

# Driventic Presentation App for iPad Installation

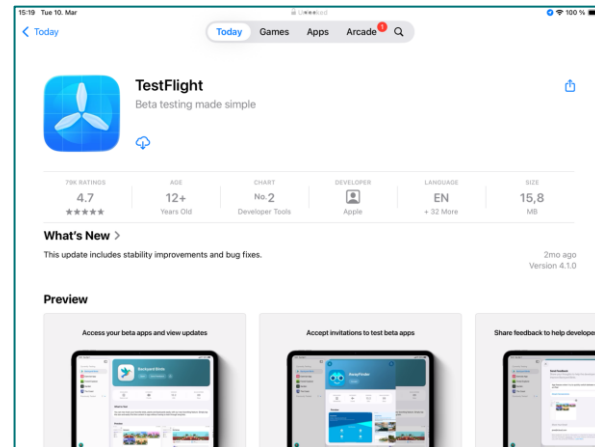

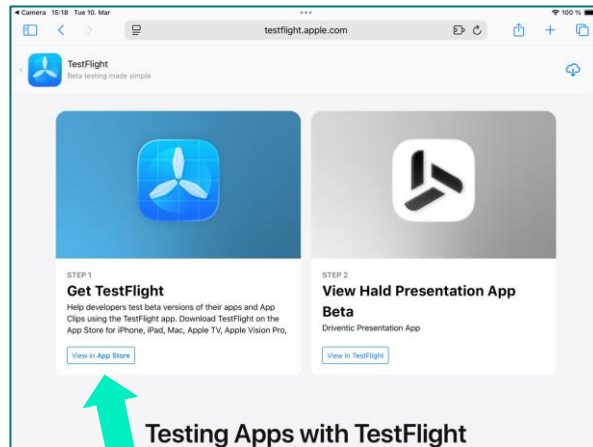

Internet access is only required **to download** content.

Once downloaded, the content can be played **without an internet** connection.

## Installing the iPad App:

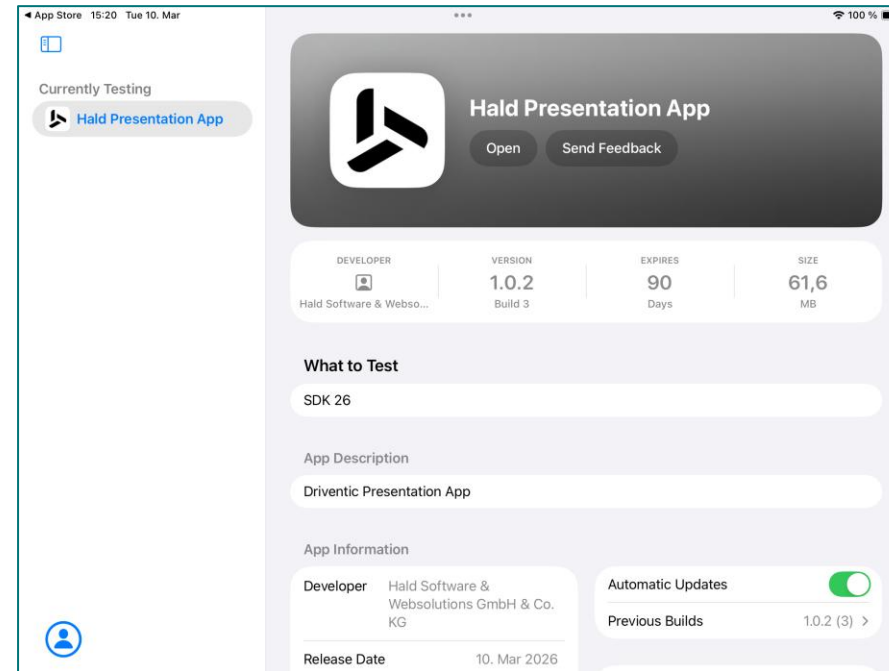

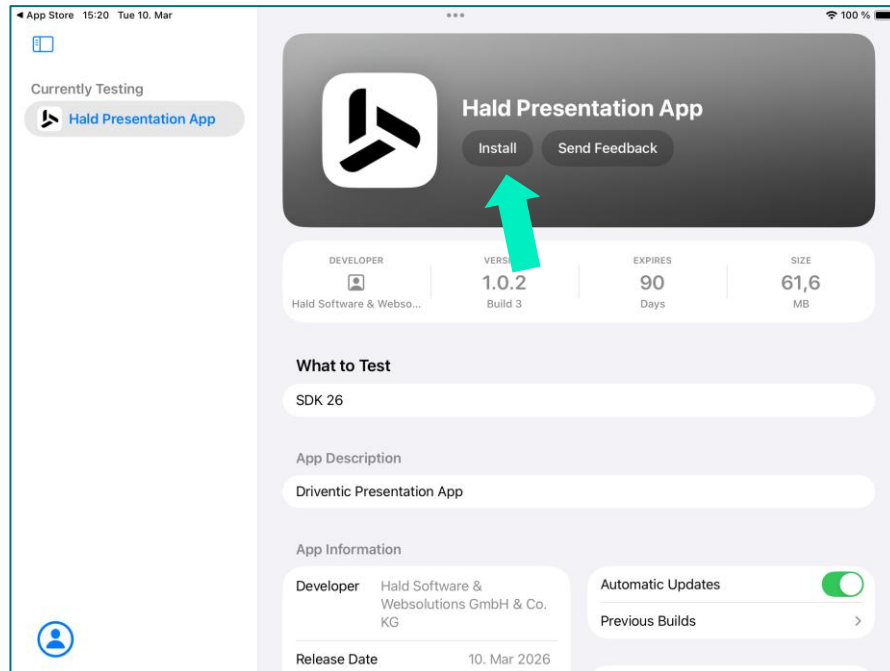

- Download the iPad App here: <https://www.driventic.com/presentation-app-ipad>  
Or scan the QR-Code.
- If the Apple TestFlight App is not yet installed on your device, please install it first.

# Driventic Presentation App for iPad Installation

- Once TestFlight is installed, you can download and open the Presentation App.

## Activating and deactivating guided access mode

### Activating guided access mode

Ensure the target app is open and active on the device.

Press the power button three times in quick succession to initiate guided access mode.

### Deactivating guided access mode

Press the power button three times in quick succession to open the guided access exit prompt.

When prompted, enter the assigned passcode:  
000000

After successful authentication, select “Beenden” in the top-left corner of the screen to terminate guided access mode.
