KTM MOTOHALL

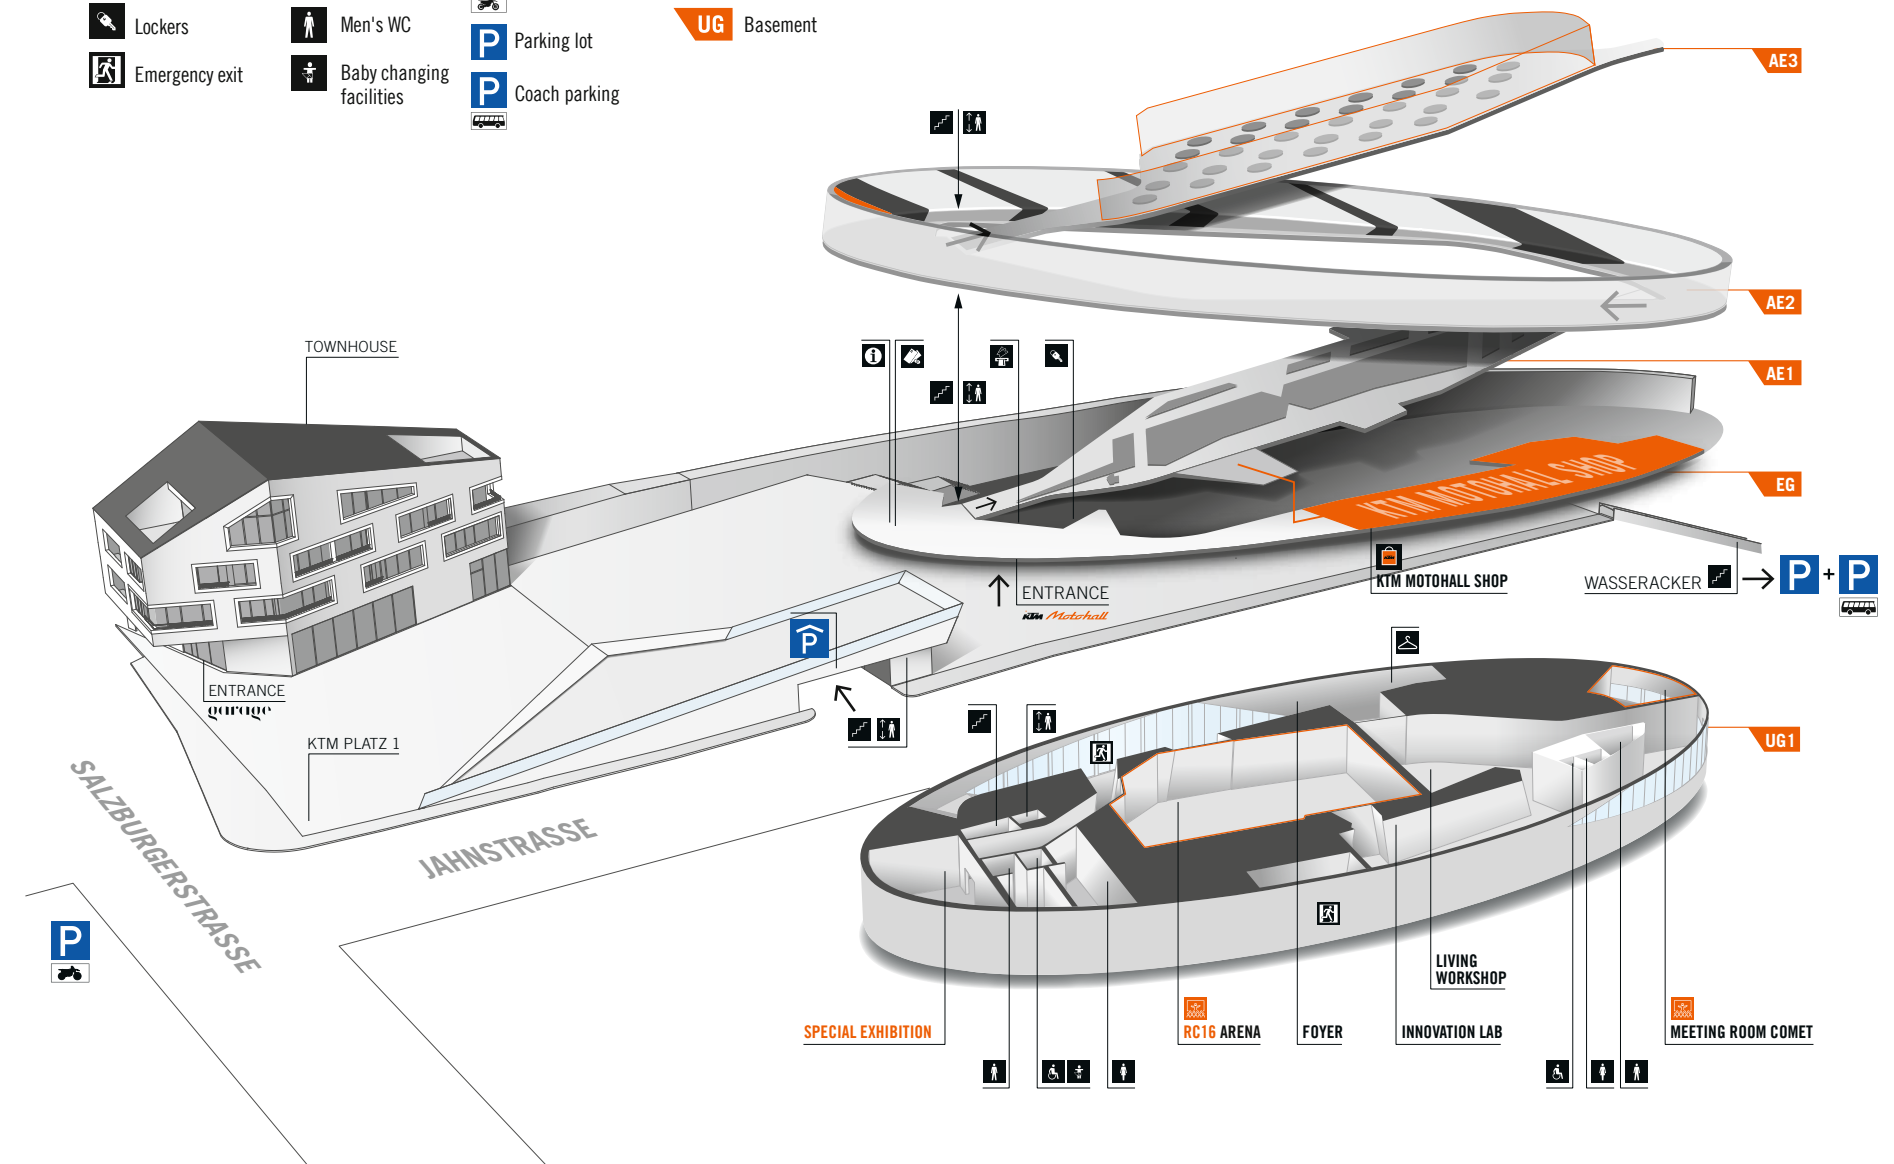

Just a few steps away from the very first factory owned by KTM's founder, Hans Trunkenpolz, lies the spectacular KTM Motohall. Completed in 2019, it took three years to build the 9,600 m² space made from exposed concrete, aluminum, and terrazzo. The striking facade reflects what awaits in the action-packed exhibition – the READY-TO-RACE spirit is embodied in every part of the museum. The three floors of exhibits and the KTM Motohall Shop are accessible via sloped walkways, while the living workshop and event area can be reached in the elevator.

ACCESSIBILITY

The KTM Motohall's special design enables easy access for older visitors and people with disabilities. The building also has elevators and restroom facilities. The floor of the entire exhibition space is gently sloped, with a 4% incline throughout.

EXHIBITION & GUIDED TOURS

Why not take a guided tour through the KTM Motohall? Our trained guides will show you around the three floors of exhibits, giving you a look behind the scenes of KTM. Alternatively, you can discover the world of KTM on a self-guided tour with an audio guide. A professional narrator guides you through 17 stations of the KTM Motohall as you explore the exhibition pieces and try out the interactive modules for yourself. Immerse yourself in the exhibition at your own pace and listen as our explainers tell you about the history, innovations, and technology showcased at each station.
