

Geometry

The Arroyo Elite offers a true upright, Dutch-style ride. The result is a very comfortable ride with reduced strain on the low back and wrists. The geometry of a bicycle is about more than just the size. With the geometry

table you can make a proper comparison between the various frame sizes and bicycle models. This provides you with a clear picture of the sitting position and the bicycle's handling. The purpose of this is to provide your customer with even better advice.

Always bear in mind that different handlebars and (adjustable) stems can have a significant effect on the sitting position. This is not included in this table.

Arroyo Elite

Frame size, low-step	S (46)	M (53)	L (57)
A Size (mm)	460	530	570
B Effective top tube length (mm)	571	593	605
C Head tube angle (°)	68,5	68,5	68,5
D Effective seat tube angle (°)	69,5	69,5	69,5
E Chain stay length (mm)	482	482	482
F BB Drop (mm)	60	60	60
G Head tube length (mm)	145	165	165
H Fork length (mm)	475	475	475
I Fork offset (mm)	55	55	55
J Wheelbase (mm)	1097	1120	1131
K Stack (mm)	621	640	640
L Reach (mm)	339	354	366
