optibelt **SECURE SCAN**

optibelt SECURE SCAN

Your curtain, your dimensions – our service

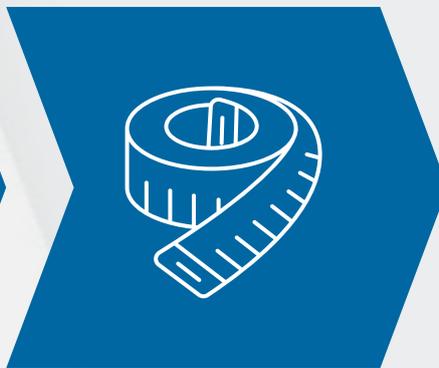

optibelt SECURE SCAN offers you a service that will simplify and accelerate your processes. You simply select one of our high-quality materials, state your specific dimensions – and we supply the finished curtains, ready for immediate installation in your machine. Very simple, very precise!

HOW DOES IT WORK?

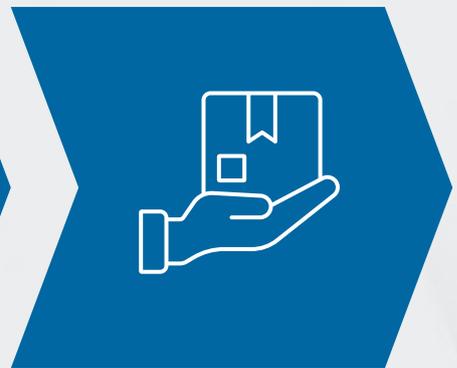

Select a material:

Choose a material that meets your specific requirements.

Specify the dimensions:

Let us know the height and width, and the fastening details.

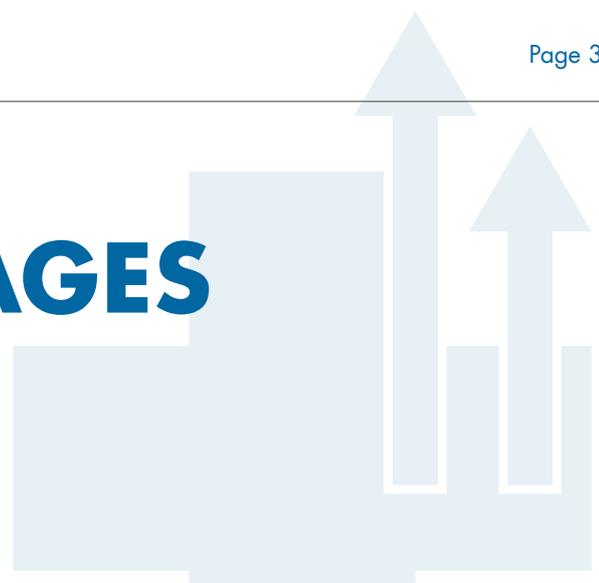

Receive your curtain:

You receive the finished product, ready to use in your machines.

YOUR ADVANTAGES

at a glance

Made to measure:
Perfectly cut to your specified dimensions.

High precision: Ultra-modern cutting technology guarantees dimensional accuracy.

Resource conserving:
State-of-the-art technology reduces waste.

Original quality:
Our goods are the genuine article.

Time savings:
No effort on your part for cutting to size.

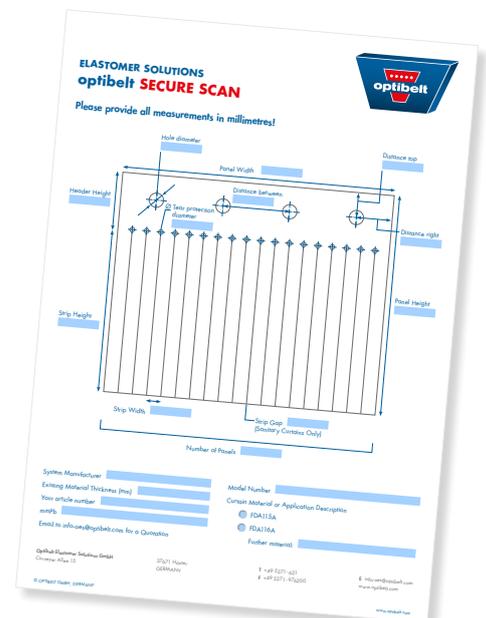

Ready for immediate use:
No further processing steps required.

Rapid availability: Available from stock, to ensure short delivery times and quick replacements.

ORDER FORM

Simply fill out and order

Fill out our user-friendly order form to start using **optibelt SECURE SCAN** quickly and effortlessly. Just scan the QR code below to call up the form.

OUR MATERIALS

for your success

Our materials have been specially developed to comply with the highest standards in industry, food production and hygiene. Since each material has unique properties regarding flexibility, wear-resistance or chemical resistance, you can always find the ideal material for your application.

Whether you need to use the material in your machines, under extreme conditions, or in direct food contact – you will find the perfect solution for your needs here.

Choose from our wide selection and use our **optibelt SECURE SCAN** service too, so that your products are ready for immediate use.

optibelt SECURE SCAN Strong

FDA 115A

Rubber

Black

0.125 mm Pb
0.25 mm Pb

min. 2000 g/m²

FDA

-40 °C
to +70 °C

APPLICATIONS

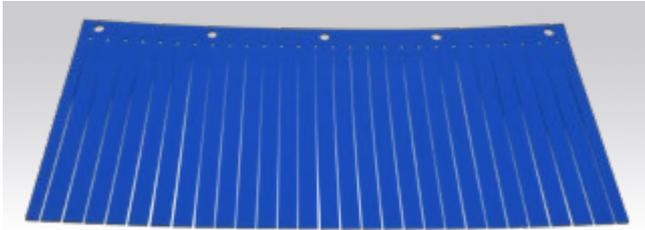

This product is specially designed for curtains used with X-ray inspection systems for packaged goods in food production. Useable in direct contact with food.

ADVANTAGES AND CHARACTERISTICS

- FDA compliance test according to 21 CFR 177.2600 (e) and 177.2600 (f)
- Good temperature resistance
- Excellent flexibility
- High abrasion resistance ensured by extremely smooth surfaces
- Coated on both sides
- With reinforcing fabric inlay
- Material made according to good manufacturing practices
