THE STRONG DESIGN OF CERAMICS

uniceramica

uniceramica

Top design with natural looks

- ♦ Top quality at an attractive price
- ♦ Scratch, acid, heat, and stain-resistant
- ♦ Easy maintenance
- ♦ Available in open book
- ♦ Varied marble, limestone, granite, basalt, and travertine designs

TOP DESIGN WITH NATURAL LOOKS

Uniceramica gives you top-quality, contemporary ceramics.

With the ceramic Uniceramica slabs, Brachot offers ceramic designs for, among others, countertops, bathrooms, and wall coverings. Brachot has developed these designs based on a profound knowledge of natural stone, thanks to over 125 years of experience in the sector. The natural designs capture the essence of natural stone in design, appearance, and feel. The contemporary range perfectly aligns with today's housing trends.

Choose the design that suits you

Uniceramica offers a wide range of choices. The designs range from elegant limestone to exclusive marble and from popular travertine and solid granite to austere basalt.

The marble and travertine designs are also available in open book (marked with ). Here, two mirrored designs are positioned next to each other to allow the design to flow seamlessly. It creates a perfect interplay of lines, a luxurious look and wonderful harmony.

The designs are available in a thickness of 0.6 cm, 1.2 cm and 2 cm and have a standard size +/- 324 x 162 cm. There are 4 types of finishes available: Naturale, Bocciardata, Ondulato and Strutturata. The available finish depends on the design. This varied product range enables Brachot to meet the specific needs and style preferences of each customer.

The designs are divided into 4 collections:

-  Earth Collection
-  Essentials Collection
-  Private Collection
-  Classics Collection

Finishes

Technical innovation is in Brachot's DNA. That is why we are constantly conducting research on how to develop new finishes and optimise existing ones.

The finish of the material depends on the design.

Bocciardata

Matt finish developed in-house that provides a particularly coarse surface pleasant to the touch.

Naturale

The surface is scoured until a warm, matt shine is obtained.

Strutturata

Embossed surface. Provides both visual depth and tactile texture.

Ondulato

Wavy texture adding subtle dynamics to the surface.

Oro Fantastico - Classics Collection

Easy-maintenance and suitable for intensive use

All Uniceramica ceramic slabs are scratch resistant. Moreover, ceramics are resistant to most chemicals and stains. Intensive use of your bathroom or kitchen leaves no traces. Uniceramica also has high heat resistance.

Additionally, the material is very easy to maintain. With the proper cleaning products, ceramics can remain intact for generations. We are happy to give you tips and tricks for an optimal result, from initial cleaning to daily maintenance.

NEW IN THE RANGE

Uniceramica XL TILES

The Uniceramica® XL tiles are the perfect complement to the popular Uniceramica slab materials used for kitchen countertops, backsplashes, and wall cladding. These large-format tiles, made from the same high-quality material as our slabs, allow for a perfect integration of floors and walls, resulting in a cohesive, luxurious interior.

All materials from the standard Uniceramica range are available.

CRAFTING VALUE FOR FUTURE GENERATIONS

www.brachot.com

Brachot extracts, produces and distributes landscape and surface materials in natural stone and blended materials. With its 20 quarries, 7 production sites and 13 distribution centres across Europe and Africa, Brachot has the entire production process in its own hands: from extraction to sawing and processing to distribution. This creates endless possibilities for the production of blocks, slabs, tiles and accessories for indoor and outdoor applications in natural stone and blended materials.

Brachot and its Family Members are firmly united by their focus on innovation. They continuously come up with new possibilities and applications, both in production and distribution. State-of-the-art machines and techniques enable Brachot to work faster and to ensure higher quality and greater sustainability. As a result, Brachot has become an internationally leading name in the world of natural stone and blended materials.
