

Welcome

The purpose of this exhibition is to provide an overview on the progress of Cloud Hill Wind Farm, and a platform for you to ask questions and share your feedback.

The feedback will help shape the project as we work towards preparing the planning application.

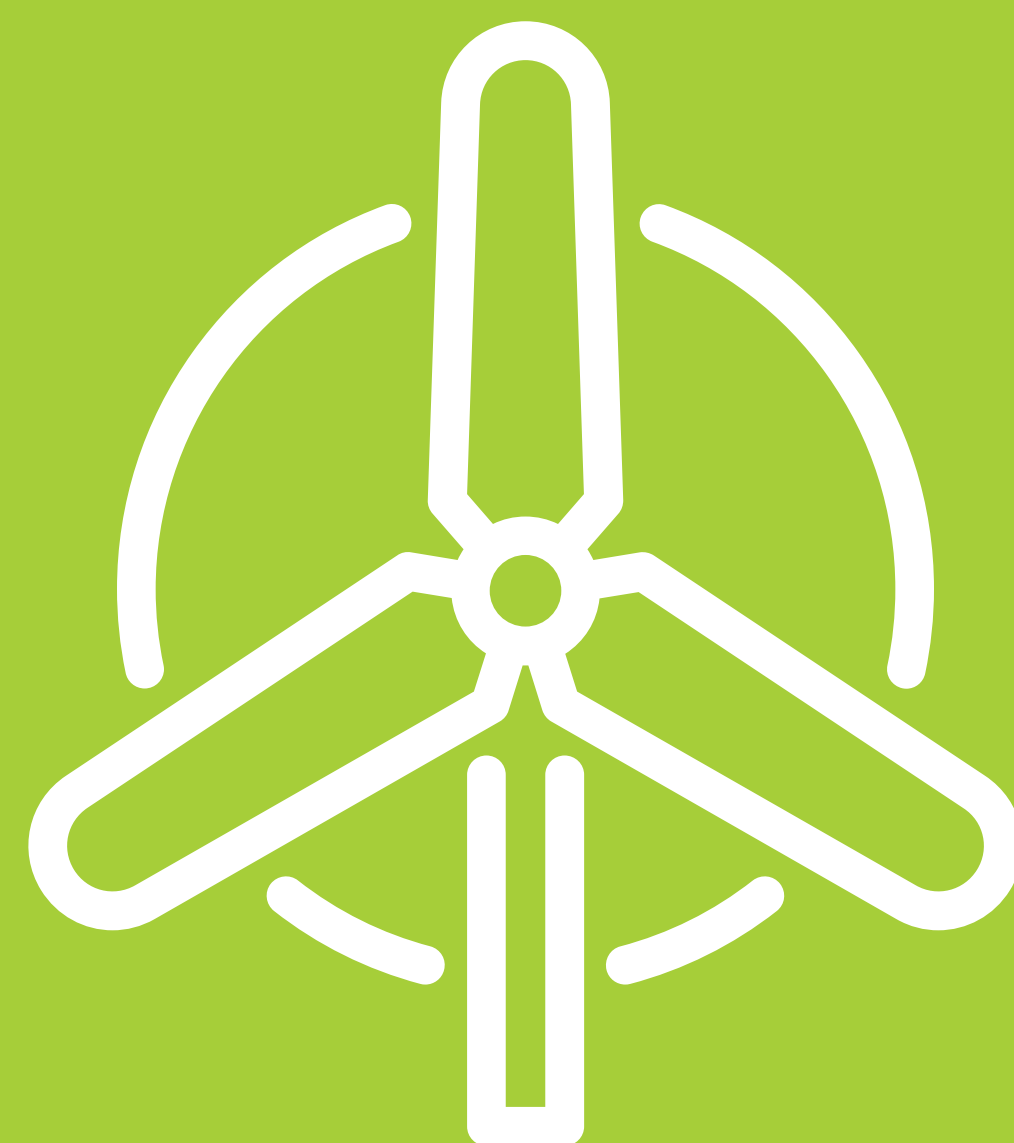

r.e.think energy

BayWa r.e.

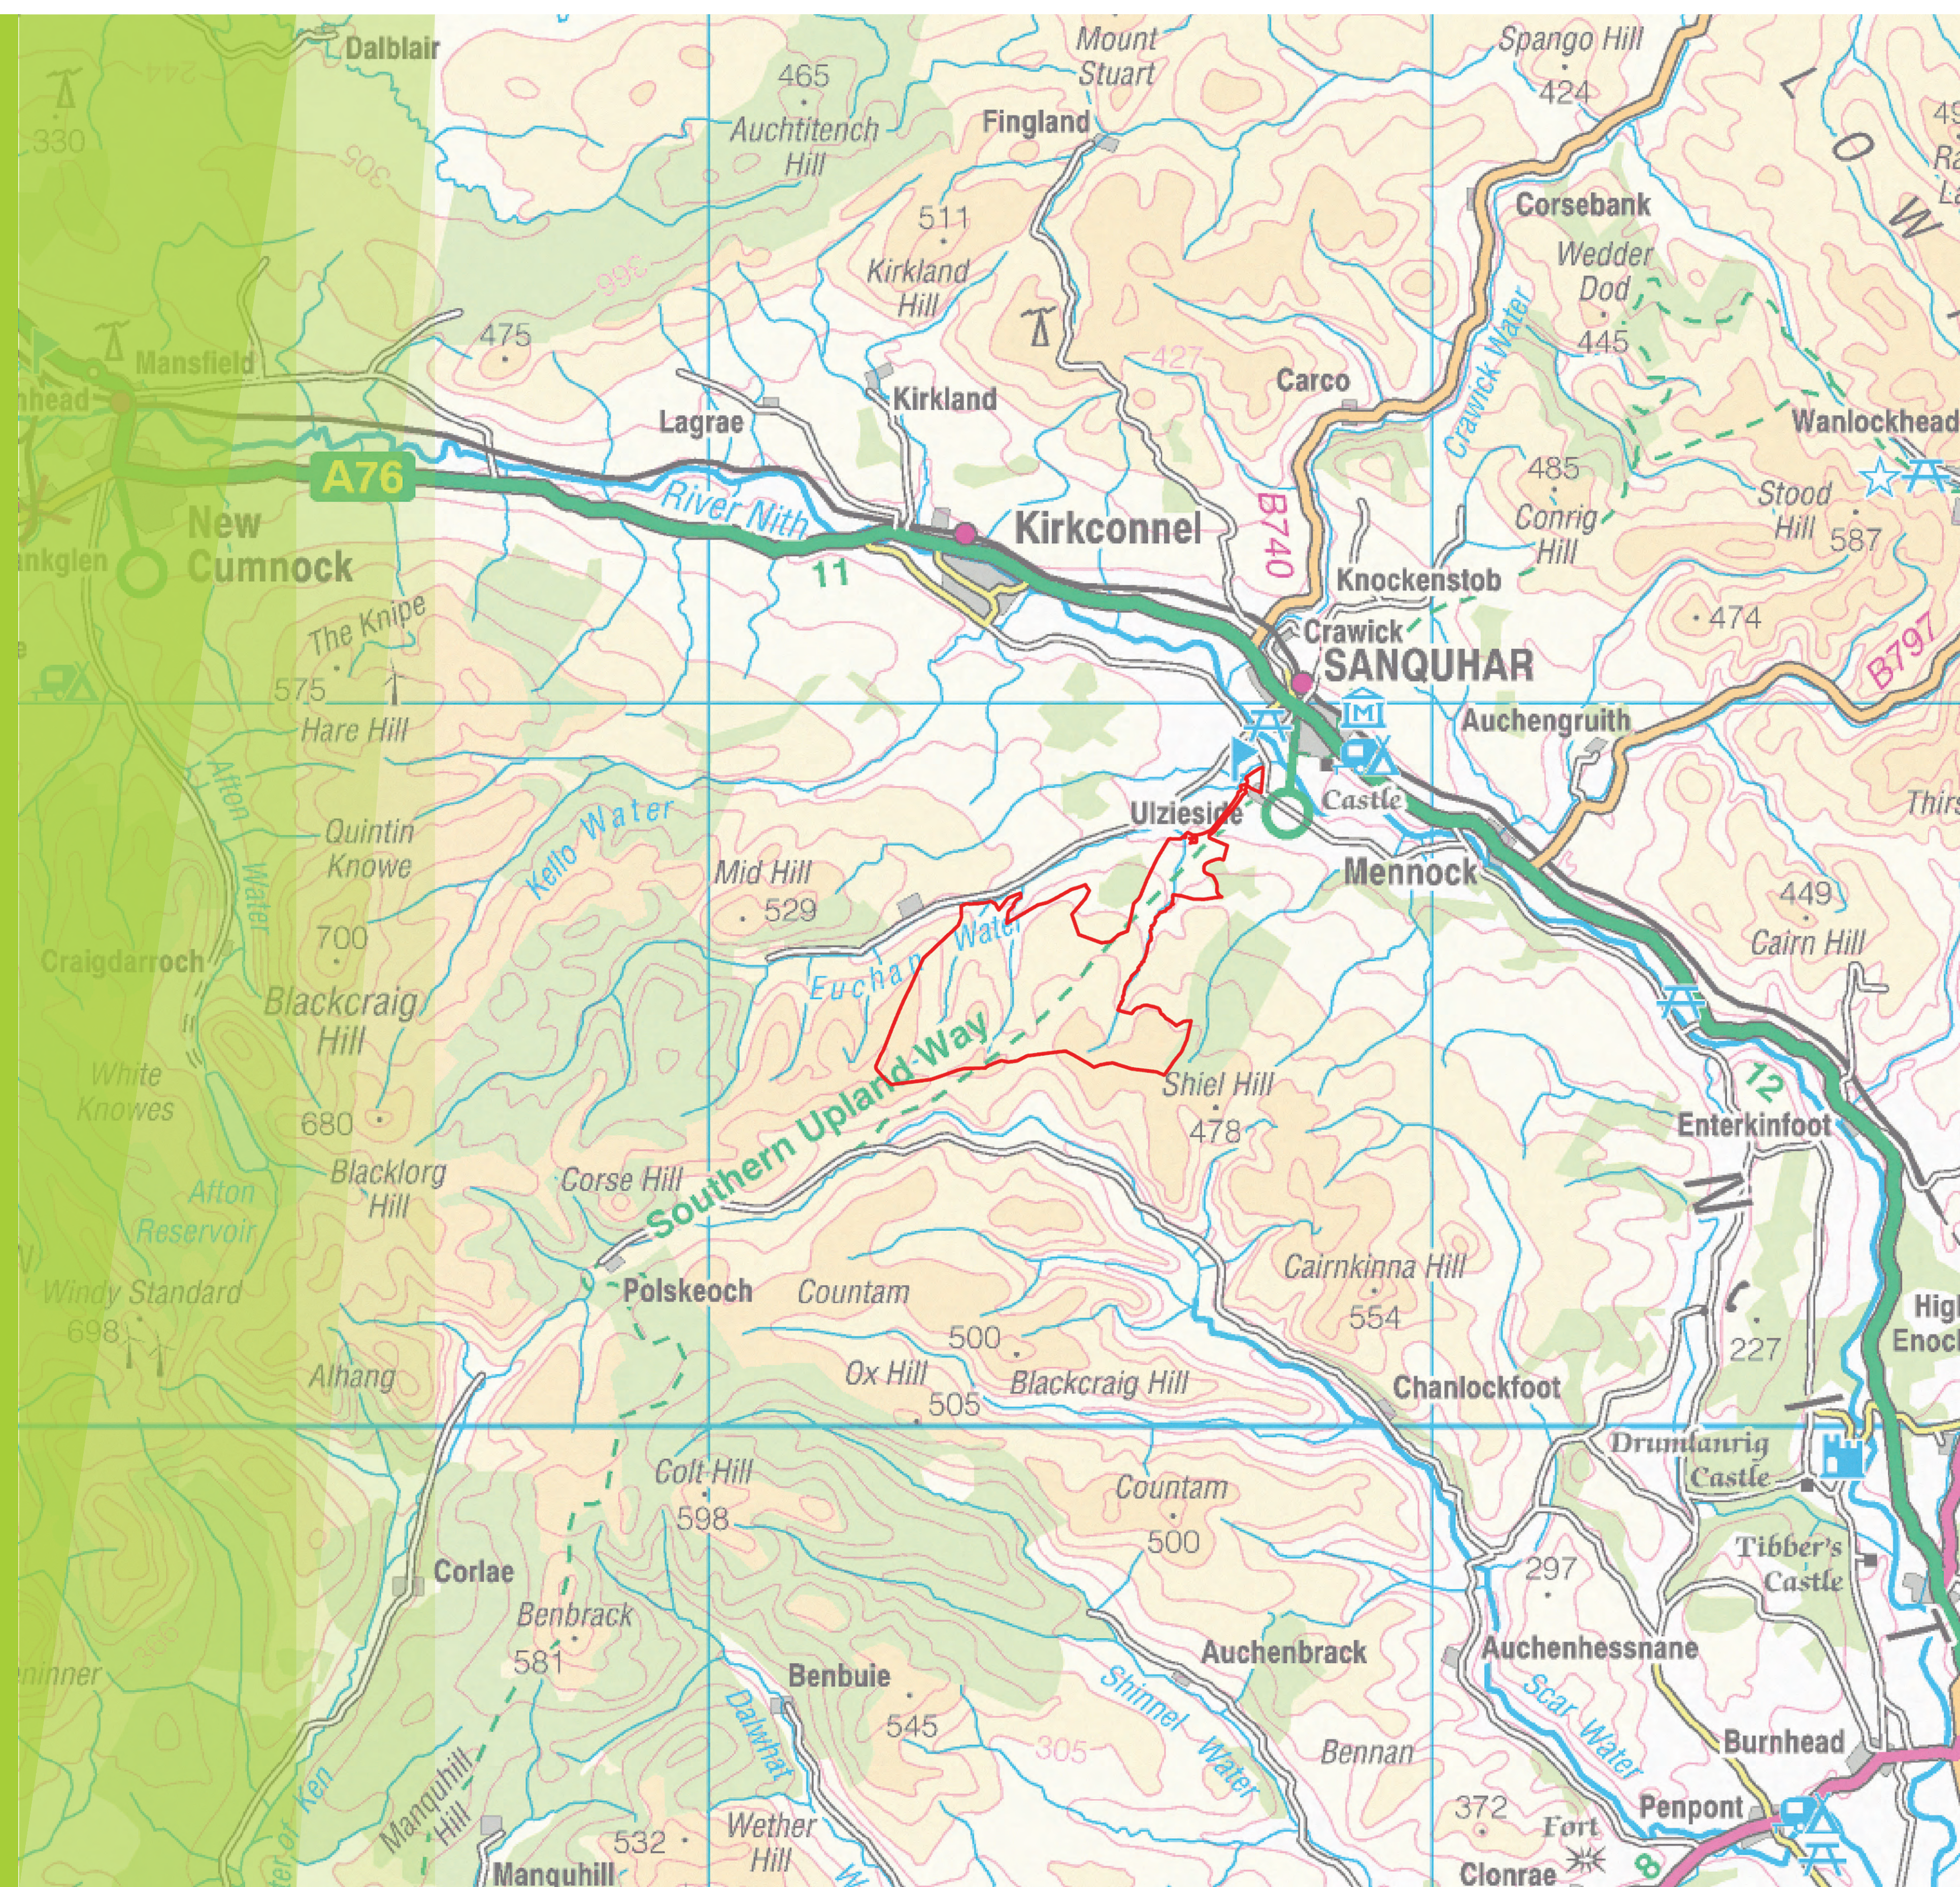

BayWa r.e. is a leading energy solutions provider, actively shaping the future of energy.

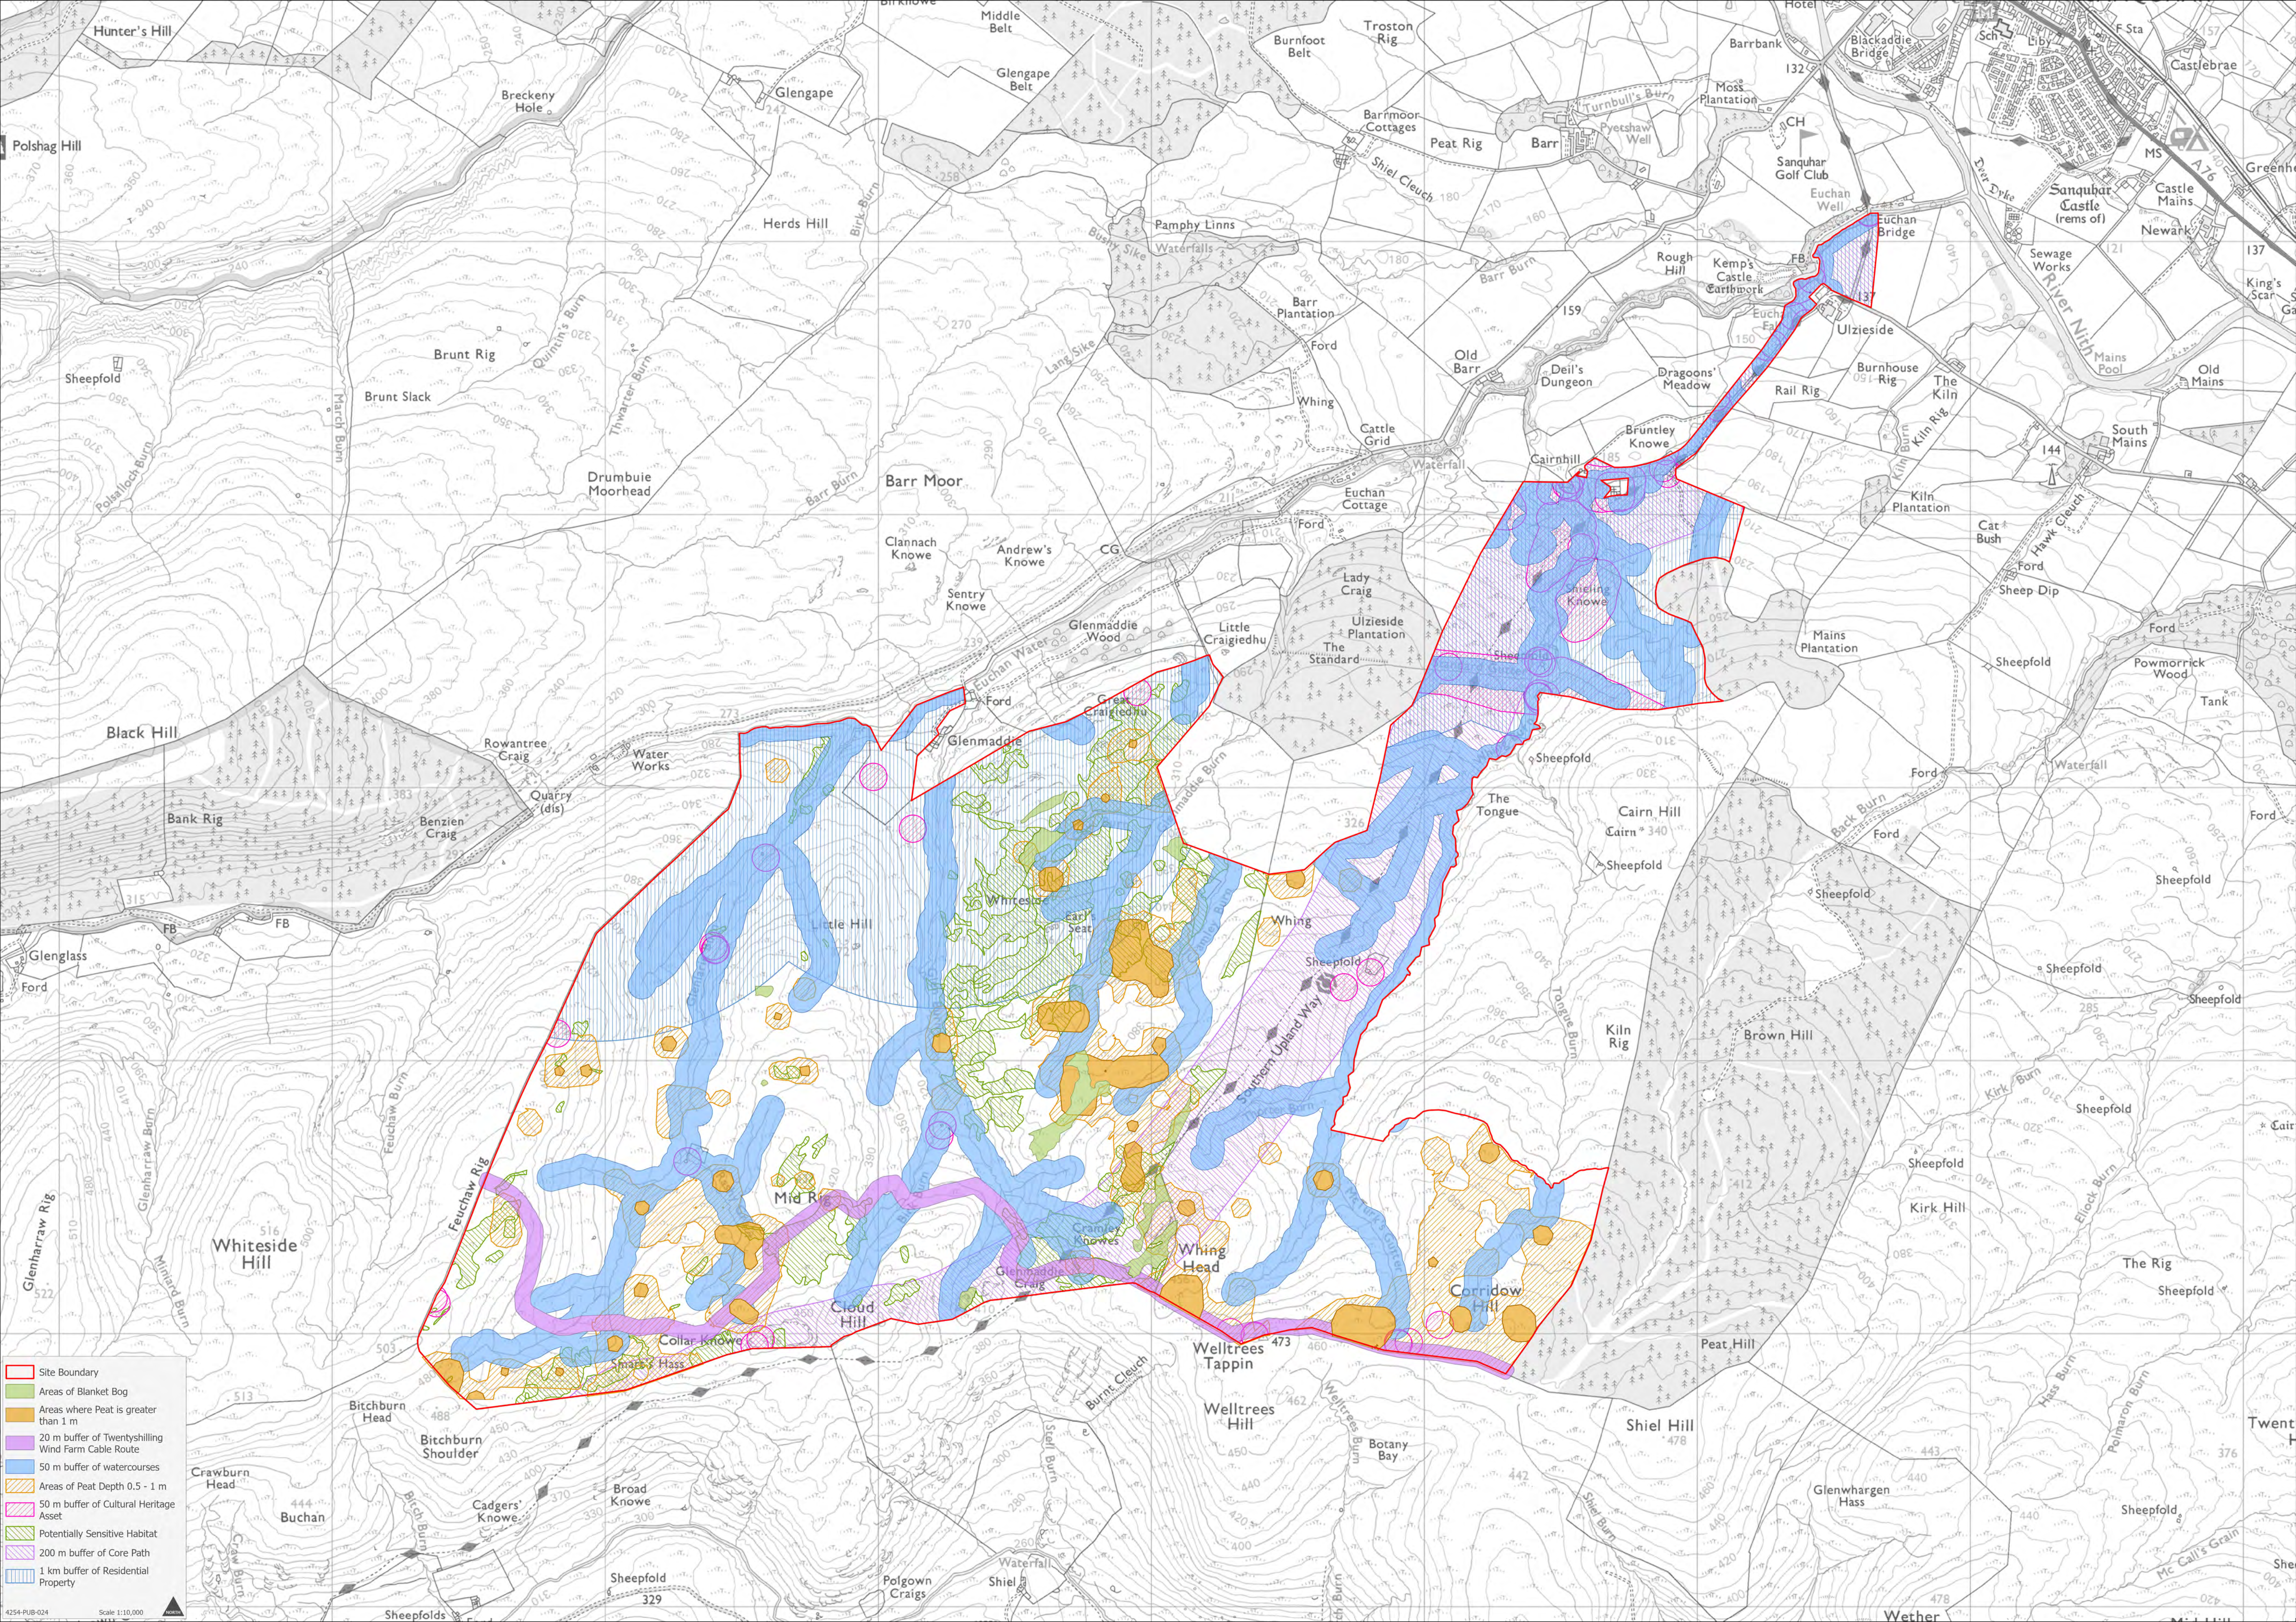

We r.e.think energy – how it is produced, stored and can be best used to enable the global renewable energy transition that is essential to the future of our planet. Our UK team (with offices in Glasgow, Edinburgh, Milton Keynes) has delivered close to approximately 240 MW of wind energy in the UK, with a pipeline of a further 400 MW of wind.

Cloud Hill is next to the existing Whiteside Hill Wind Farm. BayWa r.e. acquired the site in 2021, and has been working with Blue Energy to progress the project.

The wind farm will be accessed via a new site entrance between Blackaddie Road and Eliock Bridge. The land is currently open moor and grazing land. Existing tracks on site will be used to minimise the amount of new track needed.

Site Boundary

Areas of Blanket Bog

Areas where Peat is greater than 1 m

20 m buffer of Twentysilling Wind Farm Cable Route

50 m buffer of watercourses

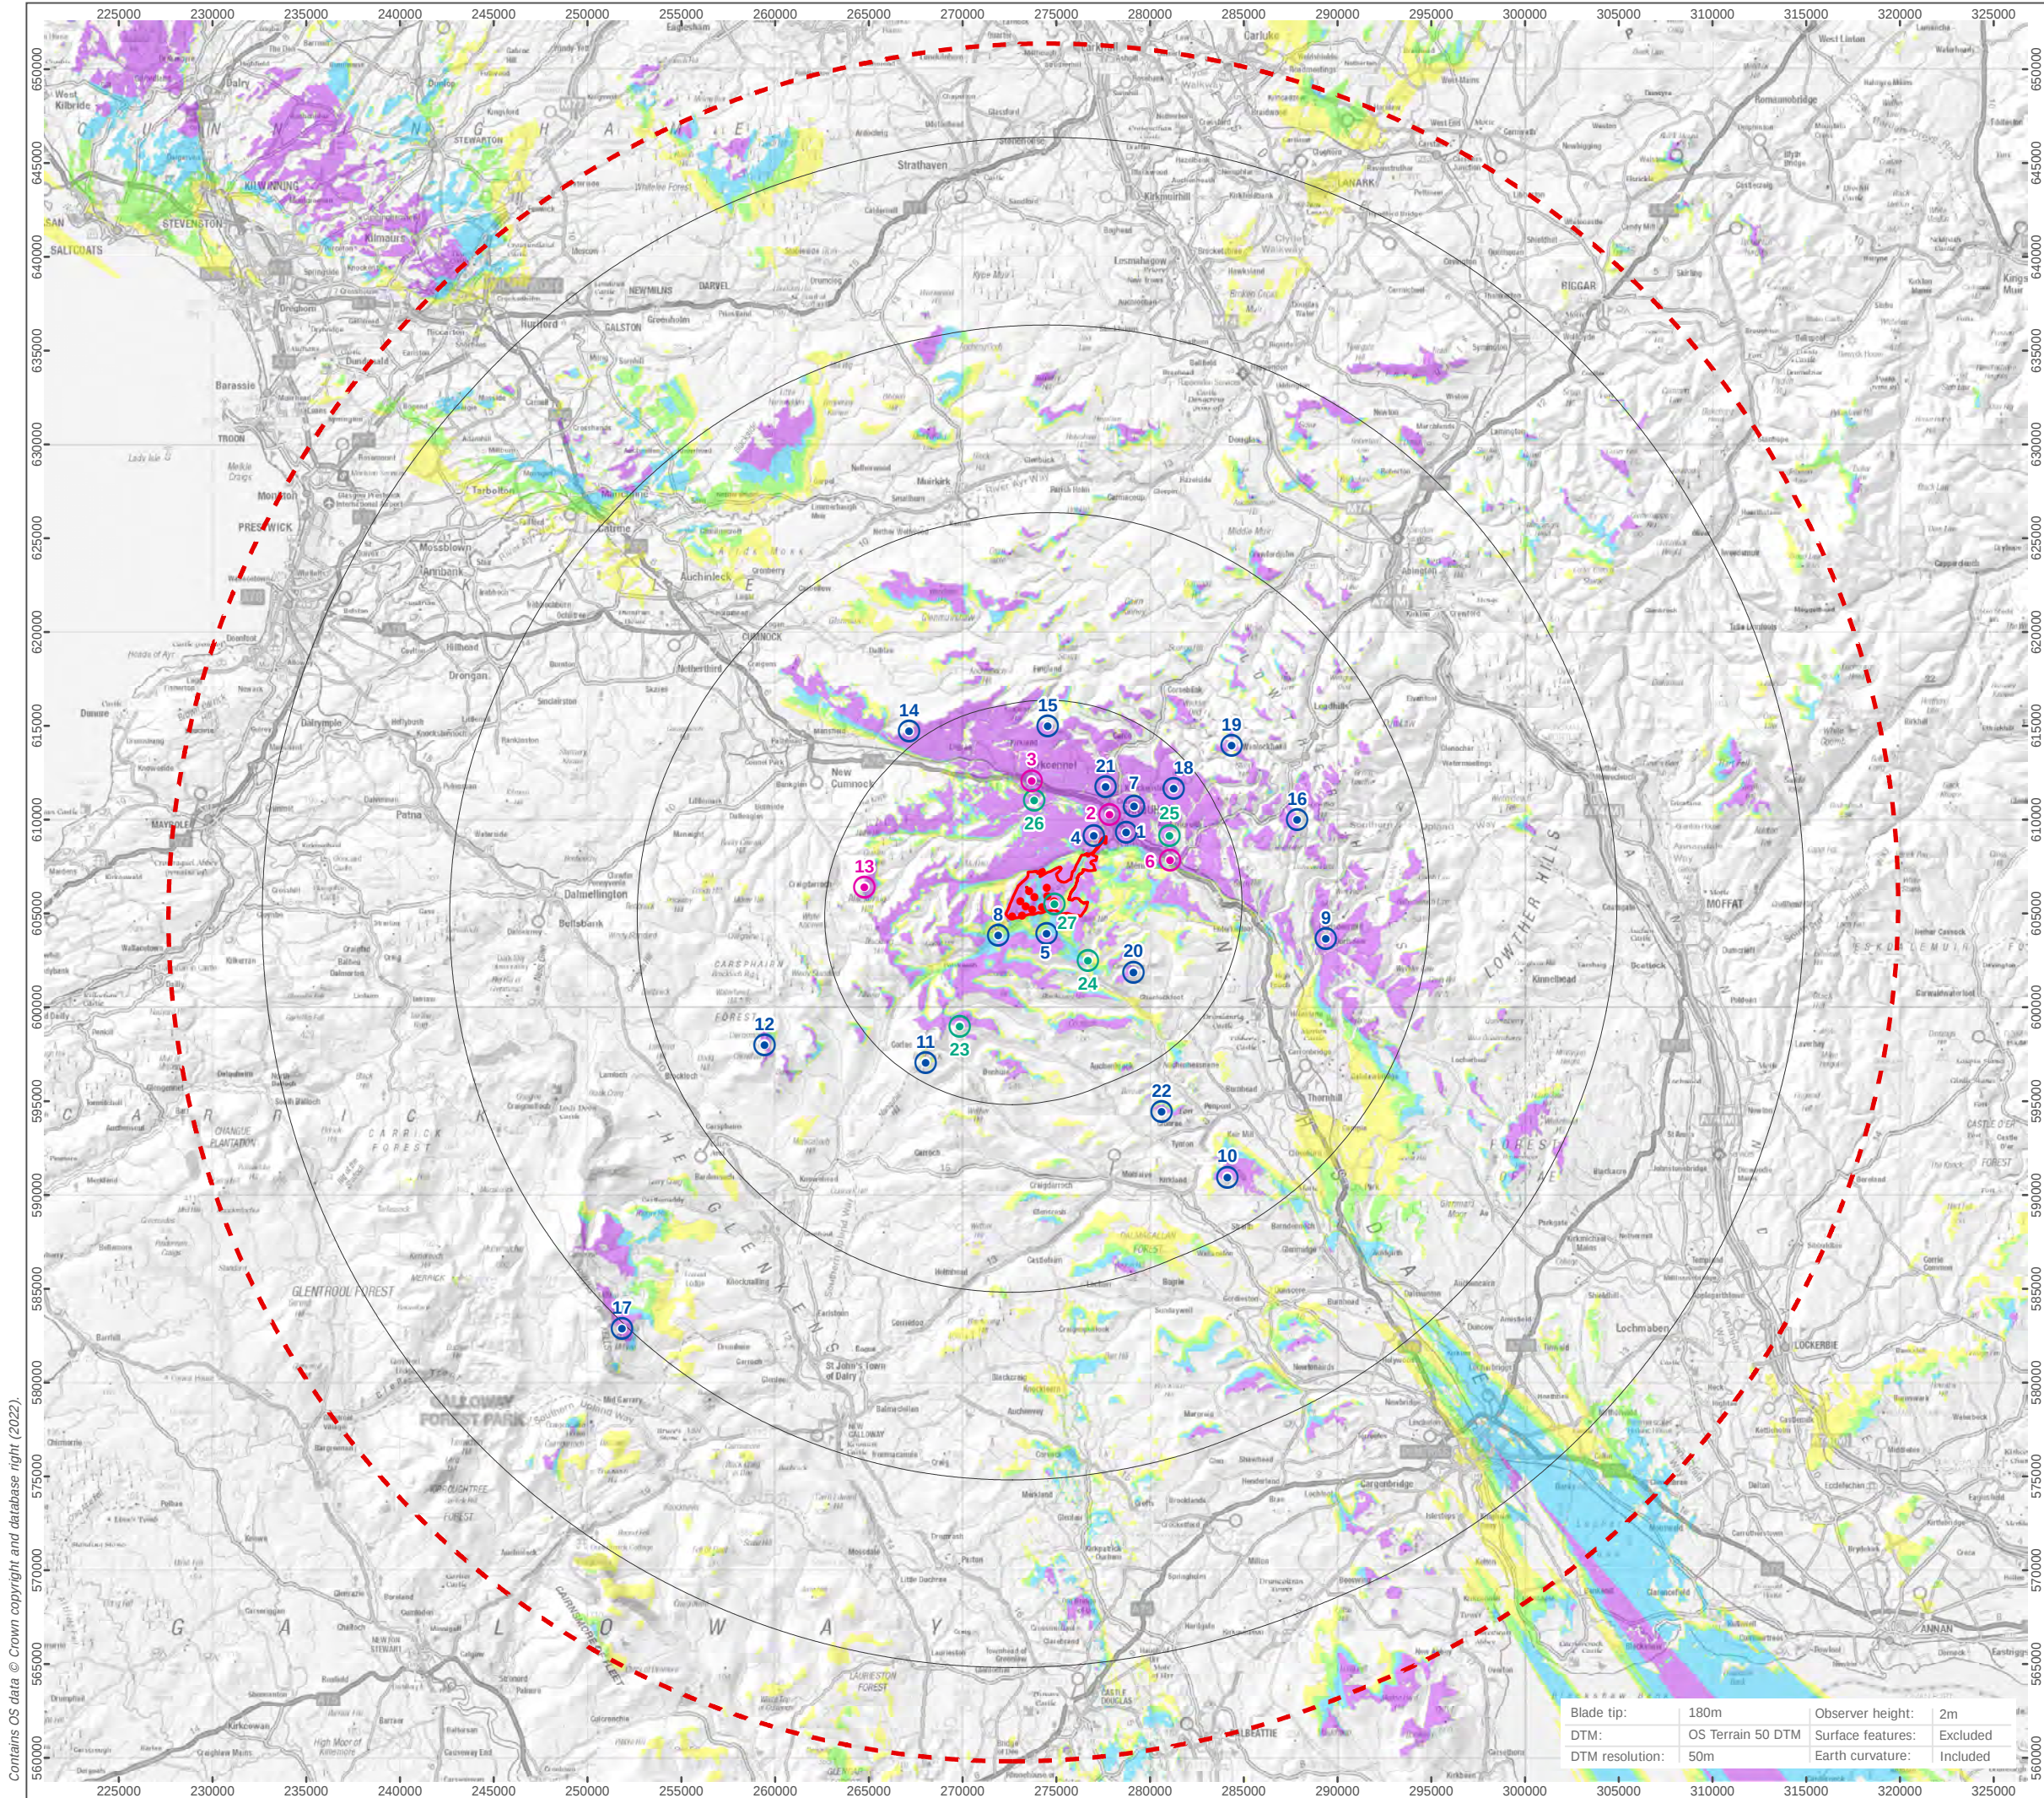

Areas of Peat Depth 0.5 - 1 m

50 m buffer of Cultural Heritage Asset

Potentially Sensitive Habitat

200 m buffer of Core Path

1 km buffer of Residential Property

• Proposed Turbine Location

Site Boundary

10km Radii

45km Study Area
