John is an eDiscovery specialist with over 20 years' experience working in litigation and investigations focusing on evidence management, disclosure and the use of technology.

John regularly works with law firms, barristers and government agencies throughout New Zealand assisting with discovery projects, regulatory responses, processing evidence, document review and disclosure.

John founded and managed New Zealand's first specialist litigation support company and introduced the first large scale deployment of eDiscovery software services throughout New Zealand. He also worked as a Director in a New Zealand Big 4 accounting firm, leading their eDiscovery service for three years.

John regularly advises law firms with compliance on the New Zealand High Court Discovery Rules and provides education to the profession by the way of eDiscovery seminars.

Engagement Experience

- Assisted New Zealand Police with Royal Commission of Inquiry including evidence management, technology and secondment of staff.
- Introduced and deployed eDiscovery solutions to government agencies such as Commerce Commission, Inland Revenue, FMA, NZ Customs MAF, IPCA and NZ Police.
- Assisted Royal Commission of Inquiry (NZ Disaster) with software and disclosure services and trial presentation.
- Assisted NZ Police with large scale mortgage fraud matter including disclosure and the presentation of evidence in court.
- Provided advice and assisted an NZ Regulator with the setup of electronic courtrooms for several high-profile finance company trials.
- Assisted an NZ Regulator with discovery services in multiple cartel investigations including the processing and management of the evidence.
