Deloitte
London

London, 6 August 2026

Dear Hiring Manager,

I am excited to apply for the Data Analyst Trainee position at Deloitte., as advertised on your company's website. I am a third-year student in Mathematics and Statistics at the University of Manchester, eager to channel my academic knowledge and practical skills in Python, PowerBI, and R to practical projects within your esteemed organisation.

During my studies, I have built a strong foundation in data analysis techniques, including regression, predictive, and factor analysis. Additionally, the courses in machine learning and data science have provided me with hands-on experience in manipulating complex datasets and deriving comprehensive and easy-to-read insights.

My excellent attention to detail, communication and problem-solving skills make me a great addition to your team to excel as a data analyst trainee. My commitment to innovation and continuous learning closely aligns with Deloitte's mission of pushing the boundaries of data analysis to deliver transformative solutions.

I am keen on discussing further how my skills and enthusiasm align with Deloitte's needs at a job interview. Thank you for your time and consideration of my application.

Yours sincerely,
Pria Patel
