UNPACKING Y/OUR SUSTAINABILITY POTENTIAL

Reusable & Refillable: Airlight PET Refill allows the PET bottle to be reused. Customers can reuse the outer packaging and refill it with only one gesture, thanks to the innovative mechanism designed by Berlin Packaging Beauty.

Separable components: Airlight PET Refill has another sustainable feature as its components can be easily separated and disposed of in separate collection streams.

Recycled content: PCR-PET is a plastic obtained from the packaging that has been used by consumers, properly disposed of, recycled into a new product and put back on the market.
