Rivlow Portables located in Hopeland, Western Australia, builds 8-10 portable homes each month. For this project, kaboodle cabinetry was used, and with the assistance of their local Trade Territory Manager, the project was a huge success. Completed in just two months, this portable home featured our kaboodle macaroon doors and panels, as well as our luxurious biancoccino benchtops in both the kitchen and laundry. This project, showcases kaboodle's affordable, available and versatile range, making us a great option for tradies looking to achieve quality results for their clients, in such a short time frame.
