

Reliable coffee quality,
blending robustness and easy service.

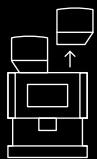

WMF 1300 S

Little effort, maximum enjoyment.

WMF 1300 S.

It's the perfect business partner: Reliable and always there when you need it, the WMF 1300 S makes all kinds of coffee drinks – without high maintenance and service costs.

Exceptional **variety of beverages**

- **Configurable product hoppers:** Available for coffee beans and/or powders such as chocolate, milk powder or other toppings.
- **Manual inlet for additional coffee varieties:** Allows the use of alternative coffees such as decaffeinated, even on machines equipped with three hoppers.
- **Hot water dispensing:** Decentralised spout for maximum flexibility in beverage preparation.
- **Milk systems:** Prepare classic coffees with hot or cold milk, optionally with the Basic Milk or Smart Milk systems.

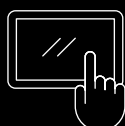

Reliable **premium performance**

- **Made in Germany:** using high-quality materials for long-term reliability.
- **Strong performance:** The WMF 1300 S meets a wide range of customer requirements in different settings and is ideal for businesses serving up to 120 cups per day.
- **Professional brewing system:** The removable brewing system made of high-tech polymer holds 15 g and ensures consistently high performance.

Very **user-friendly**

- **Intuitive display:** The 7" colour touch screen with swipe and scroll function is perfect for self-service and full-service.
- **Easy cleaning:** Press a button on the display to start automatic cleaning. Animations and text provide support. One cleaning tablet is all you need for a complete interior clean.
- **Compact size:** Slim and space-saving, ideal for small areas or combined use of several devices.

devices:

Professional brewing unit

Made in Germany from robust high-tech polymer for long-lasting reliability. The brewer holds 15g and can be easily removed for cleaning.

7" colour touch screen

The display allows for easy touch operation – ideal for self-service and full-service areas. The menu can be customised and makes handling easier.

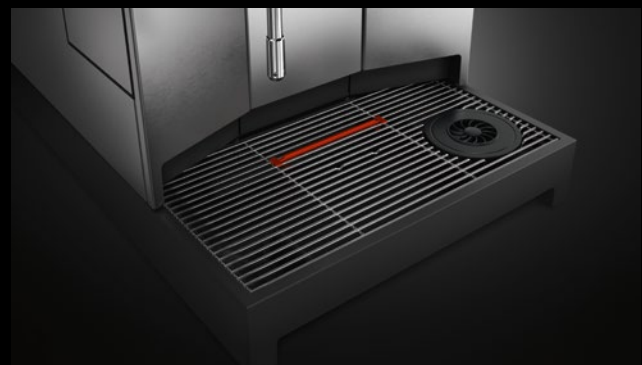

Height adjustable spout

The manually adjustable beverage outlet adapts to any cup, mug or jug with a height range of 60 mm to 169 mm, so you won't have to worry about splashing.

SteamJet

The SteamJet uses WMF innovation and the natural power of steam to heat cups within seconds. That means every drink is served at its ideal temperature and can stay that way for longer.

Cup stop & drip tray

The adjustable cup stop positions each cup precisely under the spout and prevents splashing. The drip tray is easy to remove for cleaning.

WMF CoffeeConnect available as an option.

The WMF 1300 S is digital-ready. Our telemetry solution connects your machines, provides insights into machine data and optimises processes. This allows you to improve the customer experience and implement completely new business models.

We are making history – every day. The development of our ‘Made in Germany’ coffee machines began back in 1927, the year in which we manufactured our first professional coffee machine. Since then, we have been continuously learning from our customers, in order to create the best coffee experience for you.

Tradition

Our long tradition of German engineering, craftsmanship and attention to detail is still evident today.

We stand for the production of excellent coffee machines, comprehensive service and first-class coffee.

Quality made in Germany

Design, product development, first-class materials, cutting-edge technology – our high-quality standards have brought us to where we are today. They ensure that every machine offers a long service life and outstanding performance.

Innovation

We are constantly setting new standards and developing innovative solutions to help you optimise your coffee business.

Service

From installation and maintenance to repairs: our outstanding service solutions are designed to keep your machines up to date with the latest technology throughout their entire service life.

We make sure your coffee machine works reliably and delivers excellent coffee.
