

Effortless excellence in every cup,
where maximized output
meets minimal time investment.

WMF 5000 S+

Elegant design. Lightning-fast preparation. WMF 5000 S+.

The high performer among coffee machines.
The WMF 5000 S+ is designed to create excellent coffee moments with maximum simplicity.

Superior operation

- **Long-lasting performance:** The robust stainless-steel brewer holds 22 g, allows for larger batches and cleans itself during the maintenance process.
- **Consistent quality:** Dynamic Coffee Assist monitors the brewing flow and automatically adjusts the grind and quantity for consistently high-quality coffee.
- **High capacity:** The WMF 5000 S+ brews up to 250 cups a day at high speed. The adjustable spout prevents splashing and helps to ensure that the coffee does not cool down too much during dispensing.

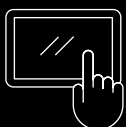

Wide range of options

- **Variety of milk choices:** The WMF 5000 S+ offers an optional 2-Milk Solution or MultiMilk system, allowing up to two or four different types of milk or milk alternatives to be served from one cooling unit.
- **Dynamic Milk:** Enables fully automatic preparation of four hot milk foam consistencies, three cold milk foam variations, and hot and cold milk.
- **Chilled coffee:** Chills coffee directly – ideal for iced coffee, sorbets and refreshing drinks.
- **Syrup station:** Four compartments for syrup, fruit purée or spirits – for creative barista recipes.

Intuitive operation

- **10" touch screen:** User-friendly and flexible display – ideal for interactive menus that match your branding.
- **Beverage pre-selection:** To save time, the touch screen allows you to pre-select several beverages, which are then prepared automatically one after the other.
- **Automatic dispensing:** The dispensing height automatically adjusts to the beverage – for ideal temperature and clean dispensing.

For places where everyone's coffee wishes come true.

The WMF 5000 S+ shines wherever speed, variety and quality are needed: from coffee shops and bakeries to petrol stations and fast-food restaurants. From hot classics to creative cold drinks with milk alternatives, it meets every requirement thanks to smart technology, flexible equipment and automatic cleaning – and delights customers cup after cup.

Bakeries

The WMF 5000 S+ brings barista-style enjoyment to every bakery. It prepares a wide range of hot and cold specialities at the touch of a button and boasts minimal maintenance thanks to automatic cleaning.

Quick service restaurants

The WMF 5000 S+ offers a wide range of high-quality coffee options. The intuitive touch screen allows for quick operation. With WMF CoffeeConnect, advertising content can be tailored to specific local and global audiences.

Coffee shops

The WMF 5000 S+ offers complete barista freedom – from vanilla lattes to matcha, even with plant-based milk alternatives. Flexible milk systems and additional devices guarantee excellent coffee to suit every taste.

Convenience stores and petrol stations

Whether they are refuelling or grabbing a quick snack, your customers will gladly make a detour for a cup of coffee from the WMF 5000 S+. Additional devices reduce queues at the checkout and ensure fast, efficient service.

Premium coffee enjoyment without the wait, **with innovative features.**

devices:

WMF 2-Milk Solution

With the optional 2-Milk Solution, you can offer different types of milk, such as low-fat milk or vegan milk alternatives. The automatic rinsing system prevents mixing – only the selected type ends up in the drink.

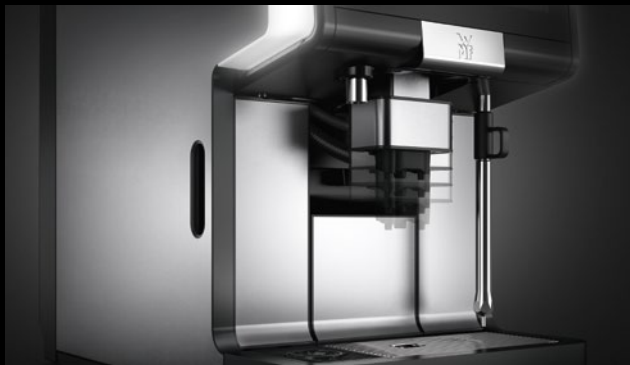

WMF Multi Milk

Expand your offering with up to four milk alternatives in addition to standard milk. For perfect milk foam, precise dosing and customized recipe variety.

WMF Auto Clean

The WMF 5000 S+ takes care of the entire cleaning process – including granulate dosing and rinsing of milk and coffee systems.

Automatically adjustable spout

The spout automatically adjusts to the optimum height. This maintains the temperature and prevents milk splashes on the housing.

Simultaneous dispensing of coffee and hot water

The WMF 5000 S+ dispenses coffee and hot water simultaneously and can serve up to 180 cups of hot water per hour.

WMF CoffeeConnect as standard.

The WMF 5000 S+ is digital-ready. Our telemetry solution connects your machines, provides insights into machine data and optimises processes. This allows you to improve the customer experience and implement completely new business models.

We are making history – every day. The development of our 'Made in Germany' coffee machines began back in 1927, the year in which we manufactured our first professional coffee machine. Since then, we have been continuously learning from our customers, in order to create the best coffee experience for you.

Tradition

Our long tradition of German engineering, craftsmanship and attention to detail is still evident today.

We stand for the production of excellent coffee machines, comprehensive service and first-class coffee.

Quality made in Germany

Design, product development, first-class materials, cutting-edge technology – our high-quality standards have brought us to where we are today. They ensure that every machine offers a long service life and outstanding performance.

Innovation

We are constantly setting new standards and developing innovative solutions to help you optimise your coffee business.

Service

From installation and maintenance to repairs: our outstanding service solutions are designed to keep your machines up to date with the latest technology throughout their entire service life.

We make sure your coffee machine works reliably and delivers excellent coffee.

Technical data

WMF 5000 S+

Power connection – coffee and hot water output	250 cups	
Recommended daily / max. hourly output	2.75–3.25 kW	9 kW
External dimensions (width / height / depth)	220–240 V, 50/60 Hz, (1/N/PE)	380–415 V, 50/60 Hz, (3/N/PE)
Water supply	mains water connection	
Net weight	Approximately 37 kg	
Capacity of bean hopper left / right	1.100 g beans	
Capacity of bean hopper center	700 g beans	
Capacity of powder hopper	2,000 g powder	
Generally lockable product containers and front panel		

* Performance was determined using a machine with a fixed water connection and depends on cup sizes, quality settings, spout, equipment and rated power. The recommended maximum daily output is based on the respective service concept. These average values are for guidance only. Let our trained WMF staff put together a coffee machine solution tailored to your needs.
