ISO14001:2015 CLAUSE 5.2 ENVIRONMENTAL POLICY STATEMENT

Founded in 2015 with the express intent of being 'Where Live Industry Lives', Production Park is committed to develop and deliver our core products and services whilst minimising any adverse impact to the environment and preventing pollution.

The scope and context of this policy includes, but is not limited to;

The Environment, Employees, Suppliers, Customers and our Neighbours.

Production Park's EMS is designed to meet the ISO 14001:2015 standard and comply with relevant environmental legislation.

The Management Team are fully engaged with the environmental management system and are responsible for ensuring that the policy is implemented, maintained, communicated and understood by all personnel and all affected parties.

Production Park strives to achieve environmental best practice throughout our business activities by:

- Reviewing regularly all environmental aspects of the organisation and working towards objectives and targets to promote continual improvement.
- Continually examining our operations and processes to ensure best use of resources, minimise waste and maximise the use of suitable recycled materials by segregating waste, where economically and operationally viable.
- Complying with all relevant legislation and striving to exceed requirements where this is practicably possible and appropriate.
- Assisting and encouraging our suppliers in formulating their own environmental policies and the development of environmental management systems.
- Seeking to integrate environmental considerations into future business policy decisions.
- Monitoring and aiming to reduce energy consumption, where reasonably possible.
- Communicating this policy as appropriate to employees, customers and suppliers and making the policy available on our website.

Signed:

Chief Operations Officer
