KITCHEN

hanging kitchen storage to install into the wall

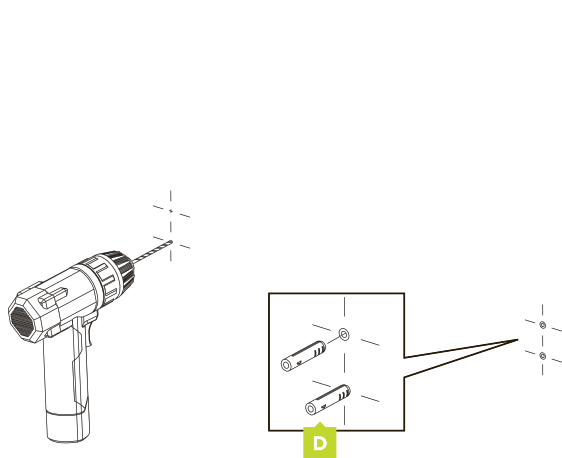

step 1.

Use the two accessory screws to assemble the wall brackets to the ends of the rail. Join the two rails together using the connecting screw.

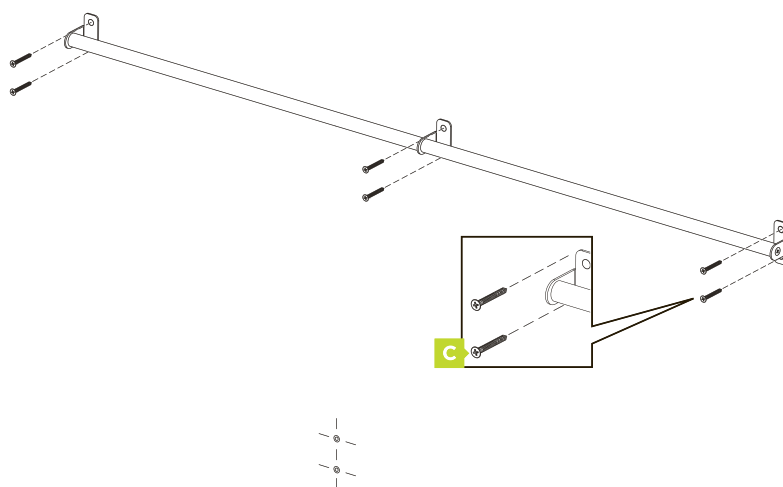

step 2.

Mark out and pre-drill 6 holes on the wall using the assembled rail as per the diagram above. Use the level to make sure rail is straight

step 3.

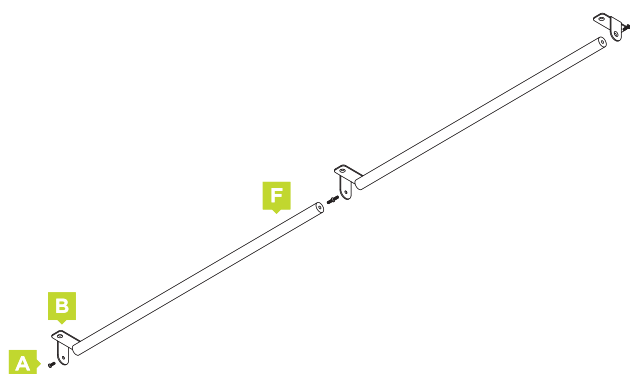

Using an 8mm drill bit, pre drill marked out holes to a depth of 40mm. Insert the six wall plugs into the holes.

step 4.

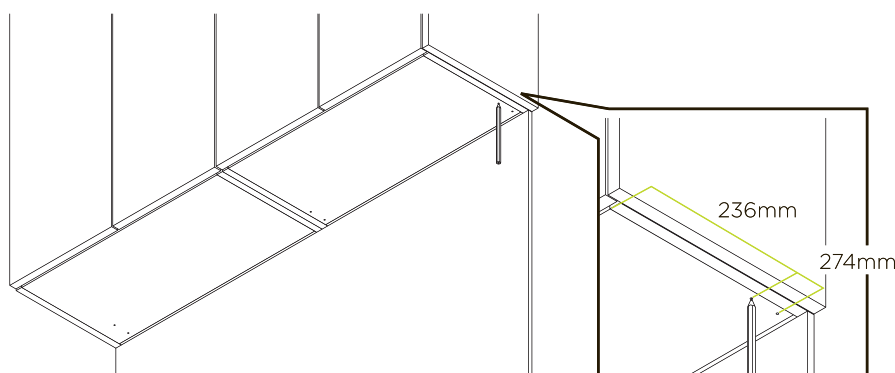

Align the assembled rail with the pre-drilled holes and using the wall screws, fix the rail to the wall.

hanging kitchen storage to install under the cabinet

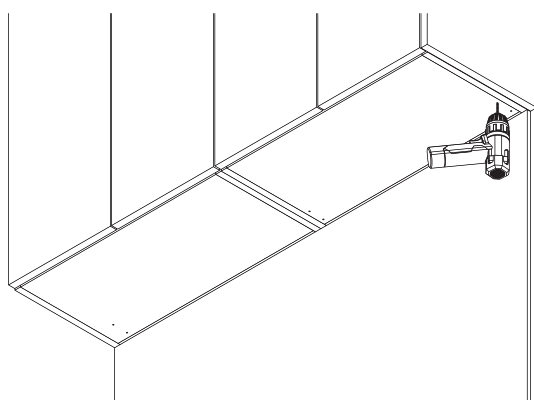

step 1.

Use the two accessory screws to fix the wall brackets to the end of the rail.

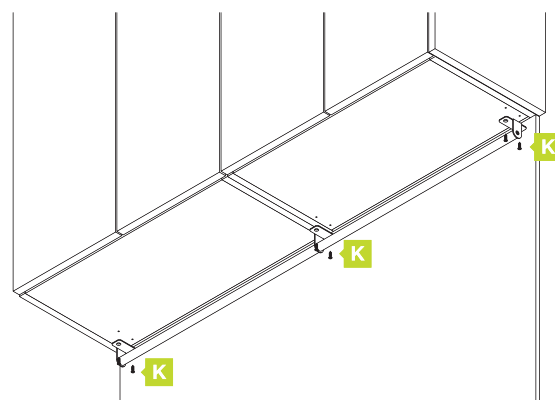

step 2.

Mark out and pre-drill 6 holes on under the wall cabinet using the assembled rail as per the diagram and dimensions above.
Note: dimensions are measured starting at the front edge of the cabinet

step 3.

Using an 2.5mm drill bit pre-drill the marked out holes to a depth of 3mm

step 4.

Align the assembled rail with the pre-drill holes and using the cabinet screws, fix the product to the cabinet.

Caring for your kaboodle parts and accessories

Looking after your cabinets is really easy and with the right care and maintenance they will last you for many years. Just follow these simple steps and if you need any more information you can contact us: Australia: **1800 666 078** Monday to Friday between 8:00am and 6:00pm AEST. New Zealand: **0800 522 663** Monday to Friday between 8:00am and 5:00pm NZST or email: **info@kaboodlegroup.com.au**.

Hinges, runners and other parts and accessories should be kept dry at all times.

To keep the mechanisms performing at their best, regularly wipe them with a dry cloth removing any dust and grime that may build up.

We offer a dedicated customer service line for advice or any questions you may have on kaboodle products.
