WORK EXPERIENCE

Sep 2016 - Present

Technical Manager
Talent For Tech, Chicago

Responsible for overseeing a variety of high- level technical projects, designs, and escalations.

- Developing professional client relationships that created a stable foundation for business opportunities.
- Offering technical support for the organization's sales activity.
- Working closely with the research and development teams at the company.

Feb 2006 - Aug 2016

Technical Manager
Porter-Compton, Dallas

Managed individual performance of workers through annual performance reviews, quarterly reviews, and regular one- on- ones.

- Created processes for effective management of incoming requests for technicians and engineers.
- Worked hands- on with other departments on support and deployment needs.
- Acted as the primary contact with team to create improvements, identify bugs, and test deployments.
- Managed the delivery of the technical domain while preserving the self- management of teams.

Dec 2003 - Feb 2006

Lead Trainer
XYZ Incorporated, Dallas

Worked to motivate others and train employees to a high competence level in networking infrastructure such as VPN, BGP, SSL, and TCP/IP.

- Trained others to have a high level of competence through motivation by example.
- Analyzed complicated data to draw conclusions and create reports.
