EIPC Part 6 Application Type:
Part 2 ☐

Applicant Details (Grid Connection Owner)		Details of Premises' Grid Connection Point	
Name:		Grid Connection:	Existing ☐ or New ☐
Company:		Connection Type:	Residential ☐ or Commercial ☐
Address:		Phase Count:	3 ☐
		ICP Number of Installation:	
Phone:		Expected DG Connection Date:	
Mobile:		Details of Distributed Generator to be Installed (e.g. Solar PV Panels)	
Email:		DG Installation:	New ☐ or Upgrade ☐
DG System Installer (Company Installing DG System for Applicant)		Generation Type:	Solar ☐ or Hydro ☐ or Wind ☐
Name:		or Other:	
Company:		(please specify)	
Address:		Total Generation Capacity:	Qty × Watts per Panel
		(Solar Panel Quantity x Panel Rating)	
Phone:		Details of Inverter/Generator to be Installed (if any)	
Mobile:		Type:	Solar Only ☐ or Hybrid ☐
Email:		Make:	
Electrical Contractor (Electrician Installing DG System)		Quantity:	Model:
Name:		(be precise)	
Standards Compliance		Continuous Rating:	Watts
AS/NZS 4777 Compliance:	Yes ☐ Proof of Compliance Attached ☐	Inverter Setpoint V _{nom-max 10 min} :	Volts
EA Networks Default Distributor Agreement Compliance:	Yes ☐	(≤ 248 volts single phase / ≤ 430 volts three phase)	
Approved Capacity (EA Networks to Complete)		Details of Grid Connected Storage to be Installed (e.g. Battery)	
Approved Installed kW:		Approved Export kW:	
Export Constraint Applies:	☐	Type:	Battery ☐ or Other ☐
Please note that DG Connection approval is not complete until a copy of the CoC is provided to EA Networks.		Make:	
Failure to complete all sections of this form may result in delays in processing this application.		Quantity:	Model:
I (or my agent) hereby apply to connect a Distributed Generator to EA Networks' Network and confirm that the above information is correct:		(be precise)	
Name:		Continuous Output Rating:	Watts
Signed:		Energy Storage Rating:	kWh
Date:		Max. Charging (Input) Rating:	Watts
EA Networks <u>agrees</u> to the connection of the above Distributed Generator and Grid-Connected Storage to EA Networks' Electricity Network.		EA Networks <u>does not agree</u> to the connection of the above Distributed Generator and Grid-Connected Storage to EA Networks' Electricity Network.
