

## Job Description

Job title: **Energy Market Analyst**

Department: Commercial

Reports to: CCO

Location: Germany (Frankfurt)

Full time- 40 hours/week

ASE is expanding its Commercial function and as part of this growth, we are now looking for an individual to fill a newly created Energy Analyst position. This key position will sit within ASE's Commercial function, working closely with Investments, Finance and Development.

### Key Responsibilities

- Own our Market Analysis for the key markets, supported by external sources
- Deliver analysis for the valuation and negotiation of our Solar and BESS offtake agreements
- Work on structuring new products combining Solar and BESS assets
- Liaise with Originators Investments for validation and calibration of our models
- Monitor the regulatory frameworks of European markets, market research of government subsidy schemes and evaluate the commercial impact
- Interpret market developments and identify emerging risks and opportunities
- Build and maintain relationships with forecasting houses and system providers
- Support the commercial team in contract negotiations and optimisation initiatives.
- Deliver input for Risk Management monitoring

### Candidate Profile:

- +5 years' experience in analysis of power markets, ideally in our core markets
- Track record in building and utilizing models for the commercial success of an energy business
- Understanding of hybrid PPA structures and pricing methodologies
- Ability to manage our external service providers
- Resilient and determined to contribute to our business success
- Experience in energy market regulation and its impact on renewable PPAs
- Fluent in written and spoken English with strong communication skills. Additional language skills are a merit
- Strong attention to detail and data accuracy
- Python, Matlab or comparable skills are a plus
- Excellent communication skills

- Ability to work well within a team but take ownership of own responsibilities with minimal supervision.
- University degree in engineering, economics, mathematics or comparable education
- Fluency in English. German language skills are a strong advantage

### **About us**

AMPYR Solar Europe (“ASE”) is a leading European Independent Power Producer focusing on Germany, UK and the Netherlands. With a 7.0+ GW Solar & BESS portfolio in development, of which over 1GWp is operational, under construction or in advanced development.

We are active in every part of the solar power lifecycle, including land acquisition, project development, construction and asset operations, as well as project financing and power sales.

Formed in 2021 through the merger of NaGa Solar with the existing Ampyr Energy UK solar joint venture between AGP Group and Hartree Partners, we have strong shareholder support and the financial backing to enable our growth plans.

It is an exciting time in the evolution of our business, and we are always looking for energetic, committed people to help us deliver our vision and help decarbonise the European electricity market.
