PP GUMMY TOUCH!

Tactile design experience

Heavy plastic bottles are also available in **PP Gummy Touch** — a material specifically developed to offer a **soft-touch feel** and a distinctive **semi-transparent matte look**. Produced directly from masterbatch, it enables custom colors and varying degrees of transparency depending on wall thickness, creating a unique and **sensorial packaging experience and enhancing** perceived quality and emotional appeal. It's ideal for skincare, body care, and other applications where a premium, tactile experience is key.

Plastic decoration

Screen printing, pad printing, hot stamping.

UNPACKING Y/OUR SUSTAINABILITY POTENTIAL

Heavy packaging collection is the perfect solution if you need packaging with sustainable features. Heavy 200, 250 and 400 ml plastic bottles are also available in sustainable materials:

CIRCULARITY
• bioplastic
• recycled content

Bioplastic: **BIOBASED HDPE** is a plastic obtained from renewable sources.

Recycled content: **PCR-HDPE** is a plastic obtained from the packaging that has been used by consumers, properly disposed of, recycled into a new product and put back on the market! Our PCR-HDPE bottles are made of three layers: the inner and outer layers are in HDPE, while the middle one is in PCR-HDPE.
