## optibelt FRICTION WELDER RS02

# JOINING TOOLS

## Friction welding tool RS02 for round belt, V-belt and special profiles

### ADVANTAGES OF THE RS02:

- Precision clamping jaws and automatic 0 setting prevent offset welded seams
- Speed-controlled frictional heat guarantees a 100% weld
- No poor welding seams caused by temperature fluctuations or draughts
- 230V power setup available

### ACCESSORIES FOR THE FRICTION WELDING TOOL RS02:

- Friction welding device
- 1 set of standard clamping jaws of choice
- 1 Allen key
- 1 shears AS02
- 1 side cutter SE02
- 1 carrying case with rigid foam lining

### STANDARD CLAMPING JAWS:

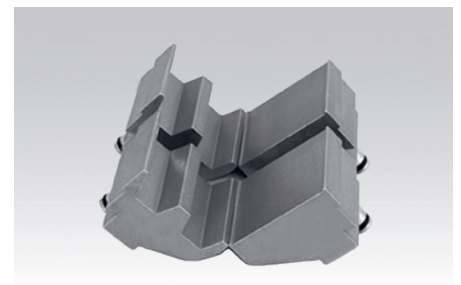

- available as an accessory in a set
- For round belts, Ø 6 mm to 20 mm
- For V-belts, 6 x 4 mm to 22 x 14 mm
- For various special profiles

**FOR ROUND BELTS**

**FOR V-BELTS**

**FOR SPECIAL PROFILES**

Further standard clamping jaws for round belts and V-belts are available at additional cost.

We can also produce clamping jaws for special PU profiles on request.
