Say hello to GWM.

GWM is a world-renowned vehicle manufacturer capable of designing and producing SUVs, utes and powertrains simultaneously. At GWM, everything we do is grounded in our corporate philosophy: ‘improving little by little every day.’

From building world-class research and development systems, which enable continuous innovation, to following the ‘excessive investment’ principle, which drives industry leadership, we relentlessly put our philosophy into practice. We are proud to make vehicles that combine the best components, technology and safety features from around the world. With over 2.5 million ute and pick up’s sold globally (and counting), we are a proud maker of durable utilitarian vehicles for over 25 years. We attribute our success to passion, drive and a commitment to listening to our customers.

Designed to meet all your needs.

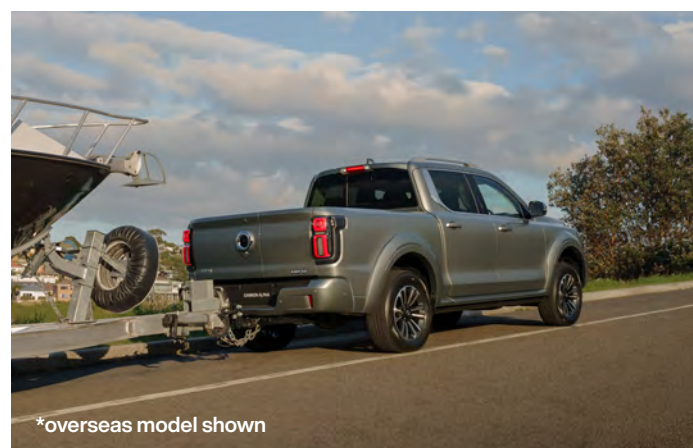

Introducing a new breed of ute, unlike anything you've seen, sat in or driven before - the GWM Cannon Alpha. Larger overall dimensions mean a bigger on road presence and better in-cabin comfort. Improved on and off road performance opens more possibilities than you ever imagined. Put your foot down and feel the smile spread across your face as you instantly sense the wave of torque pinning you to your seat. Now you can tow, haul, drag, pull, push or lug almost anything, effortlessly.

Larger, smarter, and gutsier than ever.

With incredible on road performance and unbelievable off road possibilities, the Canon Alpha is the most powerful ute we have ever built.

Grand doesn't do the Cannon Alpha justice. This vehicle is about as lavish and well-appointed as a ute can get with a host of opulent interior specifications combined with a collection of striking exterior design features. These include an overhauled centre console with two new larger tablet-style screens surrounded by attractive woodgrain style trim. The new three spoke faux leather accented steering wheel and soft, supple front and rear seats are our most comfortable yet. Squarer LED headlights create a sense of exterior style and sophistication. And the 60/40 split-swinging tailgate adds a touch of design class providing easier access to the tray.

**Ultra variants only*

Our most stylish and luxurious ute ever.

LED tail lights

Premium appointed cabin

A new breed of performance.

Packing a powerful turbo diesel, or turbo plug-in hybrid power-train, it's no surprise the Cannon Alpha is the 'top-dog' amongst the fleet. Complete with a 9 speed automatic transmission, a 3.5 tonne towing capacity and torque-on-demand 4WD system with 5 driving modes, it makes carrying a light load or towing a large boat or caravan a breeze.

The advanced 4x4 system is engineered by respected global supplier Borg Warner and provides the driver with superior technology including a rear differential lock and 4WD low range to tackle tough environments for when things get a bit loose off-road.

Enjoy effortless
power with turbo
diesel or turbo
petrol hybrid
engine.

Smart tech never looked smarter

State of the art is now a work of art thanks to the new styled 12.3 or 14.6 inch touchscreen panel letting you control all your infotainment from one screen and view all your vehicles gauges, alerts, digital instruments, and safety systems from the other. You can even see a 360° view of the vehicle while driving. Plus, a wireless charging dock*, keyless entry and push button start creates a smarter, more effortless overall driving experience.

**Ultra variants only*

More effortless power through tech

Meet our most tech-advanced ute, the GWM Cannon Alpha Plug-in Hybrid - pumping 300kW of power and 750Nm of torque from a 2.0-litre four-cylinder petrol engine is a marvel in engineering. Built to purpose, it retains industry standard of 3.5 tonne towing capacity, true mechanical 4x4 capability, 1,060km combined range, finally class-leading pure electric and total combined range. The GWM Cannon Alpha PHEV is a ute of tomorrow on road today.

V2L 6 kW max output*

18" alloy wheels

Hi4-T - advanced plug-in hybrid technology

Hybrid drive modes - EV, HEV and intelligent hybrid

Built to the safest standards.

ANCAP Safety test

ANCAP Safety test

Equipped with more than 100 of the latest active and passive safety features, the Cannon Alpha is one of the safest utes in its class. It is the first full hybrid ute in Australia to be awarded the highest possible 5-star safety rating by ANCAP.

Standard safety features include Automatic Emergency Braking, Lane Keep Assist, a Driver Fatigue Monitoring System and Traffic Sign Recognition giving you the peace of mind your GWM vehicle is looking out for you, and those around you.

Protection from all angles.

Smart tech, active and passive safety features and front and side monitoring mean worry-free driving.

GWM Care

Every GWM comes with GWM Care. It begins from the moment you take delivery of your vehicle and continues long into the future. Wherever the road leads, you can rest assured knowing that your GWM will be kept at its best for many years to come.
