Painting of Rare Spares PUR (Polyurethane) Products

Including Armrests, Inserts, Console Lids and Dash Covers.

CAUTION

It is advised to use a Professional Automotive Painter with trade experience, as this can be intricate.

Rare Spares with the assistance from PPG Industries have developed a tried method and process for painting Rare Spares PUR Armrests.

Products below have been recommended by PPG to use in preparation, before applying *Dulon Acrylic Lacquer Topcoat Colour* to the Rare Spares Armrests:

1. SU408 - One Choice Bodykleen by PPG for cleaning plastic
2. D846 - Deltron degreasing agent by PPG
3. D816 - Deltron flexible plastic primer by PPG

For further information visit the PPG website or a PPG paint distributor.

This same painting procedure also applies to some other Rare Spares products made of the same PUR material including Armrests, Armrest inserts, Console Lids and Dash Covers.
