foamy

FUTURE OF FOAMER

Born with the launch of the first foamer in glass on the beauty market, the Foamy collection has quickly been enriched in both capacities and materials, including now several different packaging.

Foamy in travel-size!

We proudly introduce **Foamy 50 & 30 ml**, the first glass solutions for foaming formulas in travel-size.

DECORATION

Accessories decoration

Variety of finishing options available.

Glass decoration

External varnishing, metallization, acid etching, partial acid etching, screen printing, organic and ceramic screen printing,

Plastic decoration

Screen printing, pad printing, hot stamping.

foamy

FUTURE OF FOAMER

APPLICATION

Ideal for foaming beauty products:

- Moisturizer • Gel Cream • Tonic • Body Lotion
- Hair Treatment • Makeup Remover • Kids Care
- Self-tanning Cream • Specific Treatment • Hand Wash

FEATURES

- The first foamer in glass, a fully recyclable material
- Distinctive foam actuator design
- Important size impression
- Many decorations available on glass bottle
- Circularity: 200 & 150 ml plastic foamer available on request in [BIOBASED HDPE](#) and [PCR-HDPE](#)
- Also available in travel-size 50 & 30 ml

UNPACKING Y/OUR SUSTAINABILITY POTENTIAL

Foamy collection has several sustainable features: foamer formulations need less water to be ready to use.

CIRCULARITY

- bioplastic
- recycled content
- separable components

REUSE

reusable & refillable

Bioplastic: [BIOBASED HDPE](#) is a plastic obtained from renewable sources.

Recycled content: [PCR-HDPE](#) is a plastic obtained from the packaging that has been used by consumers, properly disposed of, recycled into a new product and put back on the market! Our PCR-HDPE bottles are made of three layers: the inner and outer layers are in HDPE, while the middle one is in PCR-HDPE.

Separable components: the components of the foamer can be easily separated and differentiated by material.

Reusable & Refillable: Foamy can be refilled with Sashi flexible packaging in a few easy steps!

REUSE & REFILL CONCEPT

Choosing our Sashi flexible packaging in combination with Foamy, you will obtain a sustainable beauty set ideal for skincare formulas.
