

Automate your internal logistics

Pallet Rack

DESIGNED FOR MIR

DESIGNED FOR MiR500/1000

Pallet Rack

The Pallet Rack is the delivery station for your pallets. It enables a stable transportation of payloads up to 1000 kg. Collect and deliver pallets with the MiR more safely and easily!

Place and pick up your pallets autonomously.

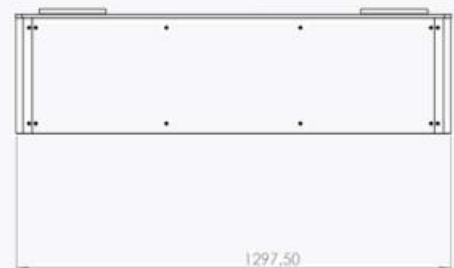

Key features

- Optimize pallet transportation without changing facility layout
- Designed for standard euro pallets
- Maximum load 1000 kg

DIMENSIONS (mm)
