- Co-founder, EpiTherapeutics (acquired by Gilead)
- Operational experience in addition to expertise in target ID, target validation and drug discovery

### **Helene Damhofer**

Senior Scientist, BiOrigin Labs

#### **Key roles**

- Postdoctoral Fellow, The Institute of Cancer Research and Memorial Sloan Kettering Cancer Center
- Molecular biologist experienced in target discovery and MoA studies in epigenetics and oncology

### **Itys Vacher-Comet**

PhD, Senior Scientist, BiOrigin Labs

#### **Key roles**

- Assistant Professor, University of Copenhagen
- Scientific Consultant, Inthera Bioscience
- Expert in chromatin and gene regulatory mechanisms involved in cancer

## **Kasper Langebjerg Andersen**

PhD, Senior Scientist, BiOrigin Labs

### **Key roles**

- Assistant Professor, University of Copenhagen
- Postdoctoral Fellow, University of California Berkeley
- Expert in RNA biology and oncology

## **Luis Toledo**

PhD, Senior Scientist, BiOrigin Labs

### **Key roles**

- Associate Professor, University of Copenhagen
- Co-founder, Nodus Oncology
- Expertise in oncology, DNA replication, DNA repair, HCS, drug discovery and development

## **Jonatan Fullerton Støier**

PhD, Senior Scientist, BiOrigin Labs

### **Key roles**

- Neuroscientist, expert in imaging techniques, cell-based assay development and transgenic mouse models

**Ulla Toftegaard**  
Technician, BiOrigin Labs

**Key roles**

- 30+ years in molecular and cellular biology, protein chemistry, assays

**Anette Dencker Kaas**  
Technician, BiOrigin Labs

**Key roles**

- 15+ years in in molecular and cellular biology, neuroscience, imaging, in vivo assays
