User-first thinking

WORK EXPERIENCE

School Design Project – Mobile App Prototype, Harrow Sixth Form College, 2023

Collaborated with a small team to design a prototype app for managing student wellbeing. Researched user needs, developed wireframes, and presented final designs to staff and peers.

- Prototype shortlisted for the college’s annual design showcase, highlighting innovation and user-first design.
- Presented design concepts to an audience of 50+ peers and tutors, receiving recognition for clarity and creativity.

Freelance Poster & Branding Work, 2022

Designed posters and social media graphics for local community events and a small online shop.

- Created branding assets that increased client social media engagement by 25%.
- Helped a local event increase ticket sales by designing promotional posters that were distributed across community spaces.
