

DEEP SEAPAL

DEEP SEAPAL

The Deep Seapal is a purpose built hydrographic survey vessel. The vessel can be deployed for various projects related to hydrographic, geophysical, UXO and environmental surveys.

The vessel is fitted with the latest equipment to carry out complex surveys in remote areas. With her standard equipped moonpools and brackets the vessel fits all needs for multi- disciplinary surveys like sub-sea cable detection, route surveys, offshore site-surveys, environmental surveys and UXO detection for offshore wind farms.
