NOTES

Dear Partner,

First of all, thank you. Your trust, your business, and your ongoing collaboration mean a lot to us. We truly value the partnerships we've built together, and we don't take that for granted.

We're excited to present this new catalog, filled with our latest releases and the next steps in our journey. Over the past period, we've continued to invest heavily in developing our own brands, refining them to deliver the right balance of quality, pricing, and strong in-store and online performance. At the same time, we are proud to further strengthen our portfolio of import hero brands, ensuring we offer you leading concepts across every key category.

Our focus is simple: helping you succeed. That means better products, clearer positioning, and stronger support. From improved packaging and storytelling to reliable stock and full EU compliance, everything we do is aimed at creating real value for you and your customers.

We believe in long-term partnerships, built on transparency, consistency, and shared growth. This catalog reflects that commitment. It is designed to inspire, to support your sales, and to give you the tools to stand out in your market.

We are excited about what lies ahead and look forward to continuing this journey together.

Thank you for being part of it.
Kind regards,

Hein Schouten

Introducing SPACE BORN | HELLSPAWN | IMP DEMON | CHIMERA | VEIN MASTER | DEEP SEA HYDRA | GALACTIC HYDRA | GALACTIC NIGHT FIEND | AND MANY MORE...

Pulled straight from the gritty imagination of **1970s grindhouse horror**, the Fiction Cocks collection channels the strange, the grotesque, and the unforgettable. Inspired by the hand drawn poster art that defined the era, each design leans into exaggerated forms, bold textures, and that unmistakable creature feature aesthetic.

Echoes of cult classics like the Creature from the Black Lagoon, Zaat, werewolves and other obscure creature born and mutations can be found throughout the range. Unpolished, experimental, and unapologetically strange, each piece feels like it could have crawled straight out of a forgotten midnight movie.

The collection offers a wide range of SKUs, each with its own distinct shape and character. Built around variation and visual impact, every item stands on its own while still fitting within the same bizarre universe.

Packaging is stripped back to the essentials. Each product is shrinkwrapped, putting full focus on the toy itself and keeping pricing sharp and accessible. No unnecessary layers, no distractions, just the raw concept in its purest form.

A collection that embraces cult horror at its core, where strange design, vintage influence, and straight forward presentation come together without compromise.

What Creature are you riding tonight

LE DÉSIR®

This season of Le Désir is inspired by a flirty little Parisienne attitude and a distinctly European kind of sexy.

This collection explores the erotic through cupless bras, crotchless details, sculpting bodystockings and statement strapping. The pieces frame and contour the body, creating a feeling of soft bondage and confident sensuality which our customers know and love.

It's bold, but considered. Provocative and polished.

British-designed with a strong European influence, this collection offers something elevated within the erotic space. It is fashion-led, body-conscious, and designed to empower the woman who buys it.
