Analytica Ltd.
Glasgow

Edinburgh, 5 August 2026

Dear Hiring Manager,

I'm writing to express my keen interest in the Data Analyst Internship at Analytica Ltd. As a final-year Data Science student at the University of Edinburgh.

I'm eager to apply my skills to real-world challenges. My coursework has given me a strong foundation in statistical analysis, machine learning, and data visualisation. I've applied these skills in projects such as predicting bus arrival times using public transport data, achieving 85% accuracy through time series analysis and machine learning. I'm particularly drawn to Analytica's commitment to leveraging data for social good.

Your recent project on optimising food bank distributions aligns perfectly with my passion for using data to make a positive impact. While I may be at the start of my data science journey, I bring a fresh perspective, strong analytical skills, and an insatiable curiosity. I'm excited about the opportunity to contribute to your projects and grow under the guidance of your experienced team.

Thank you for your consideration. I look forward to discussing how I can contribute to Analytica's mission of driving innovation through data-driven decision-making.

Yours sincerely,
Fiona McTavish
