Our website uses cookies to optimise users' experience on the site. A cookie is a small text file containing a string of characters that is sent to your computer when you visit a website. They are used to improve the performance of the website and the services you receive. For example, cookies may be used to:

- enable the site to recognise your device so you do not need to give the same information repeatedly
- recognise when you have already given a username and password so that you do not need to do so for every subsequent web page you visit
- measure how many people are using the services we provide, so we can make them easier and faster to use
- analyse data, anonymously, so that we can improve our site according to users' needs and preferences
-

The cookies used by our website do not contain any of your personal information and they can't be used to identify you personally. Many cookies are automatically deleted after you finish using the website. You can choose to reset your browser to refuse all cookies or to indicate when a cookie is being sent if you wish. However, it is important to be aware that some website features or services may not function properly without cookies.

If you continue without changing your settings, we will accept your consent to receive these cookies from our website. However, if you wish to change your privacy settings at any time, instructions and guidance on how to remove cookies from your device, or how to block individual cookies from being received, can be found at www.aboutcookies.org.

Read below for further details about cookies you may encounter while visiting our website. These details include what information is being held, how long you can expect it to be stored, and how your experience of our website will change if you block individual cookies from being sent to your device.

Types of cookies

Below are details of cookies you may encounter while visiting this website, including what information is being held, how long you can expect it to be stored, and how your experience of our website will change if you block individual cookies from being sent to your device.

Cookies that measure website use

We use Google Analytics cookies to measure how you use this website.

These cookies collect information about:

- how you got to these sites
- the pages you visit and how long you spend on each page
- what you click on while you're visiting these sites

We also use software cookies from SiteImprove to measure your web performance experience.

SiteImprove software cookies collect and store information about how well pages performed on your device, including whether there were any performance bottlenecks or JavaScript errors.

We do not allow Google or SiteImprove to use or share the data about how you use these sites.

__cf_bm vimeo.com This cookie, set by Cloudflare, is used to support Cloudflare Bot Management.
