A&W Kid's Meal rows reflect the entrée plus Kid's Fries. The beverage and side chosen with a Kid's Meal may add allergens (A&W Kid's Milk contains Milk).

A&W allergen data source: A&W Restaurants, Inc. allergen guide, last updated 08/03/2026. The A&W source also tracks Animal Products, Gluten, Meat and MSG; those columns are not carried in this chart — refer to the A&W guide for those flags. A&W reports allergens as present/absent only, so A&W rows use ● and blank, never ○.

gms = grams • mgs = milligrams • Beverage volumes are in fluid ounces. * Some meals contain more than one serving.

** Content of Family-size items equals (4) individual servings. Recommended limits for a 2,000-calorie daily diet are 20 g saturated fat and 2,300 mg sodium.

Product data is based on current U.S. formulations as of date of publication. Substitution of ingredients may alter nutritional values. Menu items and availability may vary at participating locations. Except for limited-time, optional, or test-market items, menu products as of this printing are included.

Please note: Some items served at Long John Silver's / A&W locations may be cooked in animal fats. Guests with food allergies or dietary concerns, including alpha-gal syndrome, should ask a General Manager about food preparation before ordering.
