Netherlands Innovation Network

Team Germany

Netherlands Innovation Network

- Worldwide network to increase innovation cooperation with NL
- Focus in Germany on:
 - Semicon
 - Photonics
 - Quantum
 - Aviation
 - Space
 - Life Sciences and Health
- By: organizing events, connecting ecosystems, and organizing innovation missions

Today is a great example of how my work becomes concrete

What can 2026 bring?

- 9 march: opening of PIXeurope pilotline
- 20 april: Hannover Messe:
- 15-17 june: silicon saxony day
- Innovation Mission integrated packaging & Photonics

Innovation mission Integrated Packaging & Photonics

- A Dutch delegation of companies, knowledge institutes, and policy officers will visit **Berlin/Brandenburg** and **Saxony** for 4-5 days
- Goal: work towards concrete cooperation initiatives on innovative ideas, B2B, K2K, G2G
- By:
 - Organizing interactive sessions
 - One-on-one meetings between Dutch and German partners
 - Company Visits
 - Networking events

These 2 days we should strive towards an action agenda for 2026. The innovation mission can be a fantastic podium to present our results.
