

Mountain experience for the whole family

The Feuerkogel, Upper Austria's sunniest point, invites you to an unforgettable experience in the heart of the Salzkammergut with a fantastic 360 degree panoramic view of the Dachstein and lake region, cozy huts and many sports opportunities!

Not only families with children and leisure hikers will find many different hiking options at every level of difficulty on the Feuerkogel. Sporty mountain enthusiasts will also get their money's worth on the Feuerkogel. We recommend an excursion to the Alberfeldkogel viewing platform and the impressive Europe cross (walking time approx. 1 hour, suitable for children), or a longer tour to the Großer Höllkogel or the Riederhütte. From there you can continue the mountain tour and cross the impressive Höllengebirge.

For an all-round perfect experience, we also pay attention to sustainability. In addition to e-charging stations, all facilities are supplied with electricity from renewable energy sources! Sustainable, of course!

The Feuerkogel is part of the „Bergbahnen Dachstein Salzkammergut“ area. All locations of OÖ Seilbahnholding GmbH are united under this umbrella brand: Dachstein West in Gosau, Russbach and Annaberg, Feuerkogel in Ebensee, Grünberg in Gmunden, Dachstein Krippenstein in Obertraun and Wurbaukogel in Windischgarsten.

The Europe cross with 360° panoramic view

July 10th 2026
 Ceremony and mountain mess

Each cube bears the name of the respective country in the country-specific spelling. Inside is a stone from the corresponding country, symbolising its unique characteristics. Last year, new stones were added to the European Cross and it was also equipped with lighting and solar panels.

The Europe Cross on the Alberfeldkogel viewing platform is one of the most popular hiking destinations on the Feuerkogel and offers an impressive 360-degree panoramic view of Lake Traunsee, Lake Langbathsee and the mountain peaks of the Salzkammergut.

On the occasion of Austria's presidency of the Council of the EU in 2006, the European Cross was manufactured in the workshops of HTL Wels and ceremoniously handed over to the Naturfreunde Ebensee. The summit cross consists of individual cubes, each of which symbolises an EU member state. This represents the principle of equality and unity of the states and their solidarity within the European Union.

Tip: The Europe Cross can be reached from the mountain station in around 1 hour on foot. More information about the individual stones can be found in the Europe cross folder (only german language) in the cable car stations.
