

Burner Kits for all AICHELIN Plants

Everything you need for burner maintenance!

SPARE AND WEAR PARTS
Spare part kits

SAFE AND SIMPLIFIED SPARE PARTS SUPPLY FOR YOUR BURNER MAINTENANCE NEEDS

- Each plant is measured by its availability for production.
- Production determines the right to exist and the sustainable value creation of the company.
- Downtime must be kept to the lowest possible minimum.
- Spare parts must be able to be replaced as quickly and easily as possible.
- Stocking the correct spare parts greatly reduces plant downtime, thus ensuring efficient production.
- Part of the solution: **AICHELIN Spare part kits.**

THE AICHELIN SOLUTION: INDIVIDUALLY CUSTOMIZED BURNER KITS

- **Spare part kit:** all individual parts for a relevant component, perfectly coordinated in a single kit.
- **“Burner” Spare part kit:** all wear parts for burner maintenance such as ignition electrodes, insulating half shells, seals and seal kits.

YOUR ADVANTAGES

- Procurement and stocking of individual parts are unnecessary.
- All required parts are available together on-site.
- Fast and seamless exchange of spare parts
- Save time in internal workflow, shorter installation times and downtime
- Simple ordering with a unique article order number

YOUR RELIABLE PARTNER

- The spare part kit includes all original parts according to the manufacturer's specifications including the warranty.
- Perfectly coordinated for your plant
