

Large quantities of rich filtered coffee,
an exceptional performance
in the long run.

WMF 9000 F

Ensuring a fresh supply of delicious filter coffee.

WMF 9000 F.

Available in two versions, the WMF 9000 F features advanced functions for preparing large quantities of high-quality filter coffee – ideal for large-scale catering and self-service.

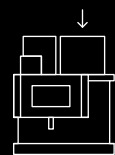

Pure coffee pleasure

- **High-capacity brewer:** With a capacity of up to 200 g, the system brews large quantities of coffee and, thanks to its sophisticated design, allows easy access to all service parts. Available on both versions.
- **Hot water boiler:** The 6.5 l boiler reliably supplies hot water. All components are easy to maintain and easily accessible for technicians. Available on both versions.
- **Automatic cleaning:** Cleaning is efficient, automatic and HACCP-compliant thanks to the integrated cleaning granulat dispenser. Available on both versions.

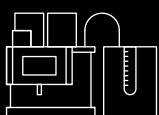

Internal storage

- **Coffee dispensing in cups or pots:** Separate spout for filter coffee, suitable for individual servings or jugs. Hot water dispenser positioned right next to it.
- **Integrated storage container:** The container has a capacity of 4 l and allows controlled refill brewing of 1.2 or 4 l via a timer function, depending on daily requirements.
- **Stainless steel inner housing:** The inner housing of the storage container is made of high-quality stainless steel and ensures optimum hygiene and temperature stability.

External storage

- **Quantity-optimised brewing arm:** Automatically dispenses 1 to 5 l of coffee directly into an external thermal container, precisely and according to demand.
- **External thermal container:** Available with a capacity of either 20 or 40 l, reliably keeps the coffee at the optimum temperature.
- **Two coffee types possible:** Two 2.5 kg containers let you use two different types of coffee or have a higher volume of one type.

For places where large quantities are required.

Reliability is essential in hotels, petrol stations and the catering industry. The WMF 9000 F consistently delivers high-quality filter coffee, cleans itself automatically and ensures smooth operation.

Convenience stores and petrol stations

With a capacity of up to 1000 cups per day, the WMF 9000 F (Internal Storage) reliably delivers aromatic filter coffee around the clock. Automatic cleaning reduces maintenance, while WMF CoffeeConnect enables targeted advertising locally and globally.

Travel and catering

Fast, efficient and reliable: the WMF 9000 F provides large gatherings with high-quality filter coffee and saves time during preparation and cleaning. Perfect for events and mobile use.

Hotels and restaurants

The WMF 9000 F is ideal for busy establishments, offering reliable supply and pot brewing of up to 2.8l. For even greater capacity, it can be easily expanded with thermal containers.

Highest quality meets high demand. Both versions feature innovative features.

Discover more add-ons and payment devices:

Add variety with the manual insert

Use up to 180 g of ground coffee to offer additional options like decaffeinated filter coffee.

Hot water dispenser

A separate spout below the display allows you to dispense hot water quickly and flexibly. Even small amounts, such as for a teapot, can be dispensed with ease.

Detection of water pressure errors

Two sensors monitor the water inlet and brewing pressures, enabling precise error analysis for technical service.

External storage

With an external container, the WMF 9000 F can handle up to 110 l per hour, making it perfect for top-level professional use.

Granulate dispenser

Stores the cleaning granulate for automatic internal cleaning of the machine.

WMF CoffeeConnect as standard.

The WMF 9000 F is digital-ready. Our telemetry solution connects your machines, provides insights into machine data and optimises processes. This allows you to improve the customer experience and implement completely new business models.

We are making history – every day. The development of our 'Made in Germany' coffee machines began back in 1927, the year in which we manufactured our first professional coffee machine. Since then, we have been continuously learning from our customers, in order to create the best coffee experience for you.

Tradition

Our long tradition of German engineering, craftsmanship and attention to detail is still evident today.

We stand for the production of excellent coffee machines, comprehensive service and first-class coffee.

Quality made in Germany

Design, product development, first-class materials, cutting-edge technology – our high-quality standards have brought us to where we are today. They ensure that every machine offers a long service life and outstanding performance.

Innovation

We are constantly setting new standards and developing innovative solutions to help you optimise your coffee business.

Service

From installation and maintenance to repairs: our outstanding service solutions are designed to keep your machines up to date with the latest technology throughout their entire service life.

We make sure your coffee machine works reliably and delivers excellent coffee.

Technical data

WMF 9000 F

Power connection – coffee and hot water output	Internal Storage: 8.5–10.1 kW / 380–415 V or 12.4–14.7 kW / 380–415 V External Storage: 8.5–10.1 kW / 380–415 V or 12.4–14.7 kW / 380–415
Recommended daily / max. hourly output	Internal Storage: 500 cups/day or 50 l/h External Storage: 100 l/h
External dimensions (width / height / depth)	450 / 782 / 605 mm
Water supply	mains water connection
Net weight	Approximately 65 kg
Generally lockable product containers and front panel	

* Performance was determined using a machine with a fixed water connection and depends on cup sizes, quality settings, spout, equipment and rated power. The recommended maximum daily output is based on the respective service concept. These average values are for guidance only. Let our trained WMF staff put together a coffee machine solution tailored to your needs.
