Work Experience

Gardener, Serenity Greenscapes, Bristol, UK | 2018 - 2024

Independently managed the maintenance of multiple residential and commercial gardens. Executed landscape design plans, ensuring optimal plant placement and aesthetic appeal. Conducted regular assessments of plant health, identified issues, and implemented corrective measures. Efficiently operated and maintained a variety of gardening machinery and tools. Established strong client relationships, resulting in a high rate of customer satisfaction.

- Led a team in successfully managing the landscaping and maintenance for 50+ residential properties and 15 commercial spaces, meeting and exceeding client expectations in terms of quality and timeliness.
- Implemented a water conservation initiative, reducing water consumption in irrigation systems by 25% without compromising plant health or visual appeal.
- Received "Best Green Space Maintenance" award from a local community association, acknowledging the positive impact on the neighborhood's aesthetics and environmental sustainability.

Gardener, Bloomfield Landscapes, London | 2014 - 2018

Assisted other gardeners in daily tasks, including planting, weeding, and maintenance. Learned and applied proper pruning and trimming techniques to enhance plant health and aesthetics. Operated and maintained various gardening tools and equipment. Collaborated with the team to execute landscape design projects.

- Received a commendation from the gardening team for consistent dedication and hard work, contributing to a harmonious and effective working environment.
- Participated in quarterly community outreach events, assisting in organising small garden-related workshops that fostered positive relationships with residents and showcased the company's commitment to community involvement.
