the importance of accessible kitchens

An accessible kitchen should make everyday life easier. Whether you're planning for ageing in place, adapting to support a multigenerational home, living with a physical impairment or workplace injury, kaboodle helps to create a kitchen that's comfortable and practical.

our accessible kitchens can be installed in both new builds and existing dwellings

new builds

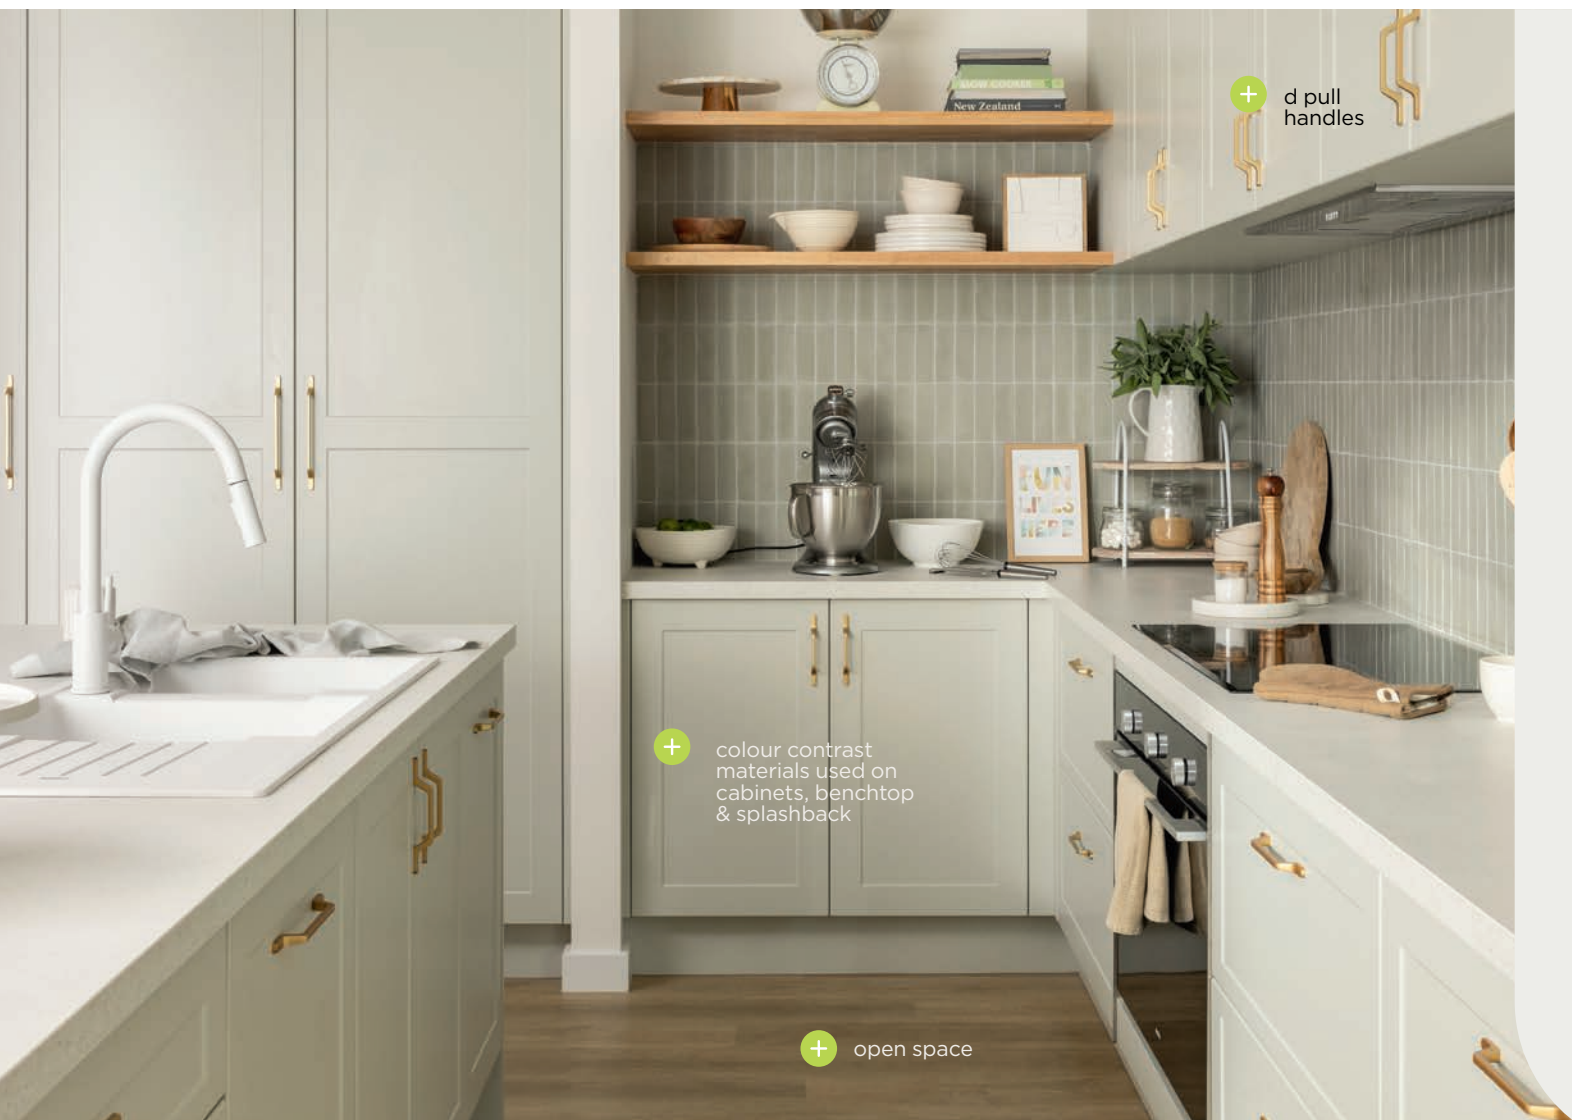

- Scalable, repeatable preset designs are carefully planned and can be matched with the existing kaboodle offerings for standard designs.

existing dwellings

- For people looking to modify their existing homes so they can live comfortably for longer, with a range of stylish options to suit any space.

types of accessible kitchens

Note: kaboodle is compatible to use with various adjustable height benchtop lift mechanisms.

improved liveability

Kitchens designed to support people living with sensory, intellectual, cognitive or ambulant needs. These designs focus on environments that enhance independence by prioritising comfort, safety and accessibility.

fully accessible

Incorporating a higher level of physical impairments. Spaces to accommodate mobility aids and promote independent living.

doors, panels and benchtops

An accessible kitchen doesn't have to compromise on style. With an extensive choice of door and benchtop colourways, we can achieve a designer look that still meets all functional requirements.

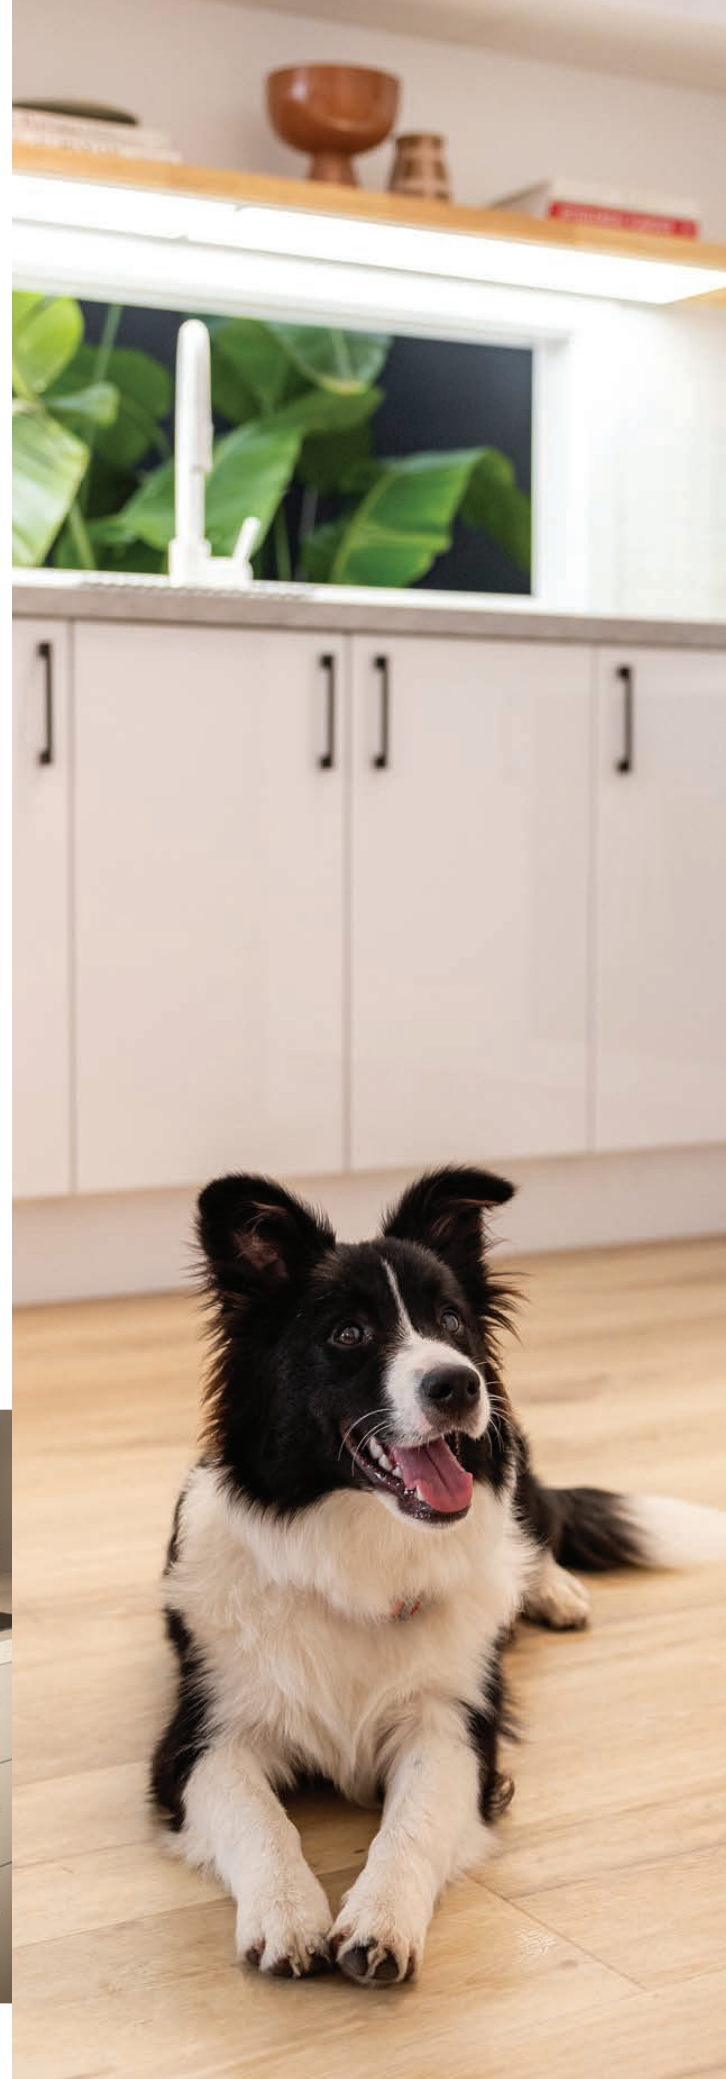

doors & panels

We have 6 high-quality door colours available off the shelf or via quick delivery.

We also have a huge range of extended lead time colours that can be ready to install in 4-6 weeks.

benchtops

With a choice of over 15 customisable benchtops, our range can be tailored to include **30-degree safety corners**.

accessories for accessibility

In accessible kitchens, accessories are an integral part of the design. Kaboodle accessories are designed to integrate seamlessly with our cabinet systems, helping deliver consistent, functional kitchen solutions that provide durable kitchens for long-term use.

wireware

Explore our wide range of wireware, designed to improve organisation and accessibility. With easier access to everyday items, our wireware solutions will improve the functionality of any space.

handles

Created for comfort and accessibility, our stylish D-pull handles are easy to grip and are integrated into our set and bespoke SDA compliant kitchen designs.

integrated bins

Tucking neatly behind closed doors, kaboodle integrated bins easily open and glide forward in one smooth motion.

LED lighting

Under-cabinet task lighting enhances kitchen accessibility by illuminating benchtops and work surfaces, making food preparation safer and more precise.
