Size guide rings

- 1** Print this page on A4 paper.
- 2** Set the printer scale to 100% and disable “fit to page.”
- 3** Verify the scale by comparing the ring size guide with a ruler

Measure your ring

- Place your ring on one of the circles until the black line perfectly aligns with the inner circumference of your ring – this is your size.

Measure your finger

- Cut out the size guide strap.
- Cut along the dotted lines at the end to create a slit for the strap.
- Wrap the size guide around your finger and pull the pointed end through the slit.
Make sure it sits snugly around your finger without being too tight.
- Read the measurement in millimeters (mm) through the slit, this is your size.
