S. Merchants Ltd.

Sussex

London, United Kingdom, 3 April 2026

Dear Hiring Manager,

I am applying for the Consultant position at your S. Merchants Ltd. I have experience supporting strategy and operational improvement projects, with a focus on turning data into practical recommendations that improve business performance.

In my current role as a Junior Consultant, I support project teams with market research, data analysis, and client reporting across sectors, including retail and technology. On a recent operational review for a mid-sized logistics company, I analysed process data and interviewed department managers to identify inefficiencies in inventory management. The project resulted in a set of recommendations that streamlined supplier coordination and reduced stock holding costs by approximately 12% within six months.

Working closely with analysts, managers, and client stakeholders has strengthened my ability to present complex findings in a clear and structured way. I regularly contribute to client presentations and internal strategy discussions, helping translate analytical insights into practical actions that support long-term business planning.

I am particularly interested in consulting because [insert passions, interests, motivations]. I would welcome the opportunity to contribute [insert specialisms or skills] to [include name of company]'s consulting team. Thank you for your time and consideration, and I look forward to discussing how my experience could support your clients and projects.

Kind regards.

Samantha Thompson
