

Drug (Medication) Allergy Program

9 out of 10
people who
think they
are allergic to
penicillin are
not actually
allergic when
tested.

Penicillin is an effective
antibiotic, so it is important
for people to have their
penicillin allergy assessed.

Visit the National Allergy
Council penicillin allergy
awareness campaign
page to find out more.

An antibiotic allergy aware program supported by

ascia
australasian society of
clinical immunology and allergy

**national
allergy
council**

**Allergy & Anaphylaxis
Australia**

This program received funding from the Australian
Government Department of Health, Disability and Ageing

The Australasian Society of Clinical Immunology and Allergy (ASCIA) has developed guidelines, online training and other resources to support health professionals.

Allergy & Anaphylaxis Australia provides support through the National Allergy Helpline and other patient resources.
