SHORT BIO

Dedicated and detail-orientated Dental Hygienist with over 3 years of experience delivering preventive and periodontal care across NHS and private dental settings. Skilled in scale-and-polish treatments, BPE charting, and patient education on oral hygiene and gum disease prevention. Committed to providing high standards of patient care and supporting dental teams in delivering efficient, compassionate, and evidence-based oral health services.

WORK EXPERIENCE

Registered Dental Hygienist 2023 - Present

Oakwood Dental Clinic - Solihull

Supported dentists with periodontal care, patient education, and clinical documentation across NHS and private appointments. Contributed to a positive and professional work environment by collaborating with the wider dental team to ensure efficient patient flow and continuity of care.

- Helped standardise oral health education resources used during patient consultations, improving consistency of advice across the practice
- Maintained full BPE charting and periodontal records for all patients in line with GDC and CQC requirements.

Student Dental Hygienist 2021 - 2023

University Dental Clinic - Birmingham

Completed supervised clinical placements delivering preventive care and periodontal treatment across a range of patient groups, working under the direction of qualified clinicians in a regulated university dental setting.

- Conducted oral health assessments, recorded BPE scores, and completed periodontal charts under clinical supervision
- Educated patients on brushing technique, interdental cleaning, and gum disease prevention using evidence-based oral health guidance.

EDUCATION

University of Manchester 2018 - 2022

Diploma in Dental Hygiene - Gloucester

GDC-approved programme including supervised clinical placements across NHS and community dental settings

SKILLS

Scale and polish treatments, BPE charting and periodontal assessment, Non-surgical periodontal therapy, Patient education and oral hygiene instruction, Dental radiography, Infection prevention and control, Clinical record keeping (SOE, Exact), Treatment plan support
