

# Ready to Participate?

Take the test!

- ✓ Do you have a greenhouse gas mitigation activity that has not yet started?
- ✓ Is your mitigation activity idea located in one of Switzerland's partner countries?
- ✓ The KliK Foundation expects high volumes: Will your activity reach at least 250k t CO<sub>2</sub>e reduction by 2030?
- ✓ Is the activity idea aligned with the partner country's NDC and does it go beyond the unconditional target?
- ✓ Are you an experienced mitigation activity developer?
- ✓ Are you looking for carbon finance options that go beyond those currently available in the Voluntary Carbon Market?
- ✓ Does your activity need the KliK Foundation's carbon revenues to get started?

Seven times ✓?

## Who We Are

The Foundation for Climate Protection and Carbon Offset KliK is a private organisation fulfilling an official role under the Swiss climate legislation by financing the deployment of climate-friendly technologies and innovations in Switzerland and abroad. It supports international mitigation activities from development to implementation to reduce greenhouse gas emissions in accordance with Article 6 of the Paris Agreement.

## We Buy ITMOs!

The KliK Foundation supports international greenhouse gas mitigation activities under Article 6 of the Paris Agreement.

With the purchase of ITMOs (Internationally Transferred Mitigation Outcomes), the KliK Foundation makes your mitigation activity financially viable.

**klik**

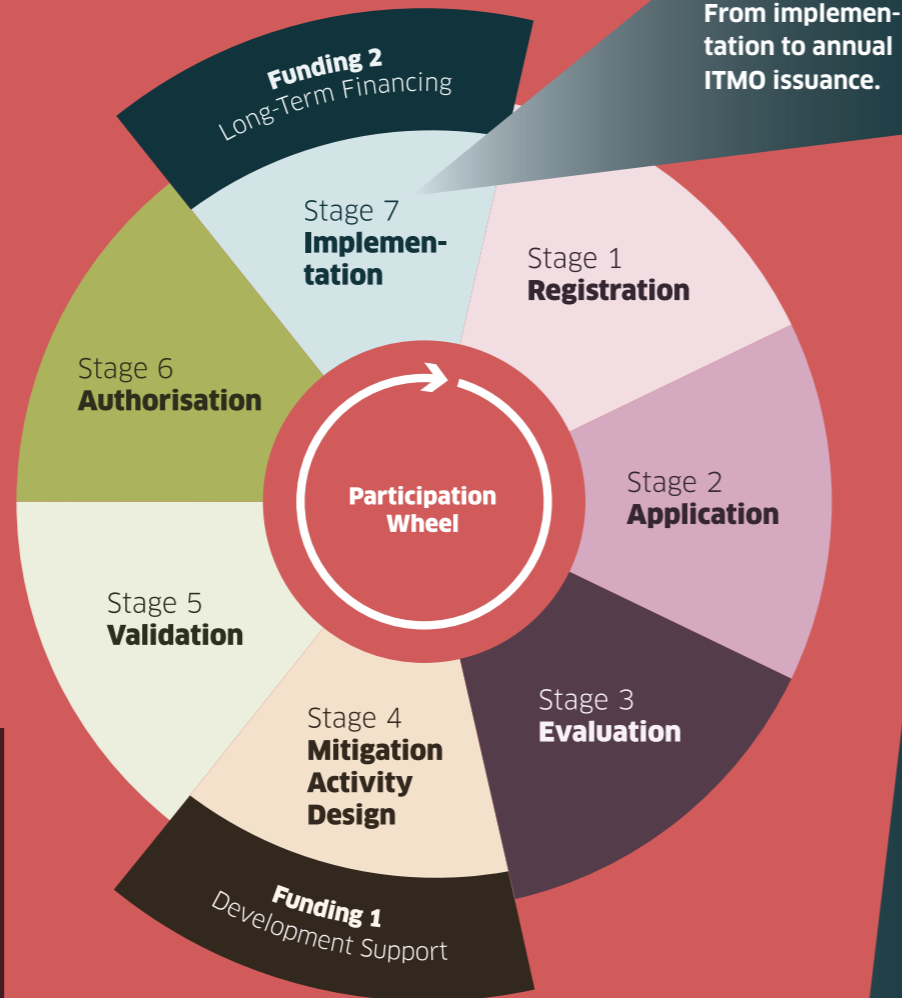

# Climate Action Wheels

**Participation process: From the registration with the KliK Foundation to the sale of ITMOs**

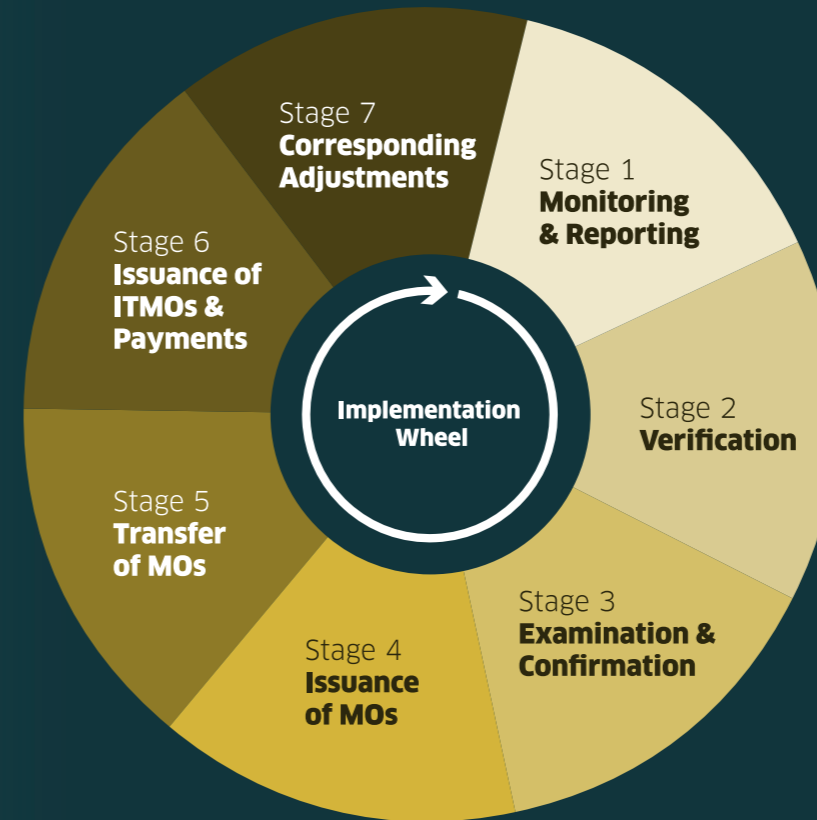

- 1 Registration
- 2 Application with Mitigation Activity Idea Note (MAIN)
- 3 Evaluation through the KliK Foundation and feedback
- 4 **Funding 1:** Activity design, documentation and development support support (MADD)
- 5 Independent third-party validation
- 6 Authorisation of the mitigation activity design document (MADD) by the partner country and by Switzerland under the bilateral climate agreement
- 7 **Funding 2:** Implementation of the activity and long-term financing through a Mitigation Outcome Purchase Agreement (MOPA)

## Your benefits

- Financial support for the development of your greenhouse gas mitigation activity (**Funding 1**)
- ITMO sales to the KliK Foundation to make your activity financially viable (**Funding 2**)

**Implementation process: Once the mitigation activity has been authorised by both governments, the implementation can begin. The Implementation Wheel outlines the detailed stages for generating ITMOs.**

- 1 Monitoring and reporting of emission reductions
- 2 Verification of monitored data and monitoring report
- 3 Examination and confirmation of verification and monitoring reports by both governments and of further requirements under the bilateral climate agreement
- 4 Issuance of mitigation outcomes (MOs)
- 5 Transfer of MOs, including cancellation in host country's emissions trading registry (ETR)
- 6 Issuance of ITMOs in Swiss ETR, ITMO payments and recognition of transfer
- 7 Corresponding adjustments

## Carbon finance impact

- Investment revenue for host country
- Environmental benefits: improved air, land, and water quality, biodiversity, etc.
- Social benefits: poverty reduction, health improvement, strengthening gender equality, job creation, capacity building, technology transfer, self-sustainability etc.
- Cancellation of 2% of ITMOs as contribution to the overall mitigation in global emissions (OMGE)
