

Welcome to the Sintered Collection.

This Smartstone surface range elevates the qualities of traditional porcelain to an entirely new level to deliver exceptional performance and enhanced natural-stone aesthetics.

Innovative Smartstone porcelain is made using a 'sintering' process which combines advanced technology with natural fusion techniques. Intense heat and immense pressure bind natural minerals to create an ultra-compact, extra-durable and sustainable material that is compliant with Australian government legislation.

Key features

- Endless indoor-outdoor applications including benchtops, splashbacks, bathroom vanities, fireplaces, barbecues and furniture.
- Highly durable and resistant to scratching, staining, etching, heat, frost and chemicals.
- UV stable for indoor and outdoor use.
- Precise surface print technology and through-body veining and colour*.
- Large slabs (3200 x 1600 x 20mm).
- Matt or Suede finishes*.
- Can be fabricated with a choice of edge profiles.
- Smartstone's 15-year Limited Warranty.

Price ranges

Pure	A cost-effective range of neutral staples.
Classic	Superb interpretations of refined natural veined stones.
Deluxe	Precise recreations of rare and visually striking veined stones.

Pricing is determined by the complexity of a stone's manufacture; all surfaces are of equal, premium quality.
