

# Overview - Products & Service

Your reliable partner for heat treatment plants since 1868

### **Industrial Furnace Plants**

From automotive to small parts production, from tempering to press hardening - with our industrial and process competence we combine experience and specific expertise. Intelligent, digital solutions for process control and plant automation as well as simplified operation and maintenance are integrated elements of all our plants. This is how we contribute significantly to the success of our customers.

### **Industrial Heating Technology**

Our highly efficient industrial gas burners and electric heating elements are used in thermoprocessing plants of various manufacturers. Radiant tubes and accessories for heating technology, a customer-specific control cabinet construction as well as comprehensive services for the optimization and maintenance of heating technology complete our range of services.

### **Services for heat treatment plants**

With a high level of expertise and reliability, we offer you all services for AICHELIN and third-party plants from a single source: spare parts supply, preventive maintenance (also with digital assistants), plant inspection and repair, modifications and modernizations to increase energy efficiency and safety, as well as specialist knowledge in seminars and customer-specific training courses.

# We Contribute to Heat Treatment All Over the World

The AICHELIN Group, with its 1000 employees, is one of the world's leading providers of heat treatment solutions. These include industrial furnaces, industrial heating systems, control and automation systems, Industry 4.0 solutions and services. The company's roots go back to 1868 and provides leading enterprises in the industries of fastening technology, automotive, drive, transmission technology, aerospace, tooling, bearing and semi-finished products, hardening, steel and forging technology, mechanical and plant engineering and other sectors such as medical technology with state-of-the-art standard or customized heat treatment equipment and technologies.

AICHELIN is represented by subsidiaries in Austria, Germany, Slovenia, France and Türkiye. Its global presence includes subsidiaries and branches in China, India and the USA, as well as a sales network in further 22 countries.
