

Optimize Turns. Boost Income.

Plentific's Turns Management Solution.

What does smarter, faster turns management look like?

Digitalized turns processes

Manage turns projects at scale, with ease. Get a holistic overview and take immediate action using a real-time digital dashboard.

Centralized data for better traceability

Access all types of historical works in one place and keep track of works-in-progress across teams for improved visibility.

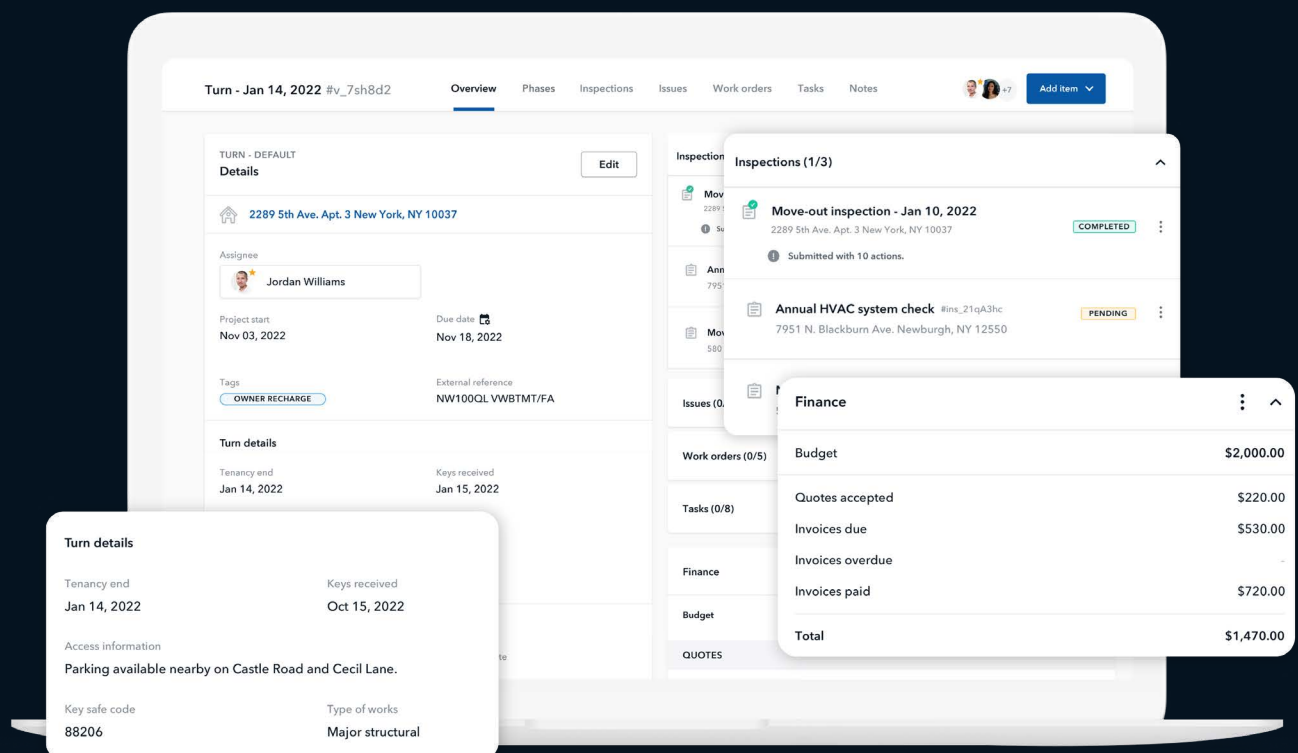

Quicker turns resolution, with improved flexibility

Resolve issues quickly by dispatching work to your own contractors, internal teams or utilize Plentific's nationwide marketplace.

www.plentific.com

Turns management in one clean interface.

An all-in-one platform for streamlining turns.

Automate processes

Standardize turns procedures by easily building your own templates with end-to-end automation.

Schedule inspections

Seamlessly create inspections and all the captured issues will be added to the project automatically.

Optimize performance

Utilize a fully visualized dashboard to track turns, work orders and spend, in one place.

Rectify issues

Turn issues into work orders and find the right contractor to resolve them quickly.
