

PRESS RELEASE

Denecke + Leuzinger AG now stocks the complete range of optibelt RED POWER 3 V-belts

A partnership milestone for maximum availability and high-performance drive solutions

Höxter/Switzerland, 8 June 2026. The successful partnership between Optibelt AG and Denecke + Leuzinger AG has reached another important milestone: Since May 2026, Denecke + Leuzinger has kept the complete range of optibelt RED POWER 3 V-belts in stock. This significantly improves availability for customers in Switzerland.

The strategic inventory expansion underlines both companies' commitment to providing industrial and commercial customers with reliable, high-performance drive solutions whenever they need them.

Maximum performance when it counts

The optibelt RED POWER 3 V-belt delivers maximum performance under demanding conditions. Designed as a wrapped high-performance V-belt, it is used wherever conventional solutions reach their limits. Whether high loads, difficult ambient conditions or complex drive problems are involved, optibelt RED POWER 3 is designed to deliver reliable performance in precisely these situations and enable lasting solutions.

Availability backed by expertise and experience

Denecke + Leuzinger AG has been among Switzerland's leading providers of power transmission technology for decades. The company is known for one of the best-stocked inventories in the country as well as for its in-depth technical expertise. Customers benefit from short delivery times, expert advice and a deep understanding of individual applications.

Expanding the optibelt RED POWER 3 range held in stock is a logical step in this development and further strengthens Denecke + Leuzinger's position as a reliable partner for demanding drive solutions.

Strong partners with a long tradition

Both Optibelt and Denecke + Leuzinger draw on decades of experience. The Optibelt Group has long been recognised worldwide for its high-quality drive belts and its commitment to innovation “Made in Germany”.

Denecke + Leuzinger has continued to evolve as an established Swiss specialist, combining tradition with state-of-the-art warehouse logistics and technical expertise.

About Optibelt

The Arntz Optibelt Group is one of the leading global manufacturers of high performance drive belts and develops sophisticated drive and product solutions for use in mechanical engineering, the automotive industry, agricultural machinery, household appliances and the medical sector. The family-run company controls nine production sites in seven countries from its headquarters in Höxter and maintains its own logistics and sales centres in Europe, North and South America, Asia, North Africa, Australia and New Zealand. Worldwide more than 2400 employees provide the best possible service, excellent customer proximity and the highest quality and safety standards.
