

THE MOST EFFECTIVE DE-ESCALATION TOOL FOR HOSPITALS

PROTECT LIFE WITH TASER DEVICES

Keep your guards, staff and patients safe without the danger of firearms

/ SAFER FOR ALL

Equip your guards with a less-lethal tool to de-escalate conflict. Studies show that the use of TASER CEWs (Conducted Energy Weapons) has resulted in a **70% reduction** of guard injuries and a **40% reduction** in assailant injuries.

/ DE-ESCALATE WITH CONFIDENCE

In a long-term healthcare study, display of a TASER device **de-escalated 80%** of situations without the need for use of force.

/ PROVEN TRACK RECORD

The TASER CEW has had over 4 million field uses and is the most-studied intermediate use-of-force option with over 800 studies affirming the safety and efficacy of the weapon.

/ IMPROVED OUTCOMES

Reduce concerns in abuse of force and inappropriate behavior by pairing your TASER CEWs with Axon Evidence (Evidence.com), which provides TASER usage data for a greater understanding of deployment and needs.
