included in the annual revaluation of the HICP.

HICP is published every month on Eurostat's internet site, according to a pre-determined official timetable. Publication generally occurs around the 14th – 16th day of the following month. If a revision is made, it is published with the HICP of the following month.

### ***Base Year Change***

In Europe, the national statistics institutes change the base year of their price indices every 5 to 10 years. This procedure is necessary to ensure that the index follows changes in the consumption pattern through a new consumer spending nomenclature. The resetting of the base generally accompanies changes in the definition of household consumption that occur when the national accounting system is modified. Since 2006, the index reference period has been set to 2005 = 100. In order to obtain a common price reference period, too, the weights for each year are "price updated" to December of the previous year.

More information on the HICP, including past and current levels, can be found at: <https://ec.europa.eu/eurostat/web/hicp>
