Matt is highly regarded by lawyers, companies, board members and government agencies. Matt has built a reputation for delivering excellence and identifying evidence through a combination of team skills to confront challenging situations or business problems. Often this has meant responding and advising a client crisis. Being responsive and able to identify the initial actions and skills required provides clients with a strong basis to achieve a successful outcome.

With over 30 years investigative and consulting experience, the diversity of assignments, clients and people that Matt has dealt with cover the spectrum of scenarios. In identifying emerging issues for his clients and the broader market, Matt has led McGrathNicol in expanding services to assist clients combat geopolitical threats, cyber, financial crime and foreign interference.

Matt has been recognised over many years for contribution to the not-for-profit sector, indigenous communities and business, charitable organisations and in the field of fraud research and prevention. He is committed to assisting his clients get the best outcome possible.

Engagement Experience

▪ Regulatory investigations

Financial markets investigations, release of market sensitive or confidential information, insider trading, market manipulation, financial advice irregularities and collusion.

▪ Fraud & corruption investigations

Assisting clients with high profile matters to address serious allegations. A large portfolio of matters involving financial crime, asset misappropriation, fraud, bribery, corruption, conflicts of interest, theft of IP and false representation through to legal proceedings.

▪ Digital assets and funds tracing

Engaged as independent expert on a range of complex cryptocurrency and fund tracing engagements. As well as supporting various receivership and insolvency engagements involving the identification and tracing of digital assets. Matt has also assisted clients to identify, reconcile and trace lost or stolen digital assets to help determine potential avenues for recovery in both criminal and civil proceedings.

▪ Security risk advisory

Since 2019, Matt has developed a highly specialised security risk advisory team combining cyber, foreign interference, insider threat, enhanced due diligence and forensic investigations skills. With a changing geopolitical and regulatory environment, the team have assisted government and corporate clients.
