what is Specialist Disability Accommodation (SDA)?

Specialist Disability Accommodation (SDA) is housing that is purpose-built or modified for NDIS participants who live with functional impairment or very high support needs. It focuses on the physical design of the home, ensuring it is safe, accessible and comfortable.

building for SDA

Every SDA project has unique compliance requirements. Each design aims to meet an SDA category, with stringent criteria based on the needs of the participant who will occupy the space. The design and finished build are validated by an independent SDA assessor for funding under the NDIS.

the kaboodle trade difference

When it comes to SDA, kaboodle trade offers cost effective, practical and fully compliant accessible kitchen solutions through Bunnings Trade.

Take advantage of our free design service that provides scalable, repeatable preset SDA compliant kitchen designs, along with tailored accessible kitchen design solutions for your project.

Our dedicated kaboodle trade division alongside Bunnings Account Managers are available support you with expert advice and project support every step of the way.

Created in collaboration with leading SDA assessors, our accessible kitchen designs support a range of SDA categories and provide total peace of mind for project compliance. By choosing kaboodle through Bunnings Trade, you get the trusted speed, value and availability of kaboodle, backed by specialist SDA expertise.

where SDA kitchens are installed

Our SDA compliant kitchens can be installed in both new builds and existing dwellings.

new builds

- Including purpose-built dwellings by investors or developers, specifically designed to meet the needs of individuals living with impairments.
- Scalable, repeatable preset designs are carefully planned to ensure all requirements are met in line with SDA criteria.

existing dwellings

- Individuals who require modifications to their existing homes allowing them to stay in place for longer.
- Tailored SDA compliant kitchens that don't compromise on style, with kaboodle's extensive range of colours and profiles.

SDA kitchen categories

improved liveability

Provides support for people living with sensory, intellectual, cognitive or ambulant impairment.

This design category focuses on environments that enhance independence by prioritising comfort, safety and accessibility, while reducing reliance on caregiver support.

fully accessible and high physical support

Incorporating a higher level of physical impairments and high support level. Spaces need to accommodate wheelchairs, carers and promote independent living.

This category removes physical barriers and ensures every area of the home is easy to navigate.

Note: kaboodle is compatible to use with various adjustable height benchtop lift mechanisms. Consult your kaboodle trade manager for a solution to suit your project needs.
Please note: kaboodle joinery is not currently available for the robust SDA category.

doors, panels and benchtops

An SDA compliant kitchen doesn't have to compromise on style. With an extensive choice of door and benchtop colourways, your client can achieve a designer look that still meets all functional requirements.

doors & panels

We have 8 high-quality door colours available off the shelf or via quick delivery.

We also have a huge range of extended lead time colours that can be ready to install in 4-6 weeks.

cabinet guards

Designed to fit securely over hinge plates, this advanced guard provides superior protection against cabinet damage.

benchtops

With a choice of over 20 customisable benchtops, our range can be tailored to include **30-degree safety corners**.

kitchen accessories

In SDA projects, accessories are an integral part of accessible kitchen design. Kaboodle accessories are designed to integrate seamlessly with our cabinet systems, helping deliver consistent, functional and kitchen solutions that meet assessment and provide durable, accessible kitchens for long-term use.

wireware

Make every item easy to access with our smart wireware solutions, featuring blind corner pull-out shelves, pull-down overhead cabinet racks and pull-out pantries.

handles

Created for comfort and accessibility, our stylish D-pull handles are easy to grip and are integrated into our set and bespoke SDA compliant kitchen designs.

integrated bins

Tucking neatly behind closed doors, kaboodle integrated bins easily open and glide forward in one smooth motion.
