

Great coffee moments.
Powered by the fusion of quality
and speed.

WMF 1500 F

Just seven seconds away from freshly brewed coffee quality. With the WMF 1500 F.

The WMF 1500 F stands for great coffee moments in next to no time. As bean-to-cup machine, it ensures consistently high quality wherever you need to prepare filtered coffee quickly, with reliable processes and in large quantities.

Unbeatable Speed

- **Rapid output:** Dispenses a cup in just 7 seconds when the storage container is full
- **Smart refilling:** The container automatically refills to the desired level and keeps it constant
- **Large storage container:** Holds up to 4 litres with controlled replenishment for consistent performance
- **Powerful brewer:** Large capacity allows for brew batches from 0.5 to 1 l
- **Separate hot water outlet:** Ensures maximum efficiency and ease of use

High Quality

- **Bean-to-cup machine:** Freshly ground whole beans for premium filtered coffee
- **Fresh brew technology:** Precise water temperature ensures consistent extraction, with direct dispensing into the cup or container
- **Two bean varieties:** Second bean hopper, ideal for decaffeinated coffee
- **High-performance grinders:** Robust, fast and quiet, electronically controlled and precisely adjustable

Process reliability and easy handling

- **Automatic cleaning:** The WMF 1500 F ensures reliable and hygienic cleaning thanks to the integrated granulate dispenser and the timer function.
- **Easy grounds emptying:** Convenient dry grounds disposal in the internal grounds box or via "Grounds disposal through counter".
- **Intuitive touch display:** The interactive 10" colour touch display allows convenient navigation through the menu.

Further specifications and technical details:

Storage container
with 4 litres capacity

Second bean hopper
with a capacity of 700 g
for a further type of bean

Granulate cleaning dispenser
for automatic cleaning

Large bean hopper
with a capacity of 1,100 g

Illuminated side panels
to suit your individual ambience

Up to two coffee grinders
for different bean types
and direct fresh brewing

Touch display
for intuitive operation

Seperate hot water spout
for flexible and fast dispensing

Coffee spout
for freshly filtered coffee

Grounds container
for easy disposal of dry grounds

One machine, a wide range of applications.

Whether it's in a bakery or at a conference – sometimes things need to be done quickly. Especially if you need to have a specific quantity of coffee ready at a specific time and without any compromises when it comes to coffee quality and easy handling. The WMF 1500 F fulfils all these criteria – no matter where it stands.

Bakeries

Perfect coffee prepared from freshly ground beans: within seconds, pressurebrew technology transforms the coffee beans into full-flavoured, filtered coffee. This makes the WMF 1500 F the perfect supplement to a fully automatic coffee machine. For maximum customer satisfaction in record time.

Seminars and conferences

With a capacity of four litres and a dispensing speed of seven seconds per cup, the WMF 1500 F can serve large numbers of people attending conferences with fresh filtered coffee even during short breaks. And thanks to the timer function, it can be set to have the coffee ready right on time.

Offices

Whether it's early in the morning or between meetings, no one should have to wait for their coffee. With two bean hoppers and a separate hot water outlet, the WMF 1500 F reliably provides your team with high-quality filtered coffee and hot water for a wide variety of tea beverages. Thanks to automatic cleaning, the machine requires minimal effort to maintain.

Catering in clinics and hospitals

Health care professionals have enough on their hands without having to perform unnecessary tasks. And particularly when you need to have large quantities of coffee available for a large number of persons around the clock, the WMF 1500 F is the perfect partner. An automatic cleaning system and automatic refilling of the storage urn also help to minimise effort.

It's possible to have quality and speed at the same time. **The many features of the WMF 1500 F are proof of this.**

Discover more add-ons and payment devices:

Freshly ground with high-performance grinders

The option of using up to two coffee grinders gives you flexibility, allowing you to offer beans of different types – without having to forego maximum freshness.

Delicious coffee in record time.

Our fresh brew technology ensures that precisely heated water is evenly distributed over the coffee grounds for optimal extraction.

Flexible brewing quantities, automatic topping-up.

The high-performance brewer allows you to prepare 0.5 to 1 l of filtered coffee, which can be dispensed in record time thanks to an integrated storage urn.

Maximum enjoyment with minimal effort

The automatic cleaning system guarantees perfect hygiene and cleanliness without compromises, even during peak periods.

Easy disposal of dry grounds

The WMF 1500 F ejects the dry, used coffee grounds into the grounds container or through an opening in the counter directly into the waste container.

WMF CoffeeConnect available as a standard.

The WMF 1500 F is digital-ready. Our telemetry solution connects your machines, provides insights into machine data and optimises processes. This allows you to improve the customer experience and implement completely new business models.

We are making history – every day. The development of our 'Made in Germany' coffee machines began back in 1927, the year in which we manufactured our first professional coffee machine. Since then, we have been continuously learning from our customers, in order to create the best coffee experience for you.

Tradition

Our long tradition of German engineering, craftsmanship and attention to detail is still evident today.

We stand for the production of excellent coffee machines, comprehensive service and first-class coffee.

Quality made in Germany

Design, product development, first-class materials, cutting-edge technology – our high-quality standards have brought us to where we are today. They ensure that every machine offers a long service life and outstanding performance.

Innovation

We are constantly setting new standards and developing innovative solutions to help you optimise your coffee business.

Service

From installation and maintenance to repairs: our outstanding service solutions are designed to keep your machines up to date with the latest technology throughout their entire service life.

We make sure your coffee machine works reliably and delivers excellent coffee.

Technical data

325 mm

590 mm

881 mm

WMF 1500 F

Power connection – coffee and hot water output	5.7–6.75 kW / 380–415 V – 220 cups
Recommended daily output / max. output per hour*	220 cups
External dimensions (width / height / depth)	325 / 881 / 590 mm
Water supply	Fixed water supply
Empty weight	Approx. 38 kg
Universally lockable product hopper, granulate hopper and storage urn	

* Output is determined using a machine with constant water supply and is dependent on cup size, quality settings, spout, model and nominal power rating. The recommended maximum daily capacity is based on our catalogued service concept. However, these average values serve merely as a guideline. Let our trained WMF team match the ideal coffee machine design to your specific needs.
